34 in. to 35 in. elm syrup bbl. staves		1 30
No 1 30 inch half syrup barrel staves		1 00

(If bent to shape, $2.00 per thousand more.)

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., NOVEMBER 1, 1899 No. 41.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.—THE CUT OF 2,000 ARPENTS of Hardwood Limits, only 22 miles from Montreal and on G.T.R. and I.C.R. "B.," care of P.O. Box 268, Montreal.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. CO., Burks Falls, Ont.

WANTED.

TO BUY A GOOD SECOND HAND SAW MILL of capacity about 20,000 feet per day. Apply to GODERICH LUMBER CO., Goderich, Ont.

WANTED.

DRAUGHTSMAN, THOROUGHLY COMPETent man, one accustomed to engine and saw mill work preferred. WATEROUS, Brantford.

WANTED.

60 MILLION FEET SPRUCE LATHS, 2 TO 5 feet long. Full particulars on application to "G.A.M.A.," c/o CANADA LUMBERMAN.

FOR SALE.

BAND RE-SAW, DOUBLE SURFACER AND Matcher, Four Side Moulder, Sash Sticker, 50 h.p. Boiler and Engine, all in good repair. TORONTO MACHINERY SUPPLY CO., Toronto.

WANTED.

CORDWOOD, BEECH, MAPLE, OAK OR Ash, dry, and Hardwood Slabs; Lath, Shingles and Lumber. Address, NORTHSIDE LUMBER & COAL CO., 860 Greenwood Avenue, Detroit, Mich.

WANTED.

TO CONTRACT FOR LARGE SUPPLIES OF Soft Elm Boards from 1 to 3 inches in thickness, 1st and 2nd quality; also Chair Stock—by foreign buyer now in Canada. Reply by letter to "Alpha," c/o CANADA LUMBERMAN.

WANTED.

SPRUCE BOARDS, 1ST QUALITY, WANTED, 50 standards; sizes 1 in. (full) thick by 3 in. wide; 1¼ in. by 3¼ in., and 1½ in. by 3½ in., or double above widths. Prices delivered Liverpool or Manchester to RILEY'S BILLIARD WORKS, Accrington, England.

WE WANT TO BUY 200,000 FEET OF 3-INCH Mill Culls (Pine), also four or five cars inch Roofing Boards; it does not matter how badly discolored these latter are. Address, M. M. SMITH, North Tonawanda, N.Y.

WE HAVE FOR SALE, OR WILL EXCHANGE for Lumber, one medium sized Carey Safe, one large Herring Office Safe, and one very large Herring Bankers' Safe, with burglar-proof steel vault. For particulars address M. M. SMITH, North Tonawanda, N.Y.

PIANOS AT WHOLESALE, OR IN EXCHANGE FOR LUMBER

PARTIES WISHING TO PURCHASE A PIANO can buy them of us at wholesale, or we will exchange them for an equivalent value in Lumber, Lath or Shingles. Address, "T. A. A.," c/o CANADA LUMBERMAN.

WANTED.

THE UNDERSIGNED INVITES CORRESpondence from Canadian manufacturers who can supply in large quantity Canadian Pine Doors and Windows. Goods must be of first-class quality as to material and manufacture. Address, HARRY G. BOYCE, Atheneum Chambers, 71 Temple Row, Birmingham, England.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

CANADIAN HARDWOOD LUMBER

MILLMEN AND OTHERS HAVING FOR sale please quote for:

Soft Elm, 1" to 3" thick x 6" and wider, 1¼" x 14", 1" x 13" and wider.

Coffin Specifications, first-class stuff.

Prime Hard Maple, 1", 1¼", and 1½" x 6" and wider.

Also Prepared Flooring and Roller Block.

State quantities offered, when available for shipment, prices f.o.b. winter ports and Montreal for first open water. Cash in New York against railroad bills of lading. Address "SPOT CASH," care of CANADA LUMBERMAN, Toronto.

ENQUIRY FOR ELM BOARDS.

A foreign buyer now in Canada is desirous of arranging with manufacturers for large supplies of soft elm boards and a quantity of chair stock. His announcement appears in the "Wanted and For Sale" department.

FIRES.

The planing mill of John Kaufman, near Cassel, Ont., was burned recently.

The saw mill of D. Purinton, near Richmond Corner, N.B., has been burned.

Fulton Bros.' saw mill at Fingal, Ont., was destroyed by fire on October 25th. The loss is $5,000, there being no insurance.

The steamer Fram has been chartered to take a cargo of deals from Miramichi, N.B., to Rochefort, France, at 70s. The steamer Rydal Holme takes deals from Quebec to Barcelona, Spain, at 70s.

CURRENT TRADE CONDITIONS.

ONTARIO.

The drawing to a close of the shipping season has caused much activity in the lumber business of the Ottawa valley. Some shipments are being made by vessel to Montreal for export to Great Britain and South America, but the most urgency of demand at the present time pertains to the United States trade. Eastern wholesale dealers have visited the Ottawa valley and bought quite heavily of grades and dimensions suitable to their trade. This has given stability to the market. Reports from the Georgian Bay district are but a repetition of what has been said heretofore. Many enquiries are being received for stock, and particularly for the lower grades, the supply of which has become well nigh exhausted. The increase in manufacturing of all kinds in Ontario, coupled with active building operations this year, has been responsible for a large demand for the coarser grades of lumber, which have been steadily advancing for some months.

Many lumbermen are this winter increasing their operations in the woods, and there promises to be a large production of logs for sawing in the season of 1900. Several Michigan firms have already arranged to have their logs sawn at mills on the Georgian Bay.

QUEBEC AND NEW BRUNSWICK.

Each day witnesses an improvement in the spruce market of the eastern provinces. On account of high freight rates and short supply, very little stock is going forward to Great Britain, but there is quite a liberal movement of lumber, clapboards and shingles to the Eastern States, where the market has improved wonderfully of late. Before the mills commence operations in the spring practically all the stock will have been moved from the yards, and the season will open with unusually bright prospects. Bay of Fundy deals are now quoted at $9.50 to $10, and St. John deals at $10 to $10.50, but it would be difficult to find any considerable quantity that has not been purchased by the shippers. Extra cedar shingles are quoted at $3.15 to $3.25, taking Boston rate of freight, and the market is strong.

MANITOBA AND BRITISH COLUMBIA.

In some sections of Manitoba and the North-west Territories the country demand for lumber has been restricted on account of prevailing bad weather. Mills are catching up somewhat with orders, although the demand is such that dealers and manufacturers have no hope of accumulating any stocks for some weeks to come. A large quantity of British Columbia lumber and shingles has been sold this year in the North-west, and at satisfactory prices. The mills in British Columbia report no slackening in the demand. Building operations are proceeding unabated, and even at this late season of the year the erection of several large buildings is just being commenced.

UNITED STATES.

In the United States trade there has been a falling off during the past few days in the country demand and a partial cessation of building operations. On the other hand, the manufacturing demand for lumber shows no signs of abating. Reviewing the situation, there seems to be a lighter movement of pine stocks than has been the case for some weeks past. Box lumber and low grade stock of all kinds is in short supply, but in medium grades the supply is in better proportion to the demand. Receipts of lumber at eastern wholesale points, and particularly Buffalo and Tonawanda, have been quite large of late, but heavy shipments are being made to the east by the Erie canal, and winter stocks will be somewhat broken. Wholesale prices at Saginaw valley and Lake Erie distributing points have undergone the advance to which reference was made in our last issue. This advance ranges from 50 cents to $3 per thousand, the latter being on the upper grades. In another column details of the new list are given. The upward tendency in the spruce market has continued, a shortage of stock being reported at Boston, New York, and other large centres.

We believe that there has been a slight falling off in the demand for some varieties of hardwood lumber. Maple, for instance, is not as much enquired for as earlier in the season. Quotations at Boston are $27 for 1 inch, $29 for 1¼ and 1½ inch, and $31 for two inch. Elm holds its own at $30 to $31 for 1 inch and $32 to $33 for thicker.

FOREIGN.

British importers of wood goods are now turning their attention to arranging for next year's shipments, and there is much speculation as to the prices which will rule. We have not learned of any contracts having been made as yet, but it is said that shippers have refused offers higher than the prices which were realized or shipments this year. There is a strong

probability that prices for early spring shipments in 1900 will be higher than the closing sales of the present year. The South African war does not seem to have interfered with the timber trade; on the other hand, it has had rather an enlivening effect.

Holders of Canadian spruce deals report an unusually brisk demand for goods, and prices are steadily advancing. Within one month third quality spruce has advanced nearly 25s per standard at London, although at time of writing second and third quality are slightly easier, several contracts having just been concluded for seconds at £8 15s and for thirds at £8 5s. It is predicted that the top has not yet been reached, and that still higher prices will rule during the winter months. At Liverpool a cargo of 1,250 standards has been sold at £7 2s 6d, cost, freight and insurance, and £7 5s is being asked for West Bay and similar stock. There has also been increased firmness in Quebec pine deals of all qualities, and sellers are inclined to hold goods for higher prices.

From Australia comes the report of improved conditions in the timber trade. An advance has been made in the price of Oregon pine, and the outlook for the future is brighter than it has been for some time.

STOCKS AND PRICES.

John Collins, of Honora, Ont., expects to get out about 100,000 ties this winter.

James Beveridge, of Parry Sound, has gone to Webbwood, Ont., to superintened the cutting of 10,000,000 feet of logs near that place.

Lindsay, Baird & Fulton, of Belmont, N.S., are prepared to let contracts to four jobbers to take out about 1,000,000 feet of logs each.

S. A. Baldwin, of Stanhope, Que., has been given a contract to get out 5,000,000 feet of logs this winter at Norton Mills for Mr. Fitzgerald.

Chew Bros., of Midland, Ont., have contracted with Joseph Turner, of Saginaw, Mich, to cut about 15,000,000 feet of lumber for him next season.

Vigars Bros., of Port Arthur, Ont., are preparing to get out a large number of logs this winter, but so far have been somewhat handicapped by the scarcity of men.

The extensive mill property, wharves, etc., of S. T. King & Sons at Kingsville, on the St. John river, about one mile from St. John, N.B., are being offered for sale by L. A. Curry, solicitor, of St. John.

Wm. Gordon, of Stratford, is supplying the timber and lumber for the Whyte Packing Co.'s factory in that city. The contract calls for over 600,000 feet, and his tender was in the vicinity of $12,000.

The bark Argilla cleared from Parrsboro, N.S., on October 26th for Cardiff, England, with about 1,000,000 feet of deals, shipped by M. L. Tucker for W. M. Mackay. This is the last vessel of this season's deal fleet of that port.

The Conger Lumber Co., of Parry Sound, Ont., has closed a deal with an American firm to saw 10,000,000 feet of logs for them during the season of 1900. The Conger Company will also cut about the same quantity of their own logs.

A syndicate has acquired the Violin Lake property in British Columbia. This property includes between 1,600 and 1,700 acres of the finest timber land in the Kootenay district and the whole area of Violin Lake in addition. It is understood to be the intention of the purchasers to operate quite heavily for some years.

J. & T. Conlon, of Thorold, Ont., are offering for sale their timber limits on the north shore of Lake Huron, comprising in all 191 square miles. The pine in the townships of Thompson and Bright has nearly all been cut off, but it is estimated that there is in these townships about 40,000,000 feet of hardwood timber, principally birch, red oak, hard maple, ash and hemlock.

The largest cargo of lumber that ever cleared from the port of Vancouver, B.C., was carried on the whaleback Elm Branch, which sailed for Shanghai, China, one week ago. The cargo consisted of 2,841,324 feet, valued at $26,000. The timber is for the Chinese railway, and will be used chiefly for bridge building. It is prouable that this steamer will be re-chartered to take another cargo from Vancouver.

Following is a comparative statement of timber, &c., measured and culled at Quebec to October 31st, 1899:

	1897.	1898.	1899.
Waney white pine, cu. ft.	4,310,682	3,903,148	1,780,405
White pine, cu. feet.....	832,557	1,062,157	592,488
Red pine, cu feet.....	210.704	239,512	159,937
Oak, cu. feet.....	1,448,960	1,072,588	600,882
Elm, cu. feet.....	662,577	474,194	457,841
Ash, cu. feet.....	132,435	35,164	56,546
Basswood, cu. feet.....	5		
Butternut, cu. feet.....	673	955	60
Tamarac, cu. feet.....	396		415
Birch and Maple, cu. feet	271,176	112,500	244,530

The following prices were obtained at a recent auction sale held by Foy, Morgan & Co., London, Eng.: Pine—Ex Canadia, from Montreal—12 ft. 3 x 11 4th quality, £8; 12-13 ft. 3 x 10, £7 10s; 12 ft. 3 x 9, £7 10s; 12 ft., 3 x 8, £6 15s; 12 ft., 3 x 7, £6 15s; 12-17 ft., 3 x 5, £6 10s. Ex Monmouth, from Montreal—6 ft. 3 x 11 3rd quality, £8 15s. Spruce—Ex Yolam, from Montreal—13 ft. 3 x 9 2nd quality, £8 10s. Ex Montauk, from Montreal—10 14 ft., 3 x 5, £6 2s 6d. Sawn Birch—Ex St. John City, from St. John, N.B.—3½ x 4-18, 8d per cubic foot.

The new white pine list issued by Buffalo and Tonawanda dealers is an advance over the August list of $3 on uppers and $2 on selects, No. 1 cuts, most of the dressing and the greater part of No. 1 barn and box. No. 1 dressing is now quoted at $33.50 to $36.50, No. 2 dressing at $23 to $29.50 for inch, No. 1 barn at $22.50 to $30, No. 2 barn at $20.50 to $24.50, and No. 3 barn at $19 to $20.50. Box boards range from $17 to $20, and mill culls are quoted at $16.50. Prices on Norway piece stuff are based on $19.50 for 2 x 4 in the short lengths, and $20 for 2 x 6 and 2 x 8. No. 1 Norway dressing ranges from $22 to $30 and No. 3 from $18 to $20. Shingle prices remain unchanged.

TIMBER SALE AT DUBLIN, IRELAND.

A sale of wood goods, consisting chiefly of Canadian pine and spruce deals, was held recently at Dublin, Ireland, by Wm. Graham. The prices realized, per Irish standard of 3,240 superficial feet, were as follows:

QUEBEC SPRUCE DEALS.—9 x 3 in., 11-12 ft., £13; 12 ft., £13 5s; 9 x 2 in., 9-12 ft., £12 12s 6d to £12 15s; 11-13 ft., £12 17s 6d; 12-13 ft., £13 2s 6d.

BAY VERTE SPRUCE.—4 x 3 in., 10-14 ft., £11 2s 6d; 13-15 ft., £11 5s; 16-20 ft., £11 2s 6d; 5 x 3 in., 10-11 ft., £11; 12-16 ft., £11 2s 6d; 15-18 ft., £11 5s; 6 x 3 in., 10-11 ft., £11 2s 6d; 10-16 ft., £11 3s 6d; 7 x 3 in., 10-12 ft., £11 5s; 11-14 ft., £11 2s 6d; 12-14 ft., £11 5s; 13-16 ft., £11 5s; 14-17 ft., £11 7s 6d; 8 x 3 in., 10-13 and 13-15 ft., £11 5s; 9 x 3 in., 12 ft., £11 12 6d; 13 ft., £11 10s; 13-14 ft., £11 15s; 14-15 ft., £12 5s; 15 ft., £12; 15-16 ft., £12 10s; 10 x 3 in., 10-13 ft., £11 12s 6d; 11-13 ft, £11 10s; 13-14 ft., £11 17s 6d; 14-16 ft., £12; 11 x 3 in., 11-13 ft., £11 15s; 14 ft., £12; 12 x 3 in., 10-14 ft., £11 10s.

MIRAMICHI SPRUCE DEALS.—6 x 2 in., 18-21 ft., £12 2s 6d; 7 x 3 in., 10-12 ft., £12 10s; 13-14 ft., £12 7s 6d; 15-19 ft., £12 12s 6d; 9 x 3 in., 10-11 ft., £12 2s 6d; 10-12 ft., £12 10s; 13-14 ft., £12 12s 6d; 14 ft., £12 15s; 15 ft., £12 12s 6d; 15-16 ft., £12 7s 6d; 16-17 ft., £13 and £13 2s 6d; 18 ft., £13 5s; 19 ft., £13; 5 x 2 in., 10-11 ft., £11 17s 6d; 11-13 ft., £12; 14 ft., £12 12s 6d; 15-17 ft., £12; 18-20 ft., £12 5s; 6 x 2 in., 10-12 ft., £11 17s 6d; 13 ft., £11 12s 6d; 14 ft., £11 15s; 15-18 ft., £11 15s; 7 x 2 in., 10-14 ft., £12; 15 ft., £12 2s 6d; 16 ft., £12; 17 ft., £12 5s; 18 ft., £12 2s; 19 ft., £12 7s 6d; 8 x 2 in., 10-12 ft., £11 15s; 13-17 ft., £12 2s 6d; 18-20 ft, £12 5s; 10 ft., £12; 11 ft., £12 2s 6d; 12 ft., £12 5s to £12 12s 6d; 14 ft., £12 10s; 15-16 ft., £12 10s; 16 ft., £12 12 6d; 17 ft., £12 10s; 8 x 4 in., 14-22 ft., £12 15s; 9 x 4 in., 18-22 ft., £12 15s; 10 x 4 in., 13-20 ft., £12 5s; 11 x 4 in., 13-20 ft., £12 15s.

MIRAMICHI PINE DEALS.—7 x 3 in., 10-11 ft., £12; 14 ft., £12; 14-15 ft., £12 12s 6d to £13; 15-16 ft., £12 15s; 16-17 ft., £12 5s to £12 10s; 18-22 ft., £13; 8 x 3 in., 10-12 ft., £12; 14-20 ft., £12 5s; 9 x 3 in., 10-11 ft., £12; 12 ft., £12 7s 6d; 11 x 3 in., 10-12 ft., £12 10s; 13-15 ft., £12 15s; 12 x 3 in., 10-12 ft., £12 17s 6d.

THE AUSTRALIAN MARKET.

The monthly timber report of Fraser & Co., Melbourne, reviews the Australian market as follows:

As we anticipated in our last report, an improved tone in the market has been experienced during the past month, better business from the country districts having been arranged, while the demand from our city and suburbs has been well maintained, and from both direction there are appearances of such continuing for at least some time to come. In no case has there been a decline upon our last valuations, but in several important lines an advance in prices has been secured, notably in flooring goods and Oregon, and the improvement made in these is likely to be sustained, while it is probable that very shortly we shall be able to advise higher rates as ruling for several other descriptions of timber which are placed upon this market.

The position of affairs with us should also be strengthened by the fact that c.i.f. values are increasing from many of the export countries which send supplies to here, and that generally the indications from these quarters point to still further higher rates ensuing rather than any lower values being manifested in the near future.

OREGON PINE. — Imports: 30,000 superficial feet, from Sydney. The trade having bought largely from supplies received last month, consequently no quantity of importance has been quitted within the past few weeks. Holders are, however, firm and £7 per thousand feet is now required, at which price some business has been done. Further sales are pending upon this basis.

LATHS AND PICKETS.— Imports: Laths, 1305 bundles. Both are wanted, but extremely scarce. Laths have been disposed of at 37s 6d, while pickets are quoted at £7 10s per 1000 pieces. An advance upon these rates will likely be obtainable when forward supplies are available.

THE OUTLOOK FOR BASSWOOD.

BASSWOOD is so plentiful in the stump, so easily logged and handled compared with some of the other hardwoods, is capable of such rapid manufacture, and can be so quickly cured for market, that a possibility of a shortage in supply has not perhaps entered the minds of many buyers or consumers, says the American Lumberman. Nevertheless, the time has arrived when the likelihood of a shortage in the supply of basswood lumber within the next few months assumes such prominence that it is worthy of serious consideration.

The demand for basswood opened up early this year, and even in January and February there were quite a number of transactions in which mill cuts were involved. As the manufacturing season progressed, the interest of buyers in the basswood output increased accordingly. For several months there was a great deal of quiet buying and large bunches of stock were taken off the market. But there was apparently so much left that even those buyers who were most interested saw no reason to apprehend that there would not be enough basswood to go around. However, some new and unexpected factors entered the situation. Many wholesalers who had supposed they had acquired enough stock to carry them through the winter suddenly awoke to a realization of the fact that their stocks were dwindling and their assortments broken, and immediately set about looking for further supplies. In canvassing the northern mills they found that the

season's cut had been practically disposed of, that there was no appreciable stocks held in reserve by manufacturers and that for any considerable quantities the market was absolutely bare. This is the situation in basswood to-day.

One of the causes operating to reduce the available supply of basswood in so short a time was its general substitution for other woods, which it had supplanted heretofore in only an occasional or desultory way. Stocks of common basswood were largely picked up by the box-makers, who suddenly found themselves deprived of the corresponding grades in poplar, cottonwood and white pine. Molding manufacturers made heavy inroads upon the stocks of firsts and seconds and common, while the agricultural implement makers, the wagon manufacturers, the car builders and musical instrument makers all turned to basswood for the filling of the wants which they could not satisfy in other directions. The white pine dealers also furnished a requirement for large quantities of basswood, mostly in the shape of strips, for siding, ceiling and wainscoting. These large and unexpected demands rapidly dissipated the cut of basswood and it was shipped forward all summer, in most cases as fast as it was ready for the market. There is the very best of authority for the statement that, aside from the occasional ill-sorted stocks to be found in the hands of the wholesalers, the big basswood cut of last winter and spring has passed out of the market and the bulk of this is already consumed or in the hands of consumers.

Now that we know the disposition of last winter's cut it should not be difficult to figure on the future. The manufacturer of hardwood lumber in Wisconsin have lately had the scarcity of basswood brought home to them so forcibly that they are already looking forward to the winter's log cut. It is said that logs have lately been contracted for at $10, or fully $4 higher than they were selling at two winters ago. If this price is maintained, log-run basswood will therefore cost the operators $14 a thousand to put in pile; in other words, the cost of basswood at the mill in the several grades may be very close to the present selling prices from the yards.

With last season's cut of basswood exhausted and with no prospect of any addition to the visible supply of dry lumber until next May or June, a serious question presents itself to hardwood consumers. There is no surplus in the hands of wholesalers, and the demand is heavy. Meanwhile the season of basswood consumption in many industries is just beginning and will reach its height during the winter. In all probability it will be one of the biggest seasons in the manufacturing line, generally speaking, that has ever been known, and the consumption of raw material will be correspondingly heavy. Under these circumstances, and knowing that many of the premises herewith stated are not to be controverted, we do not think that we exaggerate in predicting still higher prices for basswood before the first of the year. No other conclusion can be reached, and as this year has broken many records in numerous channels of industry, it would not be out of the common for something of the same kind to take place in the basswood line.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., NOVEMBER 8, 1899 No. 42.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE CHEAP.—SHINGLE MILL, Steam Power. Apply to R. MURDOCH, Hepworth, Ont.

FOR SALE.—THE CUT OF 2,000 ARPENTS of Hardwood Limits, only 22 miles from Montreal and on G.T.R. and I C.R. "B.," care of P.O. Box 268, Montreal.

WANTED.

60 MILLION FEET SPRUCE LATHS, 2 TO 5 feet long. Full particulars on application to "G.A.M.A.," c/o CANADA LUMBERMAN.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. Co., Burks Falls, Ont.

COOPERAGE STOCK FOR SALE.

60 M FT. DRY BASSWOOD LUMBER, ½"; short lengths 3' to 7' x 4". 50 M Elm Hoops, 1/5", 5' x 1⅛" x 3". PATENT CLOTHBOARD Co., Parry Sound, Ont.

WANTED.

SPRUCE BOARDS 1ST QUALITY, WANTED, 50 standards; sizes 1 in. (full) thick by 3 in. wide; 1¼ in. by 3¼ in., and 1⅛ in. by 3⅛ in., or double above widths. Prices delivered Liverpool or Manchester to RILEY'S BILLIARD WORKS, Accrington, England.

TENDERS INVITED FOR TELEGRAPH Poles, Cedar, Tamarac and Hemlock Ties. Tenders are invited for delivery March next year, any point of shipment in Canada, for foreign trade, Telegraph Poles, Cedar Tamarac and Hemlock Ties. Give quantity of each size of poles you can supply, also quantity of each kind of ties. Quote lowest spot cash price f.o.b. place of shipment. Will advance money if required to assist in taking out to those who tender, if price is satisfactory. Tenders must be in before the first of December, 899. Address, "FOREIGN TRADE," CANADA LUMBERMAN, Toronto.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 60 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

CANADIAN HARDWOOD LUMBER

MILLMEN AND OTHERS HAVING FOR sale please quote for:

Soft Elm, 1" to 3" thick x 6" and wider, 1¼" x 14", 1" x 13" and wider.

Coffin Specifications, first-class stuff.

Prime Hard Maple, 1", 1¼", and 1½" x 6" and wider.

Also Prepared Flooring and Roller Block.

State quantities offered, when available for shipment, prices f.o.b. winter ports and Montreal for first open water. Cash in New York against railroad bills of lading. Address "SPOT CASH," care of CANADA LUMBERMAN, Toronto.

FOR SALE.

BAND RE-SAW, DOUBLE SURFACER AND Matcher, Four Side Moulder, Sash Sticker, 50 h.p. Boiler and Engine, all in good repair. TORONTO MACHINERY SUPPLY Co., Toronto.

WANTED.

CORDWOOD, BEECH, MAPLE, OAK OR Ash, dry, and Hardwood Slabs; Lath, Shingles and Lumber. Address, NORTHSIDE LUMBER & COAL Co., 860 Greenwood Avenue, Detroit, Mich.

WANTED.

TO CONTRACT FOR LARGE SUPPLIES OF Soft Elm Boards from 1 to 3 inches in thickness, 1st and 2nd quality; also Chair Stock—by foreign buyer now in Canada. Reply by letter to "Alpha," c/o CANADA LUMBERMAN.

WANTED.

THE UNDERSIGNED INVITES CORRESpondence from Canadian manufacturers who can supply in large quantity Canadian Pine Doors and Windows. Goods must be of first-class quality as to material and manufacture. Address, HARRY G. BOYCE, Atheneum Chambers, 70 Temple Row, Birmingham, England.

CURRENT TRADE CONDITIONS.

ONTARIO.

Within the past few days a transaction has taken place in the Ottawa valley which is regarded as of great importance to the lumber trade. It was the purchase by Robert Cox & Company of next season's cut of deals of the McLaren Estate, of Buckingham, Que. That a sale should have been made at this early date augurs well for the prospects for next year. While the exact figure has not been made known, it is understood to be a slight advance over the prices realized for this season's production. Now that a start has been made, it is expected that exporters to the British market will shortly evince considerable eagerness to close contracts for next season's goods, and it would seem that at least fair prices are now assured. It is probable that the production of deals in the Ottawa valley next year will show a decrease as compared with this season, and that a greater quantity of lumber suitable for the United States market will be manufactured. There is a possibility also that no large quantity of deals for the British market will be manufactured in the Georgian Bay district, and altogether we look forward to higher prices for British deals next season.

Manufacturers and dealers report a continuance of inquiries for both pine and hardwood lumber. The movement of stock, however, has been restricted by a scarcity of cars, and it is probable that this matter will be considered at an early meeting of the Ontario Lumbermen's Association.

MANITOBA AND BRITISH COLUMBIA.

Fine weather in Manitoba and the Territories has greatly faciliated work on the numerous buildings in course of erection, to which is partially due the great activity in the lumber trade. Dealers in sashes and doors at Winnipeg are scarcely able to keep up with orders, and for special sizes particularly are finding difficulty in meeting the requirements of the trade. From what can be learned dealers seem to be adhering pretty closely to the regular price list. In British Columbia both export and local trade is prosperous. About one month ago no less than five vessels were in port at Vancouver loading lumber for foreign destinations. The project to consolidate all the mills in the Kootenay and Boundary districts is still under way.

QUEBEC AND NEW BRUNSWICK.

Spruce mannfacturers in the eastern provinces are now in a position to give their attention to logging operations, the lumber shipments for the season having practically terminated on account of the scarcity of stock. The market is unusually strong, and in view of the high prices ruling it is understood that one or two cargoes of deals, now in the hands of brokers, will be shipped from St. John in January, the freight rate being 55s. The shipments from St. John for the last two weeks in October consisted of 1,297,000 feet of deals to England, 718,000 feet of boards ond scantlings to Buenos Byres, 1,550,000 feet of long lumber, 1,495,000 laths and 1,900,000 cedar shingles to the United States. Lumber tonnage from Nova Scotia ports to the River Platte is enquired for, but suitable vessels are rather difficult to obtain. Freights are about $10.50 to Buenos Ayres.

UNITED STATES.

Have lumber prices settled down to a winter basis? This is the question which is being asked by the lumber trade of the United States. During the past week, for the first time in several months, no advances have been made, which gives strength to the argument that the top notch has now been reached. The general opinion seems to be that there will be no all-round advance on any class of lumber, and that any changes made will be on certain grades and sizes to even up the price list. In the eastern markets the demand for pine and spruce becomes more urgent as the time approaches for the close of navigation, but through energetic efforts dealers have secured a fair stock for the winter requirements. At Buffalo there is a great scarcity of 1¼ inch box and mill culls, and reports are made of short stocks in shelving and dressing. At Boston both pine and spruce are going into consumption freely. Stocks are badly broken and prices at least $5 per

thousand higher than they were one month ago.

The demand for hardwoods is keeping up well, and many of the large wholesale consumers have been giving some attention to supplies for next season. In maple there has been exhibited a slight weakness, and there is less complaint of short supply of basswood and elm than formerly, but white ash cannot be found in sufficient quantity, and sells at Buffalo as high as $65 for 1¼-inch.

Only a moderate trade is doing in shingles. At Buffalo white pine are quoted at $4 and Michigan white cedar at $3.70, while red cedars sell at $3.75. New Brunswick cedar shingles are still quoted at Boston at $3.25.

FOREIGN.

Reports from foreign countries are such as give strength to the timber market. The South American demand is unusually brisk, and the Australian market is just commencing to show signs of a long expected boom. In Great Britain there is a steady consumption of wood goods, and stocks are becoming reduced. Although few, if any, contracts have been made with exporters for spring shipments, the opinion is gaining ground that prices will be higher than the first-open-water quotations of 1899. The present high prices and upward tendency lead to this conclusion. Spruce is advancing in bounds, and is uncommonly strong in regular deal sizes, while planks are exceptionally scarce. It is said that £7 10s. ex ship is being asked at London for thirds. Prices of first-class pine regulars are stronger than they have been at any time during the present season, largely due to the moderate stock and the prospect of late arrivals next year. At Glasgow third quality pine deals are quoted at £11, and £10 13s. has been named for stock ex quay In square and waney timber the market is fairly well supplied, and the demand only moderate.

STOCKS AND PRICES.

The Bonny River Lumber Co., of Bonny River, N.B., will get out about 1,500,000 feet of logs this winter.

R. H. Tinsdale, of Mount Albert, Ont., wants tenders by 9th inst. for the supply of 110 cedar posts 8½ feet long.

Rhodes, Curry & Co. are loading the bark Alert with lumber at Dorchester, N. B., for Buenos Ayres, South America.

It is reported that the Rathbun Co. are negotiating for the purchase of the Bronson timber limits in the Bancroft district.

H. R. Dunn, of Beachburg, Ont., invites offers up to November 15th for the supply of 500 cedar posts 16 feet long, to be delivered before March 1st, 1900.

The steamer Benedict sailed from St. John, N.B., last week for Liverpool, with 1,823,332 feet of spruce lumber and 20,313 feet of birch lumber, shipped by Alexander Gibson.

Dr. J. W. Hart, John Whitesides and Geo. Paget, of Huntsville, Ont., have organized a company to deal in timber. They hope to purchase large quantities of square timber this winter.

R. A. Estey, of Fredericton, N.B., reports great activity in the lumber woods of New Brunswick. The cut on the Tobique is expected to reach 26,000,000 feet, as compared with 20,000,000 feet last year.

Tenders are invited up to noon of the 11th inst. for the supply of timber and lumber for the Quebec canals. Particulars may be obtained from Ernest Marceau, superintending engineer, 1700 Notre Dame street, Montreal.

Chas. J. Willis, of Sackville, N.B., Canadian agent for H. & G. Curwen & Company, timber importers of Liverpool, Eng., has made shipments of lumber from New Brunswick this season aggregating about 45,000,000 feet.

The Department of Indian Affairs at Ottawa desires tenders by Friday, 10th inst., for 20,000 cedar railway ties, 100 cords of shingle bolts, and a quantity of fence posts, to be taken out during the ensuing winter by the Indians of West Bay Reserve.

The milling property and timber limits situated at Hill Grove, N.S., consisting of 1,400 acres of timber land, saw mill and building, and formerly owned by Jacob Bingay, of Yarmouth, has been purchased by Roger Warne for the sum of $7,000 cash. The business will be carried on as usual under the superintendence of A. A. Perry, of Barton.

A report from Lorimer Lake, Ont., says that lumbering in that vicinity is unusually brisk. Y. Buchanan, George Vowels and George Kating have contracts for getting out logs for Galna & Danter, Daniel Beagan is taking out board timber, and Wm. Forin, W. Kirkham and John Green are jobbing for Wm. Peter, of Parry Sound.

Following is a comparative statement of timber, &c., measured and culled at Quebec to November 7th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. ft.	4,311,340	1,903,148	1,793,281
White pine, cu. feet	832,589	1,662,157	592,188
Red pine, cu feet	21,217	239,512	159,937
Oak, cu. feet	1,448,960	1,672,588	607,965
Elm, cu. feet	662,577	474,194	472,889
Ash, cu. feet	132,435	35,164	58,212
Basswood, cu. feet	25		
Butternut, cu. feet	673	955	60
Tamarac, cu. feet	396		45
Birch and Maple, cu. feet	271,176	112,500	254,604

A letter in the Bangor News says: "Never in the past several years was lumber so scarce or in so great demand as at the present time. Nearly every wharf along the river here is stripped, and James Murchie & Sons, H. F. Eaton & Sons and H. F. Todd & Sons have already made the sale of more lumber than can be sawed before the water freezes. More logs will be cut this winter than has been cut in any one winter for ten years past. Everyone who has timber lands will be able to sell stumpage at a good figure."

Following are the shipments of lumber, etc., from St. John, N.B., for the week ending November 4th: Per sch. Fanny, for Boston, by Sumner & Co., 1,200,000 cedar shingles; per sch. Alice Maud, for New York, by Miller & Woodman, 700,000 laths; per bark Artisan, for Buenos Ayres, by A. Cushing & Co., 75,442 spruce boards, 179.492 planks, 755.407 scantling; per sch. Domain, for Salem f.o., by Stetson, Cutler & Co., 114,410 plank, 5,895 scantling; per sch. Ada G. Shortland, for Fall River, by Miller & Woodman, 25,500,000 cedar shingles; per sch. Ina, for Milton, by A. Cushing & Co., 20,000 boards, 63.932 plank, 45,501 deals, 18,891 scantling; per sch. Nellie Watters, for Boston, by A. Cushing & Co., 98,041 plank, 20.436 deals; per sch. Stella Maud, for New York, by Randolph & Baker, 725,000 laths; per sch. C. R. Flint, for City Island f.o., by Stetson, Cutler & Co., 321,670 deals; per sch. Ayr, for City Island f.o., by Stetson, Cutler & Co., 835,600 laths; per s.s. Benedick, for Liverpool, by A. Gibson Railway & Manufacturing Co., 1,566.401 feet deals and battens, 25,989 feet scantling, 12.476 feet ends, 109,537 feet boards, 17,069 feet birch planks, 972 feet birch scantling, 1,590 feet birch ends, 682 feet birch boards; per sch. Maggie Miller, for Beverly, by A. Cushing & Co., 23,250 feet boards, 18.934 feet plank, 345,500 laths; per sch. Wm. L. Elkin, for New York, by Hilyard Bros., 89.708 feet deals, 15,667 feet plank; per sch. Abbie G. Cole, for City Island f.o., by Stetson, Cutler & Co., 1,670,700 laths; per sch. D. Gifford, for New York, by L. M. Jewett, 250,872 feet deals; per sch. Allen A. McIntyre, for Barbados, by Jarvis Wilson, 10,547 feet pine plank, 92,516 feet boards, 23.051 feet plank; Merritt Bros. & Co., 105,400 feet pine boards, 345,000 cedar shingles, 90,000 spruce shingles; per sch. Susie Prescott, for New York, by Stetson, Cutler & Co., 688,200 laths.

PROPOSED SALE OF TIMBER LIMITS.

The Ontario Crown Lands Department has decided to offer for sale certain timber areas in the Algoma, Nipissing and Rainy River districts, their disposal being rendered necessary by forest fires which occurred during the past summer and the influx of settlers in some of the townships. Part of the timber is so damaged as to require that it should be cut this winter.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Co., in their circular of October 28th, review the Barbados lumber market as follows:

There have been four arrivals of lumber, as follows: Edward D, from Liverpool, N.S., 148 M feet merchantable, 33 M feet 2nd quality white pine boards; sold at $23 merchantable, $17 2nd quality—bond, delivered at Demerara. Moss Rose, from Port Hebert, N.S., 93 M feet shipping, 81 M feet 2nd quality white pine boards; sold at $22 shipping, $17 2nd quality. Priscilla, from Liverpool, N.S., 80 M feet shipping, 60 M feet refuse white pine boards, sold delivered at Demerara. Moss Glen, from Liverpool, N.S., with 57 M feet shipping, 45 M feet 2nd quality, 48 M feet refuse white pine boards, on offer. The dealers are all fairly supplied, and demand is abnormally light. There has been no arrival of spruce since Dixon Rice's cargo, noted in our last. Nothing has been done with the cargo per Maiden City advised as offered. In shingles there have been no further receipts of Gaspe cedar. A lot of 880 M cedar laying, per Taymouth Castle, sold at $2.45 Shooks—We have had the St. Thomas, from Portland, with 12,300 New R. O., contracted for, and 1,900 bundles from New York, which were sold at $1.20 to arrive.

LONDON PRICES FOR WOOD GOODS.

At an auction sale held by Churchill & Sim, London, Eng., on October 26th, Canadian pine and spruce sold at the following prices:

PINE.—Ex Memnon, from Montreal—13 ft., 3 x 12-21, first quality, £17; 13 ft., 3 x 11, £16 and £16 15s; 12-13 ft., 3 x 9, £14 15s; 12-16 ft., 3 x 10, second quality, £10 10s; 12-16 ft., 3 x 9, £12; 9-11 ft., 3 x 4-10, £10. Ex Kinsale, from Quebec—12-15 ft., 3 x 9, first quality, £17 5s; 9-11 ft., 3 x 5-11, £14; 9-12 ft., 2 x 5-11, £13 10s; 12-14 ft., 3 x 9-11, second quality, £14 5s; 9-14 ft, 3 x 5-11, £11 5s; 9-11 ft., 3 x 5-9, £9 10s; 10-12 ft., 2 x 5-11, £10 5s; 6-11 ft., 3 x 7-8, third qualiiy, £7 10s; 7-11 ft., 3 7, fourth quality, £6 15s. [Correspondence of the CANADA LUMBERMAN.]

I am in some doubt whether I can at this writing impart any information that will add to the sum total of knowledge that the Canadian lumberman has of his business. We are of the opinion on this side of the line that he already knows too much. We are sorry about it. Why could he not have remained child-like and mentally undeveloped till we could have gone over there and made off with the best of his season's cut of lumber? It would have added to our regard for him as a neighbor, and would have made our pockets bulge still more than they do.

When the price of lumber, and especially of pine, began to race up the scale, it was found that the western saw mill man on our side was entirely without reason. He wanted about as much for his stock as we in the middle of the trade, geographically, could get from the seaboard consumer. We were at a loss what to do, for to set up prices at the rate they were advancing in the west was to shut off the conservative easterner and reduce the bulk of trade. The result would be also that the east would get into the bad habit of going around us and buying of the producer direct—a fatal fashion.

So it was agreed, each man with himself, that the thing to do was to go over into Canada, take it for granted that the country was mostly asleep, and pick up all the available lumber and shingles before it wakened up. The thing was tried so thoroughly that for a considerable time every man that came back from the Georgian Bay district reported all the woods full of our lumbermen, looking for stock. Well, they got some, just as they are still getting some here and there at home, but it was not long before the report was that Canadian prices were as high as our own, and it was not of the least use to go there after lumber unless there was danger of the home cut giving out entirely.

Since that time there has been considerable buying of pine in Canada, but unless a lot can be discovered in the back district where the owner doesn't take the papers, or where the particular cut is more exactly adapted to the buyer's wants than any other that he can find, he is about as well off at home. The Canadian lumberman is generally awake these days.

For a time there was considerable buying of shingles in Canada, for they have been scarce here right along, but it is now reported of the Canadian shingle maker, as well as of our own, that it has been found more profitable to make other lumber than shingles, and that a great part of the shingle mills are shut down. This will keep the price of shingles up, especially since it has been found impossible to get a full supply of red cedar shingles for winter. The orders have been sent in for them, but there have been so many calls for cars that only a part of the orders could be filled.

The producer of hemlock is making the largest percentage of profit on his business, supposing that he was making a living before the advance. At old prices hemlock was wholesaling at less than $9 here, but the demand soon sent prices up, till the base price is now $14, with so much prospect of more demand right away that New York city has been advised by authority that it will have to pay $20 before spring. The price is $16.50 there now.

There is considerable pine coming down from Georgian Bay this fall, especially to the Holland yard at Black Rock, and the Montgomery's are getting ready to bring down their recent purchase at Midland, though it is not expected that it will all come this fall. For a while the cut in rail rates made by the Grand Trunk considerably demoralized the carrying trade, but that has been fixed up again.

The September meeting of the pine interests here, following the more general meeting in Detroit, again resulted in higher prices, the advance in some cases being $3, in spite of the already high price all round. Box and mill-cull grades are so scarce that they had to go up with the rest, though they had already been advanced a larger percentage than anything else in pine. The box factories have never done such a rushing trade as they have during the past summer, and they are still very busy, though the biggest customer, the canned-fruit industry, is about out of the rush for the season.

The hardwood dealers are very confident of a continuation of the good prices now enjoyed, especially on account of the general scarcity of stock. They are all buying timber tracts and looking to them closely, but there is no accumulation of stock. Angus McLean, of Hugh McLean & Co., is almost continually at the Indiana mills of the firm of late, urging the cut forward. The Buffalo Hardwood Co. has again sent T. H. Wall to Memphis for the winter, to be on the spot where the oak owned by the company comes in. F. W. Vetter, of the Empire Company, has come back from the company's Arkansas tract for a breathing spell, with the third mill already going up there since he went to the tract in the summer. H. S. Janes will return to his new tract on the Yazoo delta of Mississippi in a short time. Scatcherd & Son and Taylor & Crate are increasing their operations in the south-west. All are sorry that the nearer-by hardwood districts of Canada have given out. T. Sullivan & Co. are lake shippers this season, and are just now rejoicing in the receipt of a big lot of elegant white ash, thick as well as thin, something that is getting to be very hard to find.

The event of the month is the preparation of the Superior Lumber Company to retire from business. This company is an auxiliary of the Keystone Lumber Company, whose mills are at Ashland. Till now a great part of the cut has been sent here for sale, ever since A. P. Strong established the yard at the Tifft Farm, Buffalo, in 1890, but the cut has now been sold in a lump in Chicago, and there is no longer need of the Buffalo yard. The company will close up in the spring, and the yard will no doubt go into other hands, as it is a fine one.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., NOVEMBER 15, 1899 No. 43.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

AUCTION SALE

OF

MILL AND MILL SITE IN PARRY SOUND District; eight square miles of Pine, Hemlock and Birch Timber; two good Houses; good Stable and Sheds, and Railroad Siding connecting with Grand Trunk Railway. For further particulars, address Box 150, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The movement of lumber by rail has been seriously handicapped by a shortage of cars. This is about the only unfavorable feature in the lumber trade of the province. Dealers are turning their attention to obtaining supplies for next season, and already some contracts are reported to have been placed with manufacturers. Prices of pine lumber remain steady, with a slight advance on the lower grades. In the Ottawa valley box and mill culls have undergone an advance of about one dollar per thousand within the past two weeks. Pine lath is also higher, No. 1 being quoted at from $2 to $2.50 and No. 2 from $1 to $1.50. Hardwoods remain stationary.

The cooperage stock market is quite as promising as that of lumber, there being an active demand and but a limited supply of stock. Jointed elm staves are now quoted 75 cents higher than they were two months ago, while a 50 cent advance has been made on coiled elm hoops. An advance of one-half cent per set is quoted on kiln-dried basswood heading.

QUEBEC AND NEW BRUNSWICK.

Considerable shipments of clapboards, shingles and laths are being made from the eastern provinces to the United States, but trans-Atlantic shipments are practically over for this year, excepting, of course, small lots of stock which will go forward to Great Britain by the regular winter steamers from St. John. The spruce market strengthens as the season advances. The high price of spruce has resulted in a falling off in building operations, but this will be only temporary, as upon the approach of spring projected buildings will be proceeded with. It is not expected that prices of lumber will be lower next spring than at the present time, as the increased cost of log production cannot but have an influence in the direction of higher prices.

MANITOBA AND BRITISH COLUMBIA.

Favorable conditions continue to characterize the lumber trade of Western Canada. Retail dealers are stocking up freely in anticipation of a considerable demand for lumber during the winter months, and in this they are not likely to be disappointed, inasmuch as building operations are likely to be continued throughout the winter to as great an extent as it is possible to do so. There is also the additional fact to be reckoned with that lumber prices are likely to be higher next year, owing to increased cost of supplies and the advance in wages. The Rat Portage Lumber Co. and the Keewatin Lumber Co. will operate quite heavily this winter.

In British Columbia manufacturers are encouraged by the orders for lumber from new fields. Shipments to foreign countries promise to be very active for some time to come. At the present time a large fleet of vessels is taking on cargoes at Hastings, Moodyville and Chemainus. Ship owners report an active enquiry for lumber tonnage. The trade in this province view with favor the action of the Washington Red Cedar Shingle Manufacturers' Association in closing down their mills for a period of sixty days from November 11th. In all about 200 mills have been closed down.

UNITED STATES.

Mills closing down, stocks in mill yards practically cleaned out, retail stocks low, and a moderate enquiry for lumber. These are the conditions of the lumbering industry of the United States, and they augur well for the immediate future of the trade. There will be more winter sawing than usual, but this will not be a large factor in the supply. There is little possibility of white pine prices weakening before the spring at any rate, while some authorities predict that there will be further advances on low grade stock.

The efforts of dealers to obtain a supply of hardwood lumber seem to have met with some success, although it is not anticipated that the availabie stock will more than meet the demands of the next two or three months, and after that a famine in hardwood lumber is predicted. Black and white ash is more enquired for at Buffalo and other eastern points than any other lumber, and prices are especially firm.

Reports are still common of a scarcity of lath and shingles. At Chicago No. 1 white pine lath retails at $3.50 to $4.75, and at Saginaw quotations are $4 and $4.50. All classes of shingles are wanted in the Eastern States, the Buffalo market being bare of 18 inch of all woods. Prices

there rule at $4 for pine, $3.75 for red cedar, and $3.50 for white cedar.

FOREIGN.

The timber trade of Great Britain does not seem to be affected to any extent by the South African war. Some shippers of wood goods believe that upon the cessation of hostilities a very lively demand for lumber for South Africa will be witnessed. For next season's shipments high prices are being asked, and there is little fear regarding the maintenance of present values. Some contracts have been placed for Baltic goods at figures which are regarded as very satisfactory to shippers, while the demand for Canadian lumber has improved to such an extent during the past month as to place it in a condition fully as strong as that of continental lumber. Stocks of both pine and spruce are gradually becoming reduced. Of first quality pine the stock of broads is low and prices firm, and undersized of long lengths are also wanted. Second quality is not much in demand, but an increased demand and higher prices are reported for third quality. Long lengths of spruce find a ready market. Quebec spruce sells at £6 10s 3d to £7 11s 3d per St. Petersburg standard. The stock of red pine deals is low, and high prices are being realized. The enquiry for square and waney pine has not been very brisk, but the railway companies are now entering the market for a considerable quantity of stock; first-class waney, 19 to 20 inchss average, is quoted at 2s 7d to 2s 9d, and second class at 17d to 2s per cubic foot. Elm timber is advancing in price, being quoted at 2s 6d to 2s 6d for first quality, 40 to 50 feet average.

STOCKS AND PRICES.

Fred Heimbecker, of Hanover, has purchased 100 acres of timber land from D. Norton, of Brant.

The North Shore Timber Co., of Port Arthur, Ont., expect to take out 15,000 cords of pulp wood this winter.

Hemlock lath is retailing at Ludington, Mich., at $4 50, which represents an advance of more than 150 per cent. since last year.

The schooner Beaver sailed from St. John, N.B., last week for Philadelphia, with 1,315,300 laths, shipped by J. H. Schamell & Co.

H. J. Crowe, of Annapolis, N.S., recently purchased a large block of timber land in Queen's county, and will operate a portable mill all winter.

A lot of about 4,000 000 pine shingles is due to arrive at Buffalo shortly from the Georgian Bay district, on which a freight of 35 cents was paid.

McMillan Bros., of Beaverton, Ont., have purchased a 300 acre tract of land in Mara township on which there is a quantity of hardwood timber.

It is announced that F. A. Dudley, the New York representative of Sheppard, Farmer & Co., of Boston, recently purchased 4,000,000 feet of white pine in the Ottawa valley.

Chas. McPherson, of the Orillia Stave Factory, has purchased a hardwood limit in North Orillia, on which there is said to be sufficient timber to keep his mill running for the next five years.

Schuette & Company, of Bay City, Mich., who recently purchased 2,000,000 feet of lumber at Midland, Ont., will not move the stock until next spring.

It was stated that Joseph Turner, of Bay City, Mich., intended to put in 50,000,000 feet of logs in the Georgian Bay district this winter. It is now reported that Mr. Turner is operating for the Bank of Toronto.

The Ottawa Lumber Co., of which Mr. E. C. Grant is manager, have commenced operations on their limit on the Rouge river, and expect to take out from five to six million feet of spruce and hardwood timber this winter.

Two timber berths were sold at the Crown lands office at Fredericton, N.B., last week, one of three miles on Gaspereau river to W. T. Whitehead, at $28 per mile, and the other of two miles on Calamingo brook, Kings county, to Huestis & Mills, at $35.50 per mile.

The firm of Black & Thompson, of Cumberland County, N.S., expect to cut about 5,000,000 feet of logs this winter, and have set up their mill at Musquodoboit river. They have contracted to supply a large quantity of lumber to the Dominion Iron & Steel Co., of Sydney, C.B.

Receipts of lumber at Tonawanda in the month of October of this year were the largest in the history of the port for any one month, nearly 100,000,000 feet having arrived. The receipts at North Tonawanda exceeded those for the corresponding month of 1898 by 17,000,000 feet.

It is reported that J. W. Munro, of Pembroke, Ont., has sold the board timber to be taken out by him this winter. Mr. Munro has given a contract to Thos. Pickard, of Sudbury, to take out a large quantity of logs on his limit in the township of Nairn which he recently purchased from Peter Ryan.

A partnership has been formed between Wm. Carter, of Orillia, and Hudson and Bryan Bucknam, of Severn Bridge. They have purchased a 35 mile timber limit in Nightingale township, in the north-east section of Haliburton county, adjoining Nipissing district. It is the attention to operate on the property this winter.

The largest timber deal ever made in Nova Scotia is reported to have just been consummated, Young Bros. having sold for $300,000 their property at St. Margaret's Bay, consisting of 80,000 acres of timber land. The purchaser is Peter Ryan, of Toronto, who is understood to be acting for Michigan and Chicago capitalists.

The British Columbia Mills, Timber & Trading Co. have been given a contract to supply nearly 1,000,000 feet of timber for the shipbuilding firm of Cramps, of Philadelphia. The timber is to be used for building war ships for the United States government, and will be specially selected stock, much of it being deck material. It will be from 8 feet to 100 feet in length. The barque Katie F. Troop is now loading the cargo at the Hastings mill.

PROPOSED SALE OF TIMBER BERTHS.

As intimated in our last issue, the Department of Crown Lands of Ontario has announced an auction sale of timber berths to be held in the Parliament buildings, Toronto, at 1 o'clock p.m. on Wednesday, December 20th, 1899. The limits to be offered consist of 398¼ square miles, situated in the Algoma, Nipissing, and Rainy River districts. The conditions of sale state that the purchaser shall be entitled to cut the pine timber only, and that berths including mining locations already patented, or which may hereafter be patented, will be sold subject to the rights of the patentees to take what timber they may require for mining purposes. It is also provided that all timber cut on these limits shall be manufactured in the province.

The limits will be offered in parcels as follows:

ALGOMA DISTRICT.

Township of Bowell—Berth No. 1, 7½ sq. miles; berth No. 2, 9 sq. miles; berth No. 3, 13½ sq. miles. Township of Foy—area 36 sq. miles. Township of Harty—berth No. 1, 9 sq. miles; berth No. 2, 9 sq. miles; berth No. 3, 10 sq. miles; berth No. 4, 10 sq. miles. Township of Lumsden—area 31 sq. miles. Township of Ryan—area 28 sq. miles. Block A, situated north-west of the township of Craig, area 40 sq. miles. Part of township of Moncrieff, 2 sq. miles.

DISTRICT OF NIPISSING.

Township of Davis—Berth No 4, 8 sq. miles. Township of Norman—berth No. 1, 7 sq. miles; berth No. 2, 5½ sq. miles; berth No. 3, 9 sq. miles; berth No. 4, 9 sq. miles. Township of Capreol—berth No. 1, 9 sq. miles; berth No. 2, 9 sq. miles; berth No. 3, 9½ sq. miles. Township of Widdifield—berth No. 1, 4 sq. miles; berth No 2, 6½ sq. miles; berth No. 3, 5½ sq. miles; and Long Island east and Long Island west, ¾ sq mile.

RAINY RIVER DISTRICT.

Berth G5, township of Miscampbell, 9½ sq. miles; berth G6, west of north-west arm of Rainy Lake, 5¼ sq. miles; berth G7, on Jackfish Lake, north of Rainy Lake, 21 sq. miles; berth G8, east of Pipestone Lake, north of Rainy Lake, 3 sq. miles; berth G9, north of Pipestone Lake, 18 sq. miles; berth G10, north of Lake Rowan, east of the Lake of the Woods, 7 sq. miles; berth G11, east of Pipestone Lake, 12 sq. miles; berth G12, east of Pipestone Lake, 5 sq miles; berth G13, near outlet of Pipestone Lake, 12½ sq. miles; berth G14, west of Clear Water Lake, north-west of north-west arm of Rainy Lake, 3 sq. miles; berth G15, north of the township of Kingsford on Rainy river, 2¾ sq. miles; berth G16, east of Pipestone Lake, 8 sq. miles; berth S.V. 10, on Long and Storm Lakes, 3½ sq. miles.

THE GLASGOW MARKET.

Messrs. Wright, Graham & Co., in their monthly timber market report dated 31st October, review the Glasgow market as follows:

A large business has been done in nearly all kinds of timber this month. The healthy tone which has set in still prevails, and higher prices are being obtained. The housebuilding and cabinetmaking trades are well employed. The Clyde shipbuilding returns show that 16 new vessels have been launched this month, amounting to 32,747 tons, as compared with thirty vessels, amounting to 55,661 tons, in October last year.

WANEY BOARDWOOD.—There is a demand for prime wood. Prices quoted—2s 7d to 2s 10d for large average, smaller average and poorer quality at 1s 6d to 2s 4d per cubic foot.

RED PINE.—Only large prime wood is in request. Price 1s 10d to 2s; smaller average and poorer quality at 1s 3d to 1s 6d per cubic foot.

OAK LOGS.—The demand continues for prime large average wood. Price 2s 9d to 3s; parcels of poorer average and quality at 2s to 2s 3d per cubic foot.

ELM LOGS.—These have been in good request. Prime large wood quoted at 2s 3d to 2s 5d; smaller average and second class at 1s 9d to 2s 2d per cubic foot.

ASH LOGS.—There is good enquiry for prime parcels and prices are firmer. 13 to 14 inch average at 1s 8d to 1s 9d; 15 to 16 inch average at 1s 10d to 2s per cubic foot.

BIRCH LOGS.—There is a brisk demand and prices are advancing. Current prices are—14 to 15 inch average, 1s 6d to 1s 7d; 16 inch average and up at 1s 9d to 2s per cubic foot.

ROCK MAPLE LOGS.—There is better enquiry for prime fresh wood. Price—1s 10d to to 2s 1d per cubic foot, according to size.

HICKORY LOGS.—Prime wood is wanted. Price—2s to 2s 2d for selected logs. Ordinary quality is selling at 1s 8d to 1s 10d per cubic foot.

QUEBEC WHITE PINE DEALS.—A large amount of business has been done this month at improved prices: 1st quality broad, £25 8s 9d to £26 16s 3d per St. Petersburg standard; 11 in., £22 13s 9d to £24 1s 3d; 7 to 10 in. and ends, £17 3s 9d to £19 18s 9d. 2nd quality, broad, £18 18s 1d to £19 18s 9d; 11 in., £16 10s to £17 10s 7d; 7 to 10 in., £13 1s 3d to £14 8s 9d. 3rd quality, broad, £11 to £11 13s 9d; 11 in., £9 19s 4d to £10 13s 1d; narrows, £7 4s 4d to £8 5s. 4th quality, broad, £8 5s to £8 18s 9d; 11 in., £7 4s 4d to £7 18s 1d; narrows, £6 10s 7d to £6 17s 6d.

RED PINE DEALS.—There is a strong demand, and arrivals meet with ready sale. Prices quoted are: 9 and 11 in. by 3 in., £10 13s to £12 14s 4d per St. Petersburg standard; narrows, £8 19s 9d to £9 12s 6d.

QUEBEC WHITE PINE BOARDS.—The demand is good and prices keep firm. First quality, 2 in. thick, 12 to 15 in. wide, at £17 17s 6d to £19 11s per St. Petersburg standard; 1½ in., 12 to 15 in. wide, £17 3s 9d to £19 5s; 1¼ in., 11 to 13 in. wide, £16 16s 10d to £18 11s 3d; 1 in., 10 to 12 in. wide, £15 16s 3d to £16 16s 10d; 1½ and 2 in. strips, 4 to 7 in. wide, £15 2s 6d to £16 10s. Second quality, 2 in. thick, 12 to 14 in. wide, £13 15s to £15 9s 4d; 1¼ and 1½ in., 12 to 14 in. wide, £13 1s 3d to £14 8s 9d; 1 in., 10 to 12 in. wide, £12 7s 6d to £12 14s. Third quality, 2 in., 11 to 15 in. wide, £9 5s 7d to £11; 1, 1¼ and 1½ in., 10 to 14 in. wide, £7 11s 3d to £10.

SPRUCE DEALS.—There is a steady demand and prices are firm. Prices quoted—£6 10s 9d to £7 18s 1d for third quality; £5 16s 10d to £6 17s 6d for fourth quality, per St. Petersburg standard.

NEW BRUNSWICK PINE DEALS.—The demand is fair. Price—£6 1 s 6d to £9 12s 6d.

N. B. SPRUCE DEALS (2nd quality average).—There is specially good demand for long lengths, and prices are firmer. Prices quoted, £6 10s 7d to £8 18s 7d per standard.

N.B. BIRCH LOGS.—There is a good demand. Price—1s 5d to 1s 9d per cubic foot.

N.B. BIRCH PLANKS.—The demand continues Price, £6 17s 7d to £8 5s per standard, according to specification.

LUMBERING IN NEW BRUNSWICK.

Lumbering operations on the St. Croix and Magaguadavic rivers, in New Brunswick, will be carried on this season much more exteneively than for several years past, according to an exchange. On the St. Croix the cut will be about 40 million, as compared with 25 million last year. Of this, H. F. Eaton & Sons will cut 17 or 18 million, James Murchie & Sons 10 or 12 million, F. H. Todd & Sons 8 or 10 million, G. Chase, of Baring, two million, and F. Mercere & Sons, of Princeton, one million. Spence & McMorran have a contract with the Todds on North Brook. C. F. Keith will cut two million on Main Tomah for the Eatons; Thos. Hill will cut one and one-half million for the Eatons on Little Tomah, Gideon Moores will cut one and one-half million on Ox Brook for the Eatons; F. Mercier & Sons will cut one and one-half million on Main Tomah for the Todds; Geo. Bubaer will cut one and one-half million on Monument brook and Grand lake for the Eatons; D. T. Belmore one million on Dobsis lake for the Murchies. Several small concerns will haul about one and one-half million into Scott brook for the Todds. About two million logs will be carried by cars to Milltown for the Murchies. On the Magaguadavic Moore & Howe have contracted for ten million feet. They expect to put a portable mill in at Red Rock or Utopia and will get out one million of hardwood deal. David Johnson has a large contract with this concern. John Dewar & Sons will cut five or six million, as compared with two million last year.

WHITE OAK STAVES.

The enquiry for white oak staves in Great Britain is quite brisk. There is a strong demand for 26 by ¾ in., 34 by ⅞ in., 34 by 1 in., and 42 to 44 by 1 in. to 1⅛ in. Current prices are about as follows:

CANADA BUTTS.—5½ ft. by 3 in. thick, at £115 to £125 per mille; 5½ ft. by 2½ in., £90 to £95 per mille; 5½ ft. by 2 in., £67 to £72 per mille.

HEAVY WINE PIPE.—4½ ft., (Boston, New York and Philadelphia), at £37 10s to £40 per mille.

LIGHT WINE PIPE.—4½ ft. (Boston, New York and Philadelphia), at £30 to £35 per mille.

PRIME HOGSHEAD.—Rough (Boston, New York and Philadelphia), at £22 to £22 10s. per mille. Flat and circle dressed, 44 in. to 46 in. by 1¼ in., at £25 to £26 per mille; 42 in. to 44 in. by 1⅛ in., at £23 per mille. Rough, 2nd quality (New York, Boston and Philadelphia), at £17 to £18 per mille. Rough, 2nd quality (Baltimore and Norfolk), at £15 to £16 per mille.

FLAT AND CIRCLE DRESSED STAVES.—44 in. by 1 in., at £23; 40 in. by 1⅛ in., at £21; 40 in. by 1 in., at £18 to £19; 38 in. to 39 in. by 1 in., at £17 to £18; 34 to 36 in. by 1¼ in., at £17; 36 in. by ⅞ in., at £15 to £16; 34 in. by 1 in., at £15 to £16; 34 in. by ⅞ in., at £14 to £14 10s.; 26 to 28 in. by 1½ in., at £16; 26 in. to 28 in., by 1¼ in., at £14 10s. to £15; 26 to 29 in. by ¾ in., at £9 10s. to £10 per mille.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., NOVEMBER 22, 1899 No. 44.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

AUCTION SALE

OF

Timber Berths

DEPARTMENT OF CROWN LANDS
(Woods and Forests Branch),

TORONTO, November 1st, 1899.

NOTICE IS HEREBY GIVEN THAT, UNDER authority of Order-in-Council, TIMBER BERTHS as hereunder mentioned in the ALGOMA, NIPISSING and RAINY RIVER Districts, viz., the Townships of Bowell, Foy, Harty, Lumsden, Ryan, and part of Moncrieff, in the District of Algoma; the Township of Norman, part of Capreol, Berth No. 4 Davis, and the north part of the Township of Widdifield, all in the District of Nipissing, and certain small areas in the District of Rainy River, will be offered for sale by Public Auction at the Department of Crown Lands, Toronto, at the hour of one o'clock p.m. on

Wednesday, the Twentieth Day of December Next

Sheets containing conditions and terms of sale, with information as to Areas, Lots and Concessions comprised in each Berth, will be furnished on application personally or by letter to the Department of Crown Lands or to the Crown Timber Offices at Ottawa and Rat Portage.

E. J. DAVIS,
Commissioner of Crown Lands.

N.B.—No unauthorized publication of this advertisement will be paid for.

FOR SALE CHEAP.—SHINGLE MILL, Steam Power. Apply to R. MURDOCH, Hepworth, Ont.

FOR SALE.—40,000 FEET DRY HEMLOCK, 2×6 inches, 12 feet. Write REID BROS., Hepworth Station, Ont.

FOR SALE.—TAMARAC, SAWED ANY SIZE or length, Cedar and Tamarac Ties, and Cedar Posts. Write YOUNG & LESLIE BROS., Owen Sound, Ont.

FOR SALE.—THE CUT OF 2,000 ARPENTS of Hardwood Limits, only 22 miles from Montreal and on G.T.R. and I C.R. "B.," care of P.O. Box 268, Montreal.

WE ARE PREPARED TO CUT OR BUY FIVE Million Feet of Sawlogs. Must be early spring delivery. Mill on south shore of Georgian Bay. Latest machinery. Box 80, CANADA LUMBERMAN.

IF IT IS A LUMBER BUSINESS YOU WANT, write me. I have for sale several Saw Mills in good timber localities; also large and small Timber Limits and Lands. JOHN DRUMMER, 142 Jarvis Street, Toronto.

TIMBER LIMITS

TIMBER LIMITS, FINE WATER POWER, Saw Mill, Houses etc., for sale. Most advantageous for pulp manufacturing, as the pulp wood is practically inexhaustible. Apply to H. M. SIMPSON, 29 Canada Life Building, Montreal. Telephone, Main, 3344.

Would sell outright or would retain any interest to suit purchaser. Good reasons for selling.

For further particulars address Box 331, Parry Sound, Ont.

CANADIAN HARDWOOD LUMBER

MILLMEN AND OTHERS HAVING FOR sale please quote for:

Soft Elm, 1" to 3" thick x 6" and wider, 1¼" x 14", 1" x 13" and wider.

Coffin Specifications, first-class stuff.

Prime Hard Maple, 1", 1¼", and 1½" x 6" and wider.

Also Prepared Flooring and Roller Block.

State quantities offered, when available for shipment, prices f.o.b. winter ports and Montreal for first open water. Cash in New York against railroad bills of lading. Address "SPOT CASH," care of CANADA LUMBERMAN, Toronto.

WANTED.

HOGG FOR CUTTING WASTE FROM SAWS; give particulars and price. THE FIRSTBROOK Box Co., Limited, Toronto.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. Co., Burks Falls, Ont.

MACHINERY FOR SALE.

TWELVE-INCH BUZZ PLANER, 24-INCH Surface Planer, 8 h.p. Upright Engine and Boiler, and Four Side Sticker; all modern and in first-class condition. TORONTO MACHINERY SUPPLY COMPANY, Toronto.

FOR SALE.

MILL AND MILL SITE IN PARRY SOUND District; eight square miles of Pine, Hemlock and Birch Timber; two good Houses; good Stable and Sheds, and Railroad Siding connecting with Grand Trunk Railway. For further particulars, address Box 150, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

A more plentiful supply of cars since the middle of November has resulted in a heavy movement of lumber by rail. Mills are busy shipping out orders which should have been filled weeks ago, but which remained unfilled owing to the impossibility of securing transportation. The inability to obtain lumber has caused projected works to be deferred until next spring, while some of the stock intended for such works will probably remain in the yards over winter. The quantity of unsold lumber at the mills is smaller than has been known for years. Prices of good lumber remain unchanged, but the advance on the lower grades does not seem to have yet been checked. Common and mill culls are selling in Toronto at about $1 per thousand higher than they were two weeks ago. The average quotations are, for mill culls about $11, for 1×10 and 12 common from $13 to $15, and for 1-inch strips, mill run, $15 to $15.50. A peculiar feature of the trade is the fact that wholesale dealers have not taken full advantage of the advanced prices. In Toronto, for instance, lumber is selling at prices little, if any, higher than are now being paid for stock at the mills. Of course, the stock so offered was purchased a short time ago at lower prices than now prevail, but this is no reason why the present selling price of lumber should not bear its proper relation to the mill price. It might be argued that to advance wholesale prices to their proper basis would cause a cessation of buying, but this would not likely be the result as consumers hold unusually light stocks and must continue to buy for almost immediate requirements.

Hardwood prices appear to have settled down to a winter basis. There has been no change excepting in respect to maple, which has advanced slightly. From the Wiarton district sales of inch maple, common and better, are reported at $12.50 per thousand at the mill.

The shingle market has undergone no material change, 16-inch XXX selling in Toronto at $2.65 and XX at $1.75. The demand is quite active. The lath situation is bordering on the sensational. Such rapid advances as have been made of late in the price of this material have not been known for many years. Manufacturers are realizing from $2.75 to $3 for No. 1 lath at the mill, and in Toronto the wholesale selling price is from $3.25 to $3.50 for No. 1, and $2.75 for No. 2. These prices represent an advance of over one hundred per cent. within a couple of months. It is the opinion, however, that the present prices of lath will not hold throughout the winter. Towards the approach of spring at least, if not before that time, we predict signs of lower prices.

QUEBEC AND NEW BRUNSWICK.

A slight improvement is reported in the timber trade at Quebec. The prices of timber now on the market are unchanged, but for white or red pine, elm and ash of this winter's production contracts are being made at an advance of from two to four cents per cubic foot. The market for spruce deals exhibits greater strength as the season advances. Stocks at the mills in New Brunswick and Nova Scotia are smaller than they have been in the past twenty years, while deals which sold at $8 one year ago are now realizing $11. There is a considerable quantity of lumber cut for the South American market still in the hands of manufactures owing to the inability of shippers to obtain tonnage, but most of this has been contracted for. There are good prospects for a lively demand until May next, when the new stock may probably reduce prices slightly.

Cedar shingles and spruce lath are moving freely. Manufacturers are obtaining $2.10 per thousand for lath f.o.b. mill, while in the fall of 1898 not more than 60 or 70 cents per thousand could be obtained for similar stock.

MANITOBA AND BRITISH COLUMBIA.

Outside work in Manitoba and the Territories is being rapidly finished up. Contractors have their buildings well closed in, and the bulk of the lumber required for building purposes during the next couple of months will be finishing material. Retail dealers are steadily adding

to their stock, and apparently anticipate an early spring trade. British Columbia manufacturers report a steady demand for all grades of lumber, with prices more satisfactory than they have been for some years. Considerable shipments are being made to Australia and China, and it is said that the Oriental steamers have their entire capacity for some time to come spoken for. It is announced that the consolidation of lumber interests in the Boundary district of the Kootenay has been effected, through the efforts of Mr. G. O. Buchanon. The mills and limits represented are said to be valued at one million dollars, although a report states that one or two prominent concerns have refused to become identified with the combine.

UNITED STATES.

The dealers at eastern wholesale centres are taking in their last cargoes. Naturally some attention has been given to the stocks available for the winter trade, particularly as there are excellent prospects for an active demand during the winter for nearly all classes of stock. The stock of good lumber is on the whole of average size, perhaps sufficient to carry dealers through the winter. This cannot be said of the lower grades, as it is generally admitted that a famine in cheap lumber is an assured thing. Coarse lumber at Buffalo and Tonawanda is at a premium, and the demand is reported to be growing daily. Several cargoes of mill culls have been received at Tonawanda and disposed of at the price of $15.50 and $16 on the dock, to be shipped direct from the boat. Box and No. 3 barn are likewise scarce. Pine prices in all grades are being firmly maintained. At Albany three inch uppers are selling at $70, and one to two inch at $55. Box boards bring $18 to $20, and No. 1 barn, 1 x 12, $25 to $27. The foreign trade in pine is rather quiet with the exception of West Indian bnsiness. Prices on West Indian shippers are $22 for 12 inch rough and $24 for dressed. Spruce maintains its strong position, dealers holding firmly to list prices.

No further advance in hardwood prices is reported, but as the season advances greater difficulty is found in purchasing stock. There has been a slight increase in the demand for birch, and white and black ash is also very scarce, manufacturing industries purchasing it as fast as it is received in the market.

FOREIGN.

The recent quotations from Great Britain show that pine and spruce deals have considerably advanced of late. Broad first quality pine deals are selling at Glasgow at £24 to £27; second quality, 11 inch and up, at £16 to £19; third quality at £11 to £12, and fourth quality at £8 5s to £8 10s. First quality pine sidings bring £18 to £21. The quotations for Quebec spruce deals at London are: First quality, £9 to £11 10s; second quality, £8 10s to £9; third quality £8 to £8 10s; fourth quality, £7 10s to £8. New Brunswick spruce deals realize £7 15s to £8 10s. Oak timber sells at Glasgow at 2s 7d to 3s 4d per cubic foot, elm at 2s to 2s 9d, birch at from 1s 7d to 2s, and ash at about 2s.

The Alden Saw and Grist Mill at South Roxton, Que., owned by E. Bradford, of Granby, was destroyed by fire last week. The loss is $2,000, with no insurance.

THE SHINGLE AND LATH MARKET.

The shingle market throughout the United States is one of great strength. The receipts of red cedar shingles have not been large and there is but a small stock in the hands of dealers. Hemlock shingles appear to be out of the market, and there is only a limited supply of white cedars. Coming to white pine, the reports are that manufacturers are practically sold out, while the stocks held by dealers are much below the average. In view of the above conditions, there is reason to expect a further advance in the price of shingles before spring, notwithstanding that best 18 inch pine now brings $4 in the Buffalo market.

The shortage in lath is, we believe, unprecedented. The American Lumberman reviews the lath situation as follows:

"It was only a few months ago that lath sold at a price which hardly covered a handling bill, to say nothing of the cost of manufacture. Today dry No. 1 white pine lath bring at wholesale from $4.50 to $5 a thousand, and the supply is not equal to the demand. There has been an advance of over 100 per cent. in the selling price, with no prospect of much lower prices in the near future.

"The lath market this season has been a peculiar one. A great many wholesale dealers argued that because the shingle trade was comparatively dull there was, perhaps, less than the usual amount of small building throughout the country, and it is undoubtedly true that much of the activity in the lumber business has been due to the manufacturing demand and the large amount of factory buildings constructed. It does not appear, therefore, that the strength of the lath market is due so much to unusual demand as it is to other causes. We may assume, however, that owing to the condition of the iron market metal lathing is not used as extensively this season as it has been for several years past, and this undoubtedly has had some effect upon the lath market, though the chief element of strength this year is a supply that is below normal for an average building season.

"Accurate figures as to the lath production of northern mills for a period of years are not available, but sufficient information is at hand to indicate that there has been a steady decline in the output since 1892. It is true that the cut last year was slightly heavier than in 1897, but the decline in production for the seven-year period named has been approximately 50 per cent. In former years practically all of the slabs went into lath, but of late much of this material has been utilized for other by-products, while the introduction of improved methods and machinery has materially reduced the slab output of the average saw mill.

"These are some of the reasons for high prices in the lath market, and were the only dependence of the future upon white pine lath it is not likely that the prices would be much lower. But already the situation has brought about a greatly increased use of hemlock, cypress and yellow pine lath. It is likely that values will remain firm during the winter, but hardly probable that the present basis of prices will be maintained through another building season. This seems to be the universal opinion among manufacturers and wholesale dealers, and probably is the correct one. At any rate, lath of every kind are considered mighty good property, and no one is worrying about not being able to dispose of the stock on hand at present prices."

STOCKS AND PRICES.

The city of Toronto invites tenders up to Monday, December 4th, for the annual supply of lumber.

A. C. and C. W. Elderkin, of Advocate Harbor, N.S., expect to take out 5,000,000 feet of logs this winter.

John Charlton, of Lynedoch, Ont., is reported to have recently purchased 10,000,000 feet of logs on the Georgian Bay.

Murdo Buchanan, of Springhill, Que., has taken a contract from T. V. Reed to get out 2,000,000 feet of logs on Black river.

W. W. Carter, of Fesserton, Ont., has purchased timber limits in the neighborhood of Spanish river and is operating thereon this winter.

Pugsley Bros., of Parrsboro, N. S., have purchased a new property in Glengarry county, where they expect to cut 3,000,000 feet of deals.

By the breaking of a boom across the north forks of the Kettle river, about two miles above Grand Forks, B. C., 1,250,000 feet of saw logs were released. They were the property of the Granby Smelter Company.

Edwin Casey, of Bay Verte, Cumberland county, has contracted to supply Dickie's mills at Lower Stewiacke, N. S., with 2,000,000 feet of logs this winter.

J. D. Draper has just purchased 2,000,000 feet of log run lumber, cut from Canadian stock, from Pitts & Company, of Bay City, for Wm. Schuette & Co., of Saginaw.

Chas. Desmarais, of Hull, Que., has secured the contract to furnish 1,500 cedar posts, 35 feet long, for the extension of the Montmorency & Charlevoix railway.

Walter Steeves, of Stevescote, and Manning Steeves, of Albert county, N.B., have purchased a timber property near Liverpool, N. S., and will commence operations thereon at once.

According to reports, 30,000,000 feet of No. 4 and No. 5 boards of next season's production at Duluth, Minn., have been contracted for. The No. 4 boards were sold at about $11, and the No. 5 at $6.50 to $7.

Duffy & Company, of Hillsboro, N.B., have purchased a tract of timber land along the Liverpool river in Nova Scotia. They are setting up a rotary mill, and will saw spruce deals for the British market.

D. J. McDougall, of Carleton Place, has moved his saw mill to the Muirhead property, on the sixth line of Beckwith township, where he has secured a contract to manufacture into lumber the birch timber on nearly 200 acres of land.

Hilyard Bros. are building a new saw mill near Rusiagornish Station, Sunbury county, N. B., which will be in operation shortly. They expect to cut 2,500,000 feet of lumber during the coming winter, which will be shipped by rail to St. John.

J. & T. Conlon, of Little Current, Ont., have closed negotiations with Munro & Ebert to saw all the logs taken out by the latter firm in Nairn township this winter. Messrs. Conlon will also take out sufficient timber to keep their shingle mill operating next season.

Robert Stewart, of Guelph, Ont., has just contracted with the Huntsville Lumber company for the purchase of 250,000 feet of hemlock. He has also closed a contract with the Victoria Harbor Lumber Company to cut for him immediately 175,000 feet of pine bill stuff.

The following timber limits were sold at the Crown Lands office, Fredericton, N. B., last week: Two miles at Code Branch, Kent county, to Thos. McWilliams at $15 per mile; three miles at Shin creek, Sunbury county, to T. G. O'Connor at $33.50 per mile; two and a half mile branch, head of New river, Charlotte county, to J. & L. B. Knight, at upset price; two miles at head of Fork brook, to Tapley Bros., at upset price; two miles on Cannan river to A. West at upset price.

SHIPPING MATTERS.

It is said that a steamer has been chartered to load deals at St. John, N.B., in March next for west coast of England, at 46s 3d.

The ship Lennie Burrill has been chartered to load lumber at St. John, N.B., for the River Platte, at $9.50. The steamer Mantinea is booked to load deals at St. John for the west coast of England.

The first winter port steamer is due to sail from St. John, N.B., for Glasgow on November 23. The Montrose will sail for Liverpool on November 29th, the Manchester Commerce for Manchester on November 30th, the Sylvania for London on December 7th, the Glen Head for Belfast on December 9th, and the Dunmore Head for Dublin on December 20th.

LONDON WOOD STOCKS.

The following figures show the stock of timber, deals, etc., at the public docks, London, Eng., on the 31st October :

	1899.	1898.
Foreign deals, in pieces	1,142,000	2,580,000
Battens, in pieces	3,856,000	5,289,000
Boards, in pieces	12,373,000	11,344,000
Wainscot logs, in pieces	638	971
Oak timber, in loads	2,289	1,825
Fir timber, in loads	2,230	2,191
Colonial pine deals and battens, pcs.	1,513,000	1,805,000
Spruce ditto	1,282,000	1,813,000
Oak timber, in loads	2,334	3,071
Birch timber and planks, in loads	3,338	4,605
Elm and ash timber, in loads	460	1,598
White pine timber, in loads	703	1,386
Red pine timber, in loads	18	160
United States pitch pine timber, lds.	5,907	23,013
Pitch pine deals, in pieces	86,000	113,000
East India teak, in loads	10,170	11,988

Concerning the market, Messrs. Churchill & Sim say :

"Prices have advanced freely in the London wood market during October, as it has become certain that for once the stock wintered here will be barely sufficient for its requirements. The importation has been a small one, and the consumption has continued fairly satisfactory, the falling off of some 5,000 standards in the overside deliveries being directly due to the paucity of arrivals. The deficiency in the dock stocks, as compared with those of last year, amounts now probably to over 37,000 standards, and under existing conditions of freights, etc., it is impossible that this can be made up in any appreciable degree before the close of the season. A short stock in London in the winter is a rarity of late years, and will help the rise in prices for next season, even beyond the extent of its actual significance. This rise is already a fact ; buyers are eager to begin fresh purchases, and shippers are in a difficulty as to how to ask enough for their supplies for 1900. Whatever they ask, in reason, it seems fairly certain they will get, and it behoves buyers, therefore, to bear in mind that a further heavy addition to an already high level of first cost will make wood something of a luxury. The country is involved in an arduous war, which will continue to disturb the freight and the money markets for some time to come, even if no further political complications occur, as it is most probable they will not. It is essentially a time to be careful, to shorten sail, and to buy less rather than more than sufficient for probable requirements, being content to make less money, by the exercise of prudence, if, as seems likely, all continues to go well, rather than to risk the contrary possibility."

Advertise in the "Wanted and For Sale" Department.

THE CONLON TIMBER LIMITS.

The timber limits of Messrs. J. & T. Conlon, of Thorold, Ont., which are now on the market, comprise 191 square miles on the north shore of Lake Huron, including the townships of Appleby, Hawley, Jennings 29, Thompson, Bright, Bright (additional), and Harrow. On the townships of Appleby, Hawley and Jennings the pine timber is estimated at 40,000,000 feet, and the logs can be delivered at mills on Lake Nipissing at a cost of from $5 to $5.50 per thousand in addition to Crown dues. Berth No. 16, township of Harrow, consists of 36 square miles, and contains 10,000,000 feet of choice virgin pine, besides large quantities of hemlock, hard maple and other timber. In addition to the pine on the townships of Thompson, Bright, and Bright (additional), there is hardwood timber estimated between forty and fifty million feet.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., NOVEMBER 29, 1899 No. 45.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

AUCTION SALE

OF

Timber Berths

DEPARTMENT OF CROWN LANDS
(Woods and Forests Branch),

TORONTO, November 1st, 1899.

NOTICE IS HEREBY GIVEN THAT, UNDER authority of Order-in-Council, TIMBER BERTHS as hereunder mentioned in the ALGOMA, NIPISSING and RAINY RIVER Districts, viz., the Townships of Bowell, Foy, Harty, Lumsden, Ryan, and part of Moncrieff, in the District of Algoma; the Township of Norman, part of Capreol, Berth No. 4 Davis, and the north part of the Township of Widdifield, all in the District of Nipissing, and certain small areas in the District of Rainy River, will be offered for sale by Public Auction at the Department of Crown Lands, Toronto, at the hour of one o'clock p.m. on

Wednesday, the Twentieth Day of December Next

Sheets containing conditions and terms of sale, with information as to Areas, Lots and Concessions comprised in each Berth, will be furnished on application personally or by letter to the Department of Crown Lands or to the Crown Timber Offices at Ottawa and Rat Portage.

E. J. DAVIS,
Commissioner of Crown Lands.

N.B.—No unauthorized publication of this advertisement will be paid for.

FOR SALE.

MILL AND MILL SITE IN PARRY SOUND District; eight square miles of Pine, Hemlock and Birch Timber; two good Houses; good Stable and Sheds, and Railroad Siding connecting with Grand Trunk Railway. For further particulars, address Box 150, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The movement of lumber during the past week has been very heavy. There have been more cars available, and retail dealers are stocking up liberally in anticipation of a steady winter trade. While a falling off in the demand during the next two months may naturally be expected, the conditions which have existed this season are favorable to a considerable trade throughout the winter months. The lumber which has been shipped to provincial points has very largely gone into consumption, so great have been the manufacturing and building requirements. There are also signs that this manufacturing and building activity will continue throughout the winter, but of course in a lesser degree. This being the case, there seems likely to be a fair movement of stock during the winter period. Prices on foreign specifications are slightly higher than they were one year ago.

Since last issue lumber quotations have not changed in the main, although a slight tendency is reported in the direction of still higher prices for the lower grades. Shingle prices also remain unchanged, but a further advance has taken place in the price of pine lath, which is now selling in Toronto on the basis of $3.50 for No. 1. Everybody seems to be looking for lath, and in the face of an almost exhausted supply, prices have continued to soar upwards. The only change in the hardwood market is an advance of about one dollar per thousand in maple.

QUEBEC AND NEW BRUNSWICK.

The shipping season from the St. Lawrence will close in a few days, only one or two vessels having yet to sail. The lumber business is settling down to a winter basis, the local demand showing a falling off within the past week. Shipments of lumber will be made from New Brunswick and Nova Scotia to the West Indies and South America for some time to come, as there is a large quantity sold and waiting shipment. Spruce laths and cedar shingles for the United States are much enquired for. Quotations of shingles have advanced about five cents, being now $3.25 to $3.30 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Mild weather prevails throughout western Canada, and consequently more outside work is in progress than is usual at this season of the year. Lumber is moving liberally and no complaints of dullness in trade are made. In British Columbia cities building operations are still progressing with considerable activity. The generally higher prices of lumber have induced loggers to advance the price of logs, but if the present conditions in the lumber trade continue manufacturers will not be seriously affected by this step.

UNITED STATES.

Lumber is not moving as actively as it was a few weeks ago. Nevertheless, there is a steady trade doing. Owing to a decline in freight rates, considerable lumber has been moved of late from Lake Superior points to the eastern market, and dealers will go into the winter with about an average stock of pine. Most of the dealers have a small quantity of the lower grades, but perhaps a larger supply of the better qualities. The greatest demand continues to be for box and barn boards, and it is predicted that grades of these qualities will undergo a further advance during the winter months. Many of the yards will be sold out of these grades early in January. A slight shading of prices of shaky clear, shaky dressing and inch pine common is reported from Buffalo and Tonawanda, but as the stock is becoming reduced it is not expected that this weakening will be permanent.

Spruce lumber shows firmness, and dealers at Boston are holding to prices. It is estimated that the supply of spruce in the hands of manufacturers and wholesalers is less than 50 per cent. of that of one year ago. Spruce clapboards are

showing rather unaccountable signs of weakness, probably due to an increased production.

A falling off in consumptive demand is the only change in the hardwood situation, scarcity of dry stock being about as pronounced as ever. Ash and basswood are leaders in demand, but maple and elm are more plentiful. At Buffalo thick maple sells at from $28 to $30.

FOREIGN.

Taken altogether, the tone of the British timber market is decidedly firm. Cargoes of wood goods are still being received, but the greatest interest centres in contracts for next year's supplies. We have not learned of any contracts of importance being placed with shippers of Canadian lumber, but as a considerable business has been done in Baltic goods, it is quite probable that some contracts have been entered into for Canadian pine and spruce. The contracts placed for White Sea goods represent an advance of from 20 to 30 shillings per standard in comparison with last year's prices. It is not expected, however, that Canadian lumber generally will command a similar advance, but it is quite probable that prices will be higher all round and that spruce in particular will realize comparatively high prices. Spruce and pine deals are now very firm. At a recent sale held in London first quality spruce sold at £8 5s. for 6 ft. 2x7, and at £8 for 6 ft. 2x6. Two lots of 3x9 second spruce sold at £8 15s., and a parcel of first quality Quebec oak, ex Highfield, at £5 to £5 5s. per load. In some Irish ports there is a scarcity of Norway flooring, and it is thought that Quebec flooring will be purchased more freely in the future.

STOCKS AND PRICES.

The barque Luarca has completed loading lumber at Weymouth, N.S., for Buenos Ayres.

The C. Beck Manufacturing Co., of Penetanguishene, Ont., have over 200 men in the woods getting out logs.

The shingle mill of the Parry Sound Lumber Co. closed down last week, after having cut 11,000,000 shingles during the season.

Chas. Burrill & Co., of Weymouth, N.S., have shipped this season 750,000 feet of lumber that had been on their wharves for three years.

The Newville Lumber Co., of Parrsboro, N.S., are shipping from that port to New York large quantities of pine and spruce lumber and laths.

Log run lumber is quoted at Saginaw, Mich., at from $16 to $25. Box stock is worth $14 to $16, mill culls $12 to $14, and Norway $12 to $18.

It is stated that between seven and ten million feet of logs will be cut along the line of the St. Martin's railway in New Brunswick this winter.

The schooner Etta A. Simpson cleared from St. John, N.B., last week for Barbados, West Indies, with a cargo of lumber, shipped by A. Cushing & Co.

Wm. Peter, of Parry Sound, is this winter taking out 18,000,000 feet of logs, which will be sawn at the Parry Sound mill. The McKinley-Wood Lumber Co., who have a small mill near Parry Sound, expect to saw 2,500,000 feet next season.

The well-known firm of E. D. Davison & Sons, Limited, of Bridgewater, N.S., have finished sawing 15,000,000 feet of pine and spruce. They have shipped about the same quantity, leaving 5,000,000 feet in pile, mostly sold waiting for shipment.

G. Niebergall & Son have purchased from Curry & McGregor, of Windsor, Ont., the timber on the lands of the Walker Estate. There are about 600 acres, and the timber will keep the mills at Camp Palmer busy for the next two years.

The estimate of the proposed cut of logs on the St. Croix river, in Maine, this winter is 40,000,000 feet, as against 25,000,000 feet last winter. The cut on the Penobscot river is estimated at 170,000,000 feet, or 30,000,000 feet more than last year.

The Yale & Columbia Lumber Co., Limited, has been organized, it being a consolidation of all the saw mills of Yale and Kootenay, in British Columbia. R. P. Genelle, of Rossland, is to be manufacturing manager, and Mr. Poupoie financial manager.

Thompson Smith's Sons, of Cheboygan, Mich., have started operation on their limits on Birch Island, Algoma, and will take out a considerable quantity of timber. The logs will be cut on Indian reserve lands and will be taken to Cheboygan for manufacture.

There is likely to be a great scarcity of shingles of every variety this winter. Most of the shingle mills are shut down, and eastern wholesale dealers have unusually light stocks. Sales at Buffalo are being made on the basis of $4 for best 18 inch pine.

A Michigan firm are, it is reported, looking over the timber limits and saw mill of Moore & Macdowall, at Prince Albert, N.W.T., with a view to purchase. This is one of the largest saw mills in the Territories, in connection with which there are valuable spruce limits.

About three weeks ago the Stevens Lumber Co., of Woodstock, N.B., attempted to take down their logs from the Big Machais, where they have been hung up since last spring. There is 5,000,000 feet in the drive. After working several days they were compelled to give up the task. The drive was gotten down as far as Ashland, but is still 60 miles from the mill.

The Herrmann Lumber Company, of New York, have just closed a contract with Armour & Charlebois, of Hull, for the purchase of the cut of hardwood timber at the Wakefield mill of the latter firm. The quantity is about 1,000,000 feet, and the contract price is understood to represent an advance of about 20 per cent. on last year's prices. Bailey Bros., of Aylmer, Que., have also sold to the Herrmann Company large quantities of hardwood timber, chiefly birch, elm, maple and ash.

E. F. Stephenson, Crown Timber Agent at Winnipeg, states that the quantity of lumber cut last season was fully twenty-five per cent. greater than in any previous year. The quantity of logs cut in Northern Minnesota and floated down the Rainy River was 37,000,000 feet, while that cut on the Canadian side was 45,000,000. Of this total of 82,000,000 feet, it is said that 77,000,000 feet has already been disposed of, which leaves an unusually small quantity in the yards. There were cut during the season between Rat Portage and Fort William over 800,000 ties.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade received at the office of the High Commissioner for Canada in London, Eng., during the two weeks ended November 17th :

1. An Irish firm ask for the name of firms who supply wood cut to sizes for boxes.
2. A Liverpool house doing a general importing and exporting trade in produce and manufactures is ready to consider proposals for handling Canadian goods, and wifl act as purchasing or sales agent for one or two good firms.
3. Walnut boards of good quality, and wooden screws, are required in considerable quantities by a London firm.
4. Enquiry is made for firms in Canada who would supply cheap wood mantel-pieces to be sent over in a knock down condition.

Canadian manufacturers may open up correspodence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN, by whom it will be forwarded. When writing refer to the number of the enquiry.

BUILT-UP VENEER BOARDS WANTED.

A manufacturing company in Great Britain with an extensive connection are desirous of importing from Canada built-up veneer boards. They use a large quantity of boards of this class, which at present are largely imported from Russia. Manufacturers in a position to supply such are asked to send details as to the capacity of production, price, etc., to the publishers of the "CANADA LUMBERMAN," by whom it will be forwarded to our correspondents.

THE EASTERN STATES MARKETS.

In the New York market pine mill culls are quoted at $20, although it is said that few sales are being made at this figure. Perhaps $18 would be nearer the actual market price. Comparing this with the price obtainable in recent years, which was $8 to $9 per thousand, an idea may be obtained of the tone of the pine market. Spruce in New York is selling freely, and there are no unsold cargoes on the market. Eastern cargoes of wide stuff sell readily at prices ranging from $20 to $24, with two inch cargoes held at $17 to $19. Cargo lath have lately arrived rather more freely, but the market has absorbed all offerings readily, and is quite steady at $3.10 to $3.15.

From Boston comes the report that practically all of the river mills in the east have been shut down. There is an undercurrent of activity in building circles which promises an active season during the winter months. Lath and shingles are sold ahead of the saws and are very firm in price, but clapboards continue dull. Uppers and selects in pine are a trifle slow, but almost any other grade from a fine common down to mill cull is wanted.

Haines & Co., of Buffalo, have lately received large consignments of white pine shingles from the Georgian Bay, as well as red cedars from the coast.

THE BARBADOS MARKET.

Of the Barbados lumber market Messrs. Clairmonte, Mann & Co., in their circular dated November 11th, say :

There have been three arrivals with white lumber during the fortnight, all of which have been sold for other markets. The local demand for both white pine and spruce has fallen off, but there will be a better enquiry for the latter about the end of the year. Last local sales were—white pine, $22 for first quality and $17 for second quality ; spruce at $17.50 for first quality, and $13.50 for second quality. The cargo of spruce, ex Maiden City, referred to in our previous reports, has not been sold.

SHINGLES.—Gaspe cedar in supply ; we note the importation of 835,000 ex Neva, sales at $8.50. Cedar laying, $2.57 ; spruce laying, $2.40 ; cypress, no late sales, worth $8.50 to $9 for 8 in. hearts, $6.50 for 6 in. saps. Arrivals : October 30th, bark Lizzie Curry, from Hantsport, N. S., with 340 M feet white pine, sold for Trinidad, at $20 net round for first and second quality ; November 2nd, brigt. Ora, from Jordan river, N. S., with 295 M feet white pine, sold for Trinidad, at $21 round for first and second quality ; Nov. 6th, schooner John F. Kranz, from Hantsport, N. S., with 411 M feet white pine, sailed for Demerara ; Nov. 7th, schooner Neva, from Paspebiac, with 835 M long Gaspe cedar shingles, 400 sold at $3.50, remainder stored ; 165 M cedar laying do, sold at $2.56

BUSINESS NOTES.

G. W. Murray, planing mill, Winnipeg, Man., is said to be offering to compromise.

The Harrison River Mills, Timber & Trading Co., Harrison River, B. C., has been incorporated.

Perron & Desbiens, saw mill, St. Jerome, Que., have dissolved partnership.

R. T. & Wm. Richardson, saw mill owners, Cairngorm, Ont., have dissolved partnership, R. T. Richardson continuing.

Montpetit & Co., planing mill, Coteau Station, Que., are reported to have filed consent of assignment.

SHIPPING MATTERS.

The str. Merrimac, from Quebec, October 27th, for Belfast, Ireland, with a cargo of deals, is several days overdue, and it is feared that she has become disabled.

Following are the current rates on wood goods from St. John, N.B., to the ports stated, per regular winter steamers: Liverpool, spruce deals, 47s 6d per standard; birch timber, 21s 3d per load. Manchester, spruce deals, 50s per standard; birch timber, 22s 6d per load. London, spruce deals, 50s per standard; birch timber, 22s 6d per load. Glasgow, spruce deals, 52s 6d per standard; birch timber, 22s 6d per load. Belfast, spruce deals, 50s per standard; Dublin, spruce deals, 50s per standard. Birch deals usually pay about 5s per standard more than spruce to all ports.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., DECEMBER 6, 1899 No. 46.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

AUCTION SALE

OF

Timber Berths

DEPARTMENT OF CROWN LANDS
(Woods and Forests Branch),

TORONTO, November 1st, 1899.

NOTICE IS HEREBY GIVEN THAT, UNDER authority of Order-in-Council, TIMBER BERTHS as hereunder mentioned in the ALGOMA, NIPISSING and RAINY RIVER Districts, viz., the Townships of Bowell, Foy, Harty, Lumsden, Ryan, and part of Moncrieff, in the District of Algoma; the Township of Norman, part of Capreol, Berth No. 4 Davis, and the north part of the Township of Widdifield, all in the District of Nipissing, and certain small areas in the District of Rainy River, will be offered for sale by Public Auction at the Department of Crown Lands, Toronto, at the hour of one o'clock p.m. on

Wednesday, the Twentieth Day of December Next

☞ Sheets containing conditions and terms of sale, with information as to Areas, Lots and Concessions comprised in each Berth, will be furnished on application personally or by letter to the Department of Crown Lands or to the Crown Timber Offices at Ottawa and Rat Portage.

E. J. DAVIS,
Commissioner of Crown Lands.

N.B.—No unauthorized publication of this advertisement will be paid for.

FOR SALE.—40,000 FEET DRY HEMLOCK, 2×6 inches, 12 feet. Write REID BROS., Hepworth Station, Ont.

FOR SALE.—TAMARAC, SAWED ANY SIZE or length, Cedar and Tamarac Ties, and Cedar Posts. Write YOUNG & LESLIE BROS., Owen Sound, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

IF IT IS A LUMBER BUSINESS YOU WANT, write me. I have for sale several Saw Mills in good timber localities; also large and small Timber Limits and Lands. JOHN DRUMMER, 142 Jarvis Street, Toronto.

WE ARE PREPARED TO CUT OR BUY FIVE million Feet of Sawlogs. Must be early spring delivery. Mill on south shore of Georgian Bay. Latest machinery. We also have one of the best log towing outfits on the bay. Box 80, CANADA LUMBERMAN.

TIMBER LIMITS

TIMBER LIMITS, FINE WATER POWER, Saw Mill, Houses etc. for sale. Most advantageous for pulp manufacturing, as the pulp wood is practically inexhaustible. Apply to H. M. SIMPSON, 29 Canada Life Building, Montreal. Telephone, Main, 3344.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

FOR SALE

NEW SAW MILL AND TIMBER LIMITS

In the Parry Sound District, on the Cannda Atlantic Railroad.

HAVING DECIDED TO OFFER FOR SALE our Saw Mill and Timber Limits, consisting of about one thousand seven hundred acres of Pine, Hemlock, Beech and other valuable Timber, which are conveniently situated to water and Mill. Would sell outright or would retain any interest to suit purchaser. Good reasons for selling.

For further particulars address Box 331, Parry Sound, Ont.

VALUABLE VIRGIN

TIMBER LIMIT

FOR SALE BY AUCTION.

The undersigned has been instructed to offer for sale by Auction at the

QUEEN'S HOTEL, TORONTO,

at 8 p.m. on WEDNESDAY, DECEMBER 20TH, 1899, subject to the conditions which will be announced at the time of sale,

TIMBER BERTH NO. 1, MONTEITH

(Being about 16¼ square miles), in the Parry Sound District.

This berth is one of the best in the province, and is very handy to operate It is within 2 miles of Seguin Falls Station, on the Parry Sound Railway.

The license includes all the timber on the berth.

For maps and other particulars apply to

PETER RYAN, Toronto.

WANTED—10 MILLION FEET OF SPRUCE or Red Pine Laths, 2 to 5 feet long, one inch wide by 3/16-inch thick. "GAMA," c/o CANADA LUMBERMAN.

MACHINERY FOR SALE.

TWELVE-INCH BUZZ PLANER, 24-INCH Surface Planer, 8 h.p. Upright Engine and Boiler, and Four Side Sticker; all modern and in first-class condition. TORONTO MACHINERY SUPPLY COMPANY, Toronto.

WANTED.

FOR JUNE, 1900.—50 M FEET CUBIC FLAT Tamarac, 50 M feet cubic Round, Flat or Square Pine, for which cash will be paid on delivery at Sorel, Que. For further particulars, address JAS. SHEPPARD & SON, Sorel, Que.

CURRENT TRADE CONDITIONS.

ONTARIO.

The number of new buildings that have been commenced late this season is much larger than has been known for some years past. The result of this cannot but be beneficial to the lumber trade. It will assist in maintaining a steady demand for lumber throughout the winter months. During the past week the market has shown no signs of weakness. Buyers report great difficulty in locating desirable stock, as manufacturers have very little unsold lumber in their yards, and many of them have sold far ahead. It is almost an impossibility to purchase any quantity of box lumber, and box makers who have not purchased in advance of immediate requirements will find themselves in an uncomfortable position before spring. The advance in the price of box lumber has been followed by higher prices for boxes, the increase being about 50 per cent.

The lath situation has not been relieved to any extent. No. 1 lath ranges from $3.50 to $3.75 wholesale in Toronto, and No. 2 is quoted at $2.75. Although no change has been made in our quotations on shingles, we believe the prices which manufacturers are asking would warrant a still further advance in wholesale prices.

QUEBEC AND NEW BRUNSWICK.

Extensive preparations have been made in the eastern provinces to obtain a large supply of logs for next season's operations, and it is probable that the production of pine, spruce and hardwood lumber next season will be larger than in the past season. The condition of the trade at the present time is such as to encourage an increased cut. The manufacturers, with scarcely an exception, have disposed of their season's production, and are being offered contracts for next year at very satisfactory prices. It is expected that the British demand will remain firm throughout next season, while an increased market in the Eastern States may reasonably be looked for.

The shipping returns of the exports of lumber to the United Kingdom and continental ports from Montreal show a decrease of over 41,000,000 feet as compared with the season of 1898. It is possible, however, that while the exports of Montreal were smaller, this fallling off may be more than made up by increased shipments from other ports.

UNITED STATES.

The position of the lumber business of the United States is one which is causing buyers much concern. Prices are admittedly very high, and the question for the dealer to decide is whether he should contract for supplies for next year at present quotations or wait until the spring in the hope of being able to make more favorable terms with manufacturers. In the case of white pine, it is believed that the better grades will not weaken next year, but competition from the southern production may bring down the present prices of mill culls and low grade stock. This is not expected, however, until after sawing operations have been commenced and the dry lumber comes on the market. In hardwoods the situation is a little different. Usually there is a considerable quantity in the wholesale yards and at the mills, but this year the production has gone into consumption almost as rapidly as it was ready for shipment. This will probably be the experience next year. Nor can the southern woods take the place of many of the northern hardwoods. Considering these facts, the prospect is that, with a continuance of the present activity in general manufacturing lines, the hardwood market will lose none of its strength next season.

The demand for both pine and hardwood lumber has fallen off slightly during the past week, but short stocks are still the rule. In the lower grades of pine and in oak, ash and basswood this shortage is most pronounced. There is a good demand for maple, but the supply is more plentiful than that of many of the other woods. Spruce continues to strengthen as the weeks go by, and prices are being firmly maintained. The clapboard market is dull and lifeless, but shingles and lath are constantly enquired for and advancing in price.

FOREIGN.

The wood market of Great Britain is extremely firm. Most descriptions of

timber are from 20s to 30s per standard higher than they were last spring. Sales of cargoes for first open water delivery have been made at advanced quotations. Finnish whitewood, 2½×6½, has been sold at £6 15s f.o.b. on the north-east coast of England. The reports from all timber producing countries are that shippers are asking prices higher than were paid one year ago, and that they show no disposition to weaken in their prices.

Both spruce and pine deals in stock have lately undergone an advance, as there seems to be an opinion that before next year's deliveries are to hand it will be difficult to purchase any quantity of desirable specifications.

At Irish ports, particularly Dublin and Belfast, the market is practically bare of spruce, and merchants are now asking £15 per standard of 120 pieces 12×9×3. Long lengths in spruce are much enquired for.

A moderate trade is reported in waney and square timber, although this class of goods has not advanced in price to the same extent as deals. The Timber Trades Journal reports a scarcity of ash.

STOCKS AND PRICES.

Parker & Howe, of Dixville, Que., are getting in a good supply of hardwood logs this winter.

F. E. Neale, of Chatham, N. B., shipped this season 62,000,000 feet of lumber, chiefly to Great Britain.

In Chicago white pine lath is quoted out of the yards at $4.50 and $4.75, and mixed hemlock about 25 cents a thousand lower.

A recent rain enabled the St. John Sulphite Pulp Co. to get to their mills at Mispec, N. B., 3,000,000 feet of logs which had been hung up.

Wm. O'Neill, of St. Martins, N.B., will operate four rotary mills during the winter, and expects to cut between four and five million feet of deals.

At the crown lands office, Fredericton, N. B., a berth of 2½ miles, located at Clarendon, Charlotte county, was sold to Smith Bros. at $151 per mile.

D. Bailey, who operates a saw mill near Columbia, B. C., has been given a contract to saw 1,500,000 feet of lumber for a flume to be built in connection with the Granby smelter.

J. L. McKay, of Golden, B. C., is taking out 4,000,000 feet of first-class larch and fir. Next year he will operate a shingle mill in connection with the Athalmer saw mill.

Alexander Fraser, of Ottawa, is reported to have sold his timber limits on the Coulonge river to Gillies Bros., of Breaside, Ont. The transfer involves 200 sq. miles of first-class pine limits.

Hemlock shingles are selling in the Boston market at $2.50 for 16 inch. White cedars are quoted at 35 cents less than pine shingles. In Boston Washington red cedars sell at $3.10 to $3.25 and California red cedar shingles at $3.40.

The saw mills of the Rat Portage Lumber Co. have closed down, after cutting 50,000,000 feet of lumber. Last winter the company took out 55,000,000 feet of logs, and it is expected that the cut this winter will exceed this amount by twenty-five per cent.

The Montreal Star gives the following figures as showing the shipments of lumber from Montreal to the United Kingdom and continental ports by the chief shippers: Watson & Todd, 55,779,706 feet; Dobell, Beckett & Co., 53,421,275 feet; W. & J. Sharples, 52,180,549 feet; R. Cox & Co., 35,732,949 feet: J. Burstall & Co., 26,887,315 feet; McArthur Bros., 24,368,952 feet.

AGENCY WANTED FOR SPRUCE DEALS.

Mr. A. Couspeire, 8 Rue Drouot, Paris, France, desires to represent some Canadian manufacturers for the sale of spruce deals in France. He wishes to obtain an agency for a Quebec firm and also for one or two New Brunswick firms, and would be pleased to have an interview with manufacturers who may visit Paris.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is no letting up in the firm condition of the lumber market, as nobody should know better than the Canadian lumberman. Every report from that side of the line is to the effect that the asking price there is stiffer than our most inflexible mill man dares to put on his cut, and, moreover, the position is backed up by a dock that is bare of any lumber but the greenest, and in some cases so much of even that sold that no more sales will be booked. It looks as though the $2 tariff not did kill the lumber trade of Canada after all.

There is a great scarcity of box lumber yet, and from all reports it is not Canada that is likely to help us out on that line, for the Standard Oil Company, which runs its big box factory in Oswego mainly on Canadian box lumber, is said to be very short and obliged to buy of its local competitors.

This is not to say that our box companies are short, for such is not generally the case. They looked out for themselves, and the result is that they are about the only ones who are well fixed in that direction. Still, even they are not feeling so very easy over the situation, for it is not disclosed where they are to get the next supply, nor how much they are to pay for it. Another source of uneasiness is the fact that they have made most of their season's profits on lumber that did not cost nearly as much as it would now, so there must be a very material pushing up of the price of boxes before there can be a continuation of this season's profits.

We are looking to Canada anxiously for shingles, but the supply of them is not what it ought to be anywhere, and Canada is not apparently any better off on them than we are. So many shingle mills are idle or have been set to sawing out straight lumber, as being more profitable, that it is impossible to keep the stock of shingles up. All sorts are short.

There is still a more easy state of things in the hardwood yards than in pine, and all because the hardwood dealer became alarmed over the conditions and was obliged to go to buying his own timber. He was willing to go to Canada for hardwood and pay the duty, and did so just as long as there was any to be had, but the hardwood men have all left that section now and, for a wonder, the pine men, who were driven out by the tariff, are back there again, eager for anything in the shape of lumber. Considering the amount of condescension this indicates, there really ought to be less stiff-neckedness on prices. We were awfully sorry, too, to note that the Canadian mill man was aware of the advance in prices as soon as we were, so that there was no chance for any neighborly buying on the quiet over there before the situation got out.

Well, there is no more tariff talk. That is some consolation, and if some of the people who went out of the business here because their interests all happened to be in Canadian timber are not sorry they gave it up, then most folks are mistaken. One thing is sure, some of those who did very little for a time, the Holland & Emery Company, for instance, are hard at work now, developing their timber and apparently doing well.

There is some talk of a decline in pine lumber, but it all comes either from the consumer or the dealer, who holds that prices are higher than they should be and thinks that he could do better if they had not gone so high. It is a clear impossibility to come down now, or at all for that matter, unless business generally slows down a good deal. There is demand enough to keep lumber moving and it will continue until other branches of business are injured in some way. And this is not looked for.

This market is going into winter with a full stock, except that it is likely to turn out that some sorts and grades are not up to the average. Nearly all the Norway is in a few hands and the low grade pine is not plentiful. Shingles cannot be made to carry us more than barely through the winter, and in hardwoods there is a great scarcity in ash and basswood. The shortage is made up somewhere, for Tonawanda is calling attention to her big stock, and it looks now as though Buffalo would have quite as much as last winter.

There is nothing very novel in the situation here. The retirement of the Superior Lumber Company marks the only change of late. So far no one appears to be ready to take the company's yard off its hands.

At Tonawanda the consolidation of Swan & Donogh and Calkins & Co. into the Swan-Donogh Lumber Company has been followed by the setting up of a box factory by the company in the Calkins mill, which was for some time till lately occupied by F. I. Alliger in the same business, the latter having not long ago moved into a box factory of his own.

The R. Laidlaw Company has now made definite arrangements to move from the Erie basin to the Ohio basin, where there will be more room, turning the old yard over to Montgomery Bros. & Co., who had a very much smaller yard than they needed. The Laidlaw yard is not so full of lumber as it was last fall, though the amount is liberal. The prospect of moving and the high freights induced the company to leave quite a large amount in upper lake yards till spring.

Haines & Co. are congratulating themselves on the big lot of shingles they bought in the Midland district late in the season, the last, a cargo of about 4,000,000, being just in. From that same district comes the report that lath is held for $3.25 at the mills, a price that sets people to wondering how houses can be built any more.

Quite a large delegation of our hardwood dealers went to the National convention at Memphis, Messrs. Scatcherd, Vetter and others remaining afterwards to look after their timber and mills beyond that city.

BUFFALO, Dec. 4, 1999. J. C.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

SPRUCE.—The market for spruce lumber holds firm, with very little change in prices. The arrivals of cargoes of late have been small, which makes the car lumber in better demand, and we look for a brisk demand through the winter for all grades of spruce. The combination prices are being adhered to as the demand is larger than the supply. We quote:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in and under	16.50
Merchantable boards planed one side	15 00
Out boards p'aned one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13 50

There is a good demand for hemlock boards and prices are good:

Matched hemlock boards	$16.50 to $18 00
Pennsylvania	15 00 " 16.00
Eastern	14.50 " 15.50

CLAPBOARDS.—The market for clapboards is not as good as it has been, as few are being used, but there is a feeling that they will sell at better prices in the spring:

Pine, extra, 6 in	$40.00 to $42.00
Pine, clear 6 in	35.00 " 37.00
Pine, 2nd clear, 6 in	30.00 " 32.00
Pine extra No. 1	20.00 " 25.00

All 5¼ inch of the same grades will sell at about $5.00 per thousand lower than above prices.

Spruce, extra, 6 in	$28.00 to $29.00
Spruce, clear, 6 inch	26.00 " 28 00
Spruce, 2nd clear	22.00 " 24.00
Spruce, Ex. No. 1	6.00 " 18.00

All 5½ inch of these same grades are selling at $5.00 per thousand less.

SHINGLES.—Shingles hold prices well, as they have been scarce all the season, and no quantities of them have accumulated, but there has been a good many of the California redwood shingles shipped to this market, and that has kept the prices on cedars from going very much higher:

Extra clear, best brands	$3.10 to $3.25
Clear cedar	2.75 " 2.75
2nd clear cedar	2.10 " 2.25
Extra No. 1	1.50 " 1.75

LATH.—Laths are firm, with good demand for them at $2.65 to $2.70 for 1⅝ inch, and $2.40 to $2.55 for 1½ inch.

BOSTON, Dec. 4th, 1899.

SHIPPING MATTERS.

The lumber freight rate from St. John, N.B., to New York is now $3.25. The rate on laths has dropped to $3.

Very little tonnage is available for lumber cargoes for South America. Freights are on the basis of $9 from Boston to Buenos Ayres, $9.50 from Portland, and $10.50 from New Brunswick and Nova Scetia ports. The barque Alexander Black gets $10 on lumber from Boston to Rosario.

LATHS WANTED.

In the "Wanted and For Sale" department will be found the advertisement of a party who desires to purchase 10,000,000 feet of spruce or red pine laths, 2 to 5 feet long, 1 inch wide and $\frac{5}{16}$-inch thick. This specification is worthy of the attention of Canadian manufacturers. Letters are to be addressed to "Gama," at this office.

MICHIGAN VIEW OF THE LOG DECISION.

The Saginaw correspondent of the American Lumberman thus refers to the decision of Justice Street in the suit brought by the Michigan lumbermen against the Ontario government:

There is much feeling expressed over the adverse decision of the Canadian court in the suit brought to test the constitutionality of the Ontario log embargo act. It is understood the matter is to be appealed to the Privy Council. It is also likely that a strong effort will be made to influence the Joint High Commission to reach an adjustment of the matter. It will bear heavily upon Saginaw river lumbermen who have started camps in Canada and are putting in logs in the expectation that there would be some arrangement reached which would enable them to bring their logs over. Unless this is brought about in some way, the only logs that will come over next season will be stock cut on Indian reserve lands and from deeded lands over which the Ontario government has no jurisdiction. This year there has been only about 75,000,000 feet rafted across, and some of these were old logs cut before the law prohibiting rafting was operative.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., DECEMBER 13, 1899 No. 47.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

AUCTION SALE

ADVERTISER DESIRES TO COMMUNIcate with Saw Mills favorably situated to Montreal, Portland or St. John, to ship Spruce and Pine Box Shooks to Scotland. Apply CANADA LUMBERMAN office for name and address.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, ran this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

VALUABLE VIRGIN

TIMBER LIMIT

FOR SALE BY AUCTION.

The undersigned has been instructed to offer for sale by Auction at the

QUEEN'S HOTEL, TORONTO,

at 8 p.m. on WEDNESDAY, DECEMBER 20TH, 1899, subject to the conditions which will be announced at the time of sale,

TIMBER BERTH NO. 1, MONTEITH

(Being about 16¼ square miles), in the Parry Sound District.

This berth is one of the best in the province, and is very handy to operate. It is within 3 miles of Seguin Falls Station, on the Parry Sound Railway.

The license includes all the timber on the berth.

For maps and other particulars apply to

PETER RYAN, Toronto.

WANTED.

20 M FEET 3×10-16 NORWAY PINE—THOS. MYLES SONS, Hamilton, Ont.

WANTED—10 MILLION FEET OF SPRUCE or Red Pine Laths, 2 to 5 feet long, one inch wide by 3/16-inch thick. "GAMA," c/o CANADA LUMBERMAN

CURRENT TRADE CONDITIONS.

ONTARIO.

Navigation on the lakes is now practically closed, and the movement of lumber is confined to rail shipments. There is a steady trade doing in this way, as manufacturers and dealers have not yet caught up with orders placed in the fall, but which could not then be filled owing to an insufficient supply of cars. The open weather has also encouraged the demand. If any change in the situation should be reported, it is in the direction of higher prices and greater scarcity of low grade pine. The manufacturers are unable to meet the demand for box lumber, the supply of which has passed into the hands of wholesale dealers and box manufacturers, and by the latter the better grades are being purchased. There is a more plentiful stock of the upper grades, but on the whole it is many years since the yards have been so nearly cleaned out. These remarks apply alike to pine, hardwoods, shingles and lath. In the latter there is almost a famine, and in the Georgian Bay district those who have any stock are asking $3.25 at mill for No. 1. Dealers in Toronto report numerous inquiries for basswood and ash lumber for shipment to the Eastern States.

QUEBEC AND NEW BRUNSWICK.

Several transactions in spruce are reported to have taken place which show the strength of that lumber. It is understood that Messrs. H. R. Goodday & Co., of Quebec, have contracted for the cut of several mills, including the well-known Breakey stock, which represents about 15,000,000 feet. Messrs. Dobell, Beckett & Co., Burstall & Co. and W. & J. Sharples are also believed to have purchased several Quebec cuts, and on the whole business is progressing favorably. While the prices have been kept quiet, those who pretend to know state that they are considerably higher than last year's prices. This is probably true, as spruce has improved wonderfully of late in the British market. The Maritime province production has also been contracted for to some extent, according to reports, and at prices from three to four dollars higher than were paid for the past season's cut. The mill men are in unusually good spirits, and look forward to a busy year in 1900. Most of the shingle mills are closed down, and there are very few shingles to move. For cedar, the price for No. 1 quality is $3.15 to $3.25, taking Boston rate of freight.

UNITED STATES.

Although there has been a visible falling off in the demand for lumber throughout the Eastern States, the market does not seem to have weakened in the sightest degree. Retail dealers and consumers are acting on the theory that prices will not advance during the winter months, and that in the spring there is a probability that values will be lower. The manufacturers and wholesalers, on the other hand, contend that, while there is no expectation of a further general advance, it is quite probable that some grades will be marked higher before spring. One point in favor of the maintenance of present prices is the fact that contracts are being placed for next season's cut at current quotations, which indicates a good deal of confidence in the future of the market.

Buffalo and Tonawanda wholesale yards are fairly well stocked with pine, though some grades, such as box, No. 2 and No. 3 cuts and uppers, are in lighter supply than usual, as the box makers have been buying very heavily. Cutting-up stock is very scarce in the Tonawanda market. Throughout the New England States pine is rather quiet, but there is a steady movement of spruce, which is unusually firm. In New York city the demand exceeds the available supply. Of 9 and 10-inch, 13-foot lengths, very little is to be had, and almost any price can be obtained. Spruce clapboards show little life.

In the hardwood market there has arisen an extraordinary demand for basswood, due to some extent to the scarcity of poplar and cottonwood. There is an easier feeling in elm and less complaint of scarcity of oak, but no prospect of lower prices.

FOREIGN.

The tone of the British wood market is very firm. For stocks on hand high prices are being asked, and most buyers are accepting them without a murmur, as indications point to still higher prices before next spring. Business for next year is promising. Some sales of spruce are recorded, but in pine there seems to be a disposition to wait in the hope that importers will weaken in their prices. But this can scarcely be expected except in the case of lumber for late summer or fall delivery, when there is a possibility that lower values will rule.

At London 1st quality spruce is selling at £10 10s., 2nd quality at £9 5s. to £9 10s, and 3×9 3rd at £9. At Glasgow Quebec white pine deals of first quality, broad dimensions, now sell at £26 2s. 6d. to £27 3s., which is an advance of about 10s. as compared with one month ago. Nearly every kind of square and waney timber has also advanced, as will be seen by the prices published in another column. Birch timber is wanted, and brings 1s. 7d. to 1s. 9d. per cubic foot for 14 and 15-inch average, and 1s. 11d. to 2s. for 16-inch.

PERSONAL.

Mr. F. B. Budgett, of the firm of Budgett Bros., timber importers, London, England, expects to arrive at the Queen's Hotel, Toronto, about the 14th inst., where he will remain for a few days for the purpose of giving lumber manufacturers and exporters an opportunity to call upon him. His firm acts as agents for, and also buy outright, all kinds of wood goods, both rough and manufactured.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

After an unusually busy and prosperous season, the mills in the immediate vicinity of Ottawa have closed down, and operations are now transferred to the limits. The prospects for 1900 are bright, as Canadian lumber is in great demand at advanced prices in both the English and American markets. Lath, for instance, has advanced from 62½ cents to $2.50 per thousand, while mill owners and jobbers predict that this article will sell much higher before next season's cutting operations commence. There is a famine in lath in the American market, and the Canadian cut fetches its own price. Ottawa dealers for the first time are shipping lath to remote points in Pennslyvania and the New England States. The supply of lath in the Ottawa district will, it is admitted, fall short of the American demand. Shingles are also a ruling factor in the lumber trade.

The marked activity in American manufacturing centres has created a steady and increased demand for the cheaper grades of Canadian lumber, but as prices did not advance till well on in the season, the Ottawa mill owners are not as far ahead as the increase in business would lead one to expect. Prices in the English markets have advanced during the year from 5 to 25 per cent. The business done has also shown a marked increase. Thus, Watson & Todd, the Liverpool importers of Canadian lumber, have bought 56,000,000 feet of Canadian deals this year, whereas last season only 44,000,000 feet were secured. This firm purchased heavily from the W. C. Edwards Co., the Hull Lumber Co., and Bronson & Weston. The firm of Robert Cox & Co. has, however, not bought so extensively. The trade done by the Export Lumber Co. and other Ottawa companies with South American ports has also been better than it was last year. So heavy have the purchases for the British and American markets been, that scarcely any lumber can be secured in the Ottawa mill yards for the local trade, and builders are pressed hard for the necessary material.

Wages of lumbermen are higher, but the present influx of mill hands, consequent upon the closing of the mills, will have a tendency to lower them. More men have been sent into the Georgian Bay district than last year, but the number is not increased to any extent in other districts. The open fall has favored the lumbermen, and should the winter be a good one for lumbering operations, the supply of logs next season will be large. Greater areas of limits are being worked this year to fill the increased mill contracts.

W. C. Edwards & Co. have just shipped to the Paris Exposition the show cases for the Canadian exhibits. There are in all 2,000 feet of cases, making five carloads. They are built of British Columbia cedar, Douglas fir and larch, and white pine from Eastern Canada. The woods have been polished and grained, and in themselves will be an appropriate advertisement for Canada.

D'Amour & Charlebois, lumber dealers, of Hull, intend to enlarge their planing mill shortly. The addition will be a two storey one, 100 feet by 30 feet. In it will be placed new rip and band saws, and machinery for box manufacturing. Part will also be used for storage purposes. This year the firm have turned out 150,000 boxes of different sizes for the Canadian market, and estimates have been furnished on another large contract.

The present war in South Africa has interfered considerably with the Canadian lumber trade. The firm of Davidson & Thackray, of this city, which regularly sent shipments of doors, sashes, etc., to Cape Town, Newcastle, Johannesburg and Petermaritzburg, has been compelled to desist owing to the war and the absence of ocean carrying facilities, and can now only ship to Cape Town. All building operations are, of course, at a standstill in the Transvaal, but it is expected that when the war is over, and Britain's supremacy proven, a new and profitable market will be established in South Africa for Canadian lumber, both mill and manufactured. The close of the present desultory struggle in the Phillipines will also indirectly benefit the Canadian lumber trade, through the Americans who will develop their new found possessions.

Ald. Jas. Davidson, a member of the firm of Davidson & Thackray, lumber dealers, will make a business trip to England early in the year.

The high prices reigning in the lumber market will, it is expected, encourage the owners of small stationary and portable mills to take a hand in the business again. In the Ottawa valley these operators are hiring men for their limits, and many mills which have been idle for years will start up again.

Last week after closing the Hull mills, the Hull Lumber Co. sent a gang of mill hands with teams to join the choppers on the limits on the Kippewa river above Mattawa. The Hull mills were closed for six weeks during the season owing to the non-arrival of logs. J. R. Booth's and Gilmour & Hughson's mills ran steadily all season, and shipped more lumber than ever. All the cut now in the yards is already sold, while some mill owners have sold their next year's cut at present prices.

During the past year the Ottawa Lumber Co. has handled over 5,000,000 feet of deals alone. It is expected that between 8,000,000 and 10,000,000 feet will be handled during the coming season. This firm is taking out large quantities of ash, elm, birch and other hardwoods, with which its limits on the Rouge river are well stocked. Access was only secured to these limits a couple of years ago by the extension of a colonization railroad.

The E. B. Eddy Co., of Hull, has a sufficient supply of pulpwood on hand to keep its paper mills running all winter, but nevertheless a shortage in the general supply of pulpwood is looked for, as the logs could not all be floated down to the mills.

A gentleman interested in lumber matters, who recently visited the Hawkesbury Lumber Co.'s limits on the Dumoine river, states that the timber there is as plentiful and of as good a quality as it was 38 years ago, despite the fact that cutting operations have been steadily carried on since. This he attributes to the rapid growth of the pine and the systematic cutting done.

In Davidson & Thackray's planing mill at Ottawa over 8,000,000 feet of lumber was used during the season. This firm has also a saw mill at Quyon, Que., and on its limits on the Quyon and Coulonge rivers 100 men are now working. Last summer a large addition, 66 by 80 feet, was added to the Ottawa factory for storage purposes. The new building is a three storey one, solid brick, and built throughout with hardwood floors.

During the entire winter season a supply of logs will be brought to J. R. Booth's mills at Ottawa, by train over the Canada Ailantic Railway from the Parry Sound and adjacent districts. This will insure a supply of logs for the opening cut at the mill next spring.

OTTAWA, December 11th.

THE GASGOW MARKET.

The Glasgow market is thus reviewed by Messrs. Wright, Graham & Co. in their monthly timber market report of Nov. 30th :

WANEY BOARDWOOD.—Large prime wood is in request, and stock on hand is being held for advanced prices. Price, 2s 8d to 2s 10d for large average ; smaller average and second class wood at 1s 10d to 2s 4d per cubic foot.

SQUARE PINE.—Prime large wood is enquired for. Price, 2s 5d to 2s 7d ; smaller average and poorer quality at 1s 6d to 2s 1d per cubic foot.

RED PINE.—There is a good demand. Large average is quoted at 1s 10d to 2s : smaller average and poorer quality at 1s 6d to 1s 8d per cubic foot.

OAK LOGS.—First-class wood of large size, suitable for railway purposes, has been in good demand. Price, 2s 10d to 3s 3d; smaller average and second quality at 2s to 2s 3d per cubic foot.

ELM LOGS are in special request, especially large prime wood. Price, 2s 6d to 2s 9d ; smaller average and second class at 2s to 2s 2d per cubic foot.

ASH LOGS.—There is a good demand for same. Prime parcels of 15 to 16 inch average are quoted at 1s 11d to 2s 1d ; smaller average at 1s 8d to 1s 10d per cubic foot.

BIRCH LOGS.—The demand continues, and several good sales are reported lately at advanced prices ; 16 inch average and up at 1s 11d to 2s 1d ; 14 to 15 inch average at 1s 7d to 1s 9d per cubic foot.

ROCK MAPLE LOGS.—Prime fresh wood is in demand. Price, 1s 10d to 2s 2d per cubic foot, according to size.

HICKORY LOGS.—Prime tough quality is in demand, and will realize from 2s 2d to 2s 4d. Poorer quality at 1s 8d to 1s 10d per cubic foot

QUEBEC WHITE PINE DEALS.—The demand has been good, and a fair amount of business has been done at advanced prices. 1st quality, broad, £26 2s 6d to £27 3s 1d per St. Petersburg standard ; 11 in., £23 7s 6d to £24 15s ; 7 in. to 10 in. and ends, £17 17s 6d to £20 12s 6d. 2nd quality, broad, £18 18s 1d to £20 12s 6d ; 11 in., £16 10s to £17 10s 7d ; 7 in. to 10 in., £13 8s 1d to £15 2s 6d. 3rd quality, broad, £11 6s 10d to £12 7s 6d ; 11 in., £10 6s 3d to £11 ; narrows, £7 18s 1d to £8 11s 10d. 4th quality, broad, £8 18s 9d to £9 12s 6d ; 11 in., £7 11s 3d to £8 5s ; narrows, £6 10s 7d to £7 4s 4d.

RED PINE DEALS.—The demand is brisk, and shipments are readily sold on arrival. Prices are about, 9 and 11 in. by 3 in., £11 13s 9d to £13 1s 3d per St. Petersburg standard ; narrows, £9 12s 6d to £10 6s 3d.

QUEBEC WHITE PINE BOARDS.—The stock is very low, and large parcels have been sold at advanced prices. First quality, 2 in. thick, averaging 12 in. to 15 in. wide, at £18 18s 1d to £20 12s 6d per St. Petersburg standard ; 1½ in., 12 in. to 15 in., £18 11s 3d to £20 5s 7d ; 1¼ in., 11 in. to 13 in., £17 3s 9d to £18 11s 3d ; 1 in., 10 in. to 12 in., £16 3s 1d to £17 10s 7d ; 1½ and 2 in. strips, 4 in. to 7 in., £15 16s 3d to £16 16s 10d. Second quality 2 in., 12 in. to 14 in., £14 8s 9d to £15 9s 4d ; 1¼ and 1½ in., 12 in. to 14 in., £13 8s 1d to £14 15s 7d ; 1 in., 10 in. to 12 in., £12 7s 6d to £13 1s 3d. Third quality 2 in., 11 in. to 15 in., £9 12s 6d to £11 6s 10d ; 1, 1¼ and 1½ in., 10 in. to 14 in., £8 5s to £10 6s 3d.

SPRUCE DEALS.—The consumption has been good ; prices continue firm, with an upward tendency. Prices quoted—£6 10s 7d to £7 18s 1d for third quality ; £6 3s 9d to £7 4s 4d for fourth quality, per St. Pet. std.

N. B. PINE DEALS.—The demand has been good, and prices have advanced.

N. B. SPRUCE DEALS (2nd quality average).—Advanced prices have been paid and parcels of long lengths are wanted. Prices quoted—£6 17s 6d to £9 5s per St. Petersburg std.

N. B. BIRCH LOGS.—The market is in a very healthy condition, and several parcels have been sold recently at enhanced prices, ranging from 1s 6d to 1s 10d per cubic foot.

N. B. BIRCH PLANKS.—The import has been small. The demand keeps good and prices have advanced. Price— £7 4s 4d to £8 18s 9d per St. Petersburg standard, according to specification.

TIMBER LIMIT TRANSACTION.

Fraser & Co., of Ottawa, have disposed of their timber limits lying between the Coulonge and Crow rivers, containing about 250 square miles, to the Gillies Bros. Co., of Braeside, Ont. These limits are mostly covered with a dense growth of large pine, and are exceptionally well watered by numerous "drivable" creeks flowing from a central part to the main streams, making the haul very short. The Gillies Bros. Co. take over the logging operations which were in progress at time of sale. The price has not been made known. Fraser & Co. purchased these limits from Alexander Fraser in 1896. They are now putting in supplies on some limits they own between the Coulonge and Black rivers, and expect to operate next season.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, are as follows : Ottawa to Oswego, $1.90 per M ft. ; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa, Rockland and Hawkesbury to Montreal, 5 cents per 100 lbs.; Quebec, 10 cents per 100 lbs.; Arnprior to Montreal, 7 cents per 100 lbs.; Quebec, 12 cts. ; Pembroke to Montreal, 8 cents per 100 lbs.; Quebec, 13 cents per 100 lbs.; Ottawa to New York, 15 cents per 100 lbs.; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 11c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs. ; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft.; lath 50,000 pieces, not exceeding 600 lbs. per M pcs. Ottawa rates apply on shipments from Rockland and Hawkesbury.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

The weather here has been very fine, with no snow or cold, and the trade in general has kept up very well for this season of the year. None of the yards have very large stocks, and the prospects for a good winter and spring demand are better than they have been for a number of years, as it would take the natural shipment of some months to give the yards their usual stock, provided they are not moving any lumber. This, taken in connection with the stock that is being sold for present use, makes the demand for spruce and other lumber hold up.

SPRUCE.—Spruce lumber is firm, with a very good request for the season. The open winter has helped the demand for building lumber, while there has lately been better buying for the yards :

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 1 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 f.et and up	15.00
All other random, 9 in and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 pl ned one side	13.0 to $13 50

HEMLOCK.—Hemlock is in good request for the season, with the supply small enough to render the market very firm. Agreement prices are :

Matched hemlock boards	$16.50 to $18 00
Eastern boards	14.00 " 16.00
No. 1	13 00 " 14.00
Pianed one side and matched	16.00 " 17.00

PINE.—Western pine is firm, with a good request for the season :

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 7 .00
Selects, 1 to 4 in	52.00 " 56.00
Fine common, 1 to 3 in	47.00 " 6 .00
Sheathings	40.00 " 56 00
Barn boards	20.00 " 28 00
Coffin boards	20.00 " 24.00

CLAPBOARDS.—Clapboards are fairly well sustained, with offerings not excessive :

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27 00
Spruce, 2nd clear	24.00 " 25.00
Pine, extra	34.00 to $36.0
Pine, clear	30.00 " 33 00
Pine, 2nd clear	28.0

Less than carloads, $. to $1.50 more.

SHINGLES.—Shingles are a shade easier, with heavier offerings :

Extra cedar, best brands	$3.10 to $3 15
Clear cedar	2.65 " 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50

LATH.—New York is reported much firmer on laths, with this market feeling the higher prices paid : 1⅝ inch, $2.70 to $2.80 ; 1½ inch, $2.60 to $2.65.

BOSTON, DEC. 11th, 1899.

The schooner Clifton has been fixed to load laths at St. John for Philadelphia at 75 cents.

A steamship has been chartered on the other side to load deals in May at the Miramichi at 50 shillings.

SOUTH AFRICA

Millmen throughout Canada are invited to correspond with us and give particulars of the woods which they can supply for Constructional and Furniture purposes.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., DECEMBER 20, 1899 No. 48.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

SEALED TENDERS, addressed to the undersigned, marked "Tenders for Railway Ties, &c.," will be received until noon on FRIDAY, THE 29TH INST., for the following Railway Ties, Sawlogs and Pulpwood, namely:—

5,000 Cedar Railway Ties.
10,000 Cedar Posts (8 ins. and over and under 8 ins. in diameter.)
1,000 Cedar Logs.
300 cords Spruce and Poplar Pulpwood,

which will be taken out during the present winter by the Indians of Manitoulin Island, unceded, and delivered on the shore of Lake Huron at convenient points of shipment; also 2,000 Cedar Railway Ties and 100,000 feet B. M. of Black Ash, to be taken out by the Indians of Sucker Creek Reserve during the winter and delivered on the shore of Lake Huron, at different points for shipment.

Tenders should state the price that will be paid in cash for these Ties, Posts, Logs, Pulpwood and Ash. The successful tenderer will be required to make reasonable advances to the Indians as the work progresses.

An accepted cheque for two per cent. of the total value, made payable to the order of the undersigned, should accompany each tender, which will be forfeited in the event of failure to carry out the contract.

The highest or any tender will not necessarily be accepted.

J. D. McLEAN,
Secretary.

Department of Indian Affairs,
Ottawa, 12th December, 1899.

WANTED—Second Hand Lumber Trimmer. Give particulars and price. REID BROS., Hepworth Station, Ont.

FOR SALE.—40,000 FEET DRY HEMLOCK, 2×6 inches, 12 feet. Write REID BROS., Hepworth Station, Ont.

WANTED.

20 M FEET 3 x 10-16 NORWAY PINE—THOS. MYLES SONS, Hamilton, Ont.

WANTED—10 MILLION FEET OF SPRUCE 01 Red Pine Laths, 2 to 5 feet long, one inch wide by 3/16-inch thick. "GAMA," c/o CANADA LUMBERMAN

WE HAVE 200,000 TO 300,000 FEET OF VERY good Beach Logs which we wish to cut to order. Signed, JOHN HARRISON & SONS CO., Limited, Owen Sound, Ont.

WANTED—Immediately, 30,000 feet green Maple Squares, 6½ in x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Box 24, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

THE COMPLETE MACHINERY OF A SAW Mill, consisting of a steam feed large carriage and frame, one rope feed ditto, double edger and trimmers, swing saws, automatic grinders, belts and saws in good order; all made by Waterous, Brantford. Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

FOR SALE.

36 FOOT 8 INCH PRESCOTT FEED STEAM Jump Saw, 40 to 56 inch saw; three block girder steel Carriage, opens 40 inches, Boss dogs, good setworks; Endless Log Haul Up hundred feet chain, could be lengthened; a number of Engines, Boilers and Mill Machinery taken on new machinery. WATEROUS, Brantford, Canada.

TOOL HANDLES WANTED.

The Ontario Bureau of Forestry would like to obtain the names of Canadian manufacturers of tool handles who are prepared to do an export taade with Great Britain.

GOVERNMENT SALE OF TIMBER LIMITS.

Another important sale of timber limits was held by the Ontario government on Wednesday, December 20th, in the legislative chamber at the Parliament Buildings, Toronto. There were present upwards of 125 lumbermen from the various districts of the province, as well as representatives from Michigan. The limits offered comprised an area of 398¼ square miles, situated in the Algoma, Nipissing and Rainy River districts. Some of the lots offered had been burned over, thus decreasing the value of the timber. Of the total area 360 square miles were disposed of, for which there were realized $719,350, or nearly $2,000 per square mile. Considering the quality of the limits, the result of the sale is highly satisfactory. The auctioneer was Mr. Peter Ryan.

The highest price paid was $8,500 per mile, for an area of 9 miles in the township of Norman, Nipissing district, the purchaser being G. G. S. Lindsey, of Toronto, on behalf of a client. Thos. Mackie, of Pembroke, was the heaviest purchaser, securing two of the most valuable limits, at a total of $108,000. Following is the result of the sale in detail:

ALGOMA DISTRICT.

Township of Bowell.—Berth No. 1, 7½ sq. miles, sold to F. Cochrane, of Sudbury, at $4,100 per mile; berth No. 2, 9 sq. miles, W. J. Sheppard, of Waubaushene, $1,300 per mile; berth No. 3, 13½ sq. miles, Dr. Spohn, of Penetanguishene, $100 per mile.

Township of Foy.—Area 36 sq. miles, Booth & Shannon, of Pembroke, 500 per mile.

Township of Harty.—Berth No. 1, 9 sq. miles, Victoria Harbor Lumber Co., Toronto, $2,200 per mile; berth No. 2, 9 sq. miles, Victoria Harbor Lumber Co., $2,300 per mile; berth No. 3, 10 sq. miles, Thos. Mackie, of Pembroke, $3,600 per mile; berth No. 4, 10 sq. miles, Thos. Mackie, $7,200 per mile.

Township of Lumsden.—Area, 31 sq. miles, F. Cochrane, of Sudbury, $2,400 per mile.

Township of Ryan.—Area, 28 sq. miles, John Collins, Sault Ste. Marie, $675 per mile.

Block A, comprising north-west part of the township of Craig, 40 sq. miles, Booth & Shannon, $700 per mile.

Township of Moncrieff.—Area, 2 sq. miles, T. M. Kirkwood, of Sudbury, $200 per mile.

DISTRICT OF NIPISSING.

Township of Davis.—Berth No. 4, 8 sq. miles, Geo. Gordon, of Pembroke, $100 per mile.

Township of Norman.—Berth No. 1, 7 sq. miles, C. Beck, of Penetanguishene, $3,600 per mile; berth No. 2, 5½ sq. miles, C. Beck, $7,000 per mile; berth No. 3, 9 sq. miles, G. G. S. Lindsay, Toronto, $8,500 per mile; berth No. 4, 9 sq. miles, H. H. Cook, Toronto, $3,700 per mile.

Township of Capreol.—Berth No. 1, 9 sq. miles, Geo. Gordon, $5,000 per mile; berth No. 2, 9 sq. miles, F. A. Lett, of Barrie, for the Holland and Emery Lumber Co., $4,400 per mile; berth No. 3, 9½ sq. miles, J. W. Munro, Pembroke, $6,600 per mile.

Township of Widdifield.—Berth No. 1, 4 sq. miles, P. McDermott, South River, $2,300 per mile; berth No. 2, 6½ sq. miles, T. W. Murray, Pembroke, $1,400 per mile; berth No. 3, 5½ sq. miles, H. H. Cook, Toronto, $3,800 per mile; Long Island East and West, ¾ sq. mile, H. H. Cook, $2,000.

RAINY RIVER DISTRICT.

Berth G5, in township of Miscampbell, 9½ sq. miles, H. W. Kennedy, Rat Portage, $300 per mile; berth G6, 5¼ sq. miles, withdrawn; berth G7, 21 sq. miles, withdrawn; berth G8, east of Pipestone Lake, 3 sq. miles, D. M. Robertson, Rat Portage, $800 per mile; berth G9, north of Pipestone Lake, 18 sq. miles, Wm. Power, $350 per mile; berth G10, north of Lake Rowan, 7 sq. miles, Wm. Power, $400 per mile; berth G11, east of Pipestone Lake, withdrawn; berth G12, east of Pipestone Lake, 5 sq. miles, H. W. Kennedy, $300 per mile; berth G13, near outlet of Pipestone Lake, 12½ sq. miles, D. M. Robertson, $60 per mile; berth G14, west of Clearwater Lake, 3 sq. miles, H. W. Kennedy, $250 per mile; berth G15, north of the township of Kingsford, 2¾ sq. miles, D. M. Robertson, $1,100 per mile; berth G16, west of Pipestone Lake, 8 sq. miles, Dr. Spohn, $325 per mile; berth S.V.10, on Long and Storm Lakes, 3½ sq. miles, Stewart & McLellan, Wabigoon, $450 per mile.

CURRENT TRADE CONDITIONS.

ONTARIO.

Most of the large pine mills in the Ottawa valley and the Georgian Bay districts have closed down for the season, but this does not mean that the movement of lumber has ceased. Retail dealers are still buying to some extent, although a lull in the demand is expected during the holiday season. As yet, however, no signs of a falling off have been visible. As the weeks advance the scarcity of low grade stock becomes intensified, and the volume of business is being restricted as a result. There is a more plentiful supply of the upper grades, which have not shown as much strength as common lumber. The impossibility of obtaining the lower grades will, however, compel consumers to use a better quality of lumber for their various purposes. This will in turn give a firmer tone to the upper grades and probably bring about a slight advance in prices. Export business is progressing favorably, and several large deals in the Ottawa valley district are reported to be pending. The cut of W. C. Edwards & Co.'s mills has been purchased by Watson & Todd.

There does not seem to be much life to the shingle trade, the demand having fallen off during the past week. In lath the reverse condition has been experienced. There are numerous orders on file which will probably remain unfilled, owing to the scarcity of the material. There has been an advance of about 25 cents, No. 1 selling in Toronto at wholesale at $3.75 and No. 2 at $3.00.

In the northern pine districts logging operations are in full force. Sufficient snow has fallen to permit of hauling the logs. The production in the Georgian Bay district will no doubt be very heavy, and in the Ottawa valley it is likely to be slightly larger than last season.

QUEBEC AND NEW BRUNSWICK.

Lumber manufacturers in Quebec are likely to realize more per thousand feet for their production of next year than they received for their cut of 1899. Contracts are understood to have been made for

some mill cuts at slightly advanced prices as compared with the figures of one year ago. Square and waney timber is also very firm, and while the prices for last season's production remain unchanged, contracts are believed to have been made for next season's production at higher figures. Birch timber is now quoted in the Quebec market at 17 cents to 18 cents for 14-inch average, 22 to 23 cents for 16-inch, 26 to 27 cents for 17-inch, and 30 cents for 18-inch.

The deal shipments from New Brunswick and Nova Scotia to Great Britain are practically over for the season. Some of the ports in both provinces show a falling off as compared with the shipments of the previous year, but this decrease will be more than made up by the larger shipments to South America and the West Indies, which markets have been unusually active this season. Work in the woods has progressed very favorably, and unless prevented by weather conditions, a large cut of logs will be made in New Brunswick and Nova Scotia this winter.

MANITOBA AND BRITISH COLUMBIA.

Manufacturers and retailers throughout Manitoba and the Territories report a very satisfactory trade for this season of the year. While the cut of the mills has been heavy, stocks in the yards are considerably below the average. Already preparations are being made for an active building season next year. This, coupled with the increased cost of logging operations, will not only maintain lumber prices at their present basis, but it is quite probable that higher prices will rule next season.

The mills in British Columbia are operating to their full capacity on export and local orders. A condition in the export trade which is causing manufacturers some anxiety is the scarcity of tonnage. It is almost impossible to secure vessels, and as high as 80s has been offered for the United Kingdom. It is understood that the Chemainus mills have orders in hand for upwards of 20,000,000 feet of lumber, chiefly for Great Britain, Australia and China, but they have been greatly handicapped through the absence of tonnage. The local demand is also very satisfactory, and prices are slightly stiffer.

UNITED STATES.

A mass meeting of lumbermen from all parts of the United States was held at St. Louis on December 12th. At this meeting reports were submitted which showed a shortage of dry stocks in nearly every class of lumber. This fact has given additional strength to the market. There is now little fear of prices weakening. Sales of No. 4 boards have been made at Duluth at $11 on dock, and one sale of No. 3 boards at $13.50 is reported. Piece stuff has been sold at Menominee, Mich., on the basis of $12.50. These prices indicate the strong position held by low grade lumber. Buyers are contracting quite freely for mill cuts of next year, which would seem to show that they do not anticipate lower prices. In the eastern markets the demand is keeping up well, although a falling off such as might be expected at this season of the year is reported in certain grades. The enquiries for hardwoods are not so numerous as they were, and industrial establishments are likely to pursue a hand-to-mouth policy until after the new year. Basswood is in good demand at Buffalo, with the supply limited. Inch sells at $26 and thick at $30. A more plentiful supply of white ash is reported.

FOREIGN.

Reports come from all wood producing countries of an advance in the price of lumber. This has created a feeling of confidence in Great Britain, which country, it may be said, is the barometer of the lumber market. Contracts for first-open-water shipments have been made at figures which represent a considerable advance on the prices paid one year ago. Generally, stocks of Canadian lumber at the leading British ports are less than twelve months ago. The London dock returns show a decrease of 85,246 pieces in the stock of white pine, while of spruce there is the important difference of 452,024 pieces as compared with the stock on December 1, 1898. At Birmingham, St. John spruce has lately advanced from £8 5s 3d to £8 15s for 3x7, from £8 7s 6d to £9 for 3x9, and from £8 15s to £10 10s for 3x11. At Glasgow a sale of 9 inch red pine is reported at 19½d per cubic foot ex quay. In square and waney timber there have been some advances. Rock elm, for instance, is about 30 per cent. higher than it was two months ago.

STOCKS AND PRICES.

About 6,000,000 feet of logs will be taken out this winter for Sawyer's mill at Woodstock, N. B.

White, Fownes & White will cut 1,000,000 feet of lumber this winter at Mount Theobald, Carleton county, N.B.

W. C. & C. W. Elderkin, of Advocate Harbor, N.S., expect to cut about 4,000,000 feet of deals this winter.

Some loggers estimate that one billion feet of logs will be cut on the head waters of the Mississippi river this winter.

Geo. Niebergall & Sons have purchased 32 acres of timbered lands about three miles from their Camp Palmer mills.

The Bonny River Lumber Co., of Bonny River, N.B., are negotiating for the purchase of the Chipman timber lands.

John Engle and James Riley, of Vesta, Ont., have taken a contract from S. Pepper to cut all the soft elm on about 50 acres of land.

H. R. McLellan, of St. John, N.B., has taken an option on the Knight mill property and timber lands at Musquash, N.B., with a view to purchase. It is understood that the property is valued at $100,000.

The Bell Telephone Co. want bids at their Winnipeg office, by January 1st., for the supply of 7,000 cedar poles, 25 feet long, to be delivered not later than May 31st, at points between Winnipeg, Brandon, Portage la Prairie and Neepawa.

There was shipped from the Georgian Bay district to Bay City, Mich., this season, 13,193,637 feet of lumber and 5,202,705 pieces of lath. The exports of logs to Bay City and Saginaw were 24,522,808 feet, as compared with 147,000,000 feet in 1890.

Black river, in the province of New Brunswick, is the scene of extensive lumbering operations. J. & R. McLeod have a rotary mill in operation which will cut 1,000,000 feet of deals for the British market. T. B. Carson and James Doherty will manufacture a like amount.

James Scott, of Dumfries, N. B., has contracted to cut 2,000,000 feet of lumber, to be delivered at Magaguadavic lake, and a similar amount at Springhill, for John Campbell, jr. Another million is being cut by him for a St. John firm. W. J. Scott will cut about 2,000,000 feet on Deer lake for Murchie & Sons, of Calais.

CONDITIONS IN THE LIVERPOOL MARKET.

Messrs. Farnworth & Jardine, in their wood circular dated December 1st, review the timber market as follows :

The arrivals from British North America during the past month have been 22,886 tons register, against 11,716 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1897, 1898, and 1899 has been 546,791, 474,741 and 497,567 tons repectively.

The business during the past month has again been satisfactory ; the arrivals generally have been fairly moderate, and with an active demand there has been a good consumption, thus leaving stocks with few exceptions in a healthy condition ; values for most of the leading articles show further improvement, and higher prices are anticipated for future business.

CANADIAN WOODS. — Pine timber.—Of waney the arrivals have been chiefly on contract, but a few consignments have met with ready sale at improved prices ; there is more enquiry, the deliveries have been satisfactory and prices are very firm ; stocks are light. Square is only in limited request, and the stock is sufficient. Red pine is light in stock, but the demand is very limited. Oak has arrived rather more freely ; the demand continues dull, and there is no improvement in value to report ; the stock is sufficient. Elm has been imported sparingly, there has been more enquiry, and recent sales have been at very high figures ; the deliveries have been satisfactory, and stocks are moderate. Ash has been in better request ; the stock is very small. Pine deals.—The arrivals have been lighter ; there has been more enquiry, and the deliveries have been fairly satisfactory, but stocks, although further slightly reduced, are still too heavy ; values, especially for 3rd and 4th quality regulars, have improved. Red pine deals, etc., continue in good demand at steady prices.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals have been in excess of same month last year, viz., about 7,000 standards against 2,180 standards ; the demand continues active and late sales have been the highest prices of the season ; for later shipments a further advance is being asked. So far the rise in value has not affected the consumption, which has kept pace with the import, and stocks are not too large. Pine deals show a slight improvement.

BIRCH.—The import consists of a small parcel of Quebec wood ; there has been fair enquiry, prices rule steady, and the stock is moderate. Planks have arrived more freely, and the deliveries have been satisfactory ; there is more enquiry, and a considerable advance in price has been established ; the stock is almost exhausted, being only 2,000 cubic feet against 145,000 feet at the like time last year.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Co. review the Barbados lumber market as follows : The only arrival to report is the cargo per Allen A. McIntyre, from St. John, N. B., with about 130 M feet merchantable, 55 M small and 2nd quality white pine, and 22 M feet hemlock. We sold merchantable at $22.20, small $17, 2nd quality $16, hemlock $16. She had also 345 M cedar laying and 90 M spruce shingles (extra quality), sold former at $2.55 and latter at $2.35. In spruce lumber we continue our valuation at $17 or thereabouts, and repeat that demand will shortly be setting in for requirements for the coming crop. The Duart Castle did not bring any Gaspe shingles and there is no change to note in the position of Long Gaspe.

TIMBER BERTH WITHDRAWN.

Mr. Peter Ryan offered for sale by auction at the Queen's Hotel in Toronto, on December 20th, timber berth No. 1 in Monteith township, Parry Sound district. The berth comprises 16¼ square miles of virgin timber, and was purchased from the Ontario government some years ago when the dues on pine timber was $1 per thousand feet instead of $1.25 as at present. The license includes all the timber on the berth. Bidding was started at $2,000 per mile and reached $7,000, but there being no advance, it was withdrawn by the auctioneer at the request of the owners.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

PINE.—Western pine is in much better demand than usual at this season, with prices well sustained :

Uppers, 1 in	$58.00	to	$60.00
1¼ to 2 in	60.00	"	62.00
3 and 4 in	70.00	"	72.00
Selects, 1 to 4 in	50.00	"	68.00
Fine common, 1 to 3 in	47.00	"	60.00
Sheathings	40.00	"	56.00
Barn boards	20.00	"	28.00
Coffin boards	20.00	"	24.00

HARDWOODS.—Hardwood lumber is in good request for the season :

Ash	$ 38.00 to $	46.00
Cherry	90.00	130.00
Maple	30.00	40.00
Sycamore, quartered inch	40.00	50.00
Walnut	100.00	130.00

SPRUCE.—The market on spruce lumber holds firm. The open weather has been favorable to building thus far, and jobs that would otherwise have been "hung up" till spring have been continued, making a better call for spruce than was generally expected. This extra call, added to the very brisk demand in the early fall, has kept the demand up to better proportions than has usually been the case in the early winter. Prices rule as follows :

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13.50

CLAPBOARDS. — Clapboards are meeting with a limited demand :

Spruce, extra	$28.00 to	$29.00
Spruce, clear	26.00 "	27 00
Spruce, 2nd clear	24.00 "	25.00
Pine, extra	34.00 to	$36.00
Pine, clear	30.00 "	33 00
Pine, 2nd clear		28.00

Less than carloads, $1 to $1.50 more.

SHINGLES.—Shingles are little changed, with a fair demand for the season :

California redwood	$3.25	$3.40
Extra cedar, best brands	3.10 to	3.15
Clear cedar	2.65 "	2.70
2nd clear cedar	2.10 "	2.25
Clear white		2.00
Extra No. 1		1.50

Oregon shingles range from $2.30 to $3.15, as to grade and quality.

LATH.—Laths are active, and prices have advanced 30 to 40 cents : 1⅝-inch, $2.90 to $3 ; 1½-inch, $2.80 to $2.90.

BOSTON, DEC. 18th, 1899.

Chartering for the River Platte is quiet. Medium sized vessels from Boston to Buenos Ayres are quoted at $9, Portland $9.50, and Maritime province ports $10 to $11.

On Saturday last fire was discovered in the lumber yard of the James Shearer Co., corner Shearer and St. Patrick streets, Montreal. The two dry kilns, together with a quantity of lumber, were consumed, at a loss of about $25,000.

SOUTH AFRICA

Millmen throughout Canada are invited to correspond with us and give particulars of the woods which they can supply for Constructional and Furniture purposes.

VOL. V. TORONTO, ONT., DECEMBER 27, 1899 No. 49.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.—LOWEST CASH PRICE PER M., f.o.b., in car lots, for best dry, second-growth Hickory, Rock Elm and White Ash; fit for hammer handles. State shipping point and R. R. Address, TAYLOR & LOUNT, Whitevale, Ont.

SITUATION WANTED.

AS SUPERINTENDENT, FILER, HAMmerer, Inspector, Mill-Wright or Sawyer; thoroughly competent—Lumber or Shingles. Engage now for next season. Box 800, CANADA LUMBERMAN.

WANTED.

AN AUTOMATIC HEAD TURNING MAchine. Must be in good running condition and cheap. Parties having one to dispose of may find a cash purchaser by addressing GEO. M. EVEREST, Arkona Basket Factory, Arkona P. O., Ont.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

SEALED TENDERS, addressed to the undersigned, marked "Tenders for Railway Ties, &c.," will be received until noon on FRIDAY, THE 29TH INST., for the following Railway Ties, Sawlogs and Pulpwood, namely:—

5,000 Cedar Railway Ties.
10,000 Cedar Posts (8 ins. and over and under 8 ins. in diameter.)
1,000 Cedar Logs.
300 cords Spruce and Poplar Pulpwood,

which will be taken out during the present winter by the Indians of Manitoulin Island, unceded, and delivered on the shore of Lake Huron at convenient points of shipment; also 2,000 Cedar Railway Ties and 100,000 feet B. M. of Black Ash, to be taken out by the Indians of Sucker Creek Reserve during the winter and delivered on the shore of Lake Huron, at different points for shipment.

Tenders should state the price that will be paid in cash for these Ties, Posts, Logs, Pulpwood and Ash. The successful tenderer will be required to make reasonable advances to the Indians as the work progresses.

An accepted cheque for two per cent. of the total value, made payable to the order of the undersigned, should accompany each tender, which will be forfeited in the event of failure to carry out the contract.

The highest or any tender will not necessarily be accepted.

J. D. McLEAN,
Secretary.

Department of Indian Affairs,
Ottawa, 12th December, 1899.

FOR SALE.—40,000 FEET DRY HEMLOCK, 2×6 inches, 12 feet. Write REID BROS., Hepworth Station, Ont.

WANTED—10 MILLION FEET OF SPRUCE or Red Pine Laths, 2 to 5 feet long, one inch wide by 3/16-inch thick. "GAMA," c/o CANADA LUMBERMAN

WE HAVE 200,000 TO 300,000 FEET OF VERY good Beach Logs which we wish to cut to order. Signed, JOHN HARRISON & SONS CO., Limited, Owen Sound, Ont.

FOR SALE—Sawmill—complete, in good order, with a capacity of 25,000 feet per day; also a quantity of Boom Chain. Would move the mill and take contract to cut lumber by the thousand. Box 233, Barrie.

WANTED.

FOR JUNE, 1900.—50 M FEET CUBIC FLAT Tamarac, 50 M feet cubic Round, Flat or Square Pine, for which cash will be paid on delivery at Sorel, Que. For further particulars, address JAS. SHEPPARD & SON, Sorel, Que.

BOX SHOOKS

ADVERTISER DESIRES TO COMMUNIcate with Saw Mills favorably situated to Montreal, Portland or St. John, to ship Spruce and Pine Box Shooks to Scotland. Apply CANADA LUMBERMAN office for name and address.

Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

FOR SALE.

36 FOOT 8 INCH PRESCOTT FEED STEAM Jump Saw, 40 to 56 inch saw; three block girder steel Carriage, opens 40 inches, Boss dogs, good setworks; Endless Log Haul Up hundred feet chain, could be lengthened; a number of Engines, Boilers and Mill Machinery taken on new machinery. WATEROUS, Brantford, Canada.

AUCTION SALE

OF

Saw Mill Property, Mill Plant, Village Lots, Lumber, Etc.

THERE WILL BE OFFERED FOR SALE BY public auction, at the Village of Young's Point, County of Peterboro', on TUESDAY, JANUARY 9TH, 1900, at 10 o'clock a.m., the property of Cornelius Young, consisting of the following: Saw Mill, equipped with large circular saw, butting-off saws and edgers, operated by two Giant water wheels; Shingle Mill, equipped with one Perkins machine, two jointers and blocking saws, driven by Giant water wheel; Planing Factory, containing one large planer and matcher, one four-sided moulder and one iron-framed re-saw, driven by two Leffel wheels; about 300 Boom Chains, one patent Capstan one Hoisting Derrick, quantity of Boom Timber, Pike Poles, Peevies, Horses, Waggons, Sleighs and other chattels used in connection with mill property; quantity of Shingles; about 200,000 feet of Pine and Hardwood Lumber; quantity of house finishing Moulding; two car loads of Cedar; also 15 Village Lots situated in the village of Young's Point. The mill property and other real estate will be offered subject to a reserve bid. The terms of sale of real estate will be 10 per cent. at time of sale, balance within thirty days. All purchases of chattel property under $10 to be cash, balance within three months.

JOHN HAGGART, Auctioneer.

INFORMATION WANTED.

Timber manufacturers who have received circulars from the publishers of this journal asking for information to assist us in the preparation of our annual review of the lumber trade, will confer a favor by supplying the data at as early a date as convenient.

CURRENT TRADE CONDITIONS.

ONTARIO.

Activity still pervades the lumber trade of Ontario. So much lumber sold weeks ago still remains in the mill yards that shipments will be made by rail throughout the entire winter. It is said that some mills have several million feet yet to move. Numerous enquiries for stock are being received, but in some instances orders have been rejected owing to inability to supply the lumber required. For next season's production business is progressing very favorably. It was reported that Watson & Todd had purchased the cut of W. C. Edwards & Co.'s mills in the Ottawa valley. It is now learned that the purchase includes all of the first, second and third quality white pine deals and 70 per cent. of their red pine. The same firm are also reported to have purchased next season's production of white and red pine deals of the Hull Lumber Co. and A. A. Buell & Co., as well as the red pine deals of the Pembroke Lumber Co. and A. & P. White, of Pembroke. Manufacturers report numerous enquiries from Great Britain for red pine, and the prospects are that the price of this lumber will be higher next year than in the past season. The lath situation remains unchanged, the available supply being far short of the demand, and prices gradually stiffening. In hardwoods some contracting for next season's production has taken place, and, as far as can be learned, the prices represent a slight advance over the figures paid for similar stock last summer.

QUEBEC AND NEW BRUNSWICK.

It is little wonder that the lumbermen in the eastern provinces are increasing their operations in the woods this winter, as they have been given every encouragement by the course which prices have taken during the past two months. The mills are cleaned out of dry stock and manufacturers are daily refusing orders for coarse pine, spruce and hemlock boards. Spruce clapboards are the only stock that is not constantly enquired for. These are low in price and difficult of sale. Next season's production of several of the large mills in Quebec have been purchased by the shippers, Dobell, Beckett & Co. and W. & J. Sharples figuring prominently in the transactions. The prices represent an advance on last year's figures, one sale being reported of 3×9 third spruce, for first open water shipment from Quebec, at about 35s advance upon last year's quotations. This, however, is an exceptional figure, and, notwithstanding the strength of the market, is a greater advance than manufacturers should expect. Early shipments will be the rule next spring, as some mills will saw during the winter as soon as there is sufficient snow to get logs out. Up to one week ago unfavorable weather had been experienced in some parts of New Brunswick and Nova Scotia, thus increasing the cost of logging. Notwithstanding this, we judge from reports to hand that the production of logs this winter in the Maritime provinces will be fully one-third greater than last season.

MANITOBA AND BRITISH COLUMBIA.

The higher prices on white pine lumber, as announced by the Lake of the Woods manufacturers some weeks ago, have been firmly maintained. By the new list all timber and dimension stuff was advanced $1 per thousand, and boards, shiplap, flooring, ceiling, siding and fencing $1.50 per thousand. It is said that dealers have also been informed that no more orders for No. 2 dimension white pine can be taken by the mills for immediate delivery. Lath is quoted in Winnipeg at $2.75 retail, but the tendency is towards higher prices, and it is predicted that $4 will be reached before the spring. Dealers throughout Manitoba have been notified of an advance of $1 per thousand in the price of British Columbia shiplap, fir and cedar. The demand for lumber at this season is remarkably good, and orders for next year's delivery are being booked. From this it would appear, that retailers and consumers do not expect that lower prices will rule in 1900. There is every prospect of a large production of white pine logs this winter, and it is probable that operations will be commenced on some of the limits in the Rainy River district purchased last week from the Ontario government.

UNITED STATES.

The general shortage of lumber in the United States has induced some manufacturers to inaugurate winter sawing, but as the lumber so cut will not be ready for the market until late in the spring, winter prices are not likely to be affected. The great shortage in stock applies chiefly to low grade pine boards. It is said that sales of No. 4 boards have been made at Duluth on the basis of $12 per thousand. No. 3 boards have sold as high as $13.50 for next season's delivery. At Tonawanda there is a great scarcity of 1×8-inch, 10-inch and 12-inch box and No. 2 and No. 3 barn, and prices have advanced from $1 to $2 per thousand feet.

Dealers are putting forth every effort to purchase 1×10 inch and 12 inch stock, to be shipped in by rail during the winter. Lately the demand for cutting up stock has improved, and prices are likely to advance. There is a good stock of inch fine common and shaky clear, and on these grades some shading of prices is reported. The lath market is as firm as ever. In Chicago No. 1 white pine lath is selling at $4.50 and $4.75, and No. 2 about 25 cents less. The demand for hardwood is rather quiet, as manufacturing plants have shut down for the holiday season. White ash is scarce and very firm in price. Sales of maple have been made at Buffalo at about $22 for inch and $25 for thicker.

FOREIGN.

One question under discussion in British lumber circles is where the present advance in prices is going to end. Each day the price of some class of timber is marked higher, and in comparison with the prices of one year ago, there is a considerable difference in favor of those now ruling. Prices for spot goods have strengthened in sympathy with the high prices asked by shippers for next season's

production. In London it is predicted that 3 x 9 second quality spruce deals will command £11 10s in the early spring, with thirds 20s less. The packing-case and box manufacturers, who are the largest consumers of spruce, are very busy with orders. At Glasgow several sales of pine and spruce deals are reported at most satisfactory prices. Broad first pine deals and broad sidings are particularly scarce.

For first open water shipments shippers in Russia and Sweden are asking exceptionally high figures, but it is said that they have been successful in disposing of a large quantity of stock.

STOCKS AND PRICES.

The Morris, Field Rogers Co., of Listowel, Ont., are in the market for large quantities of hardwood lumber.

The ship Rose sailed from Moodyville, B.C., last week for Fremantle, West Australia, with 800,000 feet ot lumber.

H. J. Crowe, of Bridgetown, N. S., is operating ten portable saw mills, and expects to cut 10,000,000 feet of lumber this winter.

John Gardner & Co., of Rat Portage, Ont., have secured a contract from the C.P.R. for 50,000 ties, and have put in a camp on Sturgeon lake.

Geo. Cook, of Urbania, N.S., has taken a contract to get out 1,000,000 feet of lumber this winter near Tatamagouche lake, in Colchester county.

The Goderich Lumber Co., of Goderich, Ont., are prepared to let a contract to cut, skid and deliver on beach at Stokes Bay the saw logs and cordwood on from 50 to 500 acres of land.

The Department of Railways and Canals at Ottawa will receive tenders up to Wednesday, January 10th, for the supply of timber required by the Welland canal and its branches for the year 1900.

Lumbering in the vicinity of Parrsboro, N. S., is being carried on extensively. D. A. Huntley has two camps at Lakelands and will cut 2,500,000 feet of logs, and David Roberts is cutting 1,500,000 feet at Moose River for M. L. Tucker.

At the Crown Lands office at Fredericton, N. B., three timber berths were sold last week, as follows: No. 25 on the Cocagne river, Kent county, to C. E. Lockhart, at upset price; No. 56, in parish of Musquash, to Daniel Newman, at upset price; No. 57, on Salmon river, Kent county, to Richard & Quinn, at $38 per mile.

The log production of Maine this winter will be considerably heavier than last season. On the Penobscot the cut will be about 180,000,000 feet, against 140,000,000 feet last winter. On the Kennebec the cut will probably reach 150,000,000 feet, while the average in recent years has been little over 100,000,000 feet. Log prices rule at about $6.50 per thousand feet.

The English Land Co. have sold to McCormack & McLeod, of Orillia, Ont., the cedar timber on their property in the township of Harcourt, Haliburton district. The contract for cutting the timber and manufacturing it into ties, poles and shingles has been given to Gillespie, Ormsby & Co., of Wilberforce, who agree to cut all the timber within three years.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade received at the office of the High Commissioner for Canada in London, Eng., during the two weeks ended December 15th:

5. An enquiry comes from the Midlands for plasterers' laths (either machine or hand riven), and quotations are desired delivered c.i.f. Liverpool and Glasgow.

6. The addresses of a few Canadian houses who are in a position to ship wood pulp are asked for by an Antwerp firm.

7. A Welsh firm who import fir props for mining purpores, chiefly from Norway, Sweden and the Baltic ports, enquire if Canadian shippers could supply large quantities to the Mersey and Bristol channel by steam or sailing vessel.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN, by whom it will be forwarded. When writing refer to the number of the enquiry.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

During the past week the Boston market has shown no signs of weakness; on the other hand, reports tell of a heavier volume of trade than was anticipated. Building has also exceeded expectations, and intending builders, evidently convinced that present prices of lumber are to continue for some time, are going ahead with plans that have been held in abeyance.

WESTERN PINE.—The firmness of western pine is yet a feature of the situation. Buyers are eager purchasers and are understood to be scouring the west for connections for the ensuing year. The position, however, is fully realized by manufacturers. Prices rule as follows:

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	50.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	22.00 " 30 00
Coffin boards	20.00 " 25.00

SPRUCE.—The market on spruce lumber is reported firm. It is very difficult to get orders filled at the mills by reason of lumber scarcity, low water and a positive shortage of logs. It is now known that the amount of spruce logs to be carried over this winter will be much less than was formerly estimated, while the contemplated cut may be reduced by lack of snow. Agreement prices are being well maintained as follows:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13.50

HARDWOODS. — There is still a good demand for hardwood lumber, stock being taken almost as quickly as offered, at firm prices. Ash is fairly active at $45 for 1 inch, $50 to $52 for 1¼, 1½ and 2 inch, and $60 to $62.50 for thicker. Maple sells at $32 to $42, although the demand from manufacturing enterprises is only normal. Birch is active and realizes good prices.

CLAPBOARDS.—There has been a slight improvement in clapboards, but as yet the market is by no means active:

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27 00
Spruce, 2nd clear	24.00 " 25.00
Pine, extra	34.00 to $36.00
Pine, clear	30.00 " 33 00
Pine, 2nd clear	28.00

Less than carloads, $1 to $1.50 more.

SHINGLES.—Cedar shingles are more enquired for than any other class. California redwood shingles are selling very well. Quotations rule as below:

California redwood	$3.25 to $3.40
Extra cedar, best brands	3.10 " 3.15
Clear cedar	2.65 " 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50

Oregon shingles range from $2.30 to $3.15, as to grade and quality.

LATH.—An advance of about 15 cents has taken place in the price of laths. 1⅝ inch sells at $3 to $3.25 and 1½ inch at $2.90 to $3.

BOSTON, DEC. 23rd, 1899.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

Despite the fact that lumbering operations on the limits are being carried on extensively this season, there is a possibility that the large mills in and about Ottawa will be short of logs when they open in the spring. The mild weather is held accountable for the prospective shortage. Ex-Mayor Samuel Bingham, of this city, who for many years has superintended the distribution and transportation of logs on the upper waters of the Gatineau and Ottawa, states that the absence of snow in the woods and ice on the rivers will interfere with the cutting operations on the limits. Although the timber cutting is well advanced, few of the logs have been got out of the woods to the rivers. He states that the situation is so alarming that choppers have been called off heir regular work, to strengthen the gangs getting the logs out. Mr. Bingham has left on a trip up the Gatineau, where he will make arrangements for the transportation of the logs.

Should the winter continue an open one, the results will be even worse, and but a small proportion of the logs cut will be floated to the mills. In Mr. Bingham's opinion the mills may not have such a steady run next season as they had last, owing to the scarcity of logs. Should this be the case, the price of lumber will advance still higher, as the supply will not equal the increased demand. From Ottawa alone 6,000 men were sent to the different lumber shanties. The agents of the different companies are hiring many more teams than last season, but until the lakes freeze they will be unable to get them to the seat of operations on the limits. The office staffs of the various Ottawa mills are now busily engaged compiling the statistics of the past year's business. Inquiries are coming in about next season's cut, part of which has already been contracted for at advanced prices. As lumber is still being shipped by rail in large quantities, the car famine is still felt. The Hull Lumber Company is being retarded considerably on this account.

Owing to the continued high prices in the lumber market, the prospects for next year's building operations in Ottawa are not as bright as they otherwise would be. Local contractors also complain of a dearth of building material.

As an indication of the general advance made in all lines of lumber manufactured in and shipped from Ottawa, a prominent mill owner cited the quotations on cull deals. Last spring these sold at from $5 to $6.50 per thousand, whereas they now sell at $12 per thousand, with prospects, he states, of going up to $14 before the spring. The average increase in prices all round has been about 15 per cent., but this has been followed by a demand for increased wages, and the mill owners' bonanza has been reduced. Probably few classes of laborers look to their interests as close as the mill hands and others engaged in the lumbering industry do, and as a result every increase in lumber prices or rise in the market is followed by a demand for a corresponding increase in wages.

OTTAWA, December 23rd, 1899.

THE AUSTRAIAN MARKET.

The monthly timber report of Fraser & Co., Melbourne, reviews the Australian market as follows:

Business in timber during the past four weeks has not been so active as in the preceding month, thuugh some fair sized operations have been carried through. There has been much caution shown ere concluding sales, owing to the necessity of importers re-

quiring higher rates than have of late been ruling, due to the increased f.o.b. and freight costs which they have been obliged to pay for the chief classes of timber which have been, and will shortly be, brought upon this market. The slight slackness in the demand is, however, only of a temporary character, as it is generally recognized that the consumption is on the upward grade, and that it will therefore be necessary for the trade to purchase more freely for stocking purposes during the next few months, in order to be in a position to cope with the early increased requirements which are justly anticipated from both the the town and country districts. Sales have been made "to arrive," and from late shipments to hand in flooring, lining, and weatherboards, Oregon spruce deals, and other timber, at prices fully maintaining late valuations, while in some instances for particular sizes enhanced rates have been asked and secured.

OREGON PINE. — Imports : 799,218 feet super. Arrival : Chehalis, from Puget Sound. Out of the above named shipment, about 150,000 feet has been placed, and a similar quantity from a shipment now due. Late quotations have been well maintained, viz., £7 for an average assortment of sizes, higher rates being wanted for square sizes.

LATHS AND PICKETS. — Imports : Laths, 80,000 pieces ; pickets, 14,130 pieces. Arrival : Chehalis, from Puget Sound. Both are in good enquiry, and wanted. Sales have been made on spot and "to arrive" at 37s 6d for the former, and at £8 to £8 5s per 1000 pieces for the latter.

SPRUCE FIRM AT BARBADOS.

In their circular of December 9th, Messrs. Clairmonte, Man & Co. say of the Barbados market :

There has been no arrival with lumber to report during the fortnight. Last local sales were : White pine at $22.20 for first quality and $17 for second quality ; spruce at $17.50 for first quality and $13.50 for second quality. Yards are rather bare of spruce, and dealers are now about laying in supplies for the coming crop season. The cargo of narrow spruce boards, about 650 M feet, ex barque Maiden City, arrived in distress, has been sold here on private terms.

SHINGLES.—Gaspe cedar are in supply. We note the importation of 835,000 ex Neva on 7th November, about one-half of which were placed at $3.50 per M ; remainder stored. Cedar laying rule at $2.50 ; spruce laying, $2.35.

WOOD HOOPS.—The season is now approaching when dealers lay in fresh supplies. We quote ex store, retail, at $21 for both English and French, assorted sizes ; Newfoundland coiled, last sale at 45c.

SHOOKS.—We note the arrival of the St. Thomas, from Portland, Me., on 22nd October, with 12,272 bdls., sold to arrive at $1.27.

Dealers are now about laying in further supplies of both shooks and staves for the next season.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JANUARY 3, 1900 No. 50.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. CHAIR OR FURNITURE FACTORY

IN A FIRST-CLASS RAILWAY TOWN THAT will grant exemption from taxation and take up considerable of the stock. The promoters have suitable buildings, power, two saw mills, and a large quantity of standing hardwood timber, and more can be obtained. We invite the purchase of $15,000 to $20,000 of stock, by a practical man preferably. Address, Box 60, CANADA LUMBERMAN.

WE HAVE 200,000 TO 300,000 FEET OF VERY good Beach Logs which we wish to cut to order. Signed, JOHN HARRISON & SONS CO., Limited, Owen Sound, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The holiday season does not seem to have had the effect of checking the demand for lumber. Rail shipments to local points and the Eastern States are still quite active. The only branch which has shown any falling off in demand is the building trade, as the recent cold weather has to some extent caused a cessation of out-door work. Manufacturing establishments are operating to their full capacity, and consequently there is a steady call for hardwoods and such lumber as is adapted for manufacturing purposes. There is still a scarcity of lath and shingles, although enquiries for these have not been so numerous within the past week.

The weather has been favorable for work in the woods. From all accounts there will be a large production of logs. According to estimates received by the Commissioner of Crown Lands, there will be taken out this winter in the neighborhood of 800,000,000 feet of logs. Last winter the cut was only 570 million feet, which shows an increase of over 200 million feet this winter. This large production of logs will mean a considerable increase in the quantity of lumber placed on the market next season, but unless very unexpected conditions arise, the demand is likely to be equal to the supply.

QUEBEC AND NEW BRUNSWICK.

The tendency of lumber prices in the Quebec market is to advance, in sympathy with the small stocks carried over this winter. The stock of square and waney pine, red pine, oak, elm and ash timber wintering at the port of Quebec is less than one year ago. In square pine the difference is slight, but in waney pine the stock is nearly one and one-half million cubic feet less than in the winter of 1898. Birch is the only timber of which the quantity wintering shows an increase, but even this is represented only by 3,331 cubic feet. For the best quality of white pine the quotation is from 37 to 43 cents, while waney board, 19 to 22 inches average, is quoted at 43 to 47 cents. Pine deals are very firm and are quoted at $120 to $130 for first, $85 to $95 for second, and $45 to $55 for third quality. First quality spruce deals average about $43 per standard.

Figures to hand show that 128,000,000 feet of lumber were shipped last season from the Miramichi to trans-Atlantic ports, 27,000,000 feet from Dalhousie and 19,000,000 feet from Campbellton. From West Bay, in Nova Scotia, the trans-Atlantic shipments were 30,000,000 feet. As has been before remarked, lumber stocks in the Maritime provinces are well cleaned up, and a brisk demand for the spring cut will likely be experienced. More favorable weather for logging operations has been encountered during the past week, and every effort is being put forth by lumbermen to get a large supply of logs for next season's sawing.

MANITOBA AND BRITISH COLUMBIA.

There is still a liberal distribution of lumber throughout Western Canada. Manufacturers on the Lake of the Woods, as well as those in British Columbia, report that the past year was one of the most successful in the history of the trade, the sales representing an increase of fully 50 per cent. over those of the previous year. The recent advances on certain grades are being maintained, and we would not be surprised if still higher prices ruled during the coming year. The outlook for trade is very promising. There is likely to be a considerable amount of railway construction and general building.

UNITED STATES.

Notwithstanding that the lumber cut of the Upper Mississippi river district in the season of 1899 was 594,370,000 feet, as against 469,701,000 feet in the previous year, the stock of lumber on hand at the close of the year shows a decrease, as compared with 1898, of nearly 27,000,000 feet. The decrease in the stock of shingles is 21,000,000, and in that of lath 10,000,000. These figures reflect the situation at other producing points and are an indication of the satisfactory condition of the lumber trade of the United States throughout the year just closed. Although the demand at this season is not particularly active, prices are being well maintained, and it is said that in the east the conditions were never better for a continuance of high prices. Eastern retail yards are almost bare of stock, and a large amount of new building is in sight for the spring. The scarcity of box lumber becomes more acute as the weeks go by. At Tonawanda box lumber and No. 2 and No. 3 barn is held at a premium, and it is difficult to buy any 10-inch or 12-inch No. 3 barn at less than $22 per thousand. Very few dealers can fill an order representing any great quantity of stock. In inch fine common and shaky clear the situation is different, as many of the yards have quite a surplus and prices are slightly weaker. A Buffalo dealer is reported to be holding his stock of box lumber at $20.

The statement has been made in some quarters that hardwood prices are weakening, but this report is denied by the leading dealers in the Eastern States. It is admitted that the demand for hardwood lumber is not brisk, but the situation has caused no alarm. There is a great scarcity of the lower grades of maple, and basswood is much enquired for.

FOREIGN.

The advanced prices of wood goods in Great Britain have in no way checked the demand, as in every department of trade activity prevails. There seems to be a marked degree of confidence in financial circles, notwithstanding the war, and this confidence is nowhere more visible than in timber circles. At recent public sales prices have been realized such as have not been known for many years. Importers are contracting quite liberally, chiefly for early goods. A slight advance in the price of square timber is reported.

STOCKS AND PRICES.

W. E. Dryden, of Hillsboro, N.B., expects to cut 3,000,000 feet of lumber this winter.

The Alma Lumber Co., of Alma, N.B., are now shipping birch lumber from St. John, N.B., to Great Britain by winter steamers.

At Duluth, Minn., as high as $14 is being asked for No. 3 barn, but $13 is about the average quotation. Log run brings from $16 to $18.

The barque Freeman sailed from Tusket Wedge, N.S., last week for Buenos Ayres, with 872,000 feet of lumber shipped by Dickie & McGrath.

The South River Lumber Co., of South River, Ont., are this winter taking out a large quantity of pine logs, some hemlock, and 100,000 cubic feet of waney board pine.

The Newville Lumber Co., of Newville, N.S., expect to take out this winter 4,500,000 feet of logs. Nearly all their next season's production of lumber has been sold for shipment to Great Britain.

J. J. Wheelock, of Connors, N.B., expects to manufacture 30,000,000 shingles during the coming season, as well as a quantity of long lumber for the local trade. He has a mill at Connors, N.B., and another at St. Francis, Maine.

It is understood that the C. Beck Manufacturing Co., of Penetanguishene, have commenced logging operations on the two limits in the Nipissing district purchased at the government sale a fortnight ago.

The W. & A. McArthur Co., of Cheyboygan, who recently purchased the McKinnon & Welsh saw mill at Little Current, Ont., are putting in 30,000,000 feet of logs, and will likely operate the mill day and night next season.

One year ago dry white pine lath could be purchased in Chicago at about $2.15 per thousand, while they are now selling at $4.50 f.o.b. cars. In the local trade there white pine lath sold during December at from $5 to $5.50 per thousand. Of late there has been some easing off in quotations, although the shortage in the supply has not been relieved to any marked degree.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

SPRUCE.—The spruce market is quiet, with little change. The financial flurry has had some effect on the situation, with builders cramped in one or two instances. Orders are still slow about being filled at the mills, with the water low and logs scarce. Reports from the spruce lumber regions mention a lack of snow for hauling, with one of the winter months gone and almost nothing done. A big cut has been yarded, but unless snow comes very soon and continues in good shape, the cut of logs cannot be hauled. The chances are that what was planned for a very large cut of spruce may turn out to be a small one. Of provincial lumber there were arrivals of six cargoes for the week, with 651,983 feet of lumber, 196,000 laths, and 980,000 shingles. Prices are unchanged :

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13.50

PINE.—Western white pine continues very firm with the manufacturers and shippers, and the market here is steady :

Uppers, 1 in	$58.00 to $60.00
1¾ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	52.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	22.00 " 30.00
Coffin boards	20.00 " 25.00

CLAPBOARDS.—Clapboards are steady, with trade quiet :

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27 00
Spruce, 2nd clear	24.00 " 25.00
Pine, extra	34.00 to $36.00
Pine, clear	30.00 " 33.00
Pine, 2nd clear	28.00

Less than carloads, $1 to $1.50 more.

SHINGLES.—Cedar shingles are in quiet request :

Extra cedar, best brands	$3.10 to $3.15
Clear cedar	2.65 " 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50

Oregon shingles range from $2.30 to $3.15, as to grade and quality.

LATH.—Laths are active, with prices firm : 1⅝ inch, $3 to $3.25 ; 1½ inch, $2.90 to $3.

BOSTON, Jan. 2nd, 1900.

LUMER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, are as follows : Ottawa to Oswego, $1.90 per M ft. ; Ottawa to Syracuse, $2.20 per M ft , (3,000 lbs. and under per M ft.) ; Ottawa, Rockland and Hawkesbury to Montreal, 5 cents per 100 lbs.; Quebec, 10 cents per 100 lbs.; Arnprior to Montreal, 7 cents per 100 lbs.; Quebec, 12 cts. ; Pembroke to Montreal, 8 cents per 100 lbs.; Quebec, 13 cents per 100 lbs.; Ottawa to New York, 15 cents per 100 lbs.; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft.; lath 50,000 pieces, not exceeding 600 lbs. per M pcs. Ottawa rates apply on shipments from Rockland and Hawkesbury. 18s 9d per St. Petersburg standard, according to specification.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade received at the office of the High Commissioner for Canada in London, Eng., during the two weeks ended December 15th :

8. Buyers of birch and maple dowels of the following sizes ask to be placed in communication with Canadian exporters of these goods, 3/8", 15/32", 1/2" and 5/8" in diameter, length 32" and 36". Prices should be c.i.f. London.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN, by whom it will be forwarded. When writing refer to the number of the enquiry.

The steamer Needles has been chartered to carry a cargo of lumber from Vancouver to Port Arthur, Japan. The Needles has a carrying capacity of 3,600,000 feet of lumber.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

Slow business is the rule in the lumber yards, especially with pine dealers, though there are plenty of indications that the demand will open early again and that the east, which has been hesitating for some time over the problem whether it will have to pay higher prices or not, will be in the market for lumber in quantity as soon as the winter inventory season is past. Dealers here say that they are not soliciting business now, as they seldom do during December and January, so that they will not be disappointed if there is a light movement for sometime yet. They see in general business every indication that the present asking price will be paid. Iron went up very high, but it is still in great demand and will continue to be so long as general business remains good. Why should other building material take a different course?

Still it is plainly the notion eastward that the price of lumber is higher than it should be, and that a good steady holding off will break the prices. This will never happen unless other business goes to pieces along with lumber, which is something that the east does not want to see any more than we do. There is not very much falling off in the price of hardwood lumber, for there is such a general scarcity of most kinds that to get a good supply is an acquisition, even if the cost is more than the consumer feels like paying.

Both Buffalo and Tonawanda brought in considerable more lumber by lake the past season than during 1898, and the increase by rail, though small in Tonawanda, is large in percentage, while in Buffalo it is supposed to be large, though there is no report on that point. Buffalo received 230,278,000 feet by lake during the past season and only 189,076,000 in 1898. The two Tonawanda ports received 495,947,000 feet the past season, which is about 40,000,000 feet more than 1898. Nearly all the shingles by lake come to Buffalo, the amount being 132,000,000, while the Tonawandas received but 14,500,000, against 78,000,000 in 1898, which does not appear to be accounted for by the trade, as Tonawanda used to be a big shingle port and manufactured them long after Buffalo gave the business up.

The end of December sees still some lumber afloat at docks that were crowding in late cargoes, such as the Montgomerys and the H. M. Loud's Sons' Co. Both of these firms have their docks as well as yards very full and will not be in full winter condition for some time yet, in spite of steady work as often as weather permitted. There has been considerable snow, quickly followed by rain, which has delayed work badly.

It is pleasant to note that the Holland & Emery Company is going ahead with vigor. Not satisfied with its already large holding of timber in Canada, the company bought nine square miles in the Nipissing district at the recent government auction, which ought to mean a considerable enlargement of operations in the next ten years. The big yard of the auxiliary firm of Holland, Manbert & George at lower Black Rock is running over with lumber again, giving the district all its old appearance of wild activity.

The two Montgomery firms have suffered a serious set-back from a fire that occurred on the night of the 26th December and destroyed a section of the big mill at the foot of Court street, Buffalo. The mill has four sections separated by fire walls, and the others suffered only from water. The fire occurred in the fourth story, occupied by the Deuther Manufacturing Company, picture frame makers, who will lose $20,000. The loss to the Montgomerys will exceed $100,000, most of it falling on the veneered door department. The box department could be run still if desired, but it will wait till after inventory. It was fortunate that the firm's large stock of lumber did not suffer, for it is box to a great extent, which is already scarce and will be all in the hands of box makers by spring.

A second wood-working concern in Buffalo that has been burned out during the month is the firm of E. & F. Glor, the largest cooperage establishment in the city. After suffering the loss of their stave and heading mill in September, their other mill and barrel factory went down on Dec. 12th, involving a loss of $40,000. A new mill is about finished, so that the business can now be concentrated there and no stoppage will occur.

The Plummer mill, which includes planing, heading and excelsior packing apparatus, situated in the Hertel avenue district, Buffalo, and which has been in bankruptcy for a year or more, has been bought by the firms of Holland, Manbert & George and C. M. Betts & Co., whose yards are near and who will utilize it in their business.

The Eastern Lumber Company at Tonawanda has an ambitious new neighbor in the shape of a steel company from Chicago, which has bought 20 acres of land and will erect a big plant as soon as possible. There is a great boom in that vicinity.

The scarcity of shingles here has been increased by the loss of the Canadian steamer Niagara, with all on board. This circumstance is well known, but it might not be so well known that the shingles were from Parry Sound to Haines & Co., Buffalo, and are now mostly scattered along the Canada shore of Lake Erie. The cargo has been sold to private parties, who will try to sell in Canada what is recovered, so that payment of duty may be avoided.

C. H. Stanton, Buffalo manager of the Loud Company's interests, has been made vicegerent snark by the Hoo-Hoo authorities and is preparing to stir up the boys after the holidays, probably taking in Toronto.

BUFFALO, Jan. 2, 1900. J. C.

Attention is directed to the advertisement on first page of our current weekly issue, announcing the sale by auction on the 9th inst. of valuable saw mill and other property at Young's Point, Ont.

THE BARBADOS MARKET.

The following reference to the Barbados lumber market is made by S. P. Musson, Son & Co. in their circular of December 22nd:

The Etta A. Simpson has arrived from St. John, N.B., with 103 M ft. white pine and 900 M shingles, for this market; and 111 M feet white pine for St. Lucias. Of her cargo for this island, sales have been made as follows: 26 M ft. at $17.12, 30 M ft. at $17.65, 20 M ft. at $16.77, and 26 M ft. sold but price not yet transpired. Spruce—We had a small lot of 25 M ft. ex L. B. Currie from West Dublin, and sold 9,500 feet from deck at $18.30, 16 M feet under deck at $18.61, and 13 M feet hemlook at $16.46. The sale of spruce cannot be considered a fair criterion for cargo lots, which we continue to value at $17 to $18. For the hemlock, it was only by chance that we were able to obtain the figure noted, it being very unsaleable in this market. The cargo per Maiden City to which we referred has been brought in here at a low price, and while sizes are unsuited to present requirements, yet it will have an unfavorable effect on the market for spruce.

SHINGLES.—The Etta A. Simpson cargo contained 792 M sawed cedar laying, 50 M shaved, and 66 M sawed spruce; sold sawed cedar laying at $2.40, shaved spruce at $2.35; and we had by L. B. Currie 170 M spruce laying, which we sold at $2.20. Nothing new to advise in long Gaspe.

NEW LUMBER CONPANY.

Incorporation has been granted to the Morgan Lumber Company, Limited, of Toronto, with a capital of $400,000. The incorporators are Frank Denton, of Toronto; S. O. Fisher and wife, of West Bay City; and J. S. and E. O. Galloway, of Hillsdale, Mich. It is understood that this company will operate the Morgan township timber limit recently purchased by S. O. Fisher.

SOUTH AFRICA

Millmen throughout Canada are invited to correspond with us and give particulars of the woods which they can supply for Constructional and Furniture purposes.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JANUARY 10, 1900 No. 51.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—Green Maple Squares. 6½ in. x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Box 24, CANADA LUMBERMAN

For particulars, address ALLEN CRESSMAN, Berlin, Ont.

BUSINESS NOTES.

Samuel Hawes, planing mill and builder, St. Thomas, Ont., is advertising his business for sale.

A. M. Stetson & Co., lumber dealers, Boston, Mass., have made a voluntary assignment. The liabilities are reported to be $250,000, but it is said that a settlement is likely to be effected. The firm has property in New Brunswick, Maine, New Hampshire and Vermont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Although in the midst of the winter season, there continues to be a heavy movement of lumber by rail. There would also be more business done were it possible to obtain the stock desired. Reports to hand state that not for many years has the stock of low grade pine lumber been so thoroughly picked up. To such an extent is this the case that some of the manufacturers have for the first time inaugurated winter sawing. The quantity of stock placed on the market as a result, however, will not be large, and will not likely affect prices, particularly as the demand between now and spring will more than take care of the supply. Business for the year is opening up very favorably. A number of the Ottawa valley manufacturers have disposed of their cut, and we understand that several mill owners in the Georgian Bay district expect to close negotiations at an early date for considerable of their next season's production. The Midland cut of the Arthur Hill Company, to be sawed at Playfair's mill and amounting to 20,000,000 feet, has been contracted for by W. B. Mershon, of Saginaw, Mich., at a price which is regarded as very satisfactory to the manufacturers.

There are numerous inquiries in the market for hardwoods, and from present indications prices will not weaken during the next few months at least. Consumers, recognizing the situation, are showing a disposition to contract for their requirements in advance.

QUEBEC AND NEW BRUNSWICK.

Writing to the CANADA LUMBERMAN, a manufacturer in Quebec states that all grades of lumber have been picked up this winter closer than he has ever known before, and that many contracts are in the hands of mill men for new stock to be cut as soon as there is enough snow for logging. These remarks reflect the situation throughout Quebec, New Brunswick and Nova Scotia. Enquiries for lumber are numerous, but the supply of dry stock is almost exhausted. Prices in 1900 promise to be even better than last year, as several manufacturers have sold their output of British spruce deals at an advance of from $1.50 to $2 per thousand over the prices realized for the 1899 production. This increased price will not, however, give a greater margin of profit to the manufacturers, as the cost of producing logs this winter will be considerably greater than last season.

UNITED STATES.

The first ten days in the new year have not witnessed a large demand for lumber, although the business done during the holiday season was above the average. The market still remains firm. There is a general shortage of dry stock in pine, spruce and hardwoods, more pronounced in the lower grades of white pine than in any other class of stock. Of the stock on dock at Ashland and Duluth it is said that there is not to exceed 20,000,000 feet unsold at each place, while a considerable percentage of next season's production has been contracted for. The eastern wholesale markets are fairly well supplied. The stock of white pine in Buffalo yards is estimated at 120,000,000 feet, of which 20,000,000 feet is Canadian stock. The outlook for building operations in the eastern cities during the coming season is considered good, and this fact is having an influence upon prices. In New York city there is almost a famine in box and low grade lumber, ane higher prices are predicted. The quotations on hardwood lumber are being maintained, the difficulty of buying at western points at a reasonable price assisting to this end. The supply of basswood lumber has become almost exhausted, and a famine is expected before the new cut shall be available for shipment. Michigan manufacturers of maple have endeavored to secure a corner on that lumber and have advanced prices by $2 per thousand. This brings prices up to a basis of $9, $13 and $18. Red birch is selling in Buffalo as high as $42 for inch.

There has been no change in shingle prices. Best 18 inch red cedars and white pine are selling at Buffalo at $4. This price has caused consumers to look around for hemlock shingles, which sell at about $2,50, but there is no large supply in the market.

FOREIGN.

Prices for spot goods in Great Britain continue to strengthen owing to reports of high prices asked for timber products in producing countries. To such an extent have prices been advanced that some predict that the volume of business during the year 1900 will be restricted on this account. On the other hand, the outlook for the year, judged from the orders now in hand, seems to be particularly bright. At London several transactions have lately taken place in third and fourth quality spruce, third quality selling at £9 5s per standard and fourths at £9; second quality brings about £9 11s. From Liverpool comes the report that contracts have been made at £8 per standard c.i.f. for cargoes or large parcels by liners for specifications containing about 80 per cent. of 7 and 8 inch. From this may be gauged the value of 9 and 11 inch. Pine deals are steadily improving, and while until two months ago £24 15s was the maximum, recently $28 3s 9d has been reached for first quality. The stock in first hands is about one-half that carried over at same time last year. Red pine deals are selling at £12 7s 9d and there is very little stock that is not in the hands of consumers. In nearly all classes of square timber the stock is light, but there is a decided scarcity of ash.

SHIPPING MATTERS.

The barque Kelverdale has been chartered to carry lumber from Boston to Buenos Ayres at $9.25.

The ships Marie Madre B and Vanloo have been fixed to load deals at Bathurst, N.B., for Marseilles at 62 francs.

A partnership has been registered under the name of Bissel, Ross & Co., lumber dealers, Sherbrooke, Que.

STOCKS AND PRICES.

The Gillies Bros. Co., of Braeside, Ont., have 13 shanties in the woods this winter.

It is reported that a Chicago firm has sold to eastern parties 8,000,0000 feet of white pine lumber, the consideration being $160,000.

In northern Michigan hemlock logs are bringing $7.25 per thousand, which is about the price that pine logs sold at a few years ago.

Pickard & Rowan, of Owen Sound, Ont., have 1,500,000 feet of logs on the skids at Lion's Head, Ont., and about 400,000 feet at Mars.

First class elm flour batrel staves are being sold by jobbers in Buffalo at $9. The former price for patent hoops, $13, is strong, but hickory hoops sell slowly at $6.50, with basswood heading scarce at 5½ cents. The supply of elm promises to improve, but basswood is not expected to.

Yard quotations in Chicago are $53 for uppers, $47 for A selects, $42 for B selects, and $39 for C selects, in thicknesses from 1¼ to 2 inches. Common stock boards range from $15.50 for 1 x 8 No. 3 to $21.50 for 1 x 12 No. 1. For 2 x 4 10 foot piece stuff $16.50 is asked and for lengths above 18 feet from $16.50 to $17.50.

THE BRITISH MARKET.

Calder, Henderson & Livingston, in their annual timber market report, review the Glasgow market as follows :

WHITE PINE.—Waney.—The demand has been fairly steady, and, the import having been moderate, there is now carried over a stock of rather under the average. The consumption of prime wood for shipbuilding purposes has fallen somewhat below the average of the past few years, but prices have been maintained at from 2s 7d to 2s 9d. First-class short girthy wood is firm at 2s 4d to 2s 7d. Second-class wood has met with a better demand than has been the case for the two preceding years. Low prices were accepted to clear out some old parcels, but now prices are firm at from 19d to 23d. Square.—Any first-class wood imported has been readily taken up from ships' side on arrival. 35 to 45 feet average is now quoted at 2s 2d to 2s 5d per c. ft. G. F. A. has been in fair demand at 18d to 22d, according to average. Common wood is rarely now inquired for.

RED PINE.—There has been a fair import of first-class wood, together with an average consumption. Stock carried over is largely in excess of that of the previous year, and is mostly composed of first-class. Quotations range from 21d to 2s 1d.

ELM.—The import has been on a moderate scale, the demand exceptionally good, and prices have steadily advanced month by month till now prime wood is held firmly by merchants at 2s 9d to 2s 11d per c. ft. The stock is light.

OAK.—The import has been about the average, and stock in hand is practically on a level with the carry over of 1898. Quotations are 2s 8d to 2s 10d for prime wood 65 to 75 cubic average. Second class wood is little inquired for, users of this class preferring the U. S. production.

ASH.—Import has been unusually light, and being late in coming forward the stock crrried over was practically cleared before fresh wood arrived, and prices made a sharp advance, which has been maintained. Recent sales have been made at 2s to 2s 3d for 15 to 16 inch average. There is no stock in first hands.

BIRCH.—There has been a light import and a good demand. Large sales were made immediately after the cabinetmakers' strike collapsed, and prices went up as the stock decreased. Prices are now steady at 20d to 21d for 16 inch average. Stock in hand is barely one fourth of the average of the past three years.

DEALS, BATTENS AND BOARDS.—While the year opened with the stock of 1st, 3rd, and 4th pine somewhat in excess of an average of the three years preceding, prices were held on a firm basis by most of the importers, although others, taking rather a pessimistic view of the prospects, cleared large lines at reduced values. In the early months of the import season arrivals were comparatively light, and buyers became more anxious to operate. Prices ruled steady until September, when a stronger position was taken up, in keeping with prices ruling on the other side. The import is over 500,000 pieces less, and the consumption fully 1,100,000 more than in 1898, consequently the new year commences with deal stocks in a very favorable position all round.

PINE—Firsts.—The import of broad deals has been moderate and the demand good. Prices have improved steadily, £24 to £24 15s being the maximum till within a couple of months ago, and recently £28 3s 9d has been touched. In 11 inch there has been little doing. Undersized have met with a good demand, 14 to 16 ft. lengths making a good price. Stock in first hands is about half that carried over in comparison to last year. Quotations—Broad, £24 to £28 ; 11 inch, £22 to £23 7s 6d ; undersized, £17 17s 6d to £20 12s 6d ; 1¼, 1½ and 2 inch sidings, 11 to 12 inch average, £17 3s 9d to £19 10s ; strips, 5 to 7 inch, £13 (for shorts) to £16 10s. Seconds.—Import moderate. Demand rather better than the previous year, but prices much on a level. The stock is light, but sufficient for requirements. Quotations—Broads, £17 3s 9d to £20 12s 6d ; 11 inch, £15 10s to £18 11s 3d ; undersized, £12 17s 6d to £15 15s. Thirds.—The year opened with a considerably larger stock than usual, and sales were being freely made at £9 12s 6d to £10 for regulars, and £6 17s 6d to £7 15s for undersized. The clearance of the yarded stock was speedy, and for new importations a firmer attitude was adopted, and gradually improved upon till £11 ex quay was got for regulars and £9 5s for undersized. The stock is light and firmly held. Fourths.—Were heavily held at the beginning of the year, and consumers also carried large stocks. With a light import early in the season, and a rapidly increasing consumption, a strengthening of values resulted. Regulars opened at about £6 17s 6d and undersized at about £6 10s, while in October sales were freely made at £8 10s and £7 11s

3d respectively. There is a fair stock held in first hands and held firmly.

RED PINE.—The import has been moderate, and the demand exceptionally strong. Prices have gradually moved up as the season advanced, and £12 7s 6d was as easily got at the close as £9 10s was at the opening. Very little stock held, and mostly all in the hands of consumers.

QUEBEC SPRUCE.—There has been a large import, and a correspondingly large consumption. There is a considerable stock carrying over, but the demand is fair at present. Quotations are—£8 5s to £8 10s for seconds, £7 11s 3d to £8 5s for thirds, and £6 17s 6d to £7 5s for fourths.

NEW BRUNSWICK SPRUCE.—The import has been on a reasonable scale, and all through the season the demand has been satisfactory, with a gradual hardening tendency in values. The stock now being carried over is a very moderate one, and long average, 9 and 11 x 3, are eagerly inquired for. Sales recently reported are at £9 to £9 5s ex quay. 7 in. are not in great demand, and £6 17s 6d to £7 5s is quoted for a fair specification.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

Ottawa furnishes an indication of the increased extent of the lumbering operations this season, as compared with those of last year. The figures apply to the work carried on in north-western Quebec, western Ontario and parts of the newer Ontario. The comparison applies directly to the number of men sent out to the various limits from Ottawa, a recognized labor bureau in the business. Mr. C. D. Chitty, of the firm of Chitty & Co., states that his firm since August last has hired 2,600 men, who have been sent over the above mentioned districts to work for the leading Canadian and American firms. For the lumbering operations a year back only 1,600 men were sent, the increase thus being 62½ per cent. Mr. Chitty also states that the area of limits being worked this year is much more extensive than it was last. This year men were sent to points as far west as Lake Superior not touched before, and six more American and Canadian firms were supplied with men. The firm started hiring men last August, but the great majority were sent out in the last three months. Wages, which at the start ranged from $16 to $32 per month, have been forced down as the great demand for men was satisfied, and the present rate is $16 to $22. Chitty & Co. also expect to send one thousand men up for the spring drives, which last about 40 days, and bring the men $2 to $2.50 per day. Gangs of men and teams are still being forwarded to North Bay, Webbwood, and a score of western points. This firm does the bulk of the business, but smaller concerns have had their hands full, and altogether from Ottawa close on 4,000 men were sent. The authorities in Hull state that about about 900 men and boys have left that city for the shanties since August last. Although the firm only shipped about 200 teams, Mr. Chitty states that close on 1,000 teams were forwarded to the limits by the Ottawa firms, J. R. Booth, Hull Lumber Co., Gilmour & Hughson, E. B. Eddy, W. C. Edwards, McLaren & Co., and Ross Bros., of Buckingham. Speaking of the situation in general, Mr. Chitty states that unfavorable weather conditions will prove a serious drawback, the lack of frost and snow hindering work on the limits. He expects a record breaking cut of pine, but states that the quantity of square timber taken out will be below the average, as only the more remote limits yield this class of timber now. Mr. Chitty also draws attention to the marked activity of the American firms, which, on account of the recent legislation, are cutting more extensively on their limits.

Mr. David McAuliffe, of the firm of W. H. McAuliffe & Co., lumber dealers, Ottawa, has returned from Burlington, Vt., where he passed the holidays and transacted business with the American trade.

One of the most popular members of the Ottawa company of the first Canadian contingent, now in South Africa, is Allan Gilmour, son of Mr. John Gilmour, of the firm of Gilmour & Hughson, the well known mill owners of Ottawa.

Mr. E. Harper Wade, Quebec representative of McArthur Bros., was in Ottawa this week on private business. Mr. Wade states that his firm will not cut so extensively on their limits this season as heretofore, owing to the fact that the timber if left standing promises to bring in better financial returns than if cut and sold at present high prices.

Ottawa contractors and retail and wholesale lumber dealers continue to find great difficulty in securing the necessary supplies of lumber from the mill owners, as the latter, if they have not already sold their standing cut, prefer to hold it for the outside markets.

Box lumber and culls for the American market are silll quoted at high figures, while lath are in great demand. The introduction of metallic shingles and roofing, however, has curtailed the demand for the product of the shingle mill, and the price has not advanced as rapidly as in the case of lath, indispensable in building operations. The higher grades of lumber for both the English and American markets show little advance.

OTTAWA, Jan. 5th, 1900.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

The market on spruce lumber is little changed. It is possible that where a mill can start up sawing and is in want of orders prices might be shaded. But there are very few of such mills, the low water and lack of logs keeping them idle. There is now more snow in the woods and hauling has commenced in good earnest. Agreement prices are still the rule, and yet something is sold occasionally for less :

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 2 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring. 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13.50

Western pine yet holds very strong, with the movement only moderate, however :

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	52.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	22.00 " 30 00
Coffin boards	20.00 " 25.00

Hardwood lumber is in the midst of the winter quiet, and yet there is a fair movement. Quartered oak continues firm, with the supply limited. Plain oak and ash are in quiet request. There is a better demand for maple :

Oak	$ 70.00 to $ 80.00
Fancy Oak	90.00 100.00
Plain Oak	35.00 45.00
Ash	$ 38.00 to $ 46.00
Cherry	90.00 130.00
Maple	30.00 40.00
Walnut	100.00 130.00

Clapboards are firmer. Some of the principal manufacturers declare that they shall sell no more at present prices :

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27 00
Spruce, 2nd clear	24.00 " 25.00
Pine, extra	34.00 to $36.00
Pine, clear	30.00 " 33 00
Pine, 2nd clear	28.00

Less than carloads, $1 to $1.50 more.

Cedar shingles are in quiet request at unchanged prices :

Extra cedar, best brands	$3.10 to $3.15
Clear cedar	2.65 " 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50

Oregon shingles range from $2.30 to $3.15, as to grade and quality.

LATH.—Laths continue very firm : 1⅝ inch, $3 to $3.15 ; 1½ inch, $2.90 to $3.

BOSTON, Jan. 6th, 1900.

TIMBER PROPERTY FOR SALE.

Messrs. T. H. DeCew & Sons, of Fenelon Falls, Ont., offer for sale in this issue a valuable timber property in British Columbia, consisting of 3,000 acres of timber limits, together with a complete saw milling and woodworking plant. As the limits are understood to be valuable and the machinery modern, this property is worthy the attention of prospective investors.

LUMBER INSPECTION OFFICE.

Mr. John A. Bertram, lumber inspector and shipper, of Toronto, is about to open an inspection office for the coming season at Little Current, Ont. He will be in a position to assist buyers in securing stocks at Georgian Bay points, and offers his services in this capacity.

SOUTH AFRICA

Millmen throughout Canada are invited to correspond with us and give particulars of the woods which they can supply for Constructional and Furniture purposes.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JANUARY 17, 1900 No. 52.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—Green Maple Squares, 6½ in. x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Box 24, CANADA LUMBERMAN

WE HAVE 300,000 FEET OF VERY GOOD Beech Logs which we wish to cut to order. Signed, JOHN HARRISON & SONS CO., Limited, Owen Sound, Ont.

FOR SALE.

CEDAR SAWED OR IN THE ROUND. REID BROS., Hepworth Station, Ont. Correspondence Solicited.

MASTS FOR SALE.

NEAR TORONTO, UP TO 90 FEET IN length. Apply to W. A. MILNE, Brown's Corners, Ont.

PINE TIMBER LIMITS.

THREE SMALL LIMITS FOR SALE IN THE Township of Gibson; all fronting on the Georgian Bay, and close to Midland and Penetanguishene. Apply to THE MUSKOKA MILL & LUMBER CO., Ltd., Toronto.

SAW MILL MACHINERY FOR SALE.

THE COMPLETE MACHINERY OF A SAW Mill, consisting of a steam feed large carriage and frame, one rope feed ditto, double edger and trimmers, swing saws, automatic grinders, belts and saws in good order; all made by Waterous, Brantford. Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

FOR SALE

THREE THOUSAND ACRES OF TIMBER LIMITS

ALSO SASH AND DOOR FACTORY, SAW, Shingle and Lath Mills, complete, with large Dry Kiln attached, Buildings, Stables, Shops, Dwelling Houses, etc., four miles from the limits, located in West Kootenay, British Columbia. Machinery all up to date and only run one season. Satisfactory reasons for selling. Apply for particulars to

T. H. DE CEW & SONS,
Correspondence solicited. Fenelon Falls, Ont.

WANTED.—POSITION AS MANAGER OR Superintendent with a lumber firm. Have had twenty years' experience. Address, F. A. HALL, Kootenay Lumber Co., Comaplix, B.C.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

THE MILLING CO.'S PLANING AND SAW Mill; doing good business. Reason for selling, other engagements. Stock about $2,000; machinery n splendid order. Address, J. W. CULL, Mitchell, Ont.

FOR SALE.

STEELE & GIBSON,
Humberstone (20 miles west of Buffalo.

FOR SALE AT A BARGAIN.

ONE 32-INCH DIRECT STEAM DRIVEN Gang; one heavy circular Saw Frame; one heavy 4-block Carriage, coupled with track to cut 52 feet; fractional set; steam feed; Rhodes' Swage; Covel Gang Sharpener Above practically new, used only three years. Address, Box 76, CANADA LUMBERMAN.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

Tug for Sale

TUG "HOME RULE," NOW in winter quarters at Amherstburg, Ontario. British register; length, over all, 80 feet; beam, 17 feet; hold, 12 feet; high pressure engine, 22 x 24; allowed 130 pounds of steam; with fuel draws 10 feet; can trim to 9 or 11 feet; built in 1890; hull sheathed with steel; classed A1½ in Lloyd's Canadian Register. Has been well kept up. For price and other particulars apply to

F. B. HACKETT, Owner,
Amherstburg, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

There is a feeling of unrest among the lumbermen of Ontario, due to the mild weather and the absence of the necessary snow for logging operations. Reports received from different districts state that the situation is anything but encouraging. A large cut of logs has been made, but as yet no hauling of any extent has been done. If, however, sharp winter weather, accompanied by snow, should now set in and continue for the next two months, it would be possible to get most of the logs to the banks of the streams. Naturally, the possibility of a short log crop has given increased strength to the lumber market. Some of the Ottawa valley manufacturers are reported to be holding out for a price which the shippers have not as yet shown their willingness to give. Buyers from the United States can now be found in all parts of the province for the purpose of buying dry stock and contracting for their season's requirements. A quantity of the pine lumber cut in western Ontario next season will find a market in Michigan, the production in that state now being less than is required for manufacturing purposes. This is in contrast with the conditions existing before the enactment of the manufacturing clause, when lumber sawn in Michigan from Georgian Bay logs was marketed in western Ontario. Within the past week common lumber has advanced in the Toronto market about one dollar and mill culls about fifty cents per thousand.

There is one feature of the hardwood market which differs from that of pine. While no heavy stocks of pine are held in the province by the manufacturers, dealers or consumers, there is a liberal stock of hardwoods in the hands of consumers, such as furniture and implement factories, waggon factories and wood-workers generally. The result of this will be that these industries will not be in the market for supplies early in the spring.

QUEBEC AND NEW BRUNSWICK.

Business is opening up this year in a manner that is very satisfactory to the spruce manufacturers of the eastern provinces. The price of British deals has been advanced by from $2 to $4 per thousand feet. That shippers are meeting this advance is borne out by the fact that large contracts have been entered into. We do not think that manufacturers will make a mistake in adhering firmly to their asking prices, particularly in view of the fact that the production of spruce logs this winter is not likely to be as great as was anticipated at the beginning of the logging season. The weather thus far has been unfavorable and there has been a scarcity of labor and teams. It is probable that the demand will readily absorb the cut, and that present prices will be maintained, if not advanced.

MANITOBA AND BRITISH COLUMBIA.

The absence of snow is causing the lumbermen in the west some anxiety. Reports from the woods are to the effect that hauling is somewhat at a stand-still. This condition has further strengthened lumber prices, as it is quite probable that the log production this winter will be less than was contemplated. The mild weather has also permitted of out-door work being carried on almost without interruption, and thus the consumption of lumber has been increased. The Lake of the Woods mills put into effect on January 1st a new price list making certain advances. This list will be published in our next issue.

In British Columbia the local lumber market is a little quiet, but several enquiries on foreign account are receiving the attention of manufacturers, and altogether the outlook is hopeful.

UNITED STATES.

Statistics of white pine stocks at the mills in the United States show that a shortage exists of over 750,000,000 feet as compared with one year ago. In Michigan there is very little stock that is not in the hands of dealers or consumers. The greatest shortage of stock is, of course, in the lower grades, No. 4 and No. 5 boards being especially scarce. As a result of this condition the manufacturers in the Mississippi and Wisconsin valleys have advanced prices of common boards by from 50 cents to $1.50 per thousand. While the demand for lumber is not particularly active, there is scarcely a weak spot in the United States market. Those who predicted that prices would weaken towards the spring now hold a different view, inasmuch as logging operations in the northern woods have been seriously retarded by lack of snow, and the log crop this winter is not likely to be any greater than it was last year. Good building weather has stimulated the consumptive demand in the east, and building promises to be brisk in the cities and larger towns during the coming summer. Spruce prices are very strong, with an upward tendency, and the supply of lumber is below the requirement. In hardwoods there is very little doing, although prices are being firmly maintained. A scarcity of basswood is reported, with prospects of a famine in that lumber before spring. White ash and maple are also enquired for to some extent, while elm is moving only very moderately.

The lath situation is somewhat uncertain. The supply is not equal to the demand, but as the unusual strength of the lath market is almost certain to stimulate production this year, there is some doubt as to how long present prices will be maintained. At Minneapolis $4.25 is being asked by manufacturers for No. 1 white pine, and $4 for mixed.

FOREIGN.

The Board of Trade returns show that in the season of 1899 there were imported into the United Kingdom 6,429,019 loads of timber and lumber, against 8,834,250 loads in 1898 and 9,972,733 loads in 1897. The import was, therefore, about 600,000 loads more than 1898 and 500,000 less than in 1897. The condition of stocks is favorable to a satisfactory trade during the coming year, while prices are at the highest point which has been reached for many years. Spruce is being offered in the London market at £8 17s. 6d. for 3×9 second quality and £8 7s. 6d. for third quality. There is a great scarcity of 3×11, which commands a high figure. Importers have been forced, by the high prices ruling in producing countries, to advance their asking prices considerably. Quebec spruce deals of poor quality are announced to have been sold on the basis of £8 per standard delivered on dock at Liverpool, and New Brunswick spruce is understood to have been purchased at £7 17s. 6d. delivered on dock at same port. These prices, although high, are not regarded as representing the highest values that will be reached during the year. The South African war has strengthened the value of deals, particularly 3×11 and 3×9 pine and spruce.

The steamer Seguin has been chartered to carry lumber from a Georgian Bay port to Montreal, two trips, at a reported rate of $3.50.

The schooner Eric has been chartered to load lumber at Annapolis, N. S., for New York at $4. The barque Culdoon will load lumber at Weymouth, N. S., for Buenos Ayres, at $11, or Rosario at $12.

NEW BRUNSWICK CEDAR SHINGLES.

There are very few eastern shingles moving at present writing. The retail dealers are largely busy in stock-taking and figuring out last year's business, and, of course, actual consumption is light. On the other hand, the average crop of small winter mill operators are busily at work and as usual are anxious to sell each carload produced just as soon as they can get it to the railroad. Their usual course of procedure when ready to sell is to write a dozen different commission houses, offering the same shingles to all and accepting the first orders they get. Meantime, each commission dealer is offering these same shingles to the trade, and the net result of so many offering the same little lot of shingles is that the impression is created that shingles are in most abundant supply. The facts in the case are different, for at the close of last season the manufacturers were thoroughly well cleaned out, and all the small winter mills in the business running full blast for the next ten weeks, and piling up their product, cannot produce as many shingles as will be wanted for actual consumption during April and May next.

There is, therefore, absolutely no reason for any weakening of prices by standard mills; they are sure to get last season's closing figures or better if they stand firm during the next six weeks. If, on the other hand, they once commence to make any material cut in prices, they will only accelerate the downward tendency, and by giving the retailers the idea that prices have reached the top and are going down, will actually get less business than if they hold firmly to their price. People are never so ready to buy on a falling as on a rising or steady market. The best course of procedure, therefore, is for the larger operators to stand firm and allow the more irresponsible and smaller mills to market their production, after which a firm market and steady prices will rule. The indications for business along general, and more especially house building lines, the coming season, are most excellent, and after the shingle trade really starts, which is usually about April 1st, the consumption ought to keep even pace with the production. Boston quotations are about as follows for strictly standard brands: Extras, $3.10 to $3.15; clears, $2.70 to $2.75; 2nd clears, $2.15 to $2.25. Unknown brands are quoted probably 10 cents less on two best grades.

WHITE PINE PRODUCTION AND STOCKS.

Valuable statistics of the white pine lumber production and stocks are furnished by the last issue of the American Lumberman. The statement covers the states of Michigan, Wisconsin and Minnesota, and includes reports from nearly 900 mills. The total output for 1899 was 6,056,508,000 feet; 1898, 6,155,300,000; 1897, 6,233,454,000; 1896, 725,763,035. Last year, therefore, the production was about 100,000,000 feet less than the output of 1898. The decresse as compared with 1897 is 177,240,000 feet, but the figures for last year show an increase over 1896. In 1895, however, the output was 1,000,000,000 feet greater than in 1899, and for the latter year the total is 2,000,000,000 feet less than the average output for the prosperous years previous to 1892.

The total stocks of white pine at the mills on December 1, 1899, amounted to 2,728,271,000 feet, as against a total on the same date a year previous of 3,494,739,000 feet. On December 1, 1897, the total stocks at the mills amounted to 3,915,558,000 feet, or larger than the stock last year by 1,187,287,000 feet. In 1895 the total stock was 4,180,360,000 feet. Going on back through previous years, it appears that the stock on hand December 1st last was the lightest known in any year since 1890. Of the total stock, the west holds by far the greater portion, the amount of stock on hand in the Chicago district and in Michigan being only 477,000,000 feet.

The shingle cut at the mills in the same district was 2,899,310,000 in 1899, 3,030,815,000 in 1898, and 2,360,771,000 in 1897. The stock on December 1 last was 694,302,000, against 762,698,000 in 1898 and 461,734,000 in 1897.

The figures regarding lath show a curious condition. While the output has been steadily increasing for the last three years, the stock on hand on December 1 of each year shows a steady decline. The cut was 1,062,837,000 last year, 949,666,000 in 1898, and 924,047,000 in 1897. The stock on hand on December 1 last was 226,780,000, against 353,731,000 in 1898 and 412,811,000 in 1897.

The Pasco Lumber Co, has been incorporated in New York city, with a capital of $250,000.

The Post & Emerson Co. have been incorporated, to carry on a lumber business at Oswego, N.Y.

STOCKS AND PRICES.

From Buffalo comes the report of the sale of 1,000,000 feet of box lumber, 8-inch and wider, 4-4 and 5-4, at $20, also a large lot of log run shorts, 4 to 8 feet, at $17.

Graham, Horne & Co., of Fort William, Ont., are understood to have been given a contract to supply 4,000,0000 feet of lumber for the Ogilvie flour mill and elevator to be built at that place.

The corporation of Winnipeg desires tenders by Wednesday, February 7th, for the supply of 1,000 cords of cedar paving wood. Particulars may be obtained from C. J. Brown, city clerk.

The Saginaw Lumber & Salt Company recently purchased 5,000,000 feet of logs cut on deeded land in the Georgian Bay district. These will be taken to the company's mill at Saginaw.

In Chicago trade in flour barrel stock is quieter than it has been, but prices remain about the same. Elm staves sell at $7 to $8, and heading at 5 to 5½ cents. Coiled elm hoops are a trifle weaker.

Wm. Schuette & Co., of Saginaw, have contracted with Joseph Turner for 5,000,000 feet of lumber to be cut early next spring at Midland, Ont. The above firm have 12,000,000 feet of lumber in the yard at Saginaw, 10,000,000 feet on the mill docks on the Saginaw river, and 2,000,000

herst, N.S., for $23,000. There is a well equipped saw mill and several hundred acres of timber lands.

The schooners Pearline, B. B. Hardwick and Foster Rice sailed from Annapolis, N.S., last week for Porto Rico, with lumber, shingles and clapboards. The schooner Orona sailed for Trinidad with 150,000 feet of lumber.

The Goderich Lumber Co., of Goderich, Ont., are reported to have purchased a saw mill at Owen Sound and a timber limit near Lion's Head, comprising 1,950 acres, and containing a large quantity of hemlock, basswood and maple timber.

The prices for common boards fixed by the Mississippi and Wisconsin valley manufacturers are as follows: No. 1—13-in. and wider, 12 ft., $20.50; 12-in., 10 ft., $21; 12 ft., $20; 10-in., 10 ft., $19; 12 ft., $18; 8-in., 10 ft., $15; 12 ft., $17. No. 2—13-in., 12 ft., $16; 12-in., 10 ft., $18.50; 12 ft., $17; 10-in., 10 ft., $16.50; 12 ft., $16; 8-in., 10 ft., $14; 12 ft., $15. No. 3—12-in., 10 and 12 ft., $15.50; 10-in., 10 and 12 ft., $14.50; 6 and 8 in., 10 and 12 ft., $13.50; mixed widths, $13.50. No. 4—mixed widths, 10 and 12 ft., $12.

While hardwood stocks generally are light, we learn that D. Knetchtel, of Hanover, Ont., has obtained a supply of lumber considerably greater than one year ago. The Knetchtel Furniture Co., in which he is a large shareholder, have on hand at present over 3,000,000 feet of hardwood lumber, while at the same period last year their stock was less than 1,000,000 feet. Last summer this company bought over 2,000 acres of hardwood timber lands on the Bruce peninsula and a saw mill near Stokes Bay, which they are now operating. They expect to get out this winter for this mill 1,500,000 feet of logs. Mr. Knetchtel is also largely interested in the Southampton Manufacturing Co., of Southampton, and the Sieling Furniture Co., of Walkerton, and informs us that both these factories have more than double the quantity of lumber on hand that they had one year ago. He estimates that about 1,000,000 feet of logs will be obtained this winter for each of these mills. In Mr. Knetchtel's opinion, there is a probability that prices of hardwood lumber will weaken towards the spring.

FIRES.

A saw mill at Old Fort, Ont., owned by J. McDermott, was burned recently. Loss, $2,500; no insurance.

The stave mill of H. C. Rees at Woodslee, Ont., was destroyed by fire on January 4th. The loss will probably reach $3,000.

The saw mill of F. Hatfield at Tusket Wedge, N.S., was destroyed by fire on January 7th. The loss is $3,000, with no insurance.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

SPRUCE.—Spruce lumber is in fair winter demand, but there is still a good deal of trouble about filling orders, by reason of low water at the mills and on account of a lack of snow for moving logs. In some sections this lack of snow is really very serious. The loggers are at work, but under great difficulties, and if more snow does not fall very soon the cut will be a very small one that will reach the mills. Full agreement prices are still the rule on spruce:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13.50

HEMLOCK.—Hemlock is very firm, with little offering. Full agreement prices, or even above, are the rule:

Matched hemlock boards	$16.50 to $18 00
Pennsylvania	15.00 " 16.00
Eastern	14.50 " 15 59
with the usual advance for over 16 ft.	
Eastern boards	14.00 " 16.00
No. 1	13.00 " 14.00
Planed one side and matched	16.00 " 17.00
Pennsylvania boards, No. 1, 8, 10 and 12 in	16.00 " 17.00
No. 1, 10 feet	14.00
Planed and matched	16.50 " 17.50

PINE.—Western pine is in good shape, with a fair winter demand:

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	52.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	22.00 " 30 00
Coffin boards	20.00 " 25.00

CLAPBOARDS.—Clapboards are firm, though trade is seasonably dull:

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27 00
Spruce, 2nd clear	24.00 " 25.00
Pine, extra	34.00 to $36.00
Pine, clear	30.00 " 33.00
Pine, 2nd clear	28.00
California redwood, clear	42.50 " 45.00
Second grade	40.00 " 42.00

LATH.—Laths are a little easier: 1⅝ inch, $3 to $3.15; 1½ inch, $2.90 to $3.

BOSTON, Jan. 15th, 1900.

COMPARISON OF GLASGOW PRICES.

The following figures, compiled from Allison, Cousland & Co.'s annual timber market reports, will be interesting as showing a comparison of the prices ruling in the Glasgow market on December 31st, 1898 and 1899:

WANEY WHITE PINE.—Prime wood, 1898, 2s 4d to 2s 7d; 1899, 2s 2d to 2s 9d; second class, 1898, 15d to 2s; 1899, 19d to 2s 2d per cubic foot.

SQUARE PINE.—First class large average, 1898; 2s 3d to 2s 6d; 1899, 2s 6d to 2s 8d.

RED PINE.—35 foot average, 1898, 14½d to 15d; 1899, 18d to 20d.

ELM.—First class, 1898, 2s 2d to 2s 3d; 1899, 2s 9d to 3s.

OAK.—Prime wood, 1898, 2s 6d to 3s; 1899, 2s 8d to 2s 10d.

BIRCH.—16 inch average, 1898, 18d to 20d; 1899, 20 to 23d.

ASH.—16 inch average, 1898, 21d to 23d; 1899, 2s to 2s 3d.

PINE DEALS.—First quality broad, 1898, £22 to £24 1s 3d per standard; regulars, £20 12s 6d to £21 6s 3d; 1899, £26 16s 3d to £28 3s 9d; regulars, £24 15s to £26 6s 6d. Second quality broad, 1898, £16 10s to £18 11s 3d; 1899, £18 11s 3d to £20 12s 6d. Third quality broad, 1898, £9 5s 7d to £10 13s 1d; 1899, £11 to £12 7s 6d.

QUEBEC SPRUCE DEALS.—Third quality, 1898, £6 3s 9d to £7 11s 3d; 1899, £7 4s 4d to £8 11s 10d.

NEW BRUNSWICK SPRUCE.—Second quality, 1898, £6 3s 9d to £7 11s 3d; 1899, £8 5s to £9 12s 6d.

There is some enquiry for deal and timber tonnage from Quebec and Montreal at 45s for deals and 65s for timber. A steamer has been chartered for first-open-water to carry 1,150 standards from Montreal to east coast Great Britain, at 45s. There has been considerable chartering of sail tonnage from New Brunswick and Nova Scotia ports at 45s to 48s 9d for spring shipment. The steamship Marian has been fixed to load deals at Cape Tormentine, N.B., for west coast England at 47s 6d, and another has been fixed to load at Pugwash for same destination at 48s.

SALE OF Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900

At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 213, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WANTED.—POSITION AS MANAGER OR Superintendent with a lumber firm. Have had twenty years' experience. Address, F. A. HALL, Kootenay Lumber Co., Comaplix, B.C.

CURRENT TRADE CONDITIONS.

ONTARIO.

The weather of the past week has not brought any relief to the logging situation in Ontario. Reports from the various districts are, almost without an exception, to the effect that work in the woods is being very much handicapped by the mild weather and lack of snow. Many of the operatorss which usually have a large part of their stock of logs on the bank by this time have not yet commenced to haul. It is very probable that the supply available for the sawing season will be considerably less than was anticipated, and unless the weather of the next two months should be accompanied by heavy snowfalls there will be insufficient water in many of the streams in the spring to permit of floating the logs. The lack of snow will affect the production of hardwood logs quite as much as that of pine.

The demand for lumber so far this winter has kept up unusually well, and the indications are that there will be a large consumption during the present year if exorbitant prices do not cause investors to delay proposed undertakings. The number of building permits issued in the larger cities since the first of the year augur well for a good building season, while the large wood-working industries have orders on hand which cannot be completed for months to come, and which will consume a large quantity of lumber. Some of the lumber required is now in stock, but this will be consumed before the spring.

QUEBEC AND NEW BRUNSWICK.

As each week goes by indications come to light of still higher prices for spruce lumber. The British market may be reckoned on to require quite as much in the coming season as in 1899, while the building outlook in the Eastetn States points to a larger demand from that quarter. There is now some doubt whether as much lumber will be produced this year as last season, owing to the impossibility of getting logs to the mill. The mild weather has interfered with logging operations in the eastern provinces as in Ontario and the west. It is our opinion that while manufacturers may be justified in contracting for their season's production at the prices now offering, there can be nothing lost in waiting for a week or two before disposing of their cut. There is likewise a strong market for shingles. A Quebec manufacturer reports the sale of fifty cars for future delivery at a price equal to $2.25 per thousand f. o. b. cars at mill.

UNITED STATES.

Peculiar conditions characterize the lumber trade of the United States, the tendency of which is to maintain the present high prices. Logging operations are being seriously interfered with by unfavorable weather. Manufacturers are refusing to contract for stock to be cut unless at very tempting figures. At Duluth they are asking $12 for No. 4 boards, $14 for No. 3 boards, and $18 for log run stock to be cut next season. All things point towards continued firmness in white pine prices. At Boston white pine uppers are said to be particularly scarce. A report from New York states that spruce is as firm as ever and that there is little fear of a weakening in prices at least for some monthsto come. In the Eastern States the price of hemlock lumber has been advanced one dollar per thousand.

Of the hardwoods, basswood seems to be the most active. Prices are steadily advancing, and it is certain that there will be a shortage in this lumber in the near future. There is a growing demand for elm and maple. Prices of the latter at the mills in Michigan have been advanced to $9, $13 and $18 for culls, common and firsts and seconds respectively.

The supply of 18 inch white pine shingles in the eastern market is so small that cedars are being used in their stead. There is an increased demand for both Washington red cedar and New Brunswick white cedar shingles. The Washington production sell in the Boston market at $3.15 to $3.25 for clears.

FOREIGN.

Statistics are now to hand of the import of wood goods into the United Kingdom during the year 1899. Of sawn lumber there were imported 6,635,754 loads, and of hewn timber 2,667,049 loads, against 6,363,357 loads and 2,331,755 loads respectively for the preceding year. From Canada there were imported 1,751,453 loads of sawn lumber and 114,794 loads of hewn timber, these figures, as with the total imports, showing a slight increase over the year 1898. The present strength of the market, in the face of this large import, is due to the fact that during the year the consumption of lumber in Great Britain increased nearly 50 per cent, thus

reducing stocks at the close of the year to to a lower point than at the corresponding period one year previous. The present tendency of prices is to further harden. At London first quality pine sells at £27 for 3×11, and spruce is selling to arrive at £9 for 3×9 second quality, and £8 10s. for third quality. At the recent public sales prices have been well maintained, 3×11 first pine, 11 inch and up, and 12 ft. in length, selling as high as £25 10s., and 3×11 third quality pine at £10 10s.; second quality Quebec pine brought from £10 to £14 10s., the latter figure being realized for a lot of 2×9 inch, 12 feet and up. Quebec spruce made as high as £10 15s. for first quality, and £9.10s. for a mixed lot of firsts and seconds. Fourth spruce from St. John, N.B., made £9 for 3×11, and £8 5s. for 3×7. Square pine timber sold at from 77s.6d. to 80s. per load, birch planks from Halifax, N.S., at 1s.1d. per cubic foot, and birch timber from Quebec at 87s.6d. to 97s.6d. per load.

It will be observed by a report published elsewhere that the Australian market is improving, and that better prices are likely to be realized in the near future.

STOCKS AND PRICES.

Thos. Boland, of Markdale, Ont., is offering $7 to $8 per thousand feet for hardwood logs.

A timber property at Porter's Lake, N. S., owned by Alfred McElmon, is understood to have been purchased by Alfred Dickie, of Lower Stewiacke, N.S., for $20,000.

J. W. Munro, of Pembroke, is reported to have purchased from T. W. Murray a timber limit of 6½ square mills in Widdifield township which the latter purchased at the recent Ontario Government sale.

A Saginaw lumberman who recently visited the Georgian Bay district estimates the log input this winter at 450,000,000 feet. Of this quantity less than 50,000,000 feet will be available for the Michigan market.

There is said to be a slight weakening in the lath market. The supply has become no greater, but holders of stock fear that as the spring approaches prices may recede a trifle. This has resulted in an increase in the offerings.

Geo. St. Pierre & Co., of Fraserville, Que., have sold 10,000,000 shingles to be manufactured this year. They expect to make in all 20,000,000 shingles, and have now in operation 13 machines, working night and day. This firm recently obtained a contract from the Dominion government for the construction of a pier at Cacouna, Que., at a cost of about $6,000.

R. P. Rithet & Co., of Victoria, thus refer to the British Columbia lumber industry: The lumber industry has been unusually active, and the mills engaged in the export trade had all the orders they could handle at remunerative prices, some of the larger mills having had to keep their machinery going night and day for a large portion of the year. The volume of business has been somewhat curtailed, for some months back, by the want of tonnage, but, even with this drawback, a very satisfactory trade has been done. The prospects for the future are good; many of the mills have orders in hand to keep them going for probably half the year. Indeed, new business will hardly be entertained for earlier loading than July or August. The export price of lumber has recently been increased to a basis of $10 per M feet.

NEW BRUNSWICK CEDAR SHINGLES.

There is little change to report in the cedar shingle trade. Consumption is not expected to be anything but light at this season, and orders are therefore not numerous. In regard to future prices, there is food for thought in the action of the Michigan and Wisconsin Cedar Association a few days since. This Association has held prices firmly to list in the past, and has now advanced two better grades 16 inch shingles 10c. per thousand. The Oregon, Washington Territory and British Columbia shingle products are also being held very firmly.

Stocks on hand in retail yards are only fair, the tendency of the dealers being to wait until assured that prices will go no lower before stocking up. After another month or six weeks, during which, owing to light consumption, slow business and scanty orders must prevail, if the manufacturers should mark up prices a little, all dealers would make haste to get under cover, and a rush of orders for spring trade would result. Reports now in the hands of the writer as to the winter's operations, would seem to indicate that there is something of an increase in the number of small winter operations. On the other hand, several large manufacturers, one of them one of the largest in the business, report that their cut of logs this winter will be considerably smaller owing to inability to secure labor. Generally speaking, it would appear that all the shingles to be made in 1900 will be required for consumption, and that the prices to be realized will be fixed by the manufacturers rather than by the retailer or commission man, especially after the spring trade opens. Present Boston quotations are: Extras, $3 to $3.10; clears, $2.65 to $2.75; 2nd clears, $2.15 to $2.25. Extras show the slowest movement.

BUSINESS NOTES.

Andrew Calahan, lumber dealer, Glencoe, Ont., has assigned to C. B. Armstrong. A meeting of creditors will be held on the 26th inst.

F. D. Irvin has been admitted as partner in the firm of Irvin & Sellers, wood brokers and dealers, Liverpool, England. He is a son of David Irvin, the senior member of the firm.

THE BARBADOS MARKET.

The last circular of Clairmonte, Man & Co. contains the following reference to lumber shipments :

There have been two arrivals with white pine and spruce lumber during the fortnight. Last local sales were : White pine, $16.77 @ $17.65 per M as it runs, no allowance ; spruce, $18.61 for first quality. Our yards are rather bare of spruce, and dealers are now about laying in supplies for the coming crop season.

Shingles—Gaspe cedar, in supply ; we note the importation of 835,000 ex Neva, about half of which were placed at $3.50 per M ; remainder stored. Cedar laying, $2.40 ; spruce laying, $2.33.

Arrivals : Schr "L. B. Currie," from West Dublin, N.S., on deck 9 M feet spruce, $18.30, 170 M spruce laying shingles $2.20 ; in-board, 16 M feet spruce, $18.61 ; 12 M hemlock, $16.46.

Schr "E. A. Stimpson," from St. John, N.B., 103 M feet white pine, 908 M shingles for this port ; 111 M feet white pine for St. Lucia. Local sales—792 M sawn cedar laying shingles, $2.40 ; 66 M spruce do., $2.33 ; 50 M shaved cedar do., $2.90 ; 102 M feet white pine boards, sold in rafts from $16.77 @ $17.65, as it runs, no allowances.

LUMBER PRICES IN MANITOBA.

The lumber manufacturers in the Lake of the Woods district put into effect on January 1st last a new price list on lumber, for delivery at Winnipeg, La Salle, Morris, Rosenfeld, Altona, Gretna, Otterbourne, Dominion City, Emerson, Rosser, Stony Mountain, Stonewall, Portage la Prairie and Brandon. The quotations are as follows :

TIMBER AND DIMENSION.—Timber—4 x10 and 12, 6 x 10 and 12 and 8 x 8 to 12 x 12, 12, 14 and 16 feet long, $19 ; 6 x 6 to 6 x 8, 4 x 4 to 4 x 8 and 3 x 6 to 3 x 12, 12, 14 and 16 feet long, $17,50. Dimension—2 x 4 to 2 x 12, 12, 14 and 16 feet long, $16.50 ; 2 x 4, 10 feet long, $17 ; 2 x 8 to 2 x 12, 10 feet long, $16.50 ; 2 x 6, 10 feet long, $15.50 ; 2 x 4 to 2 x 12, 6 and 8 feet long, $14. Cull planks—all widths, $11 ; re-sawn, $11. $1 per M advance on each inch. over 12 in. in depth and width. $1 per M advance on each 2 feet over 16 feet.

BOARDS.—Red pine—First common boards, 10 to 18 feet, $22.50 ; second, $17.50 ; third, $16.50 ; culls, $14.50. ½ inch sheathing S. I. S., $13.50. Second common stock, 12 in., $19 ; 8 to 10 in., $18. No. 1 wide box boards, $27.50 ; No. 2, $20. $2 per M less for 6 and 8 feet. Re-sawing boards $1 per M extra.

SHIPLAP.—8 and 10 in., $18.50 ; 6 inch, $17.50 ; culls 8 and 10 in., $16 ; 6 in., $13. $2 per M less for 8 feet and under.

FLOORING, SIDING, AND CEILING.—Flooring and siding—8 and 10 in., $19.50 ; 8 and 10 in. culls, $16. Flooring, siding and ceiling—4, 5 and 6 in. first white pine, $35.50 ; second, $31.50 ; third, $24.50 ; 5 and 6 in. first and second red pine, $27 ; 4 in., $25.50 ; 5 and 6 in. third red pine, $22 ; 4 in., $21 ; 5 and 6 in. fourth red and white pine, $19 ; 4 in., $17 ; 4, 5 and 6 in. culls, fourth red and white pine, $15. $2 per M less for 8 feet and under. $1 per M advance for dressing both sides. 1¼ and 1½ in. flooring $1 per M advannce over 1 in. Bevel siding, No. 1, ½ in. x 6 in., $21 ; No. 2, ½ in. by 6 in., $18.

FINISHING.—1¼, 1½ and 2 in. first, second and third clear white pine, $45 ; 1¼, 1½ and 2 inch. select white pine, $35 ; 1¼, 1½ and 2 in. shop, $30. $5 per M advance on 2½ in. and thicker. 1¼, 1½ and 2 in. clear red pine, $31 ; 1¼, 1½ and 2 in. select, $26.50. 1 in. first and second clear white pine, $47.50 ; 1 in. third white pine, $36.50 ; B select white pine, $30 ; C select white pine, $25. No. 1 stock white pine, 12 in., $41.50 ; 8 and 10 in., $39.50. No. 2 stock white pine 12 in., $36.50 ; 8 and 10 in., $34 50. No. 3 white and red pine 12 in., $29.50 ; 8 and 10 in, $27.50. 1 in. clear red pine, $31 ; 1 in. select red pine, $26. Selected widths, $2 per M extra.

MOULDINGS.—Parting strips, per 100 lineal feet, 40c ; window stops, 50c ; door stops, 75c ; quarter round and cove, 50c ; 4 inch casing, $1.60 ; 5 in. casing, $2 ; 6 in. casing, $2.40 ; 8 inch base, $3.25 ; 10 in. base, $4. All other mouldings 50 per cent. discount off universal moulding list.

Lath, per M, $3.50. Pine shingles, 6 in. clear butts, per M, $1.75.

AUSTRALIAN MARKET REPORT.

Timber operations, say Fraser & Co., of Melbourne, have shown considerable activity within the last few weeks. Not only have buyers been purchasing freely from mostly all classes of imports, but the large and quick deliveries taken from arrivals at the wharves go to prove that sales made "to arrive" were greater than we think was generally anticipated. Nearly all importations have been well dealt in of late, not more than perhaps two or three lines being the exception. Of more importance is the fact that in the bulk of business concluded some slight margin of profit to those interested here and abroad has been shown, and which has not generally been the case during the greater part of the year now drawing to a close. Values are also likely to be maintained, at least without any material alteration being shown one way or the other for some time to come. But should the actual consumption improve, which is not improbable, it is more than possible that in nearly all description of timber steadier if if not better rates may be manifested. The export and freight quotations of the principal shipping markets to which we look for supplies are on the upward grade, and to successfully cope with the same it would appear that it will be necessary to eventually secure higher rates, so as to enable results being obtained of a more satisfactory character in the coming year than has been experienced as a whole in the present one.

OREGON PINE.—Imports : 1,814,575 feet super. Arrivals : Sonoma, from Port Townsend ; Carrollton, from Tacoma. An active demand has been experienced. The cargo per Sonoma, with the exception of a small quantity still to sell, has been quitted upon the basis of £7 per 1,000 feet super. for an assorted specification. The other arrival per Carrollton was placed in three hands, and the bulk of the shipment will not come upon the local market, being required for manufacturing orders.

Following is a comparative table of imports:

	1898.	1899.
Flooring, lining and weather boards	16,011,916	24,126,879 ft.
Red deals	1,365,699	7,181,859 "
Spruce and Baltic white deals	7,176,575	3,872,606 "
Oregon pine	10,101,367	9,303,584 "
Clear pine	133,302	307,424 "
White pine shelving	1,306,152	1,031,767 "

PUGET SOUND LOG PRICES.

The members of the Puget Sound Lumbermen's Association have agreed upon the following price for logs :

Length 40 feet and less—merchantable logs, per thousand, $6 ; select merchantable logs, $6.50.

Merchantable long timber—42 to 50 feet inclusive, $7 ; 52 to 60 feet inclusive, $8 ; 62 to 70 feet inclusive, $9 ; 72 to 80 feet inclusive, $11 ; 82 to 90 feet inclusive, $13 ; 92 to 100 feet inclusive, $15 ; 102 to 110 feet inclusive, $17 ; 112 to 120 feet inclusive, $19.

Mixed quotations—Flooring logs, per thousand, $7.50 ; long decking logs, 36 to 50 feet inclusive, $9.50 ; common cedar shingle logs, $6 ; spruce logs, the same as fir logs ; hemlock logs, the same as No. 2 logs ; boom sticks, $5 each ; chains, $10 each ; swifters, $5 per pair.

The barque Ashlow has been chartered to load lumber at Tusket, N.S., for Buenos Ayres at $10.50, Rosario $11.50.

SALE OF Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900

At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 212, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 16, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WE HAVE 300,000 FEET OF VERY GOOD Beech Logs which we wish to cut to order. Signed, JOHN HARRISON & SONS CO., Limited, Owen Sound, Ont.

WANTED—Second hand Shingle Machine and Jointer, Lath Machine, Double Edger without Trimmers, Endless Log Haul and 500 yards light Track Rail. Box "A," Desbarats, Algoma.

MASTS FOR SALE.

NEAR TORONTO, UP TO 90 FEET IN length. Apply to W. A. MILNE, Brown's Corners, Ont.

LUMBER FOR SALE.

ABOUT 20,000 FEET DRY 1½ INCH ROCK Elm; 40,000 feet dry 1½ inch Maple; 10,000 feet dry 1½ inch Beech. Address D. KNECHTEL, Hanover, Ont.

FOR SALE.

ONE SAW MILL CARRIAGE WITH THREE blocks, with saw frame and rope feed, suitable for cutting ties and medium sized logs. Apply Box 75, CANADA LUMBERMAN.

BLOCKS OF 1,000 ACRES AND UPWARDS of Hardwood Timber Lands wanted. Must positively be principally Maple of good size; state price and location, proportion of Maple and full particulars. Box 45, CANADA LUMBERMAN.

FOR SALE.

TIMBER LIMIT, 36 SQUARE MILES, IN Township of Drury, on north shore of Lake Huron, traversed by the C P. R., Sault line and the Spanish River. Heavily timbered with Spruce and Tamarac; also about 5,000,000 feet of Pine. Good chance for man with Portable Mill. For further particulars apply Box 55, CANADA LUMBERMAN.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland; extensive Lumber Docks, Houses, Store Buildings, etc., water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

A report comes from the Muskoka district that there has been a liberal fall of snow, as much as nine inches in some districts. Should this snow-fall prove to be have been general throughout the northern district of Ontario, it will cause lumbermen to take a more hopeful view of the outlook for logging operations. It is doubtful, however, whether the total quantity of logs reckoned on can now be banked. Elsewhere an estimate is given of the contemplated production of pine logs in the province this winter. Well-informed persons predict that this estimate will not be reached owing to the difficulty of hauling the logs in the woods. The future snow-fall will not only bear an important relation to logging operations, but will also determine to a large extent the course which prices for lumber will take. With an abundance of snow for the balance of the winter season, prices of pine and hardwood lumber will be likely to weaken towards the spring, but if the fall of snow should be light and insufficient for expeditious logging, we would not be surprised if still higher prices should rule. The present movement of lumber is of satisfactory volume. Wholesale prices at Toronto remain unchanged, but at Ottawa shipping cull strips have advanced about $1.50 per thousand, the price now being $12 to $13.50. Lath is also higher, No. 1 selling at from $3 to $3.25, and No. 2 at from $2.50 to $2.75.

QUEBEC AND NEW BRUNSWICK.

Reports to hand from the logging districts of Quebec and the Maritime provinces are more encouraging than they were last week. In some sections the continued scarcity of snow is still interfering with operations, but in other districts the situation is more favorable. On the Tobique, Nashwaak and Miramichi rivers, in New Brunswick, very good progress has been made in the woods, but in the southern portion of Quebec some of the large operators have not yet commenced to haul their logs. Where there is sufficient snow every effort is being put forth to get logs to the streams, but there is a scarcity of labor which may result in a reduced input. The market remains firm, enquiries for stock are numerous, and prices generally are tending upwards. Many of the mills are preparing to cut on specifications for the South American market, as the returns from stock shipped to that market last year was quite as good, if not better, than from trans-Atlantic shipments. There will also be a large quantity of lumber cut for the United States market. The shippers to Great Britain are showing much willingness to contract for stocks, particularly for early shipment. One shipper alone is said to have contracted for upwards of 100,000,000 feet in New Brunswick and Nova Scotia. The average price for deals at St. John is about $12 per thousand.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba and British Columbia during the past month has been such as to augur well for an active season. Building operations are opening up favorably, and architects report a large amount of prospective work. It is believed that lumber prices in the spring will be little if any lower than they are at the present time. The price lists issued show some important changes. No. 1 lath is now selling in Winnipeg at $4.50 per thousand retail, as against $2.75 one year ago. The best quality of shingles brings $3.25. The planing mills are so busy that an advance in the price of sashes and doors is looked for early in the spring.

UNITED STATES.

Owing to higher freight rates, pine prices have been advanced by Minneapolis wholesalers about 25 cents per thousand. This is about the only change which has taken place in the pine market, although in respect to hemlock a considerable advance has been made. At New York the base price of hemlock is now $20 and at Buffalo $16, with every prospect of a further rise before long. The report from wholesale markets is that eastern retailers and consumers have been holding off and demanding lower prices, but there is now evidence that the east is preparing to buy at such prices as it can obtain. The situation thus far this winter is opposed to any break in prices, while there is a possibility that they may go still higher. At Buffalo shop lumber is selling at $39.50, and at Boston pine uppers are worth $60 to $67 for one inch and $62 to $65 for 1¼, 1½ and 2 inch. Lath and shingles are in strong demand. No 1 white pine lath is selling in the Buffalo and Tonawanda markets at $3.75, and is very scarce at this figure. Extra white pine shingles bring $3 and second quality $2.25.

The hardwood demand is fully equal

o the visible supply, and prices are more likely to advance than weaken. Quartered oak has been marked higher at Boston, ash is scarce and moving steadily, and the supply of dry maple is almost completely exhausted. Elm moves more slowly than the other hardwoods, and there does not seem to be any prospect of an immediate revival of demand.

FOREIGN.

The British timber market remains firm, with a tendency towards higher prices. It is predicted that there will be an advance of 10 per cent. on the better qualities of pine deals, and 25 per cent. on the lower qualities. Quebec first pine now sells in the Liverpool market at £20 to £24 per standard, second quality at £15 10s. to £16 10s., and third quality at £9 5s. to £10. Quebec spruce brings about £7 15s., and New Brunswick spruce from £7 to £7 5s. The quotations for waney board pine are 2s. 6d. to 2s. 10d. per cubic foot for large average, and 1s. 8d. to 2s. 2d. for second-class wood. Square pine is quoted at 2s. 6d. to 2s. 8d. for first quality, and 1s. 8d. to 2s. for second-class. Birch timber is scarce and sells readily at 1s. 9d. to 2s. for 15 to 17 inch average, and 1s. 6d. to 1s. 8d. for 13 to 14 inch average. The demand for elm is also good at 2s. 10d. and 2s. 2d. respectively for first and second class timber.

THE ONTARIO LOG PRODUCTION.

From information gathered from various sources we are enabled to place before our readers a fairly accurate estimate of the contemplated production of logs in Ontario this winter. The reader will bear in mind, however, that the quantity of logs which will reach the mills may be considerably less than that cut owing to unfavorable logging conditions and the probability of low water in the streams. The figures would seem to indicate that the cut of pine on Crown lands in Ontario will be in the neighborhood of 800,000,000 feet, which is a considerable increase on last year's operations.

Taking, first, the north-western section of the province, we find that the cut of pine timber in the Rainy River district will probably reach 40,000,000 feet. There will also be taken out about 900,000 ties for the Canadian Pacific Railway and 500,000 ties for the Rainy River Railway, in addition to a considerable quantity of telegraph poles and cedar posts. It is learned that the demand for cedar is increasing in the west.

In the Thunder Bay district the cut in the woods will be in the vicinity of 25,000,000 feet, the chief operator in this district being Alger, Smith & Co., whose intention at the beginning of the season was to get out 15,000,000 feet; but it is understood that this quantity may be curtailed owing to a scarcity of labor.

In the western Algoma district the production of pine will be in the neighborhood of 80,000,000 feet, of hardwoods from 3,000,000 to 5,000,000 feet, of spruce pulp wood 50,000 cords, and of railroad ties probably 50,000. According to a correspondent of the Toronto Globe, the cut of pine logs in the eastern division of Algoma will be about 100,000,000 feet, compared with 30,000,000 feet last year, making a total of 180,000,000 feet for the Algoma district.

The most important district in Western Ontario is that of Parry Sound and Muskoka, in which the cut of pine timber will be approximately 200,000,000 feet. In this district the Holland & Emery Co., of Byng Inlet, the Parry Sound Lumber Co., Wm. Peter, of Parry Sound, the Arthur Hill Lumber Co., and the Bank of Toronto, working the Turner & Fisher limits, are the largest operators. The production of these five firms will probably reach 125,000,000 feet. The Parry Sound Lumber Co. are understood to be taking out a quantity of board pine.

The output in the Peterboro district is likely to be in the neighborhood of 100,000,000 feet. The Rathbun Co., of Deseronto, and Gilmour & Co., of Trenton, are the largest operators. Michle, Dyment & Son are reported to be taking out about 100,000 cubic feet of board timber.

Coming to the Ottawa valley, a reliable estimate would seem to place the output on the Ontario side at 175,000,000 feet of pine. Of this about 75,000,000 feet will be taken out in the district between the Petawawa and Mississippi rivers, and the balance in Nipissing and the district adjacent to the Mattawa river.

There will probably be taken out in districts not covered by the above review in the neighborhood of 75,000,000 feet, which brings the total pine production of the province up to 795,000,000 feet. This estimate, of course, only includes the timber cut on Crown lands.

Throughout the province the production of railway ties, cedar posts and telegraph poles is being increased, but there seems to be a diminution in the production of board timber.

The probable production of lumber in the Ottawa valley in the coming season is a matter of some interest. Should all the logs cut reach the mills, it is probable that the mill output will be about 20 per cent. larger than last season. Of this increase 10 per cent. will be attributable to an increased cut of logs and 10 per cent. to the fact that a quantity of last season's logs did not reach the mills, owing to low water in many of the smaller streams tributary to the Ottawa, and are now a reserve for the sawing season of 1900.

STOCKS AND PRICES.

A timber limit at Riverside, on Nine Mile River, N.S., has been purchased by James G. Kerr, of Guysboro.

The Southampton Lumber Co. are supplying the timber for the harbor improvements at Port Elgin, Ont.

The steamer Victorias is loading lumber at Chemainus, B.C., for the Fiji Islands. She will take 1,500,000 feet.

The Sheet Harbor Lumber Company, of Sheet Harbor, N.S., expects to cut about 6,000,000 feet of deals during the coming season.

The city of Hamilton desires tenders by Tuesday, February 6th, for the annual

Duncan Fraser, of Winnipeg, has secured a contrrct to supply 4,000,000 feet of timber for the Ontario & Rainy River Railway.

H. A. Clemes & Co., of Guelph, Ont., have just purchased a timber limit in Muskoka, on which they will commence logging operations at once.

A. Larocque, of Montreal, has purchased from J. A. Renaud, of Joliette, his interest in the Mastigouche Lumber Co. Mr. Larocque now becomes sole proprietor. The mills are situated at St. Gabriel de Brandon.

At the Crown Lands office, Fredericton, N.B., several timber berths were sold last week at the upset price of $8 per mile. John E. Moore bought three berths on Canaan River, aggregating 15½ square miles; John Dewer & Sons bid in a two-

mile berth on Magaguadavic River, and a two-mile berth on the southern side of the Restigouche River, went to the Estate of J. P. Mowatt.

Howard & Craig, of Sherbrooke, Que., are reported to have purchased from the Quebec Government some 6,000 acres of virgin timber limits of the Chaudiere river. This gives them about 20,000 acres of timber on that stream.

The Liscombe timber property of 7,000 acres and an interest in 25,000 acres more in Nova Scotia, owned by the heirs of the late James Miller, of St. John, have been sold to Louis F. Hill, of Dartmouth, N.S., for $21,000. The mill property of S. T. King & Sons, recently offered for sale, has not yet been sold.

The Wisconsin Hardwood Lumbermen's Association have adopted a new price list on hardwoods showing a considerable advance on late quotations. Both red and white oak are placed at $35 for firsts and seconds f. o. b. Wausau. Soft elm is quoted at $24 for inch firsts and seconds, $17 for log run, and $20 for common and better. Maple is listed at $14 for log run, $20 for 1 to 1½ inch firsts and seconds, $22 for two inch and $24 for 2½ inch and thicker. Inch basswood, 5 to 11 inches wide, is advanced to $23, 1x12 inch $27, 1x13 inch and wider $30, 1¼ and 1½ inch $25, and 2 inch $27.

OTTAWA VALLEY MARKET CONDITIONS.

[Correspondence of the CANADA LUMBERMAN.]

The lumber business in Ottawa is at present quiet, though somewhat brisker than for the corresponding month last year. Messrs. Elmitt & Hurdman report a good trade in hardwoods with the United States. Prices are also considerably higher in sympathy with the lumber business thoughout. Ash brings $18 per thousand, an advance of about 30 per cent. over last year's prices. Basswood and elm show an advance of about 20 per cent. Only the smaller mills are cutting the hardwoods, as the large mill owners do not find it in their best interests to make a bid for this branch of the business, the natural disadvantages in the acquirement of a supply of hardwood logs being considerable.

The statement of exports of forest products from the consular district of Ottawa is interesting as showing the extent of the increase in shipments. During the year there were exported to the United States timber products to the value of $2,898,134.82. For 1898 the figures were approximately $1,500,000 and for 1897 $2,500,000. Thus it will be seen that last year there was an increase in value of nearly $1,300,000 over the previous year and of almost $300,000 over 1897. It will be remembered, however, that there was a great rush of lumber shipments to the United States in the first half year of the year 1897, in order to escape the payment of the duty which went into effect in the summer of that year. The exports of last year, therefore, make a more favorable showing than appears at first glance. Following are the figures in detail for last year, divided into two sections :

EXPORTS FROM CONSULAR DISTRICT OF OTTAWA.

Articles.	Half Year Ending June 30.	Half Year Ending Dec. 31.
Basswood	$ 456.22	$ 699.19
Lumber	930,104.21	1,242,086.20
Lumber (in bond)	137,340.84	134,256.92
Lath	17,8?3.23	20,3?9.00
Match blocks	4,990.92	11,590.83
Pickets	17,775.62	9,852.33
Poles (cedar)	3,011.75	500.00
Posts	152.50	
Pulp wood		1,409.20
Railroad ties	1,697.13	15,424.83
Ship planking	1,992.95	989.11
Shingles	16,374.72	15,906.86
Sulphite pulp	542.19	9,754.30
Telegraph poles	993.80	613.45
White Pine deal ends	131.74	
Yellow wood boards	1,542.80	
Total	$1,134,912.62	$1,763,222.20

All the mills in the Ottawa valley will be operated, if possible, to full capacity this season. In the Gatineau valley and Black river districts the snow lies deep and logging operations are being rushed. The recent cold snap has aided the hauling operations in other districts, and all the men that can be put to work are hauling out logs.

A new and well equipped shingle mill has been erected at Whitney on the line of the Canada Atlantic Railway. The mill, which has been built by Buckham & Carter, has a daily capacity of 80,000 shingles.

Chitty & Co., of this city, sent a gang of 44 men to Metagama last week to work on the limits of the Georgian Bay Lumber Co. Smaller gangs were sent earlier in the month to this and nearby points.

The first car load of British Columbia fir arrived in Ottawa last week. It will be used in the construction of the two new government dredges, and was planed and cut in suitable sizes before being shipped.

Although the Ottawa Wholesale and Retail Lumbermen's Association has been formed but a short while, its beneficial effects are already being felt, there now being litte or no cutting of prices as in former seasons. Nevertheless, the dealers are wary and prices continue unsettled. There is little business being done in laths. Prices range from $3 to $3.25 per thousand wholesale. Pine s.c. strips have also advanced, the present prices being $11 to $13.50 per thousand. Though the building prospects are good, the retail dealers and jobbers are not buying in large quantities, the mill owners preferring to hold their stocks.

Speaking about the prospects for the sale of the coming summer's cut, a prominent mill owner stated recently that an all round advance of about 20 per cent. was noticeable in the offers being made for the cut of the various mills. Prices did not advance last season till many of the mill owners had closed their contracts. It is expected that the advance will be a still more favorable one and the mill owners are holding off.

OTTAWA, Jan. 29th, 1900.

LUMEER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, are as follows : Ottawa to Oswego, $1.90 per M ft. ; Ottawa to Syracuse, 10½ cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Montreal, 5 cents per 100 lbs.; Quebec, 10 cents per 100 lbs. ; Arnprior to Montreal, 7 cents per 100 lbs. ; Quebec, 12 cts. ; Pembroke to Montreal, 8 cents per 100 lbs.; Quebec, 13 cents per 100 lbs.; Ottawa to New York, 15 cents per 100 lbs ; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. A number of excellent locations can be pointed out for Hardwood Mills where a very large supply of Birch, Elm, Ash, Maple, etc, is available, with a ready market reached quickly and cheaply. Address, W. P. HINTON, A. G. F. A., Ottawa.

SALE OF

Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900

At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 212, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

FOR SALE.—Dry 1, 2 and 3 inch Birch. JAMES MORRISON, 552 Yonge Street, Toronto.

WANTED FOR CASH.—Dry Pine, Ash, Elm and Basswood. JAMES MORRISON, 552 Yonge Street, Toronto.

WANTED FOR CASH.

SOFT AND HARD ELM LUMBER AND Logs, Ash, Maple, Oak and Basswood and other Hardwood Lumber. Address "Merchant," care CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumbermen are in good spirits on account of the recent fall of snow and cold weather. Logging operations are being rushed, and by employing additional teams and men it is hoped to make up in a measure for the time lost earlier in the season. It does not seem probable, nevertheless, that there will be secured the full stock of logs anticipated at the commencement of operations. There have been no important changes in the pine trade during the past week. Prices remain firm, although the local demand has fallen off slightly, due no doubt to the suspension of outdoor work. Retail dealers have not yet commenced to stock up for spring trade, nor is it expected that the volume of business from this direction will be large during the month of February, as a disposition has been shown to defer the placing of orders in the hope that prices would weaken. In the leading cities of Ontario an average amount of building is in sight. In Toronto the building permits issued during the month of January were considerably larger in value than in the corresponding month one year ago. As rentals have advanced sharply within the past twelve months, it is not likely that the greater cost of building materials will have much deterrent effect upon building operations.

Hardwood manufacturers report that jobbers are asking exceptionally high prices for logs. This cannot but have an influence in maintaining prices of lumber at their present basis. Should there be a backward movement of hardwood prices, it might result disastrously to mill men who have paid fancy prices for logs. Therefore there should be united effort to sustain present values.

QUEBEC AND NEW BRUNSWICK.

Lumbermen are now rushing logging operations to the utmost extent, a sufficient quanity of snow having fallen throughout nearly all the lumbering districts of the eastern provinces. Nevertheless, the situation is still somewhat critical, as operators find it almost impossible to greatly increase their forces owing to a scarcity of labor. It is said that there are but few men looking for work. In view of this, and the fact that for severel weeks the absence of snow caused a cessation of operations in the woods, it is doubtful whether the quantity of logs to reach the mills will be very large. Manufacturers who have not already sold their stock show an indisposition to contract very heavily lest they should be unable to meet their obligations on account of the shortage of logs. The shippers are making very tempting offers, particularly for deals for spring and summer shipment. United States specifications are rather quiet, although no weakening in prices is reported. Clapboards remain inactive.

MANITOBA AND BRITISH COLUMBIA.

A number of new buildings in Western Canada are already projected, and the indications are that there will be a lively spring demand for lumber. The only change in quotations made during the week is an advance of 10 per cent. in the price of British Columbia cedar doors and sashes. The feeling in the trade is one of increased firmness. It is reported that the lumber and shingle manufacturers of British Columbia have entered into a combine, to be known as the British Columbia Lumber and Shingle Manufacturers' Association, the main object being to memorialize the Dominion government to impose a duty on United States lumber and shingles imported into Canada.

UNITED STATES.

Although the lumber trade of the United States cannot be characterized as active, the market has not yet developed any signs of weakness. The shortage in white pine stock is becoming more pronounced each week. There is an average supply of No. 1 common inch and of piece stuff, but the other grades are very scarce. No. 3 and No. 4 boards and strips are practically out of the market. At Duluth manufacturers are asking $12 for short piece stuff. As a result of the heavy demand for low grade inch, No. 3 boards have advanced in the Chicago market until they are selling within $2 of No. 1 boards. In that market short piece stuff is quoted on a $16 basis. The east is still refraining from buying to any extent, in the hope that wholesale prices at Buffalo, Tonawanda, Albany and other centres may weaken. The dealers at these points are satisfied that prices will not be lower, owing to the high prices now asked at producing points. At Tonawanda box lumber, 1 x 4 to 1 x 13 and over, is held at $22 to $25 per thousand, for delivery on a New York rate of freight. At Boston box boards are particularly strong at $21 to $22.

The hardwood market is a little less active than it has been, but holders of stock are offering no concessions in price. It is reported that log run basswood is being held in Michigan at $18. Elm is selling moderately, as is also ash and maple.

FOREIGN.

There is much speculation in Great Britain regarding the durability of the present prices of wood goods. Some in

the trade hold that a reaction will take place in the near future, but this is not the general view, as even if projected undertakings should be delayed on account of the high cost of materials, it is improbable that the market so far as prices are concerned would suffer to any great extent. The shortage of logs in Sweden is pointed to as one of the most reliable factors in the substantiation of present values. The reverses of the British army in South Africa have had no visible influence on business enterprises, and although discount rates are high, there is no lack of money. There are indications that freight rates will this year be as high, if not higher, than in 1899, one cause for which will be the high price of coal. Canadian spruce continues to advance in price in all the leading markets. In London it is said that £9 10s is being paid for third quality, and that the quantity of 11 inch in the market is very small. Pine prices are also very firm. The demand for timber is fair, elm being more enquired for than the other classes of wood and selling as high as 2s 10d per cubic foot.

NEW BRUNSWICK CEDAR SHINGLES.

The past week has been one of snow and cold weather, and as a result out-door building operations are at a stand-still and no shingles are entering into consumption. There are, however, a few orders being placed, some exceptional yard dealers showing themselves willing to purchase as against their future needs when they can do so on the basis of the very lowest quotations of to-day, say at $3.00 for extras on Boston freight. These orders are being accepted by the commission houses for account of the small mills who are unable to hold their product until the spring trade opens. We learn from manufacturing districts that the few orders being placed are of sufficient volume to keep the product of the little mills well cleaned up, and that standard brands are firmly held by all the larger manufacturers in the full expectation of realizing considerably better prices when actual consumption commences in the spring. These manufacturers are presenting such a united front, and seem to be so sure of the strength of their position, that the probabilities point most strongly to their ultimate success and to an advancing market later on. A strong factor in support of this theory is the recent advance of ten cents per thousand on Washington cedars. These are now quoted at Boston at $3.20 to $3.30, and as the New Brunswick shingles are preferred in the New England trade at equal prices, or even in most cases at slightly higher figures, it is plainly apparent that our manufacturers are holding the point of vantage and will secure full prices for their product if they have patience to await the demand before endeavoring to market their goods. Figures generally asked by all standard mills are: Extras, $3.10 to $3.15; clears, $2.70 to $2.75; 2nd clears and saps, $2.15 to $2.20. As stated above, inferior and unknown brands are being sold at ten cents off from these figures, but $3 seems to be the minimum limit for straight cars of extras.

STOCKS AND PRICES.

A Nova Scotia paper states that 60,000,000 feet of logs will be cut this winter in the counties of Lunenburg, Digby and Annapolis.

It is reported that all the contracts for the erection of the Ogilvie mill and elevator at Fort William, Ont., have been cancelled.

M. Brennan & Sons have secured the contract for the annual supply of lumber for the city of Hamilton, at $16.14 per thousand for plank.

At Fredericton, N.B., a three mile timber berth at the head of Burnt Brook was sold last week to Wm. Richards & Co., at $51 per mile.

The Italian bark Elicar sailed from Vancouver, B.C., last week for Callao, South America, with 978,268 feet of lumber, valued at $9,100.

Wm. Thexton, of Millbrook, Ont., has purchased 80 acres of timber land at Brunswick and is getting out a large stock of logs for his mill.

Barn boards are selling in the Tonawanda market at the following prices: 1x6 to 1x12 No. 1 barn, $26; 1x4 to 1x12 No. 2, $24 to $26; 1x4 to 1x12 No. 3, $22 to $25; 1¼ x 12, 1½ x 12, 2 x 12 and 3 x 12 No. 3, $26 to $27.

The Caledonian Railway Co., of Glasgow, Scotland, have placed their order for oak planks required during the year, dividing it between James Kennedy & Co., Edmiston & Mitchell, Singleton, Dunn & Co., Allison, Cousland & Co., and Brownlee & Co. The aggregate amount is 150,000 cubic feet.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

Snow is coming down and there is a more hopeful feeling in the pine lumber yards. It is quite possible that before this letter is in print there will be sleighing all through the Canadian woods, which will make a wide difference in the outlook. All winter so far there has been the general complaint that there was no snow, and that if it did not come soon there would be a great shortage of logs and that prices would go up nobody knows how high. This market is fighting against a further advance, and though it now looks as though it would have to be made, it will not need to be so sharp if the logs cut is all got to the mills.

It is so strange to hear that there is not snow enough in the Georgian Bay district to make sleighing, but such seems to have been the case until now. The Holland & Emery Company reports that the outlook till now has been entirely against getting any logs, and much concern is manifested everywhere. Duluth lumbermen are sending letters here complaining that the winter is so far gone now that there is small prospect, even with snow through February, of getting a full cut to the mills. How

much of this is in the interest of price booming will not be known till buying begins again.

Our dealers are holding off. They patrolled the Canadian and northwestern woods early in the winter season with some idea of buying then, but they found nothing but prices to look at. There was very little stock in sight, and this so added to the strength of the millman's position that he was asking about any price that he happened to light on. So the buyers came home and waited. They are waiting yet, really not knowing what to do, for the east is saying as hard as it can that it is not going to pay even the present prices, let alone the smart advance that will have to be paid if this market is made to pay more for what it gets for next season's stock.

In the hardwood yards there appears to be some indication of greater quiet than was apparent early, and there is no talk of an advance, unless it be in maple, which is very hard to find. Basswood is going out of market, apparently. Neither lumbermen nor coopers can find enough of it to meet the demand, and some other wood will have to be used in place

Cable Address, "DOBLE," Liverpool

of it. There is a fair supply of quartered oak, but this is on account of all oak dealers hustling through producing districts after it, most of them cutting their own timber.

There has been an unusual amount of certain hardwoods shipped in here from the American shore of the lakes, but dealers say that the asking price for it this winter is such that they cannot do anything with it and may have to return southward for supplies. They add that outside of white oak, basswood and black ash there is likely to be such a supply of hardwoods from the lakes that the possibility of pushing the prices up very much is not apparent.

This market is against any further advance of the price, either in hardwoods or pine, but if the producer has his way it will have to be done. Already the price has gone up so that the builder is afraid to touch any sort of building material and is waiting, either for prices to come down or rents to go up. The prospect is that building, at least here, will be light till some adjustment is made. So far there is no immediate prospect of that.

The steady advance in hemlock is another factor in the case. It is now $16 for base price, fairly twice what it was before the rise set in. There is complaint that there is no stock of hemlock anywhere and that it is sure to remain scarce, no matter if the price goes to $20, which is freely predicted.

The Goodyears appear to be preparing to add to their output of hemlock for a considerable time yet, for they have just bought a large tract in the vicinity of their Pennsylvania headquarters, all of which is to be made tributary to their mills at Austin, Pa. F. H. Goodyear is off on a European trip, having sailed for the Mediterranean on the 27th of January.

Other travelling Buffalo lumbermen are Alfred Haines and W. W. Reilly, also bound for southern Italy. The hardwood fraternity somehow sticks to business. J. B. Wall, F. W. Vetter and H. S. Janes are in the southwest, all looking after timber tracts that they are urging into the market. Good reports come from the Arkansas tracts of Scatcherd & Son and the Empire Lumber Company. Mr. Scratcherd has just sold a lot of cottonwood timber to the McCormick Reaper Company of Chicago, which he estimates will cut at least 35,000,000 feet. He says that if he could sell the standing gum at as good a figure as he did the cottonwood he would be willing to let it go that way. The other woods, oak, ash and poplar, he will cut of himself.

Buffalo and Tonawanda lumbermen are getting together this winter on general principles, feeling, apparently, that there is more than the usual need of co-operation. Two joint meetings have been held in Buffalo this winter, but nothing was done but compare notes in a general way and endeavor to post each other on the situation, which will be peculiar till it is known whether the price is to go up again.

There is about the usual amount of stock here. Tonawanda reports 800,000 feet more than last winter, but Buffalo has not completed a report yet.

Buffalo, Jan. 5th, 1900.

LONDON AUCTION SALE PRICES.

Messrs. Churchill & Sim, London, Eng., held an auction sale of wood goods on Wednesday, January 24th, at which Canadian deals and timber sold as follows :

PINE.—Ex. Tantallon, from Quebec, 10-14 ft. 2x9-11 in. second quality, £14 ; 14 ft. 2x8, £11 15s ; 12-13 ft. 2x8, £12 ; 12-15 ft. 2x7, £12 ; 13-15 ft. 2x6, £10 15s ; 12 ft. 2x6, £10 10s ; 12-14 ft. 2x5, £9 15s : 10-11 ft. 2x8, £10 15s ; 10-11 ft. 2x7, £10 5s ; 10-11 ft. 2x6, £9 15s ; 9-11 ft. 2x5, £9 5s ; 6-8 ft. 2x4, £8 10s. Ex. Halifax City, from St. John, N.B.—1 -28 ft. 3x7 in. first, second and third quality, £8 15s ; 16-28 ft. 3x7, £8 15s ; 13-28 ft. 3x7, £8 15s ; 3-5 ft. 3x7, £7 5s.

OAK TIMBER.—Ex. Hazelmoor, from Quebec–Logs 18 in. and up average, 662 cubic feet at 105s per load of 50 cubic feet ; 734 cubic feet at 105s per load ; 745 cubic feet at 110s ; 333 cubic feet at 105s. Logs under 18 in. average, 637 cubic feet at 92s 6d per load ; 655 cubic feet at 97s 6d ; 405 cubic feet at 95s ; 653 cubic feet at 102s 6d ; 585 cubic feet at 100s.

BIRCH PLANKS.—Ex. St. John City, from Halifax, N.S.—75 pieces, 3 3-4x7-12, 1s 2d per cnbic foot ; 204 pcs. 3 1-2x11-13, 1s 1d ; 259 pcs. 3 1-2x9-10, 1s ; 201 pcs. 3 1-2x7-8, 1s ; 210 pcs. 3 1-4 x 13, 11½d ; 219 pcs. 3 1-4x7-8, 11d ; 137 pcs. 3x11-14, 11d ; 190 pcs. 3x9-10, 11d ; 361 pcs. 3x6-16, 11d ; 197 pcs. 2 1-2x10-13, 11d ; 230 pcs. 2 1-2x9, 1s 1d ; 270 pcs. 2 1-2x8, 1s 1d ; 429 pcs. 2 1-2x7, 1s. Ex. London City, from Halifax—103 pcs. 3 1-4x10-12, 1s 1d ; 186 pcs. 3x11-17, 1s 1d.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade received at the office of the High Commissioner for Canada in London, Eng., during the week ending 19th January :

9. Enquiry comes from Dublin for the names of Canadian exporters of railway square sleepers.

10. An enquiry has been received for names of lumber merchants who can guarantee supplies of birch in fairly straight round logs, 4 to 8 feet in length and 18 inches and upwards in diameter. The wood is required for cutting veneers and quotations must be at a very low figure.

11. A Paris house asks to be placed in touch with large exporters from Canada of spruce wood and white pine.

12. A party desiring to import wood powder in quantities of 5,000 to 10,000 tons per annum wishes to get into communication with Canadian producers.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

SOUTH AFRICA

Millmen throughout Canada are invited to correspond with us and give particulars of the woods which they can supply for Constructional and Furniture purposes.

Address, W. P. HINTON, A. G. F. A., Ottawa.

SALE OF

Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900

At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 213, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

FOR SALE.—Dry 1, 2 and 3 inch Birch. JAMES MORRISON, 552 Yonge Street, Toronto.

WANTED FOR CASH.—Dry Pine, Ash, Elm and Basswood. JAMES MORRISON, 552 Yonge Street, Toronto.

at 2 p. m.

The undersigned has been instructed to offer for sale, at the above time and place, subject to the conditions which will be announced at the time of sale,

Timber Berth

TOWNSHIP OF MACKENZIE

Being about 80 Square Miles.

This township is one of the best timbered berths in the province, is well watered, and easily operated. For further particulars, apply to the DELTA LUMBER COMPANY, Detroit, or to

PETER RYAN, Toronto.

AUCTION SALE

Important and Extensive Sale by Auction of

VALUABLE

Timber Berths, Etc.

On the Ottawa River and its tributaries in the Provinces of Quebec and Ontario; at the Rotunda of the Board of Trade, Toronto, at 2 p.m., TUESDAY, APRIL 10TH, 1900.

R. H. Klock & Co., of Klock, Ont., will offer for sale by public auction, at the above time and place, subject to the terms and conditions which will be announced at the time of sale, the following timber berths under license from the Crown; said licenses include the right to cut all timber on the berths subject to the regulations of the Crown Lands Department of the respective Provinces, namely:—

QUEBEC.

Kippewa Berth, 226½ miles, and composed of berths Nos. 176, 177, 444, 445, 446, 447. Block A—Quinze Berth, 61½ miles; No. 5 Range 1. Block A, Quinze Berth, 150 miles, composed of berths Nos. 5, 6, 7, range 3. All the above limits are in the Province of Quebec, as shown on the official map of that Province. North Temiscamingue, Indian Reserve, Province of Quebec. Area about 60 square miles, as shown on official map of the Province of Quebec and held under license from Dominion Government and subject to timber regulations of Department of Interior.

ONTARIO.

Deep River, 101½ miles, held under license 178, 1899-1900. Chalk River, 19 miles, held under license 177, 1899-1900. Rocky Farm, Ottawa River, 100 square miles, held under license 176, 1899-1900.

For further particulars apply to R. H. KLOCK & CO., Klock, Ont., and JOHN GRAY, Room 100, Canada Life Building, Toronto, Canada.

WANTED IN CAR LOTS, NORWAY PINE 5/4, dry, first and second quality; quote price. Address THE CANADA LADDER CO., LIMITED, Leamington, Ont.

WANTED FOR CASH.

SOFT AND HARD ELM LUMBER AND Logs, Ash, Maple, Oak and Basswood and other Hardwood Lumber. Address "Merchant," care CANADA LUMBERMAN.

WANTED.

A SECOND HAND FLOUR BARREL HOOP machine complete, including Coiler, Lapper, Planer, and Cutter. Address THE TILLSON COMPANY, LTD., Tilsonburg, Ont.

To Limit Holders

THE TOWN OF MANITOWANING, ON THE inside channel of Grand Manitoulin Island, in direct and easy water communication with the timber limits of Algoma, offers superior inducements to lumber companies intending to establish works in this part of Canada. The best natural advantages obtainable anywhere. Further information upon application to W. J. TUCKER, Secretary Citizens' Committee, Manitowaning, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Some important transactions in the lumber business have taken place within the past week. The cut of the Gilmour & Hughson mills at Hull has been purchased by an American company, after considerable competition between United States and British buyers. The Hull Lumber Company and W. C. Edwards & Company are also said to have disposed of their coming season's productions to a British firm, but this statement lacks confirmation. It is known, however, that negotiations to that end are in progress. In the Georgian Bay district the sale of an entire mill cut is announced to have been made, and large contracts have been given to mill owners for the sawing of logs. As the spring approaches a strong disposition is shown by buyers to contract for stock, as it is very improbable that prices of lumber will be lower than at present at least before midsummer. Prices of common and cull pine lumber have been gradually gaining in strength, until it has been considered advisable to advance our quotations on this class of stock about one dollar per thousand. Common, 1x10 and 12 inch, sells in Toronto at wholesale at $15 to $16, and mill culls at $12 to $13. Inch siding common brings $14 to $15, ship culls $13 to $14, and siding mill culls $11 to $12. No change has taken place in hardwood quotations, although, in view of unfavorable logging conditions, the market is decidedly firm. Wherever dry lumber can be found it is being purchased for the local and United States trade.

QUEBEC AND NEW BRUNSWICK.

Logging operations in the eastern provinces are progressing favorably, and it is now believed that an average supply of logs will be obtained. Almost everything pertaining to the lumbering business is advancing in price, so that there is little reason to expect a decline in the quotations of lumber. Spruce logs are selling for delivery at the Miramichi booms at $1.50 per thousand above the price one

year ago, and wages in the woods are about $22 per month for men and $35 to $45 for teams. It is probable that in Nova Scotia the cut this season will be increased to a greater extent than in New Brunswick. Several manufacturers have already sold their entire production of lumber. In the Quebec market some advance in prices have taken place. First class waney pine, 18 inch average, is quoted at 37 to 45 cents, 14 inch ash at 23 to 28 cents, and 16 inch at 26 to 30 cents.

MANITOBA AND BRITISH COLUMBIA.

Trade in lumber in Manitoba and the Territories is growing steadily, and when spring operations shall open out in full force an active movement will certainly result. Manufacturers and dealers are preparing for a season of as great activity as that of 1899. Like conditions prevail in British Columbia. Many new buildings have already been commenced, and there are indications of absolute faith in the lumber demand. It is expected that in future better returns will be secured from an equal volume of business, the accomplishment of this being one of the objects of the formation of the British Columbia Lumber and Shingle Manufacturers' Association.

UNITED STATES.

Eastern wholesale dealers have contracted for a considerable quantity of stock to be cut at upper lake mills during the coming season, and the prices paid give little encouragement to those who hope for a decline in quotations. Some of these purchases are referred to in another column. An average of $12.50 per thousand for No. 4 boards is almost unprecedented, while it is predicted that before the opening of navigation these boards will sell at $13 and No. 3 boards at $25 on dock. Tonawanda and Buffalo dealers report moderate sales and numerous inquiries, from which it is deduced that the east is short of lumber and must enter the market for active buying in the near future. There is an improved demand for good lumber, and on some the standing gum at as good a figure as some grades an advance in price has been put into effect. Box lumber is still wanted in excess of the supply, and the probability is that this class of stock will be scarce throughout the summer. Attention is directed to the changes in our Buffalo and Tonawanda quotations published elsewhere.

The hardwood market is in a healthy condition. Some dealers at Buffalo are asking $28 for inch maple of first quality, while others quote as low as $25. Inch basswood is being held at from $26 to $28. At Boston inch maple of good quality brings from $28.50 to $30, 1¼, 1½ and 2 inch, $32, and 3 and 4 inch $36 to $38. Elm is in moderate request at $32 for one inch, $33 for 1½ and 1½ inch, and $34 for 2 inch.

FOREIGN.

A large consumption and firm prices are the characteristic features of the British wood market. In sympathy with the high prices asked by shippers, the prices at which brokers and importers are offering stock are considerably higher than one year ago. So far as Canadian and United States trade is concerned, the British buyers realize that if they are to secure their average quantity of stock it can only be done by meeting the advanced prices, which are now firmly established. In the Liverpool market spot goods are selling liberally at £20 to £24 for first quality Quebec pine deals, £16 10s to £17 10s for second quality, and £10 10s to £11 10s for third quality. These figures show an advance within one month of £1 in the price of second quality and £1 5s in third quality. New Brunswick spruce has advanced about 10s, now selling at £7 15s to £8. In square and waney timber the most important changes have been in respect to waney board pine and elm. Quebec waney has advanced to an average of 2s 6d, while elm sells at from 2s 4d to 2s 10d per cubic foot. This latter is an advance since January 1st of about 6d. Birch is also slightly higher.

Daniel Sullivan, saw mill and general store, Redbank, N.B., has been burned out.

NEW BRUNSWICK CEDAR SHINGLES.

There has been during the past week a slightly increased inquiry for shingles. Not many orders are being placed, but dealers are awakening from their winter lethargy and are showing some degree of interest as to prices and market conditions. The manufacturers are manifesting absolutely no anxiety as to spring prices, perceiving that as soon as consumption awakens, remunerative prices will be in vogue. There is no reason to question this judgment, as competitive varieties of shingles, such as Michigan and Ontario white cedars and Washington and British Columbia red cedars, are in extremely scant supply and promise further price advances. With a fair spring demand and a united movement amongst the New Brunswick manufacturers prices on N.B. extras could be raised to a basis of $3.25 on Boston freights without giving up the market in any degree to Western producers, for as stated in our article of last week, New Brunswick shingles are invariably given the preference over the western products by purchasers in the Eastern States at equal or even slightly higher figures. Washington shingles are now quoted at $3.20 to $3 30. The general prosperity now prevailing in the United States and the extreme scarcity of dry lumber, with the high prices such lumber is commanding, must inevitably have a sympathetic influence upon all wood goods. Confidence is abroad in the land, and considering all conditions we believe in firmly maintained quotations for the present, and advances just as soon as shingle consumption begins. There is absolutely no change in quotations from last week.

The assets of the estate of Andrew Clanahan, lumber dealer, Glencoe, Ont., were sold recently at 42 cents on the dollar.

STOCKS AND PRICES.

The St. Anthony Lumber Co., Whitney, Ont., expect to cut about 50,000,000 feet of lumber this year.

It is estimated that the log cut on the Penobscot river, in Maine, this winter will be 200,000,000 feet.

Wm. Argue is taking out over 1,000,000 feet of logs on Moon Island for a lumber company at Midland.

Halcombe Bros., of Thessalon, Ont., have about 700,000 feet of logs cut and ready for drawing to the mill.

C. M. Betts & Co., of Buffalo, are reported to have purchased a lot of 10,000,000 feet of pine at Marinette, Wis.

It is learned that Toner & Gregory, of Collingwood, have been given a contract by Playfair & White, of Midland, to cut

BUDGETT BROS. - 70 and 71 Bishopsgate Street Within, LONDON, E.C.

10,0000,000 feet of lumber during the coming season. They will make extentive improvements to their mill.

A report comes from Oswego that several million feet of lumber have been sold by a leading firm at $20 per housand in Oswego.

The shingle manufacturers in the State of Washington are holding firmly to price lists. It is expected that all the mills will be in operation by the middle of this month.

It is expected that there will be a large production of hardwood lumber in Michigan and Wisconsin this season. Several mills at Bay City, Mich., will cut hardwoods almost exclusively.

The bark F. B. Lovitt last week loaded 697,000 feet of spruce lumber at Yarmouth, N.S., for Buenos Ayres. The bark Hillside will shortly load a cargo at same port for South America.

The cooperage stock market at Buffalo is slightly easier han it has been. Basswood heading is selling at 6½ to 6¾ cents a set and elm staves at $9 to $9.50 for first class. At Chicago considerable enquiry is reported for 30 inch No. 1 elm staves.

The Hanbury Manufacturing Co., of Brandon, Man., have 200 men and 65 teams employed on their limits in the Riding mountains. Work so far has been very successful, and the cut of logs is expected to be much greater than that of any previous season.

Some comment was excited in Chicago last week by the receipt of enquiries for stock to be shipped to Ottawa. These enquiries were for long wide joists, and in one instance it developed that 2x14-20 feet was selling in the Chicago market on a basis of $2 per thousand less than the same stock is bringing in Ottawa.

Two vessels cleared from British Columbia ports last week with lumber. The Guy C Goss, for Philadelphia, loaded 1,030,000 feet of rough timber at the Hastings mill, Vancouver, and the Italian ship Altcar loaded 930,616 feet of lumber at the Moodyville mill for Callao, South America.

E. D. Davison & Sons, of Bridgewater, N. S., will cut about 15,000,000 feet of lumber next season. They have already sold 5,000,000 feet for shipment to Cardiff, Wales. The S. P. Benjamin Co., of Wolfville, N.S., will cut 10,090,000 feet, as against 8,000,000 feet last year. This company ships quite largely to South America.

Richardson & Avery, of Duluth, Minn., have just sold their entire production of the coming season to Hughson & Co. and C. P. Easton & Co., of Albany, N.Y. The Ashland Lumber Co., of Ashland, Wis., sold last week 6,000,000 feet of white pine lumber, log run, to eastern parties. The largest lumber deal so far this season was that made by Alger, Smith & Co., of Grand Marais, Mich., who sold to A. S. Kibbee & Son and Arnold & Co., of Albany, and the Skillings, Whitneys & Barnes Lumber Co., of Boston, 50,000,000 feet of stock to be cut during the coming season. The consideration is in the neighborhood of $700,000. Another sale is that of 16,000,000 feet of white pine by the Dead River Lumber Co., of Marquette, Mich., to Toledo parties, the consideration being $200,000.

A gentleman who recently visited the Michigan and Wisconsin hardwood districts states that loggers are asking $18 to $20 per thousand feet for oak logs, $10 to $12 for basswood and soft elm, $14 to $16 for ash, $12 to $14 for birch and $14 to $16 for rock elm. Some of the asking prices of lumber are given as $15 for pile run basswood, $18 for pile run rock elm and $25 for pile run oak, the term "pile run" being used to include everything cut from the log, including mill culls. Some sales of Michigan lumber have lately been reported at $19.50 on dock at the mill for soft elm shipping culls and better, $16.50 for log run basswood, $19.50 for log run ash and $12 for log run beech.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

There is no change in the Ottawa lumber market at present, but indications point to an early advance in several lines. Lath is firm at $3 to $3.25 per M. for No. 1, and at $2.50 to $2.75 for second grade. There is also a better demand for shingles, though the prices show no advance. At present there is little shipping being done, but prospects are good. Several sales of next year's cut are already reported. Gilmour & Hughson, of Hull, have sold to Skillings, Whitney & Barnes, of Ogdensburg, all their cut with the exception of the red pine, which is still on the market. In previous years this company has cut large quantities of deals for the English market, but this year nothing will be cut for that market. The above sale is understood to represent in the neighborhood of $500,000, and the Standar Oil Company is believed to be interested in the deal.

So great was the eagerness of the American buyers to secure the Gilmour & Hughson cut that they brushed aside the question of high prices sooner than see the English buyers secure the plum.

Negotiations are now pending between the Hull Lumber Company and Mr. W. J. Todd, of the firm of Watson & Todd, Liverpool, England, who bought the cut last season. W. C. Edwards & Co. are also negotiating with the same firm, but the contracts have not as yet been closed.

It is likely that the season's cut of Gilmour & Co.'s mill at Trenton will go to American buyers if pending negotiations are an indication. No further deals in the Ottawa Valley are as yet reported.

Messrs. Hurdman & Elmitt report that during the past their initial season in the American market, they shipped about 500,000 feet to New York parties. During the coming season this firm expects to do a largely increased business in this same direction.

Owing to the firm prices prevailing in the Ottawa lumber market, only the better class of dwellings and other structures will be erected during the coming season.

The reports from the lumber woods are to the effect that there is an abundance of snow for hauling. The choppers have been engaged to good purpose and large numbers of logs are ready for hauling.

Mr. E. C. Grant, of the Ottawa Lumber Co., is expected home from the Old Country in a few days. Mr. Grant has been absent in Scotland and England for some three months on a business and pleasure trip, and it is expected that he has made arrangements to ship considerable lumber to the British market.

OTTAWA, Feb. 12th, 1900.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Co., in their last report, say of the Barbados lumber market: There have been three arrivals with lumber. The "F. B. Wade," to our address, from West Dublin, N.S., had some white pine and spruce. The white pine was second quality and brought $18, the spruce $19 for shipping. The "Shafner Bros.", from Jordan River, N.S., with 1 o m. ft. Shipping white pine boards has been sold delivered at Demerara at $26, customary conditions. "Dixon Rice," from Weymouth, N.S., has also arrived, bringing 170 m. ft. shipping spruce, 16 m. second quality; sold at $19.50 for former, $15 latter. She had 20 m. ft. white pine boards, which were placed at $22.50 and $17.50 respectively, for shipping and second quality. Shingles.—No further receipts of long Gaspe cedar, and there is little movement for them at present with the lumber dealers, who are amply supplied. A small parcel of 85 m. spruce laying, ex. "Dixon Rice," from Weymouth, sold at $2.27. Shooks.—We have the cargo of "Jennie Hall," from Portland, ordered for dealers' account, sold at $127. S.S. "Madiana" and "Carribbee," from New York, have also brought 3,953 b'dls. for account of dealers.

BOSTON LUMBER PRICES.

There is a fairly good movement of lumber at Boston at the following prices:

WHITE PINE.—1 and 1¼ inch uppers, $59.50; 2 in., $60.50; 2½ in., $69.50. Selects, 1 to 1½ in., $53.50; 2 in., $55.50; 2½ and 3 in., $64.50. No. 2 cuts, 1 inch, $26; 1¼ and 1½ inch, $34.50; 2 inch, $35.50. Bevel siding, 12, 14 and 16 feet, $27.50 for clear, $26.50 for No. 1, $22.50 for No. 2, and $18 for No. 3; wide inch fine common seconds, $52.50; selects, 30 in. and up, $57.50; shaky clear, $35. No. 1 shelving, 1x10, $35; 1x12, $40.50; 1x13 and up, $41.50. No. 2 shelving, 1x4, 5, 7 and 9 inch, $29.50; 1x6, 8 and 10 inch, $30.50; 1x12, $36.50; 1x13 and over, $37.

SPRUCE.—Frames, 9 inches and under, $17; 10 and 12 inch dimensions, $19; 10 and 12 inch randoms, 10 feet and up, $18.50; 2x3 and 2x4, 2x5, 2x6, 2x7, 3x4, 10 feet and up, $15; other randoms, $16.50; merchantable boards, $15; out boards, $12; extra clapboards, $28 to $29; clear, $26 to $27; second clear, $24 to $25.

HARDWOODS.—Western white ash, 1 inch first and seconds, $40 to $45; 1¼, 1½ and 2 inch, $45 to $50; inch common, $25 to $30; thicker common, $30 to $40; Michigan brown ash, 1 inch firsts and seconds, $40 to $42; 1¼ to 2 inch, $42 to $44; quartered oak, $70 to $73; plain oak, $42 to $45; red oak, $40 to $43.

TIMBER PROPERTIES FOR SALE.

Valuable timber properties will be offered for sale by Mr. Peter Ryan, auctioneer, in the Board of Trade Building, Toronto, on Tuesday, April 10th. The Delta Lumber Co. will place in the market a timber berth of 80 square miles in the township of Mackenzie. This township is well timbered and watered and easily operated. R. H. Klock & Co. will offer for sale about 500 square miles of timber limits in the Province of Quebec, and about 125 square miles in the Province of Ontario. Further particulars are given in advertisements elsewhere.

THE LUMBERMEN'S ASSOCIATION OF ONTARIO.

The annual meeting of the Lumbermen's Association of Ontario is announced to take place in the Board of Trade Building, Toronto, at 2 o'clock p.m. on Wednesday, February 21st. There will no doubt be a large attendance of members, and considerable important business to come before the meeting.

SALE OF

Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900

At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 217, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WANTED.

AT ONCE. ONE ACCUSTOMED TO CUTting hardwood lumber and staves and heading. Apply to J. E. MURPHY, Hepworth Station, Ont.

WANTED.

WHITE ASH, BEST QUALITY, 4×4× TEN feet, 4¾ × 4¾ × thirteen feet. State price, when can ship two hundred andsixty pieces each size. N. B. WILKES, Brantford.

To Limit Holders

THE TOWN OF MANITOWANING, ON THE inside channel of Grand Manitoulin Island, in direct and easy water communication with the timber limits of Algoma, offers superior inducements to lumber companies intending to establish works in this part of Canada. The best natural advantages obtainable anywhere. Further information upon application to W. J. TUCKER, Secretary Citizens' Committee, Manitowaning, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Operations in the woods are not being carried on satisfactorily, owing to continued changes in the weather. It has been estimated that at least 25 per cent. of the production of logs will be left in the woods. For some time log hauling in certain districts has been at a standstill. A shortage in the lumber production of the coming season is now almost a certainty, although it should be remembered that some logs were carried over from last season, and these will be available for early sawing.

Lumber prices have shown no weakness during the past week. Prices of every grade are being maintained. At Toronto mill cull sidings, one to two inch, are selling at $14.50, inch mill cull stocks at $15.50, and common stock at from $15.50 to $19.50, the latter figure being obtainable for 1x12 and 2x12 inch stock. Canada dressing, 10 to 16 feet, sells at from $19.50 to $22, one inch dressing and better sidings at $27, and 1¼ to 2 inch dressing at $21.50. Inch No. 1 cuts and better bring $32, 1¼ inch $35, and 1½ inch $36. No. 2 cuts and better brings $33.50, and No. 1 and No. 2 cuts, 1½ and 2 inch, $30 and $26 respectively. Common and box, 1¼ and 1½ inchx10 and 12 inches, sells at $17, and No. 2 box sidings, 1¼ and 1½ inches, at $16.

As yet there have been no signs of a decline in prices of lath. No. 1 white pine, 1½ inch, are quoted at $3.75 per M f. o. b. cars, Toronto, No. 2 at $3, and Norway 1⅜ inch at $3.50.

QUEBEC AND NEW BRUNSWICK.

Lumbermen in the eastern province continue to complain of the difficulty in getting their logs out of the woods, and there is a possibility that some of the mill owners will not get sufficient logs to enable them to fill contracts already entered into. The cost of logging so far has been very

heavy. It is encouraging to learn that in some parts of New Brunswick logging conditions have been more favorable, there being sufficient snow to make fairly easy work for the teams. Although the movement of lumber at the present time is not large, prices are very firm, with signs of advancing considerably.

UNITED STATES.

The United States lumber market is rather quiet. Retail dealers have not yet entered the market with any liberality, and consequently wholesale dealers have found their stocks quite adequate to supply the demand. There has been some buying by wholesale dealers, but it has not been of large volume. From these remarks it must not be inferred that the market is weakening ; on the other hand, such sales of stock as have been made favor a continuance of the present high prices. No. 3 and No. 4 boards have been sold in the Duluth market at $13 and $15 respectively. There have been some advances made recently in the wholesale prices of pine, which are now believed to have reached the top notch. At Albany fine common is about $4 higher than the quotations printed in last issue, No. 1, 2 and 3 cuts $2 higher, moulding strips $4, shipping and barn boards $1, dressing $2 and shaky clear $2 higher than last quotations. Both pine and spruce lath are quoted in the Albany market at $3.50.

The hardwood market is a trifle easier in some respects, white oak selling at about $2 per thousand lower. There is a good call for ash, maple, basswood and elm.

FOREIGN.

Reports from the British markets are of an encouraging character, and as prices of wood goods in all producing countries are unusually firm, there seems little reason to expect a break in the prices in Great Britain. The war thus far does not appear to have affected the timber market. About the only unfavorable feature is the possibility of the present high prices curtailing the consumption. It is said that the cost of building vessels on the Clyde at the present time is fully 50 per cent. greater than it was one year ago. The reason for this is found in the high price not only of timber, but also of iron and steel.

During the month of January Canadian lumber advanced in price in nearly all the leading markets of Great Britain. At Liverpool the advance on second and third quality Quebec pine deals was about £1 per standard, and on spruce deals about £1 5s. There is a brisk demand for birch, which advanced during January about 3d. per cubic foot. In elm the advance was still greater, being quite 7d. Waney pine is about 2d. higher, but square wood remains at 1s.3d. to 2s.4d. per cubic foot. At Glasgow an advance of about 8s. was made on first quality broad and 7 to 11 inch second quality pine deals ; 11 inch fourth quality is about 5s. higher and narrows about 7s., the latter selling at £6 17s. 6d. to £7 11s 3d. per standard. Quebec spruce deals have also been marked up about 5s. The current prices are given elsewhere. Some improvment is reported in the Australian market, and higher prices are anticipated.

NEW BRUNSWICK CEDAR SHINGLES.

The shingle trade in New Brunswick and eastern markets is very quiet, and practically no orders are being placed. The weather has been particularly inclement, and no shingles are entering into consumption. As a result, dealers will not buy at any price, being fairly well stocked. Western shingles are retaining their fullest tendency and show no indications of any softening. N. B. cedars, it is believed, are the cheapest article in the market to-day, and should enjoy a brisk demand as soon as there is trade for any variety of shingles whatever. Prices seem to be holding absolutely steady. Ruling quotations at Boston are: Extras, $3.10 to $3.15 ; clears, $2.65 to $2.75 ; 2nd clears, $2.10 to $2.20; saps, $2.00 to $2.15. Straight cars of extras are quoted by some few makers at $3.00, but these same manufacturers are asking full quotations of $3.10 for extras in mixed cars, and are holding all lower grades most firmly.

PINE PLANK AND SCANTLING WANTED.

Messrs. Reid & Co., wholesale and retail lumber dealers, Toronto, announce in this issue that they are in the market for pine plank and scantling for early delivery, and that they are prepared to contract for three million feet of pine plank and one million feet of 4 x 4 scantling, to be cut during the season of 1900. This firm again secured the contract for the annual supply of lumber to the city of Toronto, and we understand that other large orders for local delivery have been placed with them. Their offices are on the Esplanade, at foot of Berkeley street.

The assignment is announced of W. G. Kadatz, saw mill owner, Sebastopool Tp.

STOCKS AND PRICES.

A. W. Pugsley & Co., of Athol, N. S., will get out 2,000,000 feet of logs this winter.

John & Wm. Kyle, of Sullivan, Ont., have sold the timber on 400 acres of land to Krug Bros. & Co., of Chesley.

The city of Ottawa invites tenders up to March 14th for the annual supply of planks required by the Board of Works.

The Southampton Lumber Co., of Southampton, Ont., expect to have about 8,000,000 feet of logs for this season's sawing operations.

Graham, Horne & Co., of Fort William, Ont., are getting out about 12,000,000 feet of pine and a quantity of cedar poles, posts, etc., at Rainy Lake City and the Manitou Rapids, on Rainy river, for the

BUDGETT BROS. - 70 and 71 Bishopsgate Street Within, LONDON, E.C.

Rat Portage Lumber Co. J. T. Horne is superintending operations.

It is reported that Dickie & McGrath, of Tusket, N.S., have been given a contract to supply 5,000,000 feet of lumber for shipment to Bordeaux, France.

The W. H. Sawyer Lumber Co., of Buffalo, recently purchased 8,000,000 feet of white pine lumber to be manufactured this season by the Rittenhouse & Embree Co., of Ashland, Wis.

A. McCall, of Simcoe, Ont., has given a contract to Hubbard & Vincent, of Duluth, to saw 5,000,000 feet of logs this spring. Kimball & Barber will also saw 12,000,000 feet for Mr. McCall.

The road committee of the Montreal city council has accepted the following tenders for supply of lumber : White pine, T. Prefontaine & Co.; tamarac floats, J. & B. Grier and Shearer, Brown & Co.; spruce, J. T. Marchand ; yellow pine, E. H. Lamay ; tamarac planks, J. T. Marchand.

The Gash Point Lumber Co. are erecting a mill at Gash Point, on Rainy lake, and expect to saw from three to four million feet of timber for the Ontario & Rainy River Railway. The company will get out something over 1,000,000 feet on Rainy lake, while T. Fraser has a gang of 40 men at work on Little Canoe river, getting out 2,000,000 feet of logs, to be sawn at Gash Point.

The Canso & Louisburg Railway Co., of Port Hawkesbury, C.B., invites proposals for furnishing all or part of 200,000 sleepers and 3,300 telegraph poles, to be delivered before July 1st next, in cargo lots, at shipping ports along the south coast of Cape Breton. The sleepers are to be 8 feet long, 7 inches thick, flatted, 6 to 8 inches minimum face, and of cedar, hemlock, hackmatac and yellow birch ; the telegraph poles to be 25 feet long, 5 inches minimum diameter at top, of sound cedar.

WRIGHT, GRAHAM & CO.'S MARKET REPOR FOR JANUARY.

The Glasgow market is in rather a stagnant condition at present, the merchants buying only sufficient to cover immediate requirements. The shipbuilding trade continues to prosper. Quite a number of large contracts have been placed this month, and the work on hand approximately amounts to 464,000 tons. The new tonnage launched during January amounts to 32,950 tons, as comparee with 42,000 in January of last year. The housebuilding and cabinetmaking trades are very quiet.

WANEY BOARDWOOD—The demand is steady and prices are firm. Prime large average is quoted ar 2s. 9d. per cubic foot ; smaller average and second class wood at from 1s. 10d. to 2s. 6d. per cubic root.

SQUARE PINE has gone well into consumption. Price, for long prime wood, 2s. 5d. to 2s. 7d. ; smaller average and poorer quality at 1s. 6d. to 2s. 1d. per cubic foot.

REDPINE.—Enquiry is fairly good. Prices quoted from 1s. 10d. to 2s. for first-class wood ; small average and second quality at from 1s. 6d to 1s. 8d. per cubic foot.

OAK LOGS.—For first-class wood of large average the demand continues. Price—2s. 10d. to 3s. 3d. per cubic foot ; smaller average and second quality at 2s. to 2s. 3d. per cubic foot.

ELM LOGS.—The good demand continues, and prices are firm. First-class wood of large average is quoted at 2s. 9d. to 3s. ; smaller average and second-class wood at 2s. to 2s. 6d. per cubic foot.

ASH LOGS.—There is a good demand. Stock in first hands is practically nil. Price—1s. 8d. to 2s. 1d. per cubic foot.

BIRCH LOGS.—The stock is small, and a good demand exisis for prime wood. Price quoted for 14 to 17 inch average is from 1s. 7d. to 2s. per cubic foot.

ROCK MAPLE LOGS.—There is enquiry for prime fresh timber for early spring shipments.

QUEBEC WHITE PINE DEALS.—On account of high prices now being asked, only a very limited amount of business has been done this month. 1st quality, broad, £12 2s. 6d. to £28 3s. 9d. per standard ; 11 in., £23 7s. 6d. to £24 15s. ; 7 in. to 10 in. and ends, £17, 17s. 6d. to £21 6s. 3d. 2nd quality, broad, £18 19s. 1d. to £15 9s. 4. ; 11 in., £16 10s. to £18 4s. 4d. ; 7 in. to 10 in., £13 8s 1d. to £15 9s. 4d. 3rd quality, broad, £11 13s. 9d. to £13 1s. 3d. ; 11 in., £10 13s. 1d. to £11 6s. 10d. ; narrows, £7 18s. 1d. to £8 11s. 10d. 6th quality, broad, £8 18s. 9d. to £9 12s. 6d. ; 11 in., £7 18s. 1d. to £8 11s. 5d. ; Narrows, £6 17s. 6d. to £7 11s. 7d.

RED PINE DEALS are still in strong demand. The stock on hand is princspally held by consumers. Prices quoted are about—9 and 11 in. by 3 in., £12 7s 6d to £13 8s 1d per Standard ; narrows, £10 6s 3d to £11 7s.

QUEBEC WHITE PINE BOARDS.—The consumption has deen good, and advanced prices are being asked for new shipments. First quality—2 in. thick, averaging 12 in. to 14 in. wide, at £18 18s 1d to £20 12s 6d per standard ; 1 1-2 in. thick, averaging 12 in. to 14 in. wide, £18, 11s 3d to £20 5s 7d ; 1 1-4 in thick, averaging 11 to 13 in. wide, £17 7s 6d to £18 18s 1d ; 1 in. thick, averaging 10 in. to 12 in. wide, £16 10s od to £17 17s 6d ; 1 1-2 and 2in. strips, averaging 4 in. to 7 in. wide, £15 16s 3d to £16 16s 10d ; second quality, 2 in. thick, averaging 12 in. wide, £14 8s 9d to £15 9s 4 ; 1 1-4 and 1 1-2 in., averaging 12 to 14 in. wide, £13 8s 1d to £14 15s 7d ; 1 in. thick, averaging 10 to 12 in. wide, £12 7s 6d to £13 1s 3d ; Third quality 2 in. thick, averaging 11 to 14 in. wide, £9 12s 6d to £11 6s 10d ; 1, 1 1-4 and 1 1-2 in. thick, averaging 10 to 14 in. wide, £8 5s od, £10 7s 3.

SPRUCE DEALS.—A good consumption is still going on, and prices are very firm. Prices quoted—£7 5s to £8 5s for third quality ; £6 17s 6d to £7 11s 3d for fourth quality, per St. Pt. Std.

N. B. PINE DEALS.—Higher prices are demanded. There is a fair demand.

N. B. SPRUCE DEALS (2nd quality average) —The demand continues, and long lengths, 9 and 11 by 3, are still in strong request. Prices quoted—£6 17s 6d to £9 5s 7d per St. Pt. Stn.

N. B. BIRCH LOGS.—There is a satisfactory demand, and prices keep firm. Prices quoted —1s 6d to 1s 10d per cubic foot, according to average girth.

N. B. BIRCH PLANKS.—There is a good demand and cousignments will find ready sale. Price quoted—£7 4s 4d to £18 18s 9d per Std.

WHITE OAK STAVES.—Canada Butts—5 1-2 ft. by 3 in. thick, at £115 to £125 per mille ; 5 1-2 ft. by 2 1-2 inches thick, £90 to £95 per mille ; 5 1-2 ft. by 2 in. thick, £67 to £72 per mille.

FIRM PRICES AT BOSTON.

[Correspondence of the CANADA LUMBERMAN.]

At a meeting of the spruce manufacturers held in Boston on February 11th, it was voted to maintain the combination prices made in the fall on all sizes of spruce, and to raise the price on laths, 1⅝ inch to $3.15, and 1½ inch to $3.00. Reports from all the spruce-producing sections indicate that the cut of logs will not be as large as was anticipated, owing to the poor conditions for logging and lack of snow. Until within a short time there has been but very little snow in the northern section of Maine, New Hampshire and Vermont, and these conditions must necessarily make a short season and smaller stock of logs.

The trade from the retail yards in this section is very light. They are only buying what stock they need for an assortment, and the most of them are carrying very small stocks. The outlook for building is not very encouraging, as there is but very little new work in sight, which will result in a light trade for the next two months.

What few mills that are sawing this winter are disposing of their output at good prices, and the feeling is general that with the opening of spring the trade will start up on a good basis of prices and a good demand. Prices rule about as follows :

HEMLOCK.

Matched hemlock boards	$18.co to $20 oo
Pennsylvania dimension	16.00 " 17.00
Eastern	15.00 " 16 co
with the usual advance for over 16 ft.	
Eastern boards	16.00 " 17.00
No. 1.	14 50 " 15.50
Pianed one side and matched	17.00 " 18.00
Pennsylvania boards, No. 1, 8, 10 and 12 in.	19.00 " 20.00
No. 1, 10 feet	17.00
Planed and matched	18.00 " 19.co

PINE.

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.co
Selects, 1 to 4 in	52.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62 00
Sheathings	40 oo " 56.00
Barn boards	30.oo " 32 oo
Coffin boards	26.oo " 28.co

SPRUCE.

Spruce boards are especially firm, with $22 mentioned as the price for planed one side and matched :

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.oo
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 co
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.oo to $13.50

HARDWOODS.

Whitewood, one inch	$ 36.co to $ 37.00
Thicker	38.co 41.00
⅝ in.	30.co 34.00
Saps, inch	28.00 30.00
Common	25.oc 28.00
Quartered oak	70.00 80.00
Fancy Oak	50.co 100.00
Plain Oak	35.oo 45.00
Ash	$ 38.co to $ 46.00
Cherry	90.00 130.00
Maple	30.00 40.00
Sycamore, quartered inch	40.00 50.00
Walnut	100.00 130.co

CLAPBOARDS.

Clapboards are in quiet request, with the market steady :

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27 00
Spruce, 2nd clear	24.00 " 25.00
Pine, extra	34.00 to $36.00
Pine, clear	30.00 " 33 co
Pine, 2nd clear	28.00

SHINGLES.

Shingles are firm, with eastern manufacturers asking higher prices :

Extra cedar, best brands	$ $3.15
Clear cedar	2.65 " 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50
Oregon	2.50 " 3.50

LATH.—Laths are steady : 1⅝ inch, $3.15; 1½ inch, $3.

MILL SITES

THE CANADA ATLANTIC RAILWAY INvites correspondence from anyone having in view the erection of a Wood-Working Mill. A number of excellent locations can be pointed out for Hardwood Mills where a very large supply of Birch, Elm, Ash, Maple, etc, is available, with a ready market reached quickly and cheaply. Address, W. P. HINTON, A. G. F. A., Ottawa.

SALE OF
Valuable Timber Limits
BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900
At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 212, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 16, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WANTED IN CAR LOTS, NORWAY PINE, 5/4, dry, first and second quality; quote price. Address THE CANADA LADDER CO., LIMITED, Leamington, Ont.

SAWYER WANTED

AT ONCE. ONE ACCUSTOMED TO CUTting hardwood lumber and staves and heading. Apply to J. E. MURPHY, Hepworth Station, Ont.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland; extensive Lumber Docks, Houses, Store Buildings, etc., water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

By Public Auction

At the Rotunda of the Board of Trade, Toronto, on

TUESDAY, APRIL 10,
at 2 p. m.

The undersigned has been instructed to offer for sale, at the above time and place, subject to the conditions which will be announced at the time of sale,

Timber Berth
TOWNSHIP OF MACKENZIE
Being about 80 Square Miles.

This township is one of the best timbered berths in the province, is well watered, and easily operated. For further particulars, apply to the DELTA LUMBER COMPANY, Detroit, or to

PETER RYAN, Toronto.

AUCTION SALE

Important and Extensive Sale by Auction of

VALUABLE
Timber Berths, Etc.

On the Ottawa River and its tributaries in the Provinces of Quebec and Ontario; at the Rotunda of the Board of Trade, Toronto, at 2 p.m., TUESDAY, APRIL 10TH, 1900.

R. H. Klock & Co., of Klock, Ont., will offer for sale by public auction, at the above time and place, subject to the terms and conditions which will be announced at the time of sale, the following timber berths under license from the Crown; said licenses include the right to cut all timber on the berths subject to the regulations of the Crown Lands Department of the respective Provinces, namely:—

QUEBEC.

Kippewa Berth, 226½ miles, and composed of berths Nos. 176, 177, 444, 445, 446, 447. Block A—Quinze Berth, 61½ miles; No. 5 Range 1. Block A, Quinze Berth, 150 miles, composed of berths Nos. 5, 6, 7, range 3. All the above limits are in the Province of Quebec, as shown on the official map of that Province. North Temiscamingue, Indian Reserve, Province of Quebec. Area about 60 square miles, as shown on official map of the Province of Quebec and held under license from Dominion Government and subject to timber regulations of Department of Interior.

ONTARIO.

Deep River, 101½ miles, held under license 178, 1899-1900. Chalk River, 19 miles, held under license 177, 1899-1900. Rocky Farm, Ottawa River, 100 square miles, held under license 176, 1899-1900.

For further particulars apply to R. H. KLOCK & CO., Klock, Ont., and JOHN GRAY, Room 100, Canada Life Building, Toronto, Canada.

WE HAVE 300,000 FEET OF VERY GOOD Beech Logs which we wish to cut to order. Signed, JOHN HARRISON & SONS CO., Limited, Owen Sound, Ont.

PIANOS OF THE BEST MAKES FOR SALE CHEAP

CAN MAKE SHIPMENTS DIRECT FROM factories Will sell for cash or trade for equal value in any kind of Lumber, Lath or Shingles. Address, FRANK D. ROSS, 738 Trumbull Ave., Detroit Mich.

To Limit Holders

THE TOWN OF MANITOWANING, ON THE inside channel of Grand Manitoulin Island, in direct and easy water communication with the timber limits of Algoma, offers superior inducements to lumber companies intending to establish works in this part of Canada. The best natural advantages obtainable anywhere. Further information upon application to W. J. TUCKER, Secretary Citizens' Committee, Manitowaning, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

That white pine lumber prices will remain at the present basis well into the summer months is the view generally advanced by the lumber trade of the Georgian Bay district. Manufacturers in attendance at the annual meeting of the Lumbermen's Association last week were almost unanimous on two points, first, that prices have now reached their height, and, secondly, that there will be no general reduction in prices for at least three months to come. After that time no one would predict what course the trade might take. Price lists of the new cut have been compiled, and compare very closely with the prices now asked for dry stock. It has been learned that in Algoma the weather has been less favorable for logging operations than in other parts of Western Ontario. The report from the Ottawa Valley is that very good work is being done in the woods. Prices in that district are unchanged excepting mill cull stock, which has advanced about one dollar per thousand.

Exception has been taken to the prices given in last issue at which certain grades of pine were being sold in the Toronto market. It should be explained that these figures were intended as the maximum prices, which could only be obtained for the grades of some of the large t Georgian Bay mills. Mill cull sidings, for instance, were said to be selling at $14.50, and inch mill cull stocks at $15.50. The average quotation for these grades, however, is perhaps fiully one dollar less than these figures. It is impossible to give quotations which will represent the price at which all manufacturers sell certain grades, as, owing to the absence of uniform inspection the grade of one manufacturer may be much higher than that of another, and consequently a higher price will be paid for his stock. Since last issue we cannot learn of any weakening in prices of pine or hardwood lumber, shingles or laths.

QUEBEC AND NEW BRUNSWICK.

The purchase by a Montreal shipper of the entire cut of white pine of a well-known manufacturer is the most important event of the past week. Although the actual figures have not been made

public, it is generally admitted that the price is a further substantiation of the strength of the market. Manufacturers in Quebec and the Maritime provinces report enquiries for stock from the Eastern States, and liberal offers are being made. Clapboards, which have long been lifeless, are showing some improvement, extra spruce bringing $29 to $30 and clear spruce $27 to $28 on Boston rate of freight. A correspondent, in the monthly edition, gives interesting information regarding the production of lumber in New Brunswick. It it shown that the cut by portable mills will be considerable, but that manufacturers generally are looking for higher prices.

MANITOBA AND BRITISH COLUMBIA.

The annual meeting of the Western Retail Lumbermen's Association being held in Winnipeg last week, most of the dealers put business aside for the time being. Reports go to show, however, that there is a considerable demand for lumber at good prices. Snow has fallen in the Lake of the Woods district and throughout Western Manitoba. This has facilitated work in the woods and stimulated trade generally. The British Columbia mills are pressed with orders. It is said that fifteen vessels have been chartered to load lumber at the Chemainus mills for foreign destinations. The higher prices put into effect recently are being freely paid.

UNITED STATES.

Retail dealers and consumers in the Eastern States have not yet commenced to buy for their spring requirements, but it is admitted that ere long they will be compelled to yield. It is not believed that there will be any decline in lumber prices for several months to come. The eastern wholesale dealers are apparently reconciled to this view, as quite heavy purchases have been made by them at upper lake producing points. In the upper Mississippi district the log crop is likely to be 25 per cent. less than was anticipated at the beginning of the season. Of the prospective lumber production in the Duluth district, there has been sold over 100,000,000 feet, or about 25 per cent. of the total production. The bulk of the sales made consists of low grade stock, and much of it is for shipment to eastern distributing markets. Prices have ruled about as follows: No. 4 boards, $12; No. 3, $14; No. 2, $16; No. 1, $18; D stock and better, $30 to $31; No. 1 stock and better, $33 to $35. Buffalo and Tonawanda dealers held a joint meeting on the 17th inst., but it was decided to take no decisive step on the price question as yet. It seems to be generally understood, however, that there will soon be an advance in the price of low grade pine.

Hardwood prices remain at about the same basis. In Michigan the hardwood production for the present winter will be about 75 per cent. of what it was one year ago, divided as follows: Ash, 40 per cent.; elm, 70; basswood, 60; birch, 75; maple, 75; red oak, 60; and beech, 125 per cent. On the other hand, it is estimated that in Wisconsin the cut will equal if not exceed that of one year ago.

Lath prices keep firm. In Chicago No. 1 dry white pine lath sells at $4.50, and at Buffalo and Tonawanda from $4.50 to $5. In the New England States spruce lath is quoted at $3. Although the demand for shingles is not active, prices are steady. The stock of shingles in Michigan at the present time is not believed to exceed 25 per cent. of that of one year ago, this being true of both 16 and 18 inch pine and cedars.

FOREIGN.

Prices of wood goods in the British market have shown no important changes within the past week. The stock of deals and battens at the leading importing centers is steadily becoming reduced, but there is some fear that the present high prices may result in a falling off of consumption. At recent auction sales prices have been well maintained. Consumers are each day becoming more convinced that the present prices are likely to rule for some time to come, and as a result are showing a greater disposition to contract for their requirements.

Lumber is in good demand in the West Indies. At Barbados white pine is selling at $22.50 per thousand for first quality, and $17 for second quality. Spruce of first quality brings $19.50, and spruce scantling $14. Gaspe cedar shingles are quoted at $3.50, cedar laying at $2.40, and spruce laying at $2.27.

NEW BRUNSWICK CEDAR SHINGLES.

The New Brunswick shingle market remains unchanged. There are a few sales being recorded at standard values. There is some little inquiry awakening in the country districts, mostly for the lower grades. The city dealers are still quite lethargic. There is no doubt as to the firmness of the market. The fact that the manufacturers have gone through two such quiet months as the last without any price cutting shows very clearly that they are absolutely determined to maintain present prices, and it is also a strengthening element of the situation. Spring trade is apparently going to be slow in starting this year, for the reason that the majority of the dealers bought quite largely last autumn, and have as a consequence fair stocks on hand. The early demand, therefore, will likely be for clears and 2nd clears for the country trade. As the Pacific coast shingles are firm at $3.20 on Boston rates New Brunswick cedars are sure to have the call when business opens. Quotations are as follows, delivered at Boston: Extras, $3.10 to $3.15; clears, $2.65 to $2.75; 2nd clears, $2.15 to $2.25; saps, $2.10 to $2.20, in mixed cars. Straight cars of extras are being sold at $3.00, but we hear of absolutely nothing lower.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

There is a lull in the lumber business in this center at present, but the lumbermen are confident that they are approaching a season of great activity. No further large sales are reported, and it is understood that the mill owners are holding off for even higher prices, beleiving that the cut of some of the mills will be short, as the winter operations are restricted by the recent unsatisfactory weather. Should this be the case, foreign buyers will be compelled to raise their figures, and the mill owners now holding out will profit by the position they have taken.

Although the winter on the whole has been a rather poor one for lumbering operations, reports from various limits would indicate that the work of getting out the logs is progressing favorably. Many of the mills last season cut all the logs in stock, so that they must necessarily depend on the supply now being taken off the limits. A reliable authority places the probable increase of the coming summer's cut over last season's at 20 per cent., or about 1,000,000 feet. J. R. Booth, Gilmour & Hughson and other extensive manufacturers worked their mills to their utmost capacity last year, and cannot increase their cut this year, hence the increase will not be as great as present indications might seem to show.

One proof of the extent of the present bush operations is seen in the fact that the Hull Axe Company is unable to keep up with orders. The output of this factory is 12 dozen axes per day, but this does not more than partially satisfy the extra demand made by the Ottawa firms. Ottawa dealers in lumbermen's supplies, clothing, provisions, etc., also report a greatly increased trade with the camps.

Mr. A. E. Dyment, M. P., of Thessalon, Ont., has arrived in the Capital for the session. Mr. Dyment, who represents Algoma, states that the lumbering operations in the Georgian Bay district are unusually active. From another reliable source it is learned that the increase is even greater than it is in the Ottawa valley, amounting to fully 40 per cent.

The output of square timber by Ottawa firms for the English market this coming season will, according to official figures, be only 400,000 cubic feet. In 1889 the amount sent over was 5,000,000 feet, showing in eleven years the surprising decrease of 92 per cent. Ottawa lumbermen now find it much more profitable to manufacture the square timber in their own mills into board lengths and sizes. The English trade in these has increased in proportion to the decrease in the demand for square timber. Gilmour & Hughson, a firm that formerly cut a large quantity of deals for the English market, will this year cut none, confining themselves to cutting thinner stock. In manufacturing the timber into board sizes themselves, the Ottawa mill men find there is little or no waste, while the English market can be supplied with even more satisfaction.

McKee & Co., of Ottawa, dealers in mill men's supplies, report that inquiries based on the coming senson's operations are numerous, indicating the probability of increased activity.

Mr. E. C. Grant, of the Ottawa Lumber Company, has just returned from a prolonged visit in the British Isles. Mr. Grant reports that the prospects for an increased trade with the British market were never better.

As yet few American or English buyers have put in an appearance in Ottawa, but it is expected they will shortly arrive.

Hurdman & Elmitt, the Rideau Lumber Co., and other firms interested in the wholesale lumber business, report that the market remains firm, with no marked demand for any special lines. Pine box culls have advanced from $13 to $14 per thousand for best stock, and pine mill culls have advanced from $11 to $12 for best grade. Lath, sidings and strips show no advaace, the same applying to hardwood.

J. O. D. Latour & Co., a firm operating a line of towing and passenger boats on the Kippewa, are endeavoring to sell out the business, which is a flourishing one.

OTTAWA, February 26th, 1900.

LARGE LUMBER PURCHASE.

Mr. E. H. Lemay, wholesale lumber merchant, of Montreal, has just closed a contract with McLachlin Bros., of Arnprior, Ont., for the purchase of their entire production of white pine to be cut during the ensuing season. It is understood that this will be about 65,000,000 feet, and the transaction represents a consideration of about $1,000,000. The lumber manufactured by McLachlin Bros. is second to none in Canada or the United States, and is noted for its fine appearance, smooth sawing, and the splendid way in which it is butted. These considerations have made for it name in the British market. The above firm have also gained a reputation for the careful manner in which they handle their lumber and protect it from the weather. The bulk of the pine purchased will be exported to Great Britain and the United States.

As previously announced, Mr. Lemay has secured the pine deal contract for the road department of the city of Montreal. The deals required for this work are all 11 inches wide, and will probably reach in quantity about 2,000,000 feet.

THE LIVERPOOL MARKET.

The arrivals from British North America during the past month, says Farnworth & Jardine, of Liverpool, have been 5,070 tons register, against 3,320 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1898, 1899 and 1900 has been 21,739, 15,487, and 15,752 tons respectively. The business of the past month has been steady, with little fluctuation in values to report. The arrivals have been fairly moderate, the deliveries generally satisfactory, and stocks all round are comparatively light. Owing to the strong advance in values demanded for Canadian woods little progress up to the present has been made in contracting for next season.

PINE TIMBER.—Of WANEY the deliveries have been fairly satisfactory, and the stock is now very light. Values are firm, and for next season much higher prices are quoted. SQUARE continues in limited request, and the stock is sufficient. RED PINE: There is little enquiry; the stock is small. OAK: There has been rather more enquiry, and values are firmer; the deliveries have been fair, but stocks, though not heavy, are sufficient for present requirements. ELM is in a strong position, prices high, and the stocks light. ASH is in limited demand and there is very little in stock. PINE DEALS have moved off more freely, there has been more enquiry, and considerable sales have been made from yarded stocks at improved values. The stock, however, is still large, but consists chiefly of oddments. RED PINE DEALS continue in good request at firm prices.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The import amounts to 1,800 standards, about the same as corresponding month last year. The deliveries have been fairly large, and stocks being further reduced, are now in a moderate compass. There is no change in value to report. As shippers' ideas are very firm, contracting in this market has been slow, though a few contracts have been negotiated. PINE DEALS have improved in value; stocks are fair.

BIRCH.—From St. John, N.B., by steamer, has been imported freely; there has been a good consumption at steady values, but the stock has increased, and is now sufficient. PLANKS: There has been a large import, but coming on practically a bare market, has met ready sale at fair prices. Stocks are not large, but further supplies are about due.

The sales during the past month have been as follows: BIRCH TIMBER.—ST. JOHN 14⅜ inches average, at 18¾d. per cubic foot; 1 1/4 inches average, at 18 1/2d. per cubic foot. PLANKS at about £8 12/6 per standard c. i. f.

QUEBEC PINE DEALS.—3rd quality Oddments at £8 14/- per standard.

SPRUCE DEALS.—ST. JOHN, £7 15/- to £8 per standard c.i.f.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade received at the office of the High Commissioner for Canada in London, Eng., during two weeks ending 10th February:

13. Enquiry is made for names of firms in Canada manufacturing furniture for export; also for firms who manufacture tallow and grease for export.

14. An important London house doing a large commission business in Canadian products are desirous of corresponding with exporters of wood pulp, evaporated apples, tinned salmon, etc.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

THE GEORGIAN BAY CUT.

The American Lumberman, estimating the 1900 cut of white pine in the Georgian Bay district, states that while only three or four mills will be in commission in the Georgian Bay district this season, old ones have been rebuilt and preparations made to run many of the mills day and night. This authority gives the following summary of the probable output of the Georgian Bay mills for the season of 1900 :

Our contemporary also remarks that in active seasons of the past as high as 300,000,000 feet of logs have been exported to feed Michigan mills, while this season barely 50,000,000 will thus be directed. While the Georgian Bay production may possibly reach the figures given, 473,000,000 feet, when we consider that this quantity represents the cut in past seasons of Georgian Bay mills as well as the mills in Eastern Michigan, it cannot be regarded as an excessive production, and likely to seriously affect the market. Allowing 250,000,000 feet as the quantity which would, under former conditions, be manufactured in Michigan, but 223,000,000 feet remain as representing the Georgian Bay production.

Address, stating price per 1,000, to "DOWEL," CANADA LUMBERMAN, Toronto.

SALE OF
Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900
At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 217, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 16, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WANTED IN CAR LOTS, NORWAY PINE, 5/4, dry, first and second quality; quote price. Address THE CANADA LADDER CO., LIMITED, Leamington, Ont.

SAWYER WANTED

AT ONCE. ONE ACCUSTOMED TO CUTting hardwood lumber and staves and heading. Apply to J. E. MURPHY, Hepworth Station, Ont.

To Limit Holders

THE TOWN OF MANITOWANING, ON THE inside channel of Grand Manitoulin Island, in direct and easy water communication with the timber limits of Algoma, offers superior inducements to lumber companies intending to establish works in this part of Canada. The best natural advantages obtainable anywhere. Further information upon application to W. J. TUCKER, Secretary Citizens' Committee, Manitowaning, Ont.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax. is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are opened for inspection in the Department of Lands, Forests and Fisheries, in this city; and at the office of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Commissioner of Lands, Forests and Fisheries.

CURRENT TRADE CONDITIONS.

ONTARIO.

The movement of lumber during the past week has been restricted by inclement weather. The roads have been almost impassable, and no retail trade of any account has been done. This, however, is but a temporary cessation, as is borne out by numerous enquiries for stock which continue to be reported by manufacturers and dealers. United States buyers have been among the most urgent seekers of stock, their attention having apparently been diverted to Ontario by the high prices asked in the Lake Superior district. The cut of the mills of Gilmour & Co., of Trenton, is reported to have been sold for shipment to the United States market. In recent years this firm manufactured largely for the British market. Prices of pine lumber, shingles and lath are without any material change. Hemlock lumber appears to be stiffening in price, and that material promises to be more generally used in the future. This is evidenced by the fact that last year the hemlock production of the United States was 200,000,000 feet more than in the previous year.

Hardwood manufacturers are holding prices firmly, and there is an apparent disposition to sell their stocks log run. This feature has probably limited, in a slight degree, the transactions in hardwood stocks.

QUEBEC AND NEW BRUNSWICK.

Lumbering operations in Quebec are being pushed with the utmost vigor, but it has been found almost impossible to obtain sufficient teams and men, although high wages are being offered. This is also the situation in the maritime provinces. The work of hauling logs has been much more expensive than usual. On the head waters of the St. John river, and on the Miramichi and Restigouche rivers, in New Brunswick, there has been plenty of snow, but on the bay shore and in Nova Scotia serious delays have been experienced. Deal prices have shown no advance during the past week. Shippers are meeting with some difficulty in securing tonnage. Several steamers have been taken at 49s 6d per standard from St. John to west coast of England. This is at least 10s above the rate of February, 1899.

MANITOBA AND BRITISH COLUMBIA.

Reports from the western provinces are favorable to a large trade in lumber this year. Country dealers have been placing large orders with mills in the expectation of an active building season throughout the farming districts. In Manitoba prices of white pine timber, dimension, and third common boards are 50 cents higher than the list issued in January. Hardwood prices have also advanced in sympathy with the higher prices ruling for that lumber throughout Canada and the United States.

UNITED STATES.

Retail dealers and consumers in the Eastern States have not yielded to the demands of the west in respect to prices. The prices asked at upper lake producing points are so much higher than the east seems willing to pay that wholesale dealers at Buffalo, Tonawanda and other points are at a loss to know what prices to ask. The opinion prevails, however, that as soon as the spring demand shall present itself, the east will be compelled to give way. At present retail trade is quiet, but there is a continued active demand for lumber for manufacturing purposes. Box lumber is consumed almost as fast as it leaves the saws. The most important changes in price have been made in Chicago, where an advance averaging about $2 per thousand feet has been made on everything but siding, ceiling and piece stuff. The price of ⅝ lath has been advanced from $5.25 to $5.50, ⅜ remaining at $4.50 for white pine and $4.25 for mixed.

Hardwoods are moving moderately, maple and birch showing the most activity. The feeling is confident, and there is no prospect of a decline in prices.

The shingle demand generally is rather slow. At Buffalo some sales of hemlock shingles have been made at $2.25 wholesale, while best white pine shingles bring $4, with white cedars slightly less.

FOREIGN.

The high prices asked by shippers is restricting trade in Great Britain, and as yet it is said that comparatively little stock has been sold to arrive from the St. Lawrence. The freight market is a disturbing feature, steamship owners showing little disposition to enter into contracts ahead. Apart from these aspects of the market, the outlook for Canadian lumber is promising. Pine and spruce stocks are low, and spot goods are realizing high prices. At a recent public sale Quebec spruce of first quality sold at £11 15s, and second quality at £9 15s and £10. A line of unassorted narrow battens brought £8, which is near the price of Baltic whitewood of equal dimensions.

STOCKS AND PRICES.

The corporation of Kingston, Ont., will shortly call for tenders for the annual supply of sidewalk lumber.

The Harbor Commissioners of Quebec want tenders by the 10th inst. for the supply of dimension lumber, deals, etc.

Watson Bros., of Etobicoke, Ont., have purchased 400 acres of standing timber near Hepworth, Ont., and will establish a saw mill there.

The retail values of white pine at Philadelphia are : 12 inch, No. 1, $35 ; No. 2, $30.50 ; No. 3, $27.50 ; sap, 12 inch, $20; 10 inch, $18.50.

H. Saunders, of Walsingham, Ont., has secured a contract to supply 100,000 feet of hard maple to the Bain Waggon Works, Brantford.

The tender of T. D. Robinson has been accepted by the Winnipeg city council for the supply of 1,000 cords of cedar paving wood, at $10.25 per cord.

The W. H. Sawyer Lumber Co., of Buffalo, have purchased 10,000,000 feet of lumber from the Rittenhouse & Embree Co., of Minneapolis, Minn.

F. E. Woodworth, of Centreville, N.S., has been given a contract by R. C. Irvin, of Shubenacadie, to saw over 1,000,000 feet of hardwood for the British market.

T. Sullivan & Co., of Buffalo, are buying maple and elm in Ontario for export to Germany. The logs are cut into planks three inches or more thick and about a foot wide.

The G. & G. Flewelling Co., of Hampton, N.B., expect to get out seven million feet of spruce and pine logs this winter, which will be manufactured chiefly into box shooks, onion crates, etc.

The O'Neil Lumber Co., of St. Martin's, N.B., expect to cut 6,000,000 feet of lumber during the coming season. This company recently purchased the Rourke property, on the Irish river.

Hilyard Bros., of St. John, N.B., are carrying on extensive lumbering operations in the parish of Burton. They have also purchased a considerable stock of logs from small operators.

The Swan-Donogh Lumber Co., of North Tonawanda, have just secured the contract for 7,000,000 feet of lumber to be supplied to two large manufacturing concerns with headquarters in Chicago and Buffalo. It is their intention to double the capacity of their mill at Tonawanda at once.

Rhodes, Curry & Co., of Amherst, N.S., have received a contract to supply about 250,000 feet of lumber for the transport Monterey, which will carry the Strathcona Horse to South Africa.

A report states that the cut of logs on the Kennebec river, in Maine, this season will be the largest ever known. There is now 155,000,000 feet ready to be landed, which exceeds the cut of last year by nearly 20,000,000 feet.

The following prices are quoted for timber products on the Saginaw river : Cedar ties, 42 cents ; hemlock ties, 26 cents ; tamarac ties, 30 cents ; telegraph poles, from $1.25 for 25-foot poles to $6 for 45-foot poles ; fence posts, 10 cents.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.

The feature of the present spruce lumber market is the fact of a good many orders for forward delivery, extending well into the spring. The feeling is that the spruce situation is firm ; that bad weather and too much snow in February, together with a lack of snow early in the winter, will reduce the volume of logs that will be got out fully 25 per cent. Full agreement prices on spruce are reported to be the rule, and in some cases even better prices are noted :

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	15 00
Out boards planed one side	12.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.00 to $13.50

Western pine is well held, with the request somewhat improved :

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	52.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	30.00 " 32.00
Coffin boards	26.00 " 28.00

Hardwoods are in quiet demand. The exceedingly stormy weather is against their being moved :

Quartered oak	$ 70.00 $ 80.00
Fancy Oak	90.00 100.00
Plain Oak	35.00 45.00
Ash	$ 38.00 to $ 46.00
Cherry	90.00 130.00
Maple	30.00 40.00
Sycamore, quartered inch	40.00 50.00
Walnut	100.00 130.00

Shingles are in quiet request, with prices little changed :

California redwood	$3 40 to $3.50
Extra cedar, best brands	$ $3.15
Clear cedar	2.65 " 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50
Oregon	2.50 " 3.50

Clapboards continue quiet, though pine

clapboards are pretty firm, being in small supply :

Spruce, extra	$29.00 to	$30.00
Spruce, clear	27.00 "	28.00
Spruce, 2nd clear	23.00 "	25.00
Pine, extra	40.00 to	$45.00
Pine, clear	35.00 "	40.00
Pine, 2nd clear	30.00 "	32.00
California redwood, clear	42.50 "	45.00
Second grade	40.00 "	42.00

The small supply of hemlock continues to be the feature, with the market very firm. Matched boards and floorings are yet particularly firm :

Matched hemlock boards	$20.00 to	$22 00
Pennsylvania dimension	16.00 "	17.00
Eastern	15.00 "	16 00
with the usual advance for over 16 ft.		
Eastern boards	18.00 "	19.00
No. 1	15.50 "	16.50
Planed one side and matched	18.00 "	20.00
Pennsylvania boards, No. 1, 8, 10 and 12 in	19.00 "	20.00
No. 1, 10 feet		17.00
Planed and matched	19.00 "	20.00

Laths are unchanged : 1⅝ inch, $3.15; 1½ inch, $3.

BOSTON, March 5th, 1900.

BRITISH PRICES FOR CANADIAN DEALS.

The following prices for Canadian deals, etc., were realized at an auction sale held by Churchill & Sim, of London, England, on February 22nd :

SPRUCE.—Ex Amyl, from Quebec—12-14 ft., 2x6, third quality, £7 15s per standard ; 13-17 ft. 2x6, £7 15s ; 12-14 ft. 2x5, £7 5s ; 12-14 ft. 2x4, £8 ; 10-11 ft. 2x5-6, £7 15s ; 9-11 ft. 2x5, £7 5s ; 6-11 ft. 2x4-5, £7 5s ; 10-11 ft. 3x11, first quality, £12 10s ; 10-14 ft. 3x7, £9 15s. Ex Iona, from Quebec—13 ft. 3x9, second quality, £9 15s. Ex Zanzibar, from Quebec—12 ft. 3x9, first quality, £11 15s ; 9-11 ft., £10 15s and £10 10s ; 12 ft. 3x 8, £10 5s ; 9-16 ft. 3x8, £10 10s. Ex Kinsale, from Quebec—12-14 ft. 2x7-11 inch, first quality, £10 ; 12-14 ft. 2x6, £9 10s ; 12-14 ft. 2x5, £7 15s ; 6-8 ft. 2x5-9, £6 5s. Ex Tantallon, from Quebec—12-15 ft. 21-2x6, unassorted, £8 ; 12-16 ft. 2 1-2x5, £7 10s ; 6-11 ft. 2 1-2x4-6, £7 10s ; 12-14 ft. 2x7-9, £7 15s ; 12 ft. 2x7, £8 15s ; 12-15 ft. 2x6, £8 ; 12-14 ft. 2x6, £8 and £7 15s ; 12-14 ft. 2x5, £7 15s ; 9-11 ft. 2x6, £7 15s ; 9-11 ft. 2x5, £7 10s ; 6-8 ft. 2x5-6, £7 5s.

PINE.—Ex Monte Videan, from Montreal—9 ft. 3x6-18 inch, first quality, £20 ; 6-8 ft. 3x11-12, £16 10s ; 8 ft. 3x7-10, £16 15s and £17 ; 6-7 ft. 3x9, £16 15s. Ex Forest Holme, from Botwoodville, Newfoundland.—3-5 ft. 3x11-16 inch, third quality, £6 10s. Ex Tantallon, from Quebec—12 ft. 3x6, third quality, £8 10s ; 12 ft. 3x5, £8 10s.

TO SQUARE TIMBER OPERATORS.

THE CANADA LUMBERMAN desires to open up correspondence with persons getting out square red birch timber of large size. Operators are asked to send their addresses to this office.

LUMEER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, are as follows : Ottawa to Oswego, $1.90 per M ft. ; Ottawa to Syracuse, 10½ cents per 100 lbs. Ottawa, Rockland and Hawkesbury to Montreal 5 cents per 100 lbs.; Quebec, 10 cents per 100 lbs. ; Arnprior to Montreal, 7 cents per 100 lbs. ; Quebec, 12 cts. ; Pembroke to Montreal, 8 cents per 100 lbs.; Quebec, 13 cents per 100 lbs.; Ottawa to New York, 15 cents per 100 lbs.; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs. ; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. SALE OF
Valuable Timber Limits
BY PUBLIC AUCTION
AT TORONTO
By C. J. Townsend & Co., 28 King Street West.
ON THURSDAY, APRIL 19th, 1900
At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 212, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WANTED—Green Hard Maple Squares, 6½ in. x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario and Quebec. Box 24, CANADA LUMBERMAN.

LUMBER INSPECTOR.

LUMBER (PINE) INSPECTOR; THOROUGHly competent and trustworthy, wanted for a temporary position. Apply at once, stating experience, references and salary. Applications treated strictly confidential. Apply at once to Box 114, CANADA LUMBERMAN.

AUCTION SALE

Important and Extensive Sale by Auction of
VALUABLE
Timber Berths, Etc.

On the Ottawa River and its tributaries in the Provinces of Quebec and Ontario; at the Rotunda of the Board of Trade, Toronto, at 2 p.m., TUESDAY, APRIL 10TH, 1900.

R. H. Klock & Co., of Klock, Ont., will offer for sale by public auction, at the above time and place, subject to the terms and conditions which will be announced at the time of sale, the following timber berths under license from the Crown; said licenses include the right to cut all timber on the berths subject to the regulations of the Crown Lands Department of the respective Provinces, namely:—

QUEBEC.

Kippewa Berth, 226½ miles, and composed of berths Nos. 176, 177, 444, 445, 446, 447. Block A—Quinze Berth, 61½ miles; No. 5 Range 1. Block A, Quinze Berth, 150 miles, composed of berths Nos. 5, 6, 7, range 3. All the above limits are in the Province of Quebec, as shown on the official map of that Province. North Temiscamingue, Indian Reserve, Province of Quebec. Area about 60 square miles, as shown on official map of the Province of Quebec and held under license from Dominion Government and subject to timber regulations of Department of Interior.

ONTARIO.

Deep River, 10½ miles, held under license 178, 1899-1900. Chalk River, 19 miles, held under license 177, 1899-1900. Rocky Farm, Ottawa River, 100 square miles, held under license 176, 1899-1900.

For further particulars apply to R. H. KLOCK & CO., Klock, Ont., and JOHN GRAY, Room 100, Canada Life Building, Toronto, Canada.

HARDWOOD LUMBERMEN'S ASSOCIATION.

In the March number of the CANADA LUMBERMAN blank forms were enclosed requesting an opinion from hardwood lumber manufacturers and dealers regarding the formation of a Hardwood Lumbermen's Association for the province of Ontario. We would respectfully request that all persons interested return these forms, duly filled in, to this office, at the same time giving a free expression of opinion on the subject.

CURRENT TRADE CONDITIONS.

ONTARIO.

The logging situation in Ontario has been somewhat relieved by the weather of the past two weeks. There is now abundance of snow in the woods, in fact, almost too much for expeditious hauling of logs, but reports from the northern districts state that operators are making fair progress and putting forth every effort to get logs to the streams. While there is no doubt that some logs will be left in the woods, the present outlook is that a sufficient stock of logs will be secured to keep the mills in operation for the greater part of the season. This, of course, is provided that all the logs that are banked reach the mills, none being hung up as a result of low water. From information gathered, it seems that the cut of hardwood logs in western Ontario this winter has been quite heavy, and that the lumber production will be up to the average, if it does not exceed the cut of last season.

Although there is not a heavy movement of lumber, the market is decidedly firm, Some of the manufacturers have advanced their quotations on pine uppers, dressing, wide common, and mill run stock, but as far as can be ascertained this step is confined to mills that have adopted a high standard of grading, and consequently no changes have been made in our price list. United States dealers are looking to Ontario for stock, and a brisk spring trade is expected as soon as the building season shall open. The mills, in anticipation of this, and in view of the shortage in lumber stocks, will start operations earlier than usual.

QUEBEC AND NEW BRUNSWICK.

The local movement of lumber has been restricted by the cold weather, which has prevented operations in the building line. Architects in Montreal and Quebec report a considerable amount of work in hand, and when the building season opens there will likely be a lively demand for lumber. It is expected that the prices for local stock will be affected to some extent by the higher prices ruling in the export trade. While no changes have been made in our Quebec price list, it is understood that the market for both deals and timber is strengthening. There have been numerous enquiries from British importers for birch timber, and the prospects are that operators in this wood will realize enhanced values before the year closes. The deal market at St. John is firm, shippers continuing to buy for export, but so far few vessels have been chartered owing to high rates.

UNITED STATES.

Enquires have been made by the American Lumberman to ascertain the prospective input of logs this winter. The replies received seem to indicate that, in comparison with last winter, there will be a decrease of from 10 to 15 per cent. in the production of pine logs, and an increase of about 10 per cent. in the cut of hardwoods. If this estimate should prove nearly correct, it is not probable that the season of 1900 will witness any material depreciation in lumber prices. The market is now very strong. Sales are reported at Wisconsin mills of mill culls at $12, No. 3 boards at $13, No. 2 at $15 and No. 1 at $17, and it is predicted that mill culls will reach $13 before many weeks. It is stated that the cut of mill culls in some districts for the first half of the season has already been sold. At Bay City and Saginaw some changes in prices of pine have been made within the past fortnight. One to two inch uppers and selects have been advanced by about $2 per thousand. No. 1 and No. 2 barn boards are about $1 higher, as is also shipping culls of narrow widths. Shaky clear stock has advanced $2, selling from $28 to $30. Shingles are unchanged, but No. 1 white pine lath is slightly easier, selling in the Bay City market at $3.50, against $3.75 a few weeks ago. Attention is also directed to the changes in the Buffalo and Tonawanda price list of white pine stock.

Firmness still characterizes the hardwood market. Basswood has been sold at $22.50 for firsts and seconds delivered in Chicago. Brown ash is held at high figures, Wisconsin manufacturers asking $21 for log run at the mills.

Shingle prices remain stationary. Dealers in the Eastern States are holding stock firmly, believing that the production this season will not be large.

FOREIGN.

Stock in the hands of brokers in Great Britain is gradually becoming diminished. Buyers now seem to realize that the high prices asked for spot goods are warranted by the enhanced values at which contracts for new stock are being placed. At London, Liverpool and Glasgow the volume of trade is considerable, spruce and pine selling freely. Prices realized at recent public sales have been exceptionally good. Second quality spruce sold in London at £10, third quality 3 x 9 at £9 15s, and 3 x 7 and 3 x 8 at £9 5s. In that market there is a great scarcity of fourth quality spruce. Several sales of pine are reported, and considering the quality of the stock, the prices must be regarded as satisfactory.

STOCKS AND PRICES.

J. J. Withrow is sawing 200,000 feet of deals at South Uniacke, N. S., with a portable mill.

Jackson & Co. are this winter cutting 34,000,000 feet of logs in the vicinity of Tidnish, N. S.

The barque Adderley is now loading 1,000,000 feet of lumber at Moodyville, B. C., for Sydney, Australia.

It is estimated that between fifteen and twenty million feet of deals will be manufactured this season in the districts of St. Simonds and St. Martins, in New Brunswick.

Campbell & McNab, of Douglas, Ont., are getting out large quantities of telegraph and telephone poles, railway ties and pulp wood.

The McArthur Bros. Co., of Cheboygan, Mich., have the greater portion of their 300,000 logs cut and skidded on the banks at Little Current, Ont.

The city of Kingston, Ont., invites lumber dealers to submit tenders, by noon of the 22nd inst., for the supply of 200,000 feet of inch plank and 40,000 lineal feet of cedar sleepers.

At a recent auction sale held at Hull, England, by Holdsworth & Midgley, the following prices were realized for Quebec spruce: 3x5 Quebec spruce, 13/16 f., £6 15s per standard; 1½x5, 6/16 ft., £6 15s; 1½x6, £6/15 ft., £7; 1x7, 6/13 ft., £8; ⅞x8, 10/14 ft., £7 10s; ⅞x10, £8 15s; ¾x5, 6/16 ft., £6 15s to £7; ¾x4, £6 to £6 5s; ⅝x5, £6 5s to £6 10s; 2x6, 9x19 ft., £7 7s 6d to £7 12s 6d.

At Ashland, Wis., white pine lath are held at $3 per thousand, mixed at $2.80, and Norway at $2.70. Extra *A* shingles are selling at $2.25, and 6 inch clear butts at about $1.60.

Jos. Turner, of Bay City, Mich., has cut and banked 25,000,000 feet of logs in the Georgian Bay district, and has purchased 10,000,000 feet more. They will be manufactured at Midland, Ont., and the lumber shipped to the United States.

Following are the current prices for pine f.o.b. yards at Cleveland, Ohio: 1¼ and 1½ inch uppers, $55; 1 to 2 inch selects, $50; 1 to 2 inch fine common, 10 and 12 inch, $47; 1¼ to 2 inch shop, $40; 1¼ to 2 inch No. 1 common, 10 and 12 inch, $29; 1¼ to 2 inch No. 2 common, $20; mill culls in all thicknesses, $17.

THE BOSTON MARKET.

[Correspondence of the CANADA LUMBERMAN.]

The tone of the spruce lumber market is firm. There are indications that at the meeting of the agreement association on the 14th prices will be advanced. This will be done on the general firmness of the situation. There is a certainty that the volume of logs that will be got out will be very much reduced by the terribly deep snow that has prevailed for some time. The season for hauling is rapidly drawing to a close. The last of March brings the last of the teams out of the woods.

It is estimated that the cut of spruce must fall a good deal short of that of a year ago, which was not a large one. At the same time, it is mentioned in the trade that to again put up prices will work harm to the building trade; for already that trade is a good deal hampered by the increased cost of all classes of building materials. It is believed that another increase in the cost of spruce will still further help to check building operations this year. Spruce boards have already been further advanced and are at least $1.50 higher. Present agreement prices are:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	16 00
Out boards planed one side	13.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.0 to $13 50
Spruce flooring	20.00 to 22.00

Hemlock is yet very firm with little offering:

Matched hemlock boards	$20.00 to $22 00
Pennsylvania dimension	16.00 " 17.00
Eastern	15.00 " 16 00
with the usual advance for over 16 ft.	
Eastern boards	18.00 " 19.00
No. 1	15 50 " 16.50
Pianed one side and matched	18.00 " 20.00
Pennsylvania boards, No. 1, 8, 10 and 12 in	19.00 " 20.00
No. 1, 10 feet	17.00
Planed and matched	19.00 " 20.00

Western pine is very steady, with coarse boards and box boards particularly firm. The supply of eastern box boards is reported short, with a small cut of logs this winter. Western pine is quoted firm:

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	52.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	30.00 " 32.00
Coffin boards	26.00 " 28.00

Hardwoods are mainly steady in prices, with a fair demand:

Quartered oak	$ 70.00 $
Plain Oak	38.00 to 45.00
Ash, 1 inch	$ 45.00 to $ 47.00
1¼ 1½ and 2 inch	50.00 52.00
2½ and 3 inch	60.00
Maple, 1 inch	29.00 31.00

Clapboards are moving rather better, with a steady market:

Spruce, extra	$29.00 to $30.00
Spruce, clear	27.00 " 28.00
Spruce, 2nd clear	23.00 " 25.00
Pine, extra	40.00 to $45.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42.50 " 45.00
Second grade	40.00 " 42.00

Shingles are showing a little firmer tone;

Extra cedar, best brands	$ $3.15
Clear cedar	2.65 to 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50

Laths are rather easy and selling for less than agreement prices: Five-eighth inch, $2.95 to $3 00; ½-inch, $2.75 to $2.90.

BOSTON, March 12th, 1900.

BRITISH COLUMBIA LUMBER PRICES.

Following is the price list which the timber manufacturers of British Columbia have put into effect on fir and red cedar lumber for delivery to dealers throughout Manitoba and the Territories, at all 50 cent freight rate points on the Canadian Pacific Railway:

FIR.

Finish S. 1 S. or S. 2. S.—No. 1 Clear Steeping, 1¼, 1½ or 2 in. x 10 or 12 in. Edge Grain, $40; No. 1 Flat Grain, $35; No. 2 Clear Steeping, 1¼, 1½ or 2 in. x 10 or 12 in. Edge Grain, $35; Flat Grain, $30; No. 1 Clear Steeping, 1, 1¼, 1½ or 2 in. up to 12 in. wide, $31; from 14 in. to 20 in. wide, $36; No. 2 Clear Steeping, 1, 1¼, 1½ or 2 in. up to 12 in. wide, $28.50; from 14 to 20 in. wide, $33.50. No. 1 and 2 Clear Dimension, 2 x 3, 2 x 4, 2 x 6 and 2 x 8 in., $28.50; 4 x 5 in., $31; 5 x 5 in. and 6 x 6 in., $33.50; No. 1 and 2 Rabitted Door and Window Jambs, $31. Above in lengths of 12, 14 and 16 ft. Finish ordered all one of above lengths, $1.50 per M. extra. Odd lengths, 8 to 24 ft., $1.50 per M. less. Add $1 per M. for each additional 2 in. over 20 in. in width. Edge Grain Finish same price as Edge Grain Steeping, but only in widths up to 12 inches.

Casing and Base—No. 1 Clear, 4, 5 or 6 in. Casing, moulded any pattern, $33.50; No. 1 and 2 Clear, 4, 5 or 6 in. Casing, ¼ round or O. G., $31; No. 1 Clear, 8, 10 or 12 in. Base, moulded any pattern, $32; No. 1 and 2 Clear, 8, 10 or 12 in. Base, ¼ round or O. G., $30. In lengths of 12, 14, or 16 ft. Casings and Base ordered all of one of above lengths, $1.50 per M. extra. All Casing and Base, 1 in. in thickness. Odd thickness, $5 per M. more.

Ship Lap—8, 10 and 12 in. Common, $19; ⅝ x 8, 10 and 12 in. Common Fir Boards, S. 1 S. (Finished ½ in.) $15.

Flooring—No. 1, 1 x 4 or 6 in. Edge Grain, $32; Flat Grain, $27.50; No. 2, 1 x 4 in. Edge Grain, $29; 1 x 6 in. Edge Grain, $27; 2 or 6 in. Flat Grain, $25; No. 3, 4 or 6 in. Edge and Flat Grain mixed, $23. Flooring 18 feet long, $2.50 per M. extra. 1¼, 1½ and 2 in. Flooring, $1 more than 1 in. per M. Above in lengths of 12, 14 and 16 ft. Flooring ordered all one of above lengths, $1 per M extra.

Ceiling—No. 1, 1 x 4 or 6 in. Beaded or "V" Joint, $27; No. 2, $25; No. 3, $22.50; No. 1, ⅝ x 4 or 6 in. finished ⅛ in. thickness, $22 50; No. 2, $21; No. 3, $17. Above in lengths 12, 14 and 16 ft.

Siding — No. 1, 1 x 6, Drop Siding, $27; No. 2, $25; No. 3, $22.50. No. 1, ½ x 6 in. Bevel, $21; No. 2, $18.50.

Dimension, S. 1 S. and E.—2 x 4, 2 x 6 in. up to 32 ft. long, $22; 2 x 8, 2 x 10, 3 x 4, 3 x 6 in., up to 32 ft., $22.50; 2 x 12, 4 x 4, 4 x 6, 6 x 6 in. up to 12 x 12 in., up to 32 ft., $23.50; 2 x 14 in. to 3 x 14 in. up to 14 x 14 in., up to 32 ft., $24; 2 x 16 in. to 3 x 16 in. up to 16 x 16 in., up to 32 ft., $24.50; 2 x 18 in. to 3 x 18 in., up to 18 x 18 in., up to 32 ft., $25; 2 x 20 in. to 3 x 20 in. up to 20 x 20 in., up to 32 ft., $25. Above in lengths 33 to 40 ft. add $2 per M; 41 to 45 ft., $2.50; 46 to 50 ft., $3.25; 51 to 55 ft., $4 25; 56 to 60 ft., $5.50; 61 to 65 ft., $7; 66 to 70 ft., $9.

Lath—⅜ x 1⅜ x 4 ft., bundled in 50's, $3.50.

RED CEDAR.

Finish, S. 1 S. or S. 2 S.—No. 1 Clear—1 x 8 to 12 in., 10 12, 14 and 16 ft. long, $37; 1 x 14 to 18 in., $39.50; 1 x 20 to 24 in., $44.50. 1¼ and 1½ in. more than 1 in, $1 per M.; 1¾ and 2 in., $2; 3 in., $3; ½ x 8 in. to 12 in. less than 1 in., $5.00. Odd lengths 8 ft. to 24 ft., $2 per M. less; when widths are specified, $2.50 per M. more; when lengths are specified, $2.50.

Clear Squares—3 x 3 in. and 4 x 5 in, 7 to 16 ft., $38.50; 5 x 5 and 6 x 6 in., $40.50; 7 x 7 and 8 x 10 in., $42. When ordered all of one of above lengths, $5 per M. extra.

Siding—No. 1 Clear—1 x 6 in., 10, 12, 14 and 16 ft., $32.50; 1 x 6 in., 6, 7, 8 and 9 ft., $27.50; ½ x 6 in., 10, 12, 14 and 16 ft. Bundled, $20; ½ x 6 in., 6 to 8 ft., Bundled, $16. When ordered all of one of above lengths, $2.50 per M. extra.

Ceiling.—No. 1 Clear—1 x 3, 4 or 6 in., 10, 12, 14 or 16 ft., $35; 1 x 3, 4 or 6 in., 6, 7, 8 and 9 ft., $27,50; ⅝ x 3, 4 or 6 in., 10, 12, 14 and 16 ft., $30 (Finished ⅝ in. thickness.) ⅝ x 3, 4 or 6 in., 10, 12, 13 and 16 ft., $28 (Finished ½ in. thickness.) When ordered all one of above lengths, $2.50 per M. extra.

Casing and Base—No. 1--4, 5, 6 in. Casing, 10 to 16 ft., $47.50; 8, 10 and 12 in. Base, 10 to 16 ft., $47.50; 4, 5, 6 in. Casing, under 10 ft., $37.50; 8, 10, and 12 in. Base, under 10 ft., $3 .50. When ordered all of one of above lengths, $2 per M. extra.

Dimension—2 x 4 in. to 8 x 8 in. up to 32 ft., $22.50; No. 1 Common Boards, S. 1 S. to 13-16 in., $17.

Ship Lap—8, 10 and 12 in., $19.

Door Stock—Dressed two sides and cut to dimension, $32.50.

Lath—⅜ x 1⅜ in., 4 ft., $3.50.

Shingles—No. 1, $2.35; No. 2, $2; Dimension, $2.75; Dimension Band Sawn, $3.25.

THE LIVERPOOL MARKET.

Farnworth & Jardine's wood circular of 1st March reviews the Liverpool market as follows:

The arrivals from British North America during the past month have been 2,048 tons register, against 2,999 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1898, 1899, and 1900 has been 33,704, 26,448, and 28,605 tons respectively. The business of the past month has been on the whole fairly satisfactory. The arrivals generally have been moderate, the deliveries have more than kept pace, and stocks, with few exceptions, are light. There is little change in values to report, and the advanced prices are being fairly maintained.

CANADIAN WOODS.—Pine Timber—Of Waney the deliveries have been small, but the stock has been reduced to a very moderate compass, and prices are firm; strong advance in prices is being quoted for next season's shipment. Square: There is only a limited enquiry, and the stock is sufficient. Red Pine: There has been rather more enquiry for large wood for future requirements; the stock is almost exhausted. Oak shows some improvement in value, and the deliveries have been fair, but the stock, although not heavy, appears to be sufficient for the present. Elm continues in good request at full prices, and the stock is very light. Ash: There is a moderate demand for large wood, values are steady; the stock is small. Pine Deals: There has been more enquiry and the deliveries have again been fairly satisfactory; values have improved. The stock is being reduced, but it is still heavy, however, largely composed of oddments. Red Pine Deals are in good demand at firm prices.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals show a decline on the same month last year, viz.:—1,070 standards, against 2,060 standards; the deliveries have been fair and the stocks are not too large. Prices continue steady, and more

SALE OF
Valuable Timber Limits
BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900
At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 212, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

JOHN HARRISON & SONS CO., LTD., OWEN Sound, Ont., offer the following specials: 5 cars No. 1 White Pine Lath and 6,000 Cedar Posts, 8, 9 and 12 feet long.

WANTED—Green Hard Maple Squares, 6½ in. x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario and Quebec. Box 24, CANADA LUMBERMAN.

WANTED—25 M FEET B.M; CLEAR STOCK, maple squares, 1" x 1" x 42"; must be free from knots, rot, heart, black marks, shake or check put up in bundles of 25 tied with lath yarn. Quote f.o.b shipping point. N. B. WILKES, Brantford, Canada.

CAN MAKE SHIPMENTS DIRECT FROM factories Will sell for cash or trade for equal value in any kind of Lumber, Lath or Shingles. Address, FRANK D. ROSS, 738 Trumbull Ave., Detroit Mich.

VALUABLE
TIMBER LIMIT
By Public Auction

At the Rotunda of the Board of Trade, Toronto, on

TUESDAY, APRIL 10,
at 2 p. m.

The undersigned has been instructed to offer for sale, at the above time and place, subject to the conditions which will be announced at the time of sale,

Timber Berth
TOWNSHIP OF MACKENZIE.

Being about 80 Square Miles.

This township is one of the best timbered berths in the province, is well watered, and easily operated. For further particulars, apply to the DELTA LUMBER COMPANY, Detroit, or to

PETER RYAN, Toronto.

AUCTION SALE

Important and Extensive Sale by Auction of

VALUABLE

Timber Berths, Etc.

On the Ottawa River and its tributaries in the Provinces of Quebec and Ontario; at the Rotunda of the Board of Trade, Toronto, at 2 p.m., TUESDAY, APRIL 10TH, 1900.

R. H. Klock & Co., of Klock, Ont., will offer for sale by public auction, at the above time and place, subject to the terms and conditions which will be announced at the time of sale, the following timber berths under license from the Crown; said licenses include the right to cut all timber on the berths subject to the regulations of the Crown Lands Department of the respective Provinces, namely:—

QUEBEC.

Kippewa Berth, 226½ miles, and composed of berths Nos. 176, 177, 444, 445, 446, 447. Block A—Quinze Berth, 61½ miles; No. 5 Range 1. Block A, Quinze Berth, 150 miles, composed of berths Nos. 5, 6, 7, range 3. All the above limits are in the Province of Quebec, as shown on the official map of that Province. North Temiscamingue, Indian Reserve, Province of Quebec. Area about 60 square miles, as shown on official map of the Province of Quebec and held under license from Dominion Government and subject to timber regulations of Department of Interior.

ONTARIO.

Deep River, 10½ miles, held under license 178, 1899-1900. Chalk River, 19 miles, held under license 177, 1899-1900. Rocky Farm, Ottawa River, 100 square miles, held under license 176, 1899-1900.

For further particulars apply to R. H. KLOCK & CO., Klock, Ont., and JOHN GRAY, Room 100, Canada Life Building, Toronto, Canada.

The King saw mill property at St. John, N.B., was offered for sale by auction recently, but was withdrawn at $13,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

Considering that there has been little spring weather to stimulate outdoor operations, the movement of lumber during the past week has been satisfactory. The outlook for export business is promising, but it cannot be said that the local trade is opening up very hopefully if we take as a criterion the building permits issued in the larger cities of Ontario. These show a falling off in comparison with the same period of last year. The cause of this is found in the increased cost of lumber and other building materials. This being the case, it is satisfactory to learn that lumber prices are not only maintaining their strength, but that in some instances slight advances have been made. In the Ottawa valley pine sidings are now quoted at from $35 to $43, and good strips from $27 to $30. Shipping cull stock has also advanced about one dollar per thousand. The quotation for box culls is $12 to $14, while mill culls are quoted from $12.50 to $16. It is a strange coincidence that the price of mill culls should be higher than that of box culls. There has been an exceptional demand in the Ottawa valley for both these grades, but particularly the former, and mill culls are being used by the box manufacturers where box culls were formerly employed. It is said that three inch mill culls which formerly brought about $7 per thousand are now being purchased, for delivery during the coming season, at $10. It is not expected, however, that these prices will rule throughout the entire season. Prices of dry lath are held as firmly as ever, although the quotation for lath to be cut this season is from $2 to $2.50 at the mill. But even this price is greatly in excess of the average quotation of last year. No changes have been made in hardwood quotations. Hemlock is selling moderately at satisfactory prices.

QUEBEC AND NEW BRUNSWICK.

There is still an abundance of snow in the eastern provinces to permit of logging operations, and it seems likely that most of the logs cut will reach the streams. Altogether, the outlook for the season's sawing operations is more favorable than it was one month ago. More than the usual quantity of lumber will be shipped to the United States, as it is understood that Boston dealers have already contracted for considerable stock. The demand for cedar shingles has fallen off lately. This has had an influence upon prices generally. Freight rates are a trifle easier. The rate from St. John to west coast of England is 50 shillings, Rosario $11 to $12, Buenos Ayres $10 to $11, and Barbados $6 to $6.50. Coastwise freights have declined to $3 to New York and $2.25 to Boston.

MANITOBA AND BRITISH COLUMBIA.

Manufacturers and dealers report a good enquiry for lumber, sales thus far being in advance of the business of last season. The movement of sashes, doors, etc., is very active for this season of the

year. A number of important buildings are projected in Winnipeg, and in the rural municipalites the outlook is favorable. In British Columbia the lumber business is fairly active. The mining industry is recovering and a good season is expected.

UNITED STATES.

There has been an increased movement of lumber during the past week, but as yet the spring demand has not presented itself. The feeling in the trade, however, is that there will be a considerable movement of stock upon the approach of spring. The manufacturing demand for lumber is still holding out, and heavy construction material is moving moderately. It is not expected that prices generally will advance, although on doors and mill work and white pine shop lumber it is predicted that there will be an advance within 30 days. Buffalo and Tonawanda dealers report a fair trade. The coarse stock has been nearly cleaned out of the market, and enquiries are becoming more numerous each day. Good lumber in all thicknesses is moving actively. Spruce is in a strong position, and the cut of the coming season will no doubt be restricted by the unfavorable weather of the past winter. Hardwoods remain unchanged.

FOREIGN.

No important change in the British market can be recorded. Buying is still quiet, while prices are maintaining their full strength. The reports of wood brokers give practically the same quotations as one month ago, although it can truly be said that pine and spruce, selling from the yards, is a little higher. For broad first quality Quebec pine deals as high as £28 per standard has been paid, and indications point to even higher values. In Norway and Sweden the winter has not been favorable for logging, fewer logs than usual have been taken out, and a restricted cut of lumber this year is expected. So it seems that nearly all the wood producing countries will be short in export stock, as the home consumption is naturally catered to first. Prices of Baltic woods are so high that it is assisting the sale of spruce. A large quantity is reported to have been sold for delivery to a port on the north-east coast of England at an average of £8 10s. Auction sale prices have also kept up well. The Hawkesbury winter cut of pine, ex "Ramillies," sold at a recent sale, brought £25 per standard, second quality £18 15s, and the fourths broad £8 15s. It is said, however, that the stock was by no means a good sample of the production, otherwise higher values would have ruled. Red pine, mostly odd sizes, realized £11 5s for 2x9, £9 15s for 3x7, £10 for 2x10, and £5 for 2x7 unassorted. Square timber is moving moderately. Some birch logs from St. John, N. B., have been sold wholesale at 18d to 18½d per foot for 14 inch average. For current prices the reader is referred to a report in another column.

NEW BRUNSWICK CEDAR SHINGLES.

There is beginning to be considerable inquiry for shingles, and quite a few orders are being placed. Weather conditions are decidedly against any pronounced demand as yet, however, March having been exceptionally cold and stormy. Prices seem to be a shade weaker as a logical result. Extras are offered at $3 to $3.15, and clears at $2.60 to $2.75, the bulk of the sales being made at the lower figures. All lower grades are holding their own extremely well. At present writing the prospects for speculative house-building in New England this season are not all that was expected earlier in the year. The trade generally, however, are hoping for a different appearance of things within another month and with the opening of spring.

STOCKS AND PRICES.

Walter & Humberstone, of Strathcona, N. W. T., will this year cut 3,000,000 feet of lumber.

Boyd Bros., of Flesherton, Ont., are taking out a considerable quantity of square timber.

The Morris, Field, Rogers Co., of Listowel, Ont., are in the market for one inch basswood lumber.

The Sheppard Lumber Co., of Maple Lake, Ont., have about 1,000,000 feet of logs yet to draw to the water.

The ship Errol sailed from the Hastings mill, Vancouver, B. C., last week for Plymouth, England, with over 1,000,000 feet of lumber.

The steamer Briardene is loading 1,800,000 feet of deals for Glasgow, Scotland, on acconnt of Alfred Dickie, of Lower Stewiacke, N. S.

It is estimated that the cut of C. T. White at Sussex, N. B., will amount to nearly 9,000,000 feet, one-third of which is now ready for shipment.

The city of Winnipeg desires tenders by April 11th for the annual supply of lumber. Particulars may be obtained from C. J. Brown, city clerk.

George E. Jackson, of Buffalo, has sold 35,000 feet of pine for the new elevator to be built at Quebec by Chapman & Co., of Buffalo. The order was filled from the Ottawa valley.

It is announced that the greatest norway pine producing point in the United States, Ashland and vicinity, will turn out probably 35 per cent. less than its normal output of pine, though increasing its aggregate lumber output by probably 25 per cent.

The tender of the McArthur Bros. Co., of Quebec, has been again accepted by the Admiralty authorities of London, Eng., for timber. Foy, Morgan & Co. are the brokers, and H. C. Walcot, of 17 Gracechurch street, E. C., is agent for the shippers.

The Michigan Hardwood Lumber Association, at a meeting held at Traverse City on March 8th, decided upon the following prices for hemlock lumber: Short piece stuff, $10.50; piece stuff 18 and 20 feet long, $11.50; boards $12; 6 and 8 feet merchantable, $8; culls, short $6, long $6.50; boards $6; hemlock bark, $6.75 f. o. b. rail or vessel.

D. E. Sprague, of Winnipeg, has presented a claim to the city council for $696.30, being a charge of $2 on 348,015 feet of lumber delivered in excess of contract. The charge is based on the advance in price of lumber since the contract was entered into, the price at that time being $19, as against $21 at present.

CONDITIONS IN AUSTRALIA.

The monthly timber report of Fraser & Co., Melbourne, thus reviews the Australian market:

The market has been active during the past few weeks, buyers recognizing the necessity of entering more fully into stocks, evidently having taken into consideration the increasing c.i.f. values shown from almost every source of supply from which we obtain our requirements. The mills abroad appear to have large orders on hand for many parts of the world, and as tonnage is not very plentiful at the present time, it is quite likely that we shall see higher rather than lower rates ruling during the greater portion of the present year. Up to now, our market has not responded in regard to values as well as might have been anticipated, for, although in some classes of importation better rates have been manifested, prices for other and more important descriptions have remained stationary, while even slightly lower figures have been accepted than when we issued our last report on the 15th ult. We are, however, of the opinion that the next few months will show some improvement in values generally, for there is no indication of a decline in shipping costs in the near future, while it is quite possible higher prices will be required, and it will be found necessary to bring local rates more in touch with the increased laid-down prices as soon as these are shown. F.o.b. and freight quotations for shipments recently fixed are upon a higher basis than those supplies now on the water, and when the former are being operated upon, the necessity for securing better rates will doubtless be duly reeognised by both sellers and buyers.

OREGON PINE—Imports: 2,191,527 feet super. Arrivals: Oregon and Big Bonanza, from Puget Sound. These cargoes have been fairly well dealt in. Late values have scarcely been maintained, as a considerable quantity was disposed of at £6 5s. The balance of sales was effected at £6 10s, at which figure the market closes firm, as a demand for export to the Sydney market has lately been experienced, and a good quantity has been placed for that port. Further sales to there are anticipated shortly.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

19. A merchant in Cape Town asks to be referred to Canadian exporters of timber, cereals, dairy produce, etc.

20. Enquiry has been received from a Glasgow firm for names of producers or exporters of wood meal (wood powder) from Canada.

21. A large furniture firm at Antwerp importing different kinds of hardwood lumber would like to be placed in communication with a Canadian house.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

PRICES AT GLASGOW.

This year has opened very quietly in the timber trade, and though there is now more activity than in January, still buying is not at all on a large scale, which is no doubt explained by the high prices ruling, buyers seeming to be afraid to commit themselves too far. However, this fear seems to be wearing off, and buyers are now more inclined to accept the fact that high prices are going to be the rule this year. Deliveries from the yards are fairly satisfactory, and there is every evidence of the market being in a healthy condition. Quebec shippers are on the spot fixing up contracts for next season's delivery, and a fair amount of business has been done at high prices, it is reported. This is the review of the Glasgow market offered by Messrs. Edmiston & Mitchells, who say regarding prices:

WANEV BOARDWOOD—Only a few unimportant sales have been made during the past month, at prices round about 2s 9d per cubic foot for 70-feet average. In second-class boardwood there have been a fair number of sales, at from 1s 7d to 2s, according to size and quality.

RED PINE—There is practically nothing doing, and prices, which are only nominal, are about 1s 10d to 1s 11d for 45-feet average. The stock is quite ample for all likely requirements for some time to come.

OAK—A small order for about 5000 cubic feet was placed by one of the railway companies during the month, but price has not transpired. Values range from about 2s 7d to 3s 4d per cubic foot, according to size and quality.

ELM—A number of sales are reported at prices ranging from about 2s 9d to 2s 10d for 45 and 50-feet average. The quantity in stock is not large and is very firmly held.

BIRCH—A few sales have been made during the past month at prices ranging from 1s 7d for 15-inch up to 2s for 17½-inch. The stock of Quebec timber on hand is now reduced to a very small compass. The demand is fair. In Lower Port birch there have been several sales made at about 17d to 18d per cubic foot on a basis of 15-inch, and the stock is now considerably reduced. Planks have been done at from £8 5s to £9 "ex quay."

ASH—The stock on hand is unusally low for this time of year, and, consequently there are no sales of importance to record. Value of 14½-inch is about 1s 11d to 2s, and 15-inch 2s to to 2s 1d. There is a moderate demand only.

DEALS—A satisfactory business has been done during the month, and deliveries from the various stores have been considerable. Stocks of first, second, and third pine deals in first hands are practically exhausted, and prices for all kinds are firm and likely to harden. Current values are as follows: First Pine Deals—Broads, £25, to £28 per standard; 11-inch, £23 to £24 10s; ends and non-dimensions, £17 to £22. Second Pine Deals—11-inch and up, £17 to £20; non-dimensions, £13 to £15. Third Pine Deals—11-inch and up, £11 10s to £13; narrows, £8 5s to £9 10s; ends, £7 10s to £8 10s. Fourth Pine Deals—11-inch and up, £8 5s to £9; narrows, £7 10s to £8.

RED PINE DEALS—9 to 11-inch by 3 and 4 inch, £12 10s to £14 10s; narrows, £10 to £12.

FIRST QUALITY PINE SIDINGS—8 to 9 inch average, £17 5s to £18 10s; 10 to 11 inch average, £18 10s to £21 10s; 12 to 13 inch average, £22 to £24.

SPRUCE DEALS—7 to 8 inch, £7 10s to £8 5s; 9 to 11 inch, £8 10s to £9 5s.

THE BARBADOS MARKET.

Of the Barbados lumber market Messrs. S. P. Musson, Son & Co., in their circular of March 3rd, say:

We have had the "Mercedese" from Belliveau Cove, N. S., with 165 M. ft. spruce, which we placed at $20.50 for shipping, $18.55 for plank and $15 for second quality. The market is bare and next receipt will probably fetch similar rate. We continue our valuation of $23 or thereabouts for first arrival of white pine. Shingles—A lot of 275 M. laying cedar, ex "Tiber," has been sold mainly for export at $2.20 to $2.25. In pitch pine there has been three arrivals; two ordered cargoes, and we have had the "Wm. F. Campbell," from Wilmington, N. C., with 150 M. ft., and have placed same at $26, $20 and $18 for 1st, 2nd and 3rd quality, respectively.

Since compiling the above, the "Gabrielle" has arrived from Portland, to our address, with 7,438 bdls. shooks.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The lumber business in Ottawa at present is almost at a standstill. Scarcely any shipping is being done, but extensive operations in this direction will be resumed before the end of the month. Shippers have been notified that navigation will open on the Hudson on the 26th inst., and the large stock that has been wintered over in Otttawa will then be rushed by rail and water to New York, Albany and other points for distribution by the American owners.

Operations on the limits are being carried forward satisfactorily, and the mill men have recovered most of the ground lost by the unfavorable weather of the early winter months. A feature of the work on the limits this season is the fact that some of the small mill owners are cutting hardwoods instead of pine as heretofore. This is to accommodate the increased

demand for hardwoods coming from the American buyers.

Although the supply of pine logs will be a fairly good one, the cut at the mills promises to be considerably below the average. This is particularly true in the case of deals, which in former seasons have been cut in large quantities for the English market. The explanation of this change of front is seen in the increased and higher prices ruling in the American market for board lumber, and more particularly the common grades. The mill owners, taking advantarge of this, are bidding for the trade, believing that it is going to be anything but a short lived one. However, though prices have advanced materially, lumbermen state that as wages and the cost of supplies have aided in increasing the cost of manufacture, their profit will not be as great as would appear at first sight.

Almost all the Ottawa mill owners have sold their coming summer's cut. A conservative figure given by a leading lumberman shows the advance on last season's contract price to range from 16 to 20 per cent. W.C. Edwards & Co. have closed with Watson & Todd, of Liverpool, Eng.; the Hull Lumber Co. have also made a deal with the same firm. J. R. Booth has made satisfactory arrangements with Robert Cox & Co. and Bristol & Co.; and the McLaren mills, of Buckingham, Que., will cater to the first mentioned firm, Robert Cox & Co. The Hawkesbury Lumber Co. have contracted with W. & J. Sharples, of Quebec, and Gilmour & Hughson, as previously annnounced, have closed with a leading American firm.

Prices in the Ottawa market continue to show a steady advance all round. Pine sidings are now bringing as high as $42 per M, and good strips $30. Mill culls have advanced to $16 and box culls to $14 per M. There is no lath in the market, and buyers are waiting anxiously for the new cut, part of which is already being contracted for at $2 to $2.50. It is expected, however, that this figure will be reduced as the season advances, though other lumber lines promise to hold firm in price.

Davidson & Thackery, proprietors of Ottawa's leading sash and door factory, intend erecting a new saw mill on their limits on the Coulonge river next season. The mill will give employment to 75 men, and will have an output of 8,000,000 feet a season. This lumber will be used in the firm's large factory in Ottawa, where over 100 hands are employed. The mill will be built on the Coulonge near the junction with the Ottawa river, and about a mile from the village of Fort Coulonge. Back of this point the firm has limits 75 square miles in area, which, though already partly worked over, will yield large quantities of first class lumber.

The retail lumber dealers of Ottawa complain that the high price of lumber and other building material has put a damper on their prospects. Very little building will be done in Ottawa this season, though had prices remained normal a fair sized boom would have been experienced.

Ottawa mill owners and lumber dealers look for the termination of the war in South Africa to open up a new market there. It is expected that lumber shipments to Australia, particularly in the manufactured lines, will also increase.

All of Eddy & Co.'s machinery will, before the close of the year, be operated by electricity, power being secured from the Conroy Milling Co., whose lumber and grist mills are situated on the Ottawa river about three miles above the Eddy establishments. Construction work is now being carried on, and it is expected fully 8,000 h.p. will be supplied by the increased water power.

Bronson & Weston's large saw mill, which was shut down last season to permit of the erection of a large calcium carbide factory, will not resume operations this season at least. The firm owns extensive limits, and hence it is thought the Ottawa mill will be fitted out with new machinery and cutting operations resumed. The calcium carbide works will be opened in about two months. They will have an initial capacity of 15 tons and will give employment to about 70 men working night and day.

A second son of Mr. John Gilmour, of the well known lumber firm of Gilmour & Hughson, Ottawa, has gone to the war, enlisting in Strathcona's Horse. No less than four representatives of the Cameron family, also well known in the lumber business, have enlisted in two different contingents.

OTTAWA, March 19th, 1900.

SALE OF

Valuable Timber Limits

BY PUBLIC AUCTION

AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900

At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 213, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson, there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 16, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

JOHN HARRISON & SONS CO., LTD., OWEN Sound, Ont., offer the following specials: 5 cars No. 1 White Pine Lath and 6,000 Cedar Posts, 8, 9 and 12 feet long.

WANTED—Green Hard Maple Squares, 6½ in. x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario and Quebec. BOX 24, CANADA LUMBERMAN.

Wednesday, April 18th

at 2.30 p.m.

Terms:—Half cash at the time of sale, and the balance in six months, with interest at six per cent.

Berths 125 and 132 are excellent Pine Limits, and are also heavily timbered with other valuable woods.

Berth 124 has been cut over, but has considerable Pine and a large quantity of other standing timber.

PETER RYAN,
Toronto.

AUCTION SALE

Important and Extensive Sale by Auction of

VALUABLE

Timber Berths, Etc.

On the Ottawa River and its tributaries in the Provinces of Quebec and Ontario; at the Rotunda of the Board of Trade, Toronto, at 2 p.m., TUESDAY, APRIL 10TH, 1900.

R. H. Klock & Co., of Klock, Ont., will offer for sale by public auction, at the above time and place, subject to the terms and conditions which will be announced at the time of sale, the following timber berths under license from the Crown; said licenses include the right to cut all timber on the berths subject to the regulations of the Crown Lands Department of the respective Provinces, namely:—

QUEBEC.

Kippewa Berth, 226½ miles, and composed of berths Nos. 176, 177, 444, 445, 446, 447. Block A—Quinze Berth, 61½ miles; No. 5 Range 1. Block A, Quinze Berth, 150 miles, composed of berths Nos. 5, 6, 7, range 3. All the above limits are in the Province of Quebec, as shown on the official map of that Province. North Temiscamingue, Indian Reserve, Province of Quebec. Area about 60 square miles, as shown on official map of the Province of Quebec and held under license from Dominion Government and subject to timber regulations of Department of Interior.

ONTARIO.

Deep River, 10½ miles, held under license 178, 1899-1900. Chalk River, 19 miles, held under license 177, 1899-1900. Rocky Farm, Ottawa River, 100 square miles, held under license 176, 1899-1900.

For further particulars apply to R. H. KLOCK & CO., Klock, Ont., and JOHN GRAY, Room 100, Canada Life Building, Toronto, Canada.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

Valuable Timber Berth

BY AUCTION

TOWNSHIP 139, NORTH SHORE OF LAKE HURON

The undersigned has received instructions to offer for sale by auction, at the Rotunda of the Board of Trade, Toronto, on THURSDAY, MAY 3RD, 1900, immediately after the sale of Cook and Brothers' limits,

Timber Berth 139, north shore of Lake Huron (being 36 square miles, more or less).

For terms and conditions of sale, and for all particulars, apply to Geo. H. Perley, Ottawa.

PETER RYAN,
Toronto.

VALUABLE

TIMBER LIMIT

By Public Auction

At the Rotunda of the Board of Trade, Toronto, on

TUESDAY, APRIL 10,

at 2 p. m.

The undersigned has been instructed to offer for sale, at the above time and place, subject to the conditions which will be announced at the time of sale,

Timber Berth

TOWNSHIP OF MACKENZIE.

Being about 80 Square Miles.

This township is one of the best timbered berths in the province, is well watered, and easily operated. For further particulars, apply to the DELTA LUMBER COMPANY, Detroit, or to

PETER RYAN, Toronto.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

22. Broom handles, hoe handles, and shovel handles are required, basswood, and white pine. Canadian shippers are requested to quote prices per car-load.

23. Enquiry has been again made respecting the demand for hop poles from the Maritime Provinces of Canada.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

It is understood that John McConnell, of Marysville, N.B., has purchased the King saw mill property at Kingsville for $14,000, and that the mill will be operated this season.

CURRENT TRADE CONDITIONS.

ONTARIO.

The weather of the month of March has been greatly in favor of the lumbermen, logging operations having been continued almost incessantly. This has somewhat augmented the prospective log crop, and it is probable that the logs left in the woods will after all represent but a small proportion of the total production. Everything points to an unusually active sawing season in the Georgian Bay district and an average season in the Ottawa Valley. The present outlook is that lumber prices will remain at the current basis until the rush of spring trade shall cease; after that lower prices may reasonably be expected. One feature which will tend to maintain the strength of the market is the almost certainty of an unprecedented firmness in vessel rates. Charters are now being made on the basis of $3 per thousand feet from Duluth to Buffalo. There is understood to be a decided shortage in lumber tonnage. A result of this may be that buyers in the Eastern States will endeavor to increase their purchases of lumber in Canada, and particularly at points where they may secure favorable rail rates.

The spring trade is opening up slowly, but a week or two of good weather would stimulate buying, as there are a number of enquiries in the market. It seems probable that the consumption of lumber in building operations will be less than last year, but this may be offset by an increased demand for lumber for manufacturing purposes. The quotations on pine lumber remain unchanged. In our hardwood price list black ash, thick basswood and oak have been advanced by about one dollar per thousand.

QUEBEC AND NEW BRUNSWICK.

There has been a considerable movement of lumber in Montreal during the past week, and the outlook for spring trade is regarded as favorable. The proposed harbor improvements and grain elevators will require a large quantity of timber. The contract for piles and lumber for the elevator to be built by the Conners Syndicate will shortly be awarded, and local dealers are looking forward to the result with some interest. Architects report a fair amount of building in sight in Montreal and Quebec.

The event of the past week in respect to the market has been the formation of an association of shingle manufacturers of the provinces of Quebec and New Brunswick and the State of Maine. This association

decided that in future the commission to be allowed wholesale commission dealers shall be five per cent. of the net amount of sales, instead of on the gross amount as in the past. It has also been decided to advance the price of shingles to the following figures: Extras, $3.25; Clears, $2.85; Second Clears, $2.35; Clear Whites, $2.25; Extra No. 1, $2.85. These prices are to take effect on April 1st, and are based on Boston rate of freights.

UNITED STATES.

The lumber market of the United States has developed a slight weakness during the past week. From nearly all the markets comes the report that prices of piece stuff are being shaded a little, while at Duluth No. 3 boards are somewhat easier. It is also stated that in the Chicago market long wide joists are not bringing as high prices as one month ago. The lack of yard demand is responsible for this easing off in prices. Retail dealers, fearing that the high prices may retard building operations, are stocking up very cautiously. While yard trade is quiet, the demand from manufacturing sources is quite heavy, and promises to be a strong factor in the situation throughout the season. Orders for box lumber continue to be refused on account of a shortage in the supply. At Saginaw there is a scarcity of Norway pine, which is held at from $14 to $14.50, and log run pine is quoted at from $18 upwards. Buffalo dealers report numerous enquiries for stock from the east, but these enquiries are rarely followed by orders. This seems to indicate that the eastern buyers are still expecting a drop in prices. Owing to the high price of pine there has been a considerable sale of spruce at Buffalo at from $20 to $22. Hardwood lumber is selling moderately. In New York ash ranges from $42 to $45. There is likely to be a large production of maple in Michigan this season, and some predict considerably lower prices for this class of lumber. Lath prices are holding up well for this season of the year. At Saginaw the quotation is $4 to $4.50 on cars. White pine shingles are moving rather slowly, but dealers anticipate a short supply, as, owing the high price of box and mill culls, it is said that some manufacturers will not operate their shingle mills this season.

FOREIGN.

A slight feeling of uneasiness exists in Great Britain in regard to the timber market. It is now admitted that the enhanced cost of building materials will restrict building operations to some extent, with a consequent falling off in the demand for lumber. The present high prices ruling for new goods are the main support of the spot market. In Canadian pine there seems to have been some improvement of late. Buyers have become convinced of the shortage of the winter-ng stock on this side, and also of the fact that several important mill cuts which have for some years past been marketed in Great Britain will this season go to the United States. The outlook for third and fourth quality pine is said to be better than for the higher qualities, as the prices for the latter have been affected by competition from American whitewood. Firmness characterizes the spruce market. Contracts have been made for 3x9 spruce in second and third qualities for delivery at London about midsummer at £8 15s and £8 7s 6d, while shippers are said to have sold nearly all their 3x11 stock. The spruce deals per winter liners from St. John and Halifax have been sold at £7 15s to £7 17s 6d. In square timber the greatest activity pretains to elm and birch. First class elm timber is selling at from 2s 10d to 3s per cubic foot, and small average in second class wood at 2s 3d. Birch timber is quoted at from 1s 7d to 2s 1d per cubic foot.

NEW BRUNSWICK CEDAR SHINGLES.

The past week has witnessed a marked increase in the number of inquiries for cedar shingles made by the retail dealers, and has also seen a decided stiffening among the manufacturers. All shingles are in scant supply, and with a reasonable demand prices must be forced higher. Probably the following quotations will represent about the average figure being asked to-day: Extras, $3.15; clears, $2.75; 2nd clears and whites, $2.15 to $2.25, all delivered Boston freight rates. Manufacturers are now allowing the commission trade five per cent. on the net instead of the gross value of shipments.

STOCKS AND PRICES.

The city of Quebec is taking tenders for the annual supply of deals, lumber, etc.

The city of Kingston has accepted the tender of the Rathbun Co. for the supply of lumber, at $16.85 per thousand.

Pitts & Co., of Bay City, have purchased 8,000,000 feet of Canadian logs from Booth & Co. They were cut on Indian reserve lands and will be rafted to Bay City or Saginaw.

J.W. Munro & Son are reported to have sold to W. &. J. Sharples, of Quebec, all their waney and square timber made this season in the townships of Widdifield, Nairn and McKinnon.

It is reported that Dickie & McGrath, of Tusket, N. S., have cut 12,000,000 feet of lumber during the past winter. They have fourteen vessels chartered for the summer, two of which will carry lumber to South America. They are said to have an order from Bordeaux parties for 5,000,000 feet.

At Saginaw cedar telegraph and telephone poles have advanced 20 per cent. in the last ten days: 25-foot poles, 5 inches at top, are quoted at 85 cents on car, and six inches at top at $1.10; 30-foot poles, six inches at the top, are worth $1.25. Oak ties are quoted at 45 cents and cedar at 38 cents. Four X cedar shingles are quoted at $3 and clear butts at $2.

It is learned that in the Eastern Crown Timber Agency of Algoma the sawlog output will be about 90,000,000 feet. In addition, there will be taken out about 170,000 cubic feet of square timber and from six to eight thousand cords of spruce pulp wood. Of the above amounts 38,000,000 feet of logs and the square timber will be rafted from the north shore of the Georgian Bay, between Beaverstone on the east and Lacloche village on the west, and 52,000,000 feet, together with the pulp wood, will be assorted and rafted from the Spanish boom at the mouth of the Spanish River. There will be assorted at this latter point probably between one hundred and one hundred and twenty-five million feet.

CANADIAN SPRUCE AND PINE.

The following remarks, bearing upon the market for spruce and pine deals, are reprinted from the Timber Trades Journal, of London, Eng.:

SPRUCE.—The spruce market is particularly firm; we learn that shippers have sold all their 3x11 for the season at £2 per standard advance, and we believe under surrounding conditions and the great demand for 11 in., that shippers could have got even more. All other sizes have likewise been going well, and from the latest reports the sales have been effected right up to the end of the season; in fact, from what we understand, nobody could contract for spruce to-day unless it was for the whole of the season's shipment, which, to our mind, is a strong insurance of a solid market for the whole of the year. The government demand is one reason for this, and even should the South African war terminate earlier than expected, it will make no difference to the demand, which will continue on the same extensive scale, as stores, ammunition, etc., must be shipped to the Cape and Natal for months to come.

PINE.—Pine is gradually moving up; it has taken time to convince the buyers here of the shortage of the wintering stock on the other sides, and now as it is an assured fact that the whole of Gilmour's new cut has been sold to the United States, it makes the market stronger than ever. As to first pine regulars, we think the prices that the shippers are asking are really dangerous, considering that American whitewood is now a strong competitor with Canadian pine, and can be bought at very much less prices. Second quality pine regulars are undoubtedly very scarce, but at the prices we hear that they have been sold to arrive there will be a great difficulty experienced in getting a profit for the same reason, viz., the competition with American whitewood. Coming to third and fourth quality pine of the orthodox dimensions, the question is a different one altogether; the prices obtained for wintering stock, which are from £2 to £2 10s per standard more than last year, the market can afford to pay, as although American whitewood may be in competition with first and second pine, it cannot compete with the lower qualities, which even at the advance stated are much the cheaper, these commoner qualities being largely in use for cabinet purposes, where anything of a sound nature will do, knots not being taken into account. We consider, therefore, that the prices of third and fourth quality pine regulars will keep up, at any rate throughout the present year.

THE BOSTON MARKET.

(Correspondence of the CANADA LUMBERMAN.)

The spruce lumber market is fairly steady, though it is in the midst of the quiet season. Something is doing in the way of house frame orders, but not much yet. The mills are generally pretty firm. One of the principal manufacturers of spruce lumber on the Kennebec writes his agents here that he has all the business he can attend to and at full prices, and will not book any business ahead except at full prices. Still the general belief here is that there will be lumber enough as soon as the mills get started. Spruce is steady at agreement prices:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 2 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	17 00
Out boards planed one side	14.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.50 to $15.00
Spruce flooring	20.00 to 23.00

Western pine is in steady request for the season, with prices firm:

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 72.00
Selects, 1 to 4 in	53.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	28.00 " 32.00
Coffin boards	26.00 " 28.00

Clapboards continue very quiet. Reports from manufacturers state that clapboards have not advanced along with other lumber, and declare that they shall hold for stronger prices:

Spruce, extra	$29.00 to $30.00
Spruce, clear	27.00 " 28.00
Spruce, 2nd clear	23.00 " 25.00
Pine, extra	40.00 to $45.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42 50 " 45.00
Second grade	40.00 " 42.00

Shingles are in fair request, but it is suggested that the market may be shaded a little:

Extra cedar, best brands	$ $3.15
Clear cedar	2.65 to 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50
Oregon	2.50 " 3.50

Hemlock lumber continues scarce, with the market high and firm. Still trade is dull:

Matched hemlock boards	$20.00 to $22.00
Pennsylvania dimension	16.00 " 17.00
Eastern	15.00 " 16 00
with the usual advance for over 16 ft.	
Eastern boards	18.00 " 19.00
No. 1	15 50 " 16.50
Planed one side and matched	19.00 " 21.00
Pennsylvania boards, No. 1, 8, 0 and 12 in	20.00 " 21.00
No. 1, 10 feet	18.00
Planed and matched	20.00 " 21.00

Laths are quoted as follows: One and five-eighth inch, $3 to $3.10; 1½ inch. $2.80 to $2.90.

BOSTON, March 26th, 1900.

LUMEER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, are as follows: Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, 9½ cents per 100 lbs. Ottawa, Rockland and Hawkesbury to Montreal; 5 cents per 100 lbs.; Quebec, 10 cents per 100 lbs.; Arnprior to Montreal, 7 cents per 100 lbs.; Quebec, 12 cts.; Pembroke to Montreal, 8 cents per 100 lbs.; Quebec, 13 cents per 100 lbs.; Ottawa to New York, 15 cents per 100 lbs; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany. 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs.- artes quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft. Ottawa rates apply on shipments from Rockland and Hawkesbury.

POSTPONEMENT OF GOVERNMENT SALE.

The sale of timber limits advertised by the Quebec Government to take place on March 28th has been postponed to Wednesday, the 30th of May next. This step was considered advisable in order to enable intending purchasers to explore the limits.

SHIPPING MATTERS.

The Montreal Trade Bulletin reports that freight engagements for deals have been made by the regular steamship lines at 45s. to 47s. 6d. from Montreal to Liverpool and Glasgow, and 45s. to 50s. to London. Tramp steamers are not to be had at any price, as high as 60s being offered and refused.

The Timber Trades Journal reports the following charters: Boat, 1,450 standards, Halifax, N.S., to Liverpool, 51s. 3d.; steamer, 850 tons register, Dalhousie, N.B., to Gibralter, 50s; 520 tons register, St. John, N.B., to Galway, 57s. 5d.; 1,200 tons register, east coast of Nova Scotia to west coast of England, 50s.; steamer, Halifax to west coast of England, 51s. 3d.; 450 tons register, Shediac or Tormentine, N.B., to west coast of England, 57s. 6d.

The following charters are reported: Steamer Ardova, Halifax to Liverpool, deals, 51s. 6d.; bark Wildwood, Boston to Buenos Ayres, lumber, $9.50.; steamer Heldaswell, deals, from Montreal to United Kingdom, 51s., two trips.; a British steamer, Montreal to United Kingdom, deals, 50s., three trips.; barks Olive Mount and Merinda, Dalhousie to Barcelona, deals, 60s.; Francesco R, St. John to Cork, deals, 55s.; steamer Matinea, St. John to Limerick, deals, 53.9d.; a steamer, August loading at St. John, for w.c.E., deals, 49s.

S. M. Breed & Co., lumber dealers, Lynn, Mass., are reported to have gone into bankruptcy. The liabilities are given as $426,000.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., APRIL 4, 1900 No. 11.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

I HAVE A FEW THOUSAND FEET OF BASSwood Heading for sale yet, 17½ No. 2 last season's make, which I will dispose of at reasonable figures to make room for this season's cut. Apply to GEO. M. EVEREST, Arkona Heading & Basket Factory.

Valuable Timber Berth
BY AUCTION

TOWNSHIP 139, NORTH SHORE OF LAKE HURON

The undersigned has received instructions to offer for sale by auction, at the Rotunda of the Board of Trade, Toronto, on THURSDAY, MAY 3RD, 1900, immediately after the sale of Cook and Brothers' limits,

Timber Berth 139 north shore of Lake Huron (being 36 square miles, more or less).

For terms and conditions of sale, and for all particulars, apply to Geo. H. Perley, Ottawa.

PETER RYAN,
Toront

SALE OF
Valuable Timber Limits
BY PUBLIC AUCTION
AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900
At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 212, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 17, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 6, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

JOHN HARRISON & SONS CO., LTD., OWEN Sound, Ont., offer the following specials: 5 cars No. 1 White Pine Lath and 6,000 Cedar Posts, 8, 9 and 12 feet long.

WANTED—Green Hard Maple Squares, 6½ in. x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario and Quebec. Box 24, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE CHEAP.

ONE CAR 1¼ INCH CULL MAPLE, ONE car mixed 1½ inch cull Maple, Beech and Birch. REID BROS, Hepworth Station.

AUCTION SALE
OF
Timber Berths

Nos. 124, 125 and 132 (36 square miles each), North Shore of Lake Huron, Province of Ontario.

I have been instructed to offer for sale by auction the above Timber Berths, in single berths, at the Rotunda of the Board of Trade, Toronto, on

Wednesday, April 18th
at 2.30 p.m.

Terms:—Half cash at the time of sale, and the balance in six months, with interest at six per cent.

Berths 125 and 132 are excellent Pine Limits, and are also heavily timbered with other valuable woods.

Berth 124 has been cut over, but has considerable Pine and a large quantity of other standing timber.

PETER RYAN,
Toronto.

VALUABLE
TIMBER LIMIT

By Public Auction

At the Rotunda of the Board of Trade, Toronto, on

TUESDAY, APRIL 10,
at 2 p. m.

The undersigned has been instructed to offer for sale, at the above time and place, subject to the conditions which will be announced at the time of sale,

Timber Berth
TOWNSHIP OF MCKENZIE
Being about 80 Square Miles.

This township is one of the best timbered berths in the province, is well watered, and easily operated. For further particulars, apply to the DELTA LUMBER COMPANY, Detroit, or to

PETER RYAN, Toronto.

WANTED—A Competent Sawyer, Filer, and Saw Hammerer; constant employment. JAMES RITCHEY, Makinak, Manitoba.

MILL TO HIRE.

NEW 30 M PER DAY CAPACITY PORTABLE saw mill; will contract to saw from 2 to 5 millions lumber. Address, J. G. ELDERKIN, Port Greville, N. S.

WANTED.

ENGAGEMENT TO REPRESENT IN AUSTralia or Africa responsible lumber shipper, by a reliable and experienced man; age 44. Address, "LUMBERMAN," Box 12, Kaslo, B.C.

FOR SALE.

200 ACRES HARDWOOD BUSH, EXCEPtionally heavy timbered. Close to lake. If not sold, would give job of sawing to practical mill man, with good portable mill. Apply, Box 876, Owen Sound, Ont.

PROVINCE OF QUEBEC.

DEPARTMENT OF LANDS, FORESTS AND FISHERIES.

WOODS AND FORESTS.

QUEBEC, 23rd March, 1900.

Notice is hereby given that the sale of timber limits advertised to take place on 28th March instant, has been postponed to Wednesday, the 30th May next.

S. N. PARENT,
Commissioner of Lands, Forests and Fisheries.

BUILT-UP LUMBER WANTED.

A British firm desires to import from Canada large quantities of three-ply lumber, made in thicknesses of about one-eighth of an inch. It should be of birch or basswood, and must be reasonable in price. Manufacturers will be furnished with the address of this firm upon request.

CURRENT TRADE CONDITIONS.

ONTARIO.

The logging season being now closed, various estimates have been made of the quantity of logs that has reached the streams. An official estimate, given by the Crown Lands Department, places the quantity at 800,000,000 feet, which is probably not far from the mark. March was an exceptionally favorable month for logging, and consequently many more logs were banked than was anticipated earlier in the winter. Reference to the log and lumber production will be found in another column. It is now certain that the cut of lumber in Ontario this year will be very large, but it is encouraging to learn that the greater portion of the production has already been contracted for at prices which will have a tendency to maintain the strength of the market. Prices of low grade stock are held firmly by manufacturers, and this notwithstanding that the percentage of low grade lumber manufactured this season promises to be large. While a drop in the price of box and mill cull stock is almost a foregone conclusion, it is not expected that this will occur before midsummer at least. This is substantiated by the fact that manufacturers are not disposed to take a large contract for mill culls at the present prices, having no doubt as to their ability to dispose of the stock, and preferring to wait until they are certain as to what quantity they will have to offer. Prices of hardwood lumber are showing signs of weakness. Log run maple, dry, is being offered at $12 at the mill, and black ash at $15.50. Dealers are buying sparingly in the hope of being able to arrange better terms later in the season, and relying upon the large cut of logs as their salvation.

QUEBEC AND NEW BRUNSWICK.

The only change in the timber market is a greater enquiry for birch square timber. It is probable that this stock will command considerably higher prices before the seasen closes. Some purchases of square and waney pine have been made at current quotations. In lumber there has been an average movement for local consumption and for export to the United States and Great Britain. Manufacturers have shown no weakening in their asking prices, believing that the market will consume the entire production; in fact, the bulk of the season's cut has already been contracted for. Freight rates are very high, vessel owners asking $3 on lumber to Boston, while the rate on lightering deals to West Bay has gone up to 10 cents per thousand. Shippers are experiencing difficulty in obtaining sufficient cars to move their stock, and it is said that there are hundreds of cars loaded with lumber at St. John and Halifax waiting for steamers.

MANITOBA AND BRITISH COLUMBIA.

The spring movement of lumber has been rather slow in commencing, but manufacturers and dealers are satisfied that the season will be an active one. In the city of Winnipeg a number of important buildings are projected. Prices are unchanged, although an advance of from 25 to 50 cents is expected in the price of British Columbia lath, for which there has been an increased demand of late. Cedar shingles are firm at $2.35 delivered at 50 cents freight rate points in Manitoba. The mills in British Columbia are unusually busy. Export trade is being interfered with by the lack of lumber tonnage. Rates have advanced about 1s 3d all round over last month's figures.

UNITED STATES.

Spring trade in the United States has been somewhat backward, and lumber manufacturers and wholesalers are showing a slight weakness in respect to prices. Concessions are made in some lines, chiefly piece stuff, but it is not expected that there will be any serious break in prices generally. There is a decided shortage in the supply of common inch, which is high in price, and which is likely to be produced this season in a greater quantity than usual. Buffalo dealers report very little trade in pine, the east still holding off. The scarcity of white pine box and cutting up lumber is such that

even if the demand should fall off to some extent, prices are not likely to weaken. The spruce market has strengthened, owing to the general belief that the cut will fall considerably short of the usual production. In New York city orders are being taken for future delivery at $22.50 for merchantable spruce. Lath and shingles have not changed. In Chicago dry white pine lath is selling on a $4.50 basis, but it is not to be expected that this price will hold out throughout the season.

The slow movement of all sorts of lumber eastward is having its effect upon hardwood prices, and the trade are beginning to fear a considerable reduction in values when the sawing season is in full swing. At Boston one inch elm brings $32, and three inch $34 to $36; maple, one inch, $28 to $29, one and one-quarter inch $29, one and one-half inch $30, two inch $31, three inch $34, and four inch $36; white ash, one-inch $46 to $48, one and one-quarter to one and one-half inch $50, two inch $52 to $54, and three inch $60.

FOREIGN.

The only unfavorable factor in the British market is the decreased consumption. In other respects the outlook for the season's trade is hopeful, and prices are maintaining their strength. At a recent auction sale first quality pine, 3 x 11 x 12, sold at £24. Third regulars brought £10 5s to £10 10s, and second quality spruce £10 5s. Considerable spruce has been sold to east coast buyers, where it is competing favorably with whitewood. The price of 3 x 8 and 3 x 7 second quality Riga whitewood (equal to third spruce) is £8, delivered at Humber port, while £11 10s to £12 is the asking price for 3 x 11 inch delivered at Hull. Concerning the Liverpool market, a correspondent of the Timber Trades Journal says: "The spruce market continues to be as firm as ever for future delivery, and those who hold stocks here and at the adjacent ports should be in good position to make profits. So far as can be gathered, prices are likely to be maintained at about their present level for some time to come. The parcels of spruce per liners from Halifax and St. John, with irregular specifications, are readily sold on the basis of £7 17s 6d c.i.f. Operations in the Bristol channel are on a parity with this, for we hear of 700 standards from Annapolis, N. S., having been placed at £7 17s 6s c.i.f., and a quantity from Halifax at £7 17s 6d to £8. Shippers from Miramichi are asking £8 5s c.i.f. for cargoes for spring shipment. For Irish ports, with the usual large preponderance of 3 x 9, such prices have been paid as £8 10s and £8 12s 6d per standards, and these for sailers running up to 700 standards in capacity.

STOCKS AND PRICES.

E. Brownell, of Sheet Harbor, N. S., took out about 5,000,000 feet of logs during the past winter.

The S. S. Stevens Co. cut this winter two and one-half million feet of lumber south of Kingston, N.S.

A.H. Hough, of Renfrew, Ont., has had 20,000 logs taken out for him by jobbers. He has also purchased a quantity of logs from farmers.

The steamer Wrestler recently sailed from Victoria, B. C., for Melbourne, Australia, lumber laden. The Creedmoor left same port for the United Kingdom.

The Orillia Export Lumber Company have just started their saw mill at Orillia, Ont., and will cut 500,000 feet of hardwoods and a quantity of pine, hemlock, etc.

The contract for piling for the Connors' elevator at Montreal has been secured by J. & B. Grier and James Shearer & Co. The contractors for building the elevator are Stewart & Co.

D. J. Buckley, of Rogersville, has a portable saw mill on the Canada Eastern railway, between Chelmsford and Blackville, in New Brunswick, and will saw about 1,500,000 feet of birch planks.

It is estimated that there has been taken out during the past winter, on the Ontario Peninsula, north of and adjacent to Wiarton, about 40,000,000 feet of logs, chiefly hardwoods. The six mills at Wiarton alone have taken out from 16,000,000 to 18,000,000 feet.

LOG AND LUMBER PRODUCTION.

LOGGING OPERATIONS OF THE PAST WINTER.—PROSPECTIVE OUTPUT OF THE MILLS.

Statistics have been collected by a Saginaw correspondent of the American Lumberman bearing upon the extent of the log production in Ontario during the past winter, and the prospective lumber cut for the coming season. Although the figures cannot be taken as exact, they are of some interest to the trade.

According to the figures published, the quantity of logs that will be taken to Michigan this season will not exceed 60,000,000 feet. It is estimated that about 20,000,000 feet will be rafted to Cheboygan by Pelton & Reid; 8,000,000 feet, bought of Booth & Company, will be taken to Bay City by Pitts & Company; the Saginaw Lumber & Salt Company will take over 20,000,000 feet, and the Hitchcock Lumber Company about 7,000,000 feet.

Several Michigan firms will this year manufacture on the Ontario. The W. & A. McArthur Company, of Cheboygan, purchased the McKinnon & Walsh saw mill at Little Current, Algoma, and have 20,000,000 feet of logs for the season's work. The Moulthrop Lumber Company, of Bay City, have purchased the old Moiles saw mill on John's Island, in Georgian Bay, and will operate there. E. Hall, of Detroit, is removing the old Minor saw mill from Alpena to the Spanish river, and expects to cut 10,000,000 feet of lumber this season. The Edmund Hall Lumber Company, of Detroit, have commenced the erection of a saw mill at Sarnia, Ont., and expect to commence sawing operations by the middle of July. The cut this year, if expectations are realized, will be 12,000,000 feet.

Of logging operations the writer says: Joseph Turner has put in 25,000,000 feet and has bought 10,000,000 feet. The Central Lumber Company of Saginaw has 10,000,000 feet of old logs put in a year ago and about as many put into Blind River the present winter. The Arthur Hill Company has put in 20,000,000 feet, which are to be manufactured at Midland; J. & T. Charlton are handling 32,000,000 feet from the Spanish river, Wahnapitae and White Fish; Pitts & Charlton, from the White Fish, 12,000,000; Saginaw Lumber and Salt Company, from the White Fish, 15,000,000 feet; Thomas Pitts, from Spanish river, 12,000,000; the Spanish River Lumber Company, from that stream, 18,000,000 feet; John Waldie, Victoria Harbor Lumber Company, from the Spanish and French rivers, 30,000,000 feet; The Georgian Bay Lumber Company, from the Wahnapitae and French rivers, 35,000,000 feet. There will be 19,000,000 feet to come out of the Misseauga river, 5,000,000 from the Thessalon, 14,000,000 from Root river and other points in the Sault region.

The following estimate of the probable output of the mills for the season is given:

	Feet.
Cutler & Savidge Lumber Co., Cutler	22,000,000
Cook Bros., Limited, Sprague	2,000,000
Spanish River Lumber Co., Spanish River	18,000,000
Moulthrop Lumber Co., Johns Island	20,000,000
Blind River Lumber Co., Blind River	10,000,000
N. Dyment, Thessalon	10,000,000
Conlon Bros., Little Current	18,000,000
W & A. McArthur, Little Current	20,000,000
E. Hall, Spanish River	10,000,000
Ontario Lumber Co., French River	15,000,000
Holland-Emery Lumber Co., Byng Inlet	40,000,000
Wm. Peter, Parry Sound	25,000,000
Conger Lumber Co., Parry Sound	22,000,000
Slush & West, Parry Sound	8,000,000
E. Hall Lumber Co., Sarnia	12,000,000
Parry Sound Lumber Co., Parry Sound	25,000,000
Mills at Midland	67,000,000
Victoria Harbor mills	50,000,000
Waubaushene mills	36,000,000
Beck Lumber Co., Penetanguishene	25,000,000
J. & T. Charlton, Collingwood	15,000,000
Toner & Gregory, Collingwood	10,000,000
D. G. Coope Collingwood	4,000,000
Collins Inlet Lumber Co., Collins Inlet	25,000,000
Total	515,000,000

It will be observed that the cuts of several large firms, such as Mickle, Dyment & Son, M. Brennan & Sons, the Huntsville Lumber Company, and others, are not given in the above table.

Regarding the market for the lumber, it is stated that W. B. Mershon & Company, of Saginaw, have purchased the logs of the Arthur Hill Company, about 20,000,000 feet, and that this stock will be manufactured at Midland and taken to Saginaw. William Schuette & Company, of Saginaw, have purchased 5,000,000 feet from Joseph Turner, and L. C. Slade has purchased 2,000,000, of the Midland stock, all of which will be taken to Michigan. The Brewer Lumber Company, the Booth & Boyd Lumber Company, and Bliss & VanAuken, all of Saginaw, are said to have made purchases in the Georgian Bay district, so that probably 25,000,000 feet of the Georgian Bay cut will go to the Saginaw river. The cut of the Peter mill will be taken to Toledo, and the Holland & Emery cut to Buffalo.

Coming to the Ottawa Valley district, the following estimate is given: The J. R. Booth Company expect to cut 110,000,000 feet of lumber this year, which exceeds by ten million feet the cut of last year. One-third of this season's cut will be sold for domestic consumption, and the balance exported in about equal proportions to the United States and Europe. The W. C. Edwards Company will cut 60,000,000 feet, 15,000,000 feet of which is for home use, 20,000,000 feet for export to the United States, and 25,000,000 feet to the British market. Last season this firm cut 70,000,000 feet. The Hull Lumber Company expects to cut 40,000,000 feet, an increase of 15,000,000 feet over last year. Twenty per cent. will be for domestic use, twenty-five per cent. for the American market, and the remainder for trans-Atlantic shipment. Gilmour & Hughson will cut about the same quantity as last season, 30,000,000 feet, which has been sold to an American company. The Hawkesbury Lumber Company will cut 50,000,000 feet, which is the same as last year, and has been sold for export. The cut of McLachlin Bros., of Arnprior, will be 65,000,000 feet, which has been purchased by E. Lemay, of Montreal, and the bulk of which will be exported to the United States and other foreign markets. The Ottawa Lumber Company will manufacture 12,000,000 feet, of which 50 per cent. will be exported to Europe and the balance in equal proportions for domestic use and export to the United States. This is a decrease of about 3,000,000 feet as compared with last year, but the company have contracted for several lots of sawn lumber. The Gillies Bros. Company, of Braeside, will manufacture about 35,000,000 feet, which is an increase over last year of about 20,000,000 feet. Most of the output of the Ottawa Valley mills is now in second hands, having been sold in advance of sawing—probably 50 per cent. for the British market, and the balance, largely box and box lumber, such as 6, 8 and 10 inch boards, for the United States and local trade.

ENQUIRY FOR HICKORY SQUARES.

The publishers of the CANADA LUMBERMAN would be pleased to learn of Canadian manufacturers who are in a position to supply hickory squares for the British market. The dimensions of these squares should be 44" x 7/8" x 7/8". The stock must not be too springy, and must recover its straightness after bending. Manufacturers in a position to supply the above are asked to send their andress to this office.

THE BARBADOS MARKET.

The market report of Clairmonte, Man & Co., dated March 17th, thus refers to the Barbados lumber market:

There has been one arrival with spruce lumber during the fortnight, which met a good market, and realized $20.61 for first quality. There has also been one arrival of white pine, which sold at $22.57 for first quality, and $16 for second quality. Our yards are rather bare of both white pine and spruce, and dealers are now laying in supplies of spruce for the crop season.

SHINGLES.—Gaspe Cedar in supply—held at $3.75 per M for small; we value good quality long shingles at $4 to $4.50 per M. Cedar Laying, last sale at $2.20; spruce, $2.05; cypress—we note the sale of 82 M ex Wm. F. Campbell from Wellington, N.C., at $8.50 for 6-inch hearts, and $6.50 for 6-inch saps.

The arrivals were: Brigt "I. V. Dexter," from Liverpool, N. S., with 123 M feet white pine, $22.70; 18 M feet spruce, $20.50; 4 M hemlock, $16. Schr. "Herbert Rice," from Meteghan, N. S., 15 M white pine, 58 M shingles. Schr. "F. A. Rice," from Weymouth, N. S., 139 M feet spruce, sold at $20.61. SS. "Duart Castle," from St. John, N. B., 65 M long Gaspe cedar shingles, stored; 48 M do., 6-inch, $6.51; 22 M do., 5-inch, $5.51; 18 M do., 4-inch, $3.60; 10 M do., 3-inch, $2.60.

SHIPPING MATTERS.

Sail tonnage for lumber to the River Platte continues to be enquired for, but current rates are not sufficiently attractive to call forth any considerable offerings. Shippers would pay $13 to $13.50 from the Gulf to Buenos Ayres, $11 and $12 from outside provincial ports, $10 from Portland and $9.50 and $10 from Boston.

Following are current freight rates on lumber from British Columbia points: Sydney, 53s; Melbourne or Adelaide, 58s 9d to 60s; Port Pirie, 56s 3d to 57s 6d; Freemantle, 68s 9d to 70s; Shanghai, 60s to 61s 3d; Kiao-Chau, 61s 3d to 62s 6d; Tientsin, 67s to 68s 9d; Vladivostock, 55s to 56s 3d; w. c. South America, 57s 6d to 60s; Pisagua Range and Callao Range, 58s 9d to 61s 3d; South Africa, 72s 6d to 75s; U. K. or Continent, 80s to 82s 6d.

In the New York market there is an unusual scarcity of spruce ceiling lath. Two cargoes sold recently on the market therefor $3.40, while the price one year ago was $1.80.

J. F. Stengel, of Buffalo, is said to have purchased about 8,000,000 feet of pine in Ontario, and is also buying considerable hardwood. He does not maintain a yard, shipping direct to customers.

The Saginaw river lumber market, according to the American Lumberman, is dull in wholesale lines, no transactions having been recorded during the past week. Buyers are making some contracts for future delivery, and interior mills are being visited and contracts made for stock to be cut. Prices are steady, ranging from $17 to $20 for log run, $14 and $15 for box lumber, and $12 to $14 for piece stuff. Hemlock piece stuff is quoted at from $10 to $12. Mill culls are worth $12 and some are asking still higher prices.

NEW BRUNSWICK EXPORTS.

Mr. Ira B. Myers, United States Consul at St. John, N.B., furnishes the following statement of lumber shipments from the ports of St. John and Fredericton, N.B., for the quarter ended March 31st, 1900:

FROM ST. JOHN, N.B.

		Value
Lumber	(American logs)	$114,714.61
Laths	" "	17,589.75
Shingles	" "	4,540.00
Shooks	" "	648.12
		$137,492.48
Lumber	(Canadian logs)	23,468.37
Laths	" "	13,270.00
		$174,230.85

FROM FREDERICTON, N.B.

		Value
Lumber	(Canadian logs)	$170.00
Clapboards	" "	1,165.00
Shingles	(American)	2,987.00
Total		$178,552.85

The following charters are reported: Ship Columbus, 1,750 tons, St. John, N. B., to Cardiff, Newport or Swansea, deals, 50s; bark Florida, 1,145 tons, same voyage, 53s; steamer Ardova, Halifax, N. S., to Liverpool, deals, 51s; sailers, 600 tons, Shediac, N. B., to east coast Ireland, 55s; 405 tons, Richibucto, N. B., to w. c. England, 60s; 1,000 tons, Miramichi to Londonderry, 57s 6d; 500 tons, St. John, N. B., to Irish port, 57s 6d; and several other small sailers at from 50s to 57s 6d.

The portable saw mill of D. P. Lewis, of Westbrook, Cumberland county, N. S., was destroyed by fire a fortnight ago.

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., APRIL 11, 1900 No. 12.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

I HAVE A FEW THOUSAND FEET OF BASSwood Heading for sale yet, 17⅞ No. 2 last season's make, which I will dispose of at reasonable figures to make room for this season's cut. Apply to GEO. M. EVEREST, Arkona Heading & Basket Factory.

Valuable Timber Berth
BY AUCTION

TOWNSHIP 139, NORTH SHORE OF LAKE HURON

The undersigned has received instructions to offer for sale by auction, at the Rotunda of the Board of Trade, Toronto, on THURSDAY, MAY 3RD, 1900, immediately after the sale of Cook and Brothers' limits,

Timber Berth 139 north shore of Lake Huron (being 36 square miles, more or less).

For terms and conditions of sale, and for all particulars, apply to Geo. H. Perley, Ottawa.

PETER RYAN,
Toronto.

SALE OF
Valuable Timber Limits
BY PUBLIC AUCTION
AT TORONTO

By C. J. Townsend & Co., 28 King Street West.

ON THURSDAY, APRIL 19th, 1900
At 2 o'clock P.M.

The following Timber Licenses:

ON LAKE NIPISSING.

No. 213, of season 1899-1900, being berth No. 5, in Township of Patterson. Area, 25½ square miles, more or less.

ON FRENCH RIVER.

No. 214, of season 1899-1900, being berth No. 16, Township of Falconer, sale of October 22nd, 1885, known as No. 11, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872. Area, 36 square miles, more or less.

ON VERMILLION RIVER, A BRANCH OF THE SPANISH.

No. 215, of season 1899-1900, being berth No. 22, Township of Dowling, sale of October 22nd, 1885, known as No. 87, as laid down upon the map of the north shore of Lake Huron, published by the Department of Crown Lands, dated July 10th, 1872.

Terms and conditions of sale will be made known on day of sale. Easy terms to purchasers who may be deemed responsible by the vendor and who may arrange therefore prior to sale.

The above timber berths are exceptionally easy of access. Supplies can be placed at very low cost on any of the berths, either during the winter or summer months.

The average haul is very short. The berths are well timbered with white and red pine.

On berth No. 5, Patterson there is also a fine cut of many millions of large hemlock logs and railway ties.

Berth No. 16, Township of Falconer, has never been cut on.

Each berth will be sold separately.

Explorers can reach Townships of Patterson and Falconer in a few hours from either North Bay or Sturgeon Falls.

Township of Dowling can be reached from Larchwood or Onaping, on C. P. R., which traverses this berth.

For further particulars apply to ALEXANDER FRASER, the vendor, at 74 Nepean Street, Ottawa, Ont.

WANTED—A Competent Sawyer, Filer, and Saw Hammerer; constant employment. JAMES RITCHEY, Makinak, Manitoba.

JOHN HARRISON & SONS CO., LTD., OWEN Sound, Ont., offer the following specials: 5 cars No. 1 White Pine Lath and 6,000 Cedar Posts, 8, 9 and 12 feet long.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

MILL TO HIRE.

NEW 30 M PER DAY CAPACITY PORTABLE saw mill; will contract to saw from to 5 millions lumber. Address, J. G. ELDERKIN, Port Greville, N. S.

BOOKKEEPER WANTED.

COMPETENT BOOKKEEPER; ONE CONversant with the lumber business. Apply, giving age, qualifications and copy of references. Box 18, CANADA LUMBERMAN.

FOR SALE.

200 ACRES HARDWOOD BUSH, EXCEPtionally heavy timbered. Close to lake. If not sold, would give job of sawing to practical mill man, with good portable mill. Apply, Box 876, Owen Sound, Ont.

AUCTION SALE
OF
Timber Berths
Nos. 124, 125 and 132 (36 square miles each), North Shore of Lake Huron, Province of Ontario.

I have been instructed to offer for sale by auction the above Timber Berths, in single berths, at the Rotunda of the Board of Trade, Toronto, on

Wednesday, April 18th
at 2.30 p.m.

Terms:—Half cash at the time of sale, and the balance in six months, with interest at six per cent.

Berths 125 and 132 are excellent Pine Limits, and are also heavily timbered with other valuable woods.

Berth 124 has been cut over, but has considerable Pine and a large quantity of other standing timber.

PETER RYAN,
Toronto.

FOR SALE
Large Tract of Timber
THE PROPERTY OF
The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There is a large quantity of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 50 000 acres, or more if desired

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED.

ENGAGEMENT TO REPRESENT IN AUStralia or Africa responsible lumber shipper, by a reliable and experienced man; age 44 Address, "LUMBERMAN," Box 12, Kaslo B.C.

TO CANADIAN MANUFACTURERS.

Apply to, A. F. BURY AUSTIN,
Wholesale Lumber & Timber,
411 Board of Trade Bldg., Montreal.

DOORS AND MOULDINGS WANTED.

There promises to be an increasing trade with Great Britain in Canadian doors and mouldings. In the "Wanted and For Sale Department" of this issue will be found the announcement of a firm that is desirous of purchasing large quantities of these goods. The advertisers are, we believe, among the most reliable firms of timber importers in Great Britain, and persons desirous of increasing their trade in this direction should place themselves in communication with them.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

24. An English firm wishes to know the names of Canadian shippers of spruceboxes of which 250,000 are wanted; also of sprucebars, of which about 50 standards per week are required. Prompt reply asked for.

26. An English continental firm of good standing wishes to represent manufacturers of Canadian wood pulp, as their agents in the United Kingdom and on the continent, especially France.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber manufacturers appear to possess a firm belief in the maintenance of present prices for some months to come. A large manufacturer in the Georgian Bay district, writing to the CANADA LUMBERMAN, states that he has no dry for sale, and that he has received enquiries for more stock than he can manufacture this season. Another manufacturer advises us that over 50 per cent. of his season's production has been sold, and that he anticipates no difficulty in disposing of the balance of his stock at prices quite as high as those ruling at the present time. Confidence seems to be firmly established, and this alone will tend to keep the market strong. The trade actually moving is not of large volume, as the spring demand has been rather slow in opening up. Retail dealers are not absolutely in need of stock, and consequently they are disposed to wait until later in the season in the hope of being able to purchase at better terms. For dry stock prices are stiffening. One or two changes have been made in our Toronto quotations, 1 x 10 and 12 common having been advanced by one dollar per thousand, and a slight advance made on most of the lower grades. Hardwood quotations have not changed, the demand being only normal. It is expected, however, that prices will weaken slightly as soon as the dry stock of this season's cut is offered to buyers.

QUEBEC AND NEW BRUNSWICK.

Harbor improvements and bridge work in the eastern provinces will this season consume a considerable quantity of timber, and with a moderate demand for building purposes, there should be a fair volume of trade. Numerous enquiries for stock have been received by manufacturers from United States dealers, and the prospect is that prices will be firmly sustained. The movement to form an association of shingle manufacturers is looked upon as a step in the right direction, and should a successful organization be established, benefit to the trade will no doubt result.

In New Brunswick there is still a considerable quantity of snow in the woods. This will be favorable to stream driving and lessen the danger of having logs hung up.

MANITOBA AND BRITISH COLUMBIA.

A heavy movement of lumber is reported from Manitoba and British Columbia. Manufacturers are sold for months ahead, and some of them have refused

large orders for stock. There is an unusually brisk demand for British Columbia cedar lath. In Vancouver and Victoria building operations are very active, notwithstanding the high price of building materials. The export trade is good, but freight rates are unusually high.

UNITED STATES.

The lumber market of the United States has developed no features of particular interest during the past week. The movement of stock is rather slow, and few sales from the cargo mills are reported. Retail dealers are showing an indisposition to stock up in the face of slow consumption. Piece stuff has weakened slightly. In Chicago the list was maintained during the winter on a $16 basis for short lengths, but wholesale dealers are now quoting this stock on a $15.50 basis. Common inch lumber is a trifle higher than it was one month ago. Buffalo dealers report that the white pine trade is in a peculiar condition. The east is not reconciled to the present asking prices, while there is no hope of wholesalers being in a position to offer them any concessions, as their stock could not be replaced at the prices at which it was purchased. Spruce lumber is maintaining its strength and is held firmly at $22.50 in the New York market.

The feature of the hardwood trade is an increased demand for maple, which is reported very scarce. The probability is that before dry stock is available maple prices will be further advanced. Elm, basswood, and black ash sell well.

It is probabe that there will be a shortage in the supply of shingles this season and that prices will be marked up, as lumber has advanced in price more than shingles. At Buffalo the stock is estimated at 20,000,000. Some dealers are holding red cedar shingles higher than white pine. The demand is almost entirely for 16 inch, which appear to be considered cheaper than 18 inch.

FOREIGN.

An uncertain feeling pervades the British wood market. The consumption of lumber has been diminished by the enhanced prices, and difficulty is being experienced in maintaining the present prices on account of the lessened consumption. On the other hand, the high prices asked by shippers strengthens the hands of holders of stock, who feel that they are not justified in lowering their asking prices. The spruce trade continues to flourish, and large quantities of this lumber are being purchased by the box-makers. In the London market third quality is selling at £10, and it is reported that nearly all the Riga whitewood for early shipment has been sold to France. This further brightens the outlook for spruce, inasmuch as the Riga whitewood is a strong competitor with Canadian lumber. At Glasgow there is a steady demand for first quality pine deals and planks. Spruce in that market is not moving with as much freedom as two weeks ago, but no depreciation in prices is reported. Very little stock is being sold to Ireland.

NEW BRUNSWICK CEDAR SHINGLES.

The shingle situation in New Brunswick is decidedly mixed. So far as we can learn, the members of the new association are rigidly adhering to their price list. On the other hand, outsiders are selling on a basis of $3.00 to 3.20 for extras on Boston freights. The majority of shingle manufacturers do not seem to realize that there is such a thing as an association, and are willing to accept such figures, with $3.00 as a minimum limit, as their commission representatives may see fit to name. In some few isolated cases $3.25 has been readily obtained from the country trade, but the bulk of the orders have been accepted at about the following figures, delivered at Boston rates: Extras, $3.10 to $3.15; clears, $2.70 to $2.75; 2nd clears, $2.15 to $2.20; clear whites, $2.10 to $2.20.

STOCKS AND PRICES.

A scarcity of hemlock boards at Bostou is reported. No. 1 stock, 10 and 12 inches wide, is sold at $20.

The property belonging to the estate of the late Thomas Keillor was sold at Dorchester, N.B., last week. Some 340 acres of timber lands was purchased by C. S. & J. Hickman, lumbermen, of Dorchester, for $8,190.

Charles T. Monroe has purchased a mill at Douglastown, N.B., and will manufacture cedar shingles.

J. H. Livingstone and J. W. Swan, of Wentworth, Cumberland county, N.S., have purchased a tract of timber land on the Midland railway near Windsor.

The cedar market on the Saginaw river has not materially changed; 25 ft. poles, 6 inches at the top, sell at $1.25. Oak ties are quoted at 45 cents, cedar ties at 38 cents, and fence posts at 10 cts.

Canadian shippers in a position to handle an order for log run black ash, 1", 1¼", 1½", and 2" thick, and of an average of 9 inches in width, with culls and centres out, for export to England, are requested to communicate with the publishers of this journal.

Three timber berths on the Quisbis river in New Brunswick, aggregating 14 square miles, and a 2½ mile berth on Siegar river, were sold at the Crown Lands office, Federicton, N.B., last week to Randolph & Baker, at the upset price of $8 per mile.

The cut of logs to come down Salmon Creek to Melbourne, Que., is much smaller than usual, owing to an unfavorable winter. The Tourville Company, of Pierreville, have 40,000 logs, and Williamson & Crombie, of Kingsbury, 55,000 logs. Timber is in good demand. American buyers are offering $12 per thousand feet for good spruce butt logs, f.o.b. Kingsbury.

WINNIPEG LUMBER PRICES.

Following are wholesale prices, delivered at Winnipeg, for pine lumber:

TIMBER AND DIMENSION—Timber 4x10 and 12, 6x10 and 12 and 8x8 to 12x12, 12, 14 and 16 feet long, $19.50; timber 6x6 to 6x8, 4x4 to 4x8 and 3x6 to 3x12, 12, 14 and 16 feet long, $18; dimensions, 2x4 to 2x12, 12, 14 and 16 feet long, $17; dimensions 2x4, 10 feet long, $17.50; dimensions, 2x8 to 2x12, 10 feet long, $17; dimensions, 2x6, 10 feet long, $17; dimensions, 2x4, 10 2x12, 6 and 8 feet long, $14.50; cull plank, all widths, $14.50; cull plank, re-sawn, $11.50. $1 per M. advance on each inch over 12 in. in depth and width. $1 per M. advance on each 2 feet over 16 feet.

BOARDS—First common boards, red pine, 10 to 18 feet, $22.50; second common, 10 to 18 feet $17.50; third common 10 to 18 feet, $17; culls, 10 to 18 feet, $15; 1-2 inch sheathing S. I. S., 10 to 18 feet, $13.50; second common stock, 12 in., 10 to 18 feet, $19; second common stock, 8 to 10 in., 10 to 18 feet, $18; No. 1 wide box boards, 10 to 18 feet, $27.50; No. 2 wide box boards, 10 to 18 feet, $20. $2 per M. less for 6 and 8 feet. Bevel siding, No. 1, 1-2 in. x 6 in., $21; bevel siding No. 2, 1-2 in. x 6 in., $18.

FINISHING—1 1-4, 1 1-2 and 2 in. first, second and third clear whith pine, $45; do., select white pine, $35; do. shop, $30. $5 per M. advance on 2½ in. and thicker. 1 1-4, 1 1-2 and 2 in. clear red pine, $31; do., select red pine, 26.50; 1 in. first and second clear white pine, $47.50; do., third clear white pine, $36.50; do., B. select white pine, $30; do., C. select white pine, $25; No. 1 stock white pine, 12 in., $41.50; do., 8 and 10 in., $39.50; No. 2 stock white pine, 12 in., $36.50; do., 8 and 10 in., $34.50; No. 3 white and red pine, 12 in., $29.50; do., 8 and 10 in., $27.50; 1 in. clear red pine, $31; do., select, $26. Selectee widths, $2 per M. extra.

MOULDINGS.—Parting strips, per 100 lineal feet, 40c; window stops, 50c; door stops, 75c; quarter round and cove, 50c; 4 in. casing, $1.60; 5 in. casing, $2; 6 in. casing, $2.40; 8 in. base, $3.25; 10 in. base $4. All other mouldings 50 per cent. discount off universal moulding list. Lath, per M, $3.50; pine shingles, 6 in., clear butts, per M, $1.75.

THE AUSTRALIAN MARKET.

The last monthly report of Fraser & Co. reviews the timber market of Australia as follows:

The market generally has been in good condition during the past few weeks, almost every class of timber being in demand, and rates obtained in a great proportion of business fixed show some slight increase in values upon those ruling at the time our last circular was issued. Although some sales in business "to arrive" have been done in Baltic flooring, lining, and weather boards upon the last basis of prices, local stocks of the same have been sold at increased figures, while Oregon is now firm at £7 per 1000 feet super, and it is probable that shortly higher rates will be required and paid for the latter lumber. For mostly other kinds of timber importations prices have been more fully mantained, and as the markets from which we recieve our supplies indicate rather an upward than a downward tendency, both in respect to f.o.b. and freight quotations, and as the actual consumption appears to be on the increase in this colony, we feel justified in saying that the improvement now manifested will be continued during the course of the present year.

TIMBER LIMIT SALE.

The timber limits of R. H. Klock & Co., situated on the Ottawa river and its tributaries in the provinces of Quebec an Ontario, were offered for sale at the Board of Trade, Toronto, on Tuesday last. There was an average attendance of lumbermen from the Ottawa Valley and Georgian Bay district. Notwithstanding the persuasive powers of the auctioneer, Mr. Peter Ryan, the bidding was slow, and only one parcel was disposed of. This was a limit of 100 square miles on the Ontario side of the river and including the Rocky Farm, the purchasers being McLachlin Bros., of Arnprior, at the price of $105,000. The other limits were withdrawn.

After this sale Mr. Ryan put up a timber berth of 80 square miles in the township of Mackenzie, Georgian Bay district, the property of the Delta Lumber Company of Detroit. This limit was also withdrawn.

BRITISH TIMBER PRICES.

At a recent auction sale held by Foy, Morgan & Co., London, England, the following prices were realized for Canadian goods:

PINE.—Ex-Milwaukee, from Quebec—9 ft. 3x11 in., third quality, £10 15s; 13 ft. x 3 x9 in., third quality, £8 15s. Ex-Ailsa Craig, from Quebec—4-8 ft. 3x9 in., second quality, £12.

SPRUCE.—Ex-Lady Gladys, from Trois Pistoles—12 ft. 3x9 third quality, £9 15s; 13 ft. 3x9, £9 15s; 9-14 ft. 3x9, £9 10s. Ex-Sylviania, from St. John—9-18 ft. 3x10-14 in. first, second and third quality, £9 10s; 9-19 ft. 3x9, £9 10s; 9-19 ft. 3x8, £9; 9-19 ft. 3x7, £9; 9-21 ft. 2½x7, £9; 3-8 ft. 2½x7-9, £7 10s. Ex-Dalton Hall, from Quebec—12 ft. 3x9, second quality, £10 and £10 5s; 13 ft. 3x9, second quality, £10; 15 ft. 3x9, £10; 10-13 ft. 3x9, £10s. Ex-Zanzibar, from Quebec—11 ft. 3x9 in. first quality, £10 15s; 9-10 ft. 3x9, £10 15s. Ex-Werneth Hall, from Quebec—12 ft. 3x9 in. third quality, £9 5s and £9 15s; 9-16 ft. 2x5 in. third quality, £7 10s. Ex-Kinsale, from Quebec—13 ft. 3x9, second quality, £10.

BIRCH PLANKS.—Ex-Halifax City—300 ft. 3x10 in., 1s 2d per cubic foot.

SHIPPING MATTERS.

The Timber Trades Journal reports the following charters: 1,000 tons, Pugwash, N.S., to w.c. England or e.c. Ireland, deals, 52s 6d; 600 tons and 650 tons, Miramichi, N. B., to Londonderry, 57s 6d; 600 tons, Miramichi to Cardiff, Newport or Swansea, 60s, half spruce, half birch; 600 tons, Shediac, N. B., to Mersey, 55s; 600 tons, Campbellton, N. B., to e.c. England, 52s 6d; 570 tons, Miramichi to Drogheda, 60s; 250 tons, Richibucto to Khyl, private terms. In anticipation of the first-open-water, the initial sailings from Liverpool are announced as follows: Dominion S.S. Co., Vancouver, April 14th; Allan Line, Buenos Ayres, April 21st. The Leyland Line, which last year had a regular weekly steamer for Liverpool, has withdrawn from the service, but will maintain the Antwerp Line. The Beaver Line (MacIver) has also withdrawn, so that for Liverpool there will only be four weekly steamers, viz.: Allan, Johnston, and Elder Dempster Lines from Montreal, and the Moss Line from Quebec.

LUMEER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, 9½ cents per 100 lbs. Ottawa, Rockland and Hawkesbury to Montreal, for export only $1.10 per M ft., domestic 4½ cents per 100 lbs; Quebec, $2.10 per M ft., domestic 8½ cents per 100 lbs.; Arnprior to Montreal, for export only $1.60 per M ft., domestic 6½ cents per 100 lbs.; Quebec, export $2.60 per M ft, domestic 10½ cents per 100 lbs.; Pembroke to Montreal, for export only $1.85 per M ft., domestic 7½ cents per 100 lbs; Quebec for export only 2.85 per M ft., domestic 11½ cents per 100 lbs.; Ottawa to New York, all rail, 15 cents per 100 lbs; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to New York and points within regular lighterage limits of New York Harbor, seasoned pine lumber, lots of 50 M feet and up, via Williams Barge line from Albany, $3.25 per M feet, lath 65 cents per M pieces, logs 25c M pieces and over; from Arnprior, seasoned pine lumber $3.75 per M feet, lath 7 5cents per M pieces; from Douglas, Eganville and Pembroke, seasoned pine lumber $4.00 per M feet, lath 80 cents per M pieces, Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs. Rates quoted above are in cents per 100 lbs.; when quoted per M ft., minimum carload will be 10 M ft., lumber not exceeding 3,000 lbs. per M ft. Lath minimum carload 50 M pieces, not exceeding 600 lbs. per M piece. Ottawa rates apply on shipments from Rockland and Hawkesbury.

Valuable Timber Berth

BY AUCTION

TOWNSHIP 139, NORTH SHORE OF LAKE HURON

The undersigned has received instructions to offer for sale by auction, at the Rotunda of the Board of Trade, Toronto, on THURSDAY, MAY 3RD, 1900, immediately after the sale of Cook and Brothers' limits,

Timber Berth 139, north shore of Lake Huron (being 36 square miles, more or less).

For terms and conditions of sale, and for all particulars, apply to Geo. H. Perley, Ottawa.

PETER RYAN,
Toronto.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10 000 acres, or more if desired

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

MILL TO HIRE.

11 M ft. 1¼ x 4 in. and up, Shorts, 6/11 ft.

Apply to, A. F. BURY AUSTIN,
Wholesale Lumber & Timber,
411 Board of Trade Bldg., Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

A strong feeling of confidence pervades the lumber trade of Ontario. Manufacturers and dealers, almost without an exception, report numerous enquiries for stock, while considerable of the season's production of lumber has already been contracted for. In pine the most active demand pertains to the lower grades, the supply of which has become very meagre. Unless the approaching season should be much less active than is anticipated, no great depreciation in prices is likely to occur. In the Ottawa valley good pine shorts have advanced recently about one dollar per thousand Shipping culls have been marked up abouut two dollars per thousand. Hardwood prices have not changed from our last quotations, but it is quite certain that the production of hardwoods this year will be heavy, and it is too much to expect that the prices now ruling will hold throughout the season. However, manufacturers are adhering firmly to prices, and this in itself will have a tendency to sustain the strength of the market.

QUEBEC AND NEW BRUNSWICK.

In the city of Quebec there has developed a scarcity of dry lumber, and contractors are finding some difficulty in carrying on building operations. Retail dealers have very little stock for sale, and this they are holding for higher prices. Dimension deals of ordinary lengths are selling at $11.50 per thousand feet. In the Maritime Provinces building operations are not as far advanced as in Quebec, but nevertheless manufacturers and dealers report a satisfactory demand for lumber. Shippers have purchased very heavily for export. The shingle manufacturers and dealers are watching with much interest the outcome of the meeting which is being held to-day to complete the organization of a manufacturers' association for Quebec, New Brunswick and Maine, to which further reference will be made next week.

UNITED STATES.

Some slight alterations were made last week in the wholesale price list of lumber for the Minneapolis market. No. 4 fencing, 4-inch, 6, 8 and 10 feet, was reduced $1; A and B siding, all lengths, 50 cents; inch selects, 50 cents; and dimension and timbers, 23 feet and longer, $1. Yellow pine prices have also undergone a readjustment, the new list showing a reduction of from one to two dollars per thousand on all items, except heavy joist and timbers. These changes represent the chief features of the lumber market of the past week. Trade is not moving very lively, as spring building has been backward on account of unfavorable weather conditions. The market for white pine has exhibited a slight weakness in certain lines, especially piece stuff. Eastern wholesalers have large stocks on hand, and unless an active demand from the east shall develop, their purchases for some time to come will be very moderate. At Saginaw Canadian pine, log run, is worth $16 to $18, box lumber $12.50 to $14, Norway $14 to $14.50, and mill culls $12. Spruce prices have been maintained, and owing to the high price of logs, lower values are not anticipated. Hardwood stocks are still scarce. There is an excellent call for common and first and second plain red and white oak. White ash and basswood are firm, but in respect to maple there seems to be a feeling that that lumber may suffer from overproduction.

FOREIGN.

The unsatisfactory state of the building trade in Great Britain is causing holders of timber some uneasiness. Buyers hesitate to purchase in advance of requirements, and if this condition prevails for some time it is feared that a break in prices may result. Some encouragement, however, is found in the fact that prices of Canadian lumber have not only maintained their strength, but that in a few instances advances have been made. Comparrd with one month ago, square pine is about one shilling per cubic foot higher at Glasgow. First quality Quebec pine deals are about six shillings per standard higher, third quality broad about seven shillings higher, while there has been an average advance on fourth quality of about seven shillings per standard. Quebec pine, 2-inch sidings, have advanced 10 shillings, and 1½ inch six shillings. In the London market waney pine has appreciated in price, as has also elm, which is in very scant supply. At Liverpool first quality pine deals are selling at £20 to £24 per standard, second quality at £16 10s. to £17 10s., and third quality at £10 to £10 10s. New Brunswick spruce is worth from £7 15s. to £8 per standard. British shippers are reported to have sold a considerable quantity of stock for export to South Africa.

TIMBER LIMITS WITHDRAWN.

Timber berths Nos. 124, 125, and 132, on the north shore of lake Huron, offered for sale by Mr. Peter Ryan at the Board of Trade, Toronto, on Wednesday, of this week, were withdrawn.

STOCKS AND PRICES.

J.H. Dansereau, of Vercheres, Que., has secured a contract to furnish 8,000 boxes per month for export to England.

F. E. Neale, of Chatham, N.B., has arranged for the shipment this year of about 50,000,000 feet of deals to Great Britain.

E. B. Betts, of Wentworth, N. S., is operating a portable mill, and expects to cut aboul 1,500,000 feet of lumber this spring.

Dr. Ickes, of Woodstock, is advertising for tenders for the supply of 5,000 ties for the Woodstock and Thames Valley electric railway.

A contract has been secured by F. Dennie, of Sudbury, Ont., to furnish 100,000 ties, to be used in construction work by the C. P. R.

J. A. Shaver, of Ancaster, Ont., expects to cut this season about three-quarters of a million feet of lumber, nearly one-half of which will be elm.

At River Hebert, N. S., Kelly Bros. expect to cut this season 4,000,000 feet of lumber, A. & E. Christie 1,000,000 feet, and Rufas Christie 900,000 feet.

The Pembroke Lumber Co., of Pembroke, Ont., have secured through J. & G. Grier, of Montreal, the contract to sup-

ply all the pine timber for the Interprovincial bridge at Ottawa.

At Bangor, Maine, from $14 to $15 per thousand feet is being paid for spruce logs.

Thompson Smith's Sons, of Cheboygan, Mich., put in 2,000,000 feet of logs in the Georgian Bay district the past winter.

Graham, Horne & Co., of Fort William, Ont., have closed their Rainy River camps, after cutting 13,000,000 feet of logs.

First class elm flour barrel staves are selling in Buffalo at $9.25 to $9.50, coiled hoops at $11.25, and basswood heading at 6¼ cents.

The Nova Scotia Lumber Co., of Sherbrooke, N.S., will this season ship 10,000,000 feet of lumber from Liscombe and 1,500,000 feet from Economy.

The Neibergall Stave and Lumber Co., of Staples, Ont., have now in their yard 2,000,000 feet of elm logs and 3,500 cords of bolts, as well as a quantity of oak and maple logs.

The Eddy-Sheldon Co., of Saginaw, have contracted for about 7,000,000 feet of lumber to be manufactured by the Moulthrop Lumber Co., on Johns Island, Georgian Bay district.

Perley, Lowe & Co., of Marinette, Wis., have sold 20,000,000 of lumber to the Skillings, Whitneys & Barnes Co., of Boston, 3,000,000 feet to the Empire Lumber Co., of Pittsburg, and 11,000,000 feet to C. M. Betts & Co., of Buffalo.

It is the intention of the Pembroke Lumber Company, of Pembroke, Ont., to cut 20,000,000 feet of stock this season and to operate their mill day and night. They have sold their cut of red pine to Watson & Todd, their white pine deals to Dobell, Beckett, & Co., and their squares to Robert Cox & Co. The Pembroke Lumber Co. supply all sizes of dimension timber, joist, ship planking, etc. They had a successful winter's operations, cutting 130,000 pieces of logs and dimension, 75 per cent. of which is dimension. Their drive has commenced.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Business in both wholesale and retail lumber circles in Ottawa is quiet at present, and will remain so till navigation opens and the mills commence operations. Owing to the lateness of the spring, the lumber firms are not hiring men for the drives in any great numbers as yet. The number required, however, will be in excess of last year's demand, and fully two thousand men will be sent up from Ottawa alone, while five hundred or more will be required from Hull and the neighboring towns. The same condition of affairs holds good as did earlier in the season when shanty-men were being hired, as wages are in advance of previous years. Mill owners are offering from $30 to $40 a month for capable men, whereas the figures in past years were as low as $25. The reason for this is seen in the increased activity in other branches of the labor market, as well as that ruling in lumbering. It is difficult to get men and for the next month labor will be in great demand.

For the past three weeks the shanty-men have been returning to Hull and Ottawa in large numbers, and all report the season's operations to have been extensive. Lumbermen just returned from the limits state that there is more of an appearance of winter in the woods than there was in January. In some parts there is nearly two feet of snow, while on the rivers and lakes the ice is quite thick. On the Kippewa, Coulonge, Dumoine, Black, Snake, Qunize, and other lumbering rivers, the ice gives no indication of moving, and it will be ten days or more before the drives are started. It is expected that quite a few men will be sent to the Georgian Bay and Lake Superior districts from the vicinity of Ottawa within the next month, for the drives.

The majority of the small mills within a radius of 100 miles of Ottawa which cut hardwood, have shut down after a successful winter's operations. Along the line of the Parry Sound branch of the Canada Atlantic Railway, and in other directions, many mills were operated this season for the first time, and the cut of hardwood is accordingly large. One Ottawa dealer who has covered much of the territory states that on a conservative estimate the hardwood cut will be three times as large as it was last year. Although this large cut was made to satisfy the demand for Canadian hardwoods coming from dealers and manufacturers in the United States, it is not thought that many of the Conadian mill owners have as yet closed contracts for their winter's cut, now piled awaiting the buyer. Although the ruling prices are very high, the mill owners are holding back for still higher prices, and in some places a slump in the hardwood market is predicted on this very account.

Large quantities of ash, birch, maple, butternut, elm and basswood have been cut by the various mills. Wm. Mohr, of the firm of Mohr & Ryan, of Killaloe, states that the cut of this firm's mills will be about 1,000,000 feet, the greater part of which is hardwood. The McKee Milling Company will have a cut of about 500,000 feet at its Wakefield mill, and Charlebois & Dumois, of Hull, who operate a mill at the same place, have a similar hardwood cut. Prices have advanced from $3 to $4 per M and now range from $18 to $22, according to quality and kind.

A Boston firm offered to buy the McKee mill cut direct from the saw, not waiting till it was seasoned by piling. The middle men cannot touch the mill men's prices, so high are they.

McLachlin Bros.' large saw mill at Arnprior, near Ottawa, has been fitted with a new Allis band mill, with a capacity of 50,000 feet a day, and a pair of twin circular saws. The latter will be used in cutting railway ties and will have a daily output of 2,000 ties each. The new machinery for this mill was supplied by the Waterous Company, of Brantford, and the Victoria Foundry, of Ottawa, McKee & Co. acting as agents.

No new machinery has been installed in any of the Ottawa mills, all of which are being put in shape for the season's cutting. J.R. Booth's timber mill has been operated all winter, getting out timber for construction work on the Canada Atlantic Railway, and for use in the car shops principally. The logs have been hauled to the Ottawa mill over the Parry Sound branch of the Canada Atlantic Railway.

Hurdman & Elmitt, of Ottawa, have closed a contract with A. F. Chapman & Co., of Quebec, to supply 250,000 feet of lumber for the new elevator being erected in the ancient capital by the Great Northern Railway Company.

The Ottawa River Transportation Co. has a gang of men at work putting its large fleet of barges and tugs in readiness for the opening of navigation, when about 500 hands will be employed by this company. The ice is nearly all out of the Ottawa river, but navigation will not open till about May 1st, when the water will be let in the Rideau canal.

Ald. James Davidson, of the firm of Davidson & Thackray, planing mill owners, of Ottawa, was interviewed by a representative of the Timber Trades Journal, of London, Eng., on the occasion of his last visit to England. The interview, a lengthy one, appears in the latest special number of that journal. It deals hopefully and intelligently with the Ottawa lumber interests, and is certain to be beneficial to the Canadian export trade, as it gives the Britishers a better idea of our resources.

A project is on foot to establish a box factory in Ottawa, which is certainly a good center for such an industry, being a splendid base of supplies, and having good railway facilities and cheap labor and power. A new match factory has been started in Hull, and all the wooden-ware departments in the E. B. Eddy Company's business are putting out increased quantities of goods. Little building will be done in Ottawa this season, owing to the increase in the price of all building materials, including lumber. The lumbermen, however, look for a revival in the autumn.

Mr. John Belford, bookkeeper for W. C. Edwards & Co., the well known mill and manufacturing concern, of Ottawa, who went to South Africa as a member of D Battery, has been promoted to the position of No. 1 Sergeant since arriving at the front. Lieutenant Lawless, another soldier of the Queen, who went with the first Canadian contingent, and who is well known in lumbering circles, has been mentioned by the newspaper correspondents for conspicuous bravery at the battle of Paardesburg, when he led a small handful of daring Canucks in the charge on the Boers. Lieut. Lawless and his men fortunately escaped uninjured.

The Hull Lumber Co. has sent about 50 men up to Ostobonia river above the Kippewa to assist in bringing down the drives. J. R. Booth has sent up about 150 men to Moore's Lake and other points for the same purposes.

English buyers are already making negotiations for the purchase of the cut of several of the Ottawa mills for 1901. The figures quoted compare favorably with those advanced for the present year's cut. The indications are that the cut for 1901 will be equally as heavy as this year's.

Ottawa, April 14th, 1900.

THE BARBADOS MARKET.

Clairmonte, Man & Co. say: There have been no arrivals with white pine and spruce lumber during a fortnight—our yards are rather bare of both kinds. There is always a good demand for spruce during our reaping season, which extends up to June. Last sales were—white pine, $22.57 for first quality and $16 for second quality; spruce, $20.61 for first quality.

SHINGLES—Gaspe cedar, in supply—held at $3.75 per M d.p. ex store for small; we value good quality long shingles at $4.00 @ $4.50 per M. Cedar laying, last sale at $2.20; spruce, $2.05.

GLASGOW MARKET REPORT.

WANEY BOARDWOOD. — The stocks are small, and prices firm in view of increased prices for next season's shipments. Price—prime large wood, 2s. 9d. to 3s.; smaller average and poorer quality at from 1s. 10d. to 2s. 6d. per cubic foot.

SQUARE PINE.–The demand is light. Prime large wood is quoted at 2s 7d to 2s 9d; second-class wood at 1s. 7d. to 2s. 2d. per cubic foot.

RED PINE is in good request. Price, 1s. 6d. to 2s. per cubic foot.

OAK LOGS are in fair demand. First quality is quoted at 2s. 10d. to 3s. 3d.; small avarage and second quality at from 2s. to 2s. 3d. per cubic foot.

ELM LOGS.—The good damand at high prices continues. First-class large wood, 2s. 10d. to 3s.; small average and second-class wood at 2s. 3d. per cubic foot.

ASH LOGS.—The demand is good for prime quality. Price—1s. 8d. to 2s. 1d. per cubic foot, according to average girth.

BIRCH LOGS.—There is very good enquiry, and prices are firm. Price—1s. 7d. to 2s. per cubic foot, according to average girth.

ROCK MAPLE LOGS.—There is fair demand for prime, round, fresh wood with bark on. Price—1s. 10d. to 2s. per cubic foot.

QUEBEC WHITE PINE DEALS.–A fair amount of business has been done at advanced prices. 1st quality, Broad, £26 2s 6d to £28 11s 6d per standard; 1st quality, 11 in., £23 7s 6d to £25; 1st quality, 7" to 10" and Ends, £17 17s 6d to £21 13s; 2nd quality, Broad, £19 5s to £20 12s 6d; 2nd quality, 11 in., £16 10s to £18 4s 4d; 2nd quality, 7 in. to 10 in., £13 8s 1d to £15 9s 4d; 3rd quality, Broad, £12 7s 6d to £13 8s 1d; 3rd quality, 11 in., £11 to £11 13s 9d; 3rd quality Narrows, £8 11s 10d to £8 18s 9d; 4th quality, Broad, £9 5s to £9 12s 6d; 4th quality, 11 in., £8 11s 10d to £8 18s 9d; 4th quality, Narrows, £7 11s 3d to £8 5s.

RED PINE DEALS have been in good request, and prices are firm. Prices quoted—9 and 11 in. by 3 in., £12 7s 6d to £13 15s per standard; Narrows, £11 to £11 13s 9d.

QUEBEC WHITE PINE SIDINGS.—The demand has been good. The stocks are low and prices keep firm. First quality—2 in. thick, averaging 12 in. to 14 in. wide, at £19 11s 10d to £21 6s 3d per standard; 1½ in. thick, averaging 12 to 14 in. wide, £18 18s 1d to £20 12s 6d; 1¼ in. thick, averaging 12 to 13 in. wide, £18 4s 4d to £18 18s 1d; 1 in. thick, averaging 10 to 12 in. wide, £16 16s 10d to £17 17s 6d; 1½ and 2 in Strips, 4 to 7 in. wide, £15 16s 3d to £16 16s 10d; Second quality, 2 in. thick, averaging 12 to 14 in. wide, at £14 8s 9d to £15 16s 3d; 1¼ and 1½ in. thick, averaging 11 to 13 in. wide, £13 8s 1d to £14 15s 7d; 1 in. thick, averaging 10 to 12 in. wide, £12 14s 4d to £13 8s 1d. Third quality, 2 in. thick, 11 to 14 in. wide, £9 12s 6d to £11 6s 10d; 1, 1¼ and 1½ in. thick, averaging 10 to 13 in. wide, £8 5s to £10 6s 3d.

QUEBEC SPRUCE DEALS.—Prices remain firm. Third quality, £7 10s to £8 18s 9d; fourth quality, £7 4s 4d to £7 18s 1d per standard.

ST. JOHN PINE DEALS.—Prices keep steady at £7 17s 6d to £8 5s.

ST. JOHN SPRUCE DEALS (2nd quality average).—The demand keeps good. Prices quoted—£7 18s 1d to £9 19s 4d per standard.

LONDON, ENG.

ST. JOHN BIRCH LOGS.—There is a steady demand and prices are firm.

ST. JOHN BIRCH PLANKS are in request. Brice—£8 5s to £9 per standard.

THE BOSTON MARKET.

(Correspondence of the CANADA LUMBERMAN.)

Spruce lumber is moving rather better, and the market is well sustained. This is for actual business, while commission men and those that have no mills are quoting all sorts of prices. Small spruce and randoms have to be sold a little under agreement prices, while large and full dimensions bring agreement prices or a little better:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 12 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	17 00
Out boards planed one side	14.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.50 to $15.00
Spruce flooring	20.00 to 23.00

Hemlock is scarce, with virtually no dimensions offering. Boards are firm at $17@18 for eastern. There are a few Pennsylvania boards on the market and they bring $20.50, with $16 for 20s. and $12 for 14s.

Western pine continues firm with only a fair demand from this market.

Uppers, 1 in.	$58.00 to $60.00
1¼ to 2 in.	60.00 " 62.00
3 and 4 in.	70.00 " 75.00
Selects, 1 to 4 in.	54.00 " 68.00
Fine common, 1 to 3 in.	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	28.00 " 32.00
Coffin boards	26.00 " 28.00

Ash is holding its own, with prices hovering about the same level as before; $44 for 1-inch, $48 for 1¼ and 1½-inch, $51 for 2-inch, and $60 to $63 for 3 and 4-inch. Reports of the movements of white ash are somewhat conflicting and misleading, but a good fair demand is the general report. Brown ash is more plentiful in supply and brings $46 to $48 for 1-inch and $50 to $52 for 2-inch. The great dearth of this stock is now apparently overcome in a measure.

Clapboards are very quiet, with quotations nominally unchanged:

Spruce, extra	$29.00 to $30.00
Spruce, clear	27.00 " 28.00
Spruce, 2nd clear	23.00 " 25.00
Pine, extra	40.00 to $45.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42.50 " 45.00
Second grade	40.00 " 42.00

Cedar shingles are firmer, under the prices of the new association of manufacturers. The association quotations are at $3.25 for extra; clear, $2.85; second clear, $2.35. These prices are for Boston, freight paid. The market here is firmer at:

Extra cedar, best brands	$3.00 to $3 15
Clear cedar	2.65 to 2.70
2nd clear cedar	2.10 " 2.25
Clear white	2.00
Extra No. 1	1.50

Laths continue very firm, with a positive shortage mentioned. New York reports a good demand, with the market firm: 1⅝ inch, $3 to $3.15; 1½ inch, $2.85 to $2.95.

BOSTON, April 16th, 1900.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., APRIL 25, 1900 No. 14.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

ENGAGEMENT TO REPRESENT IN AUSTralia or Africa responsible lumber shipper, by a reliable and experienced man; age 44 Address, "LUMBERMAN," Box 12, Kaslo, B.C.

TO CANADIAN MANUFACTURERS.

BRITISH FIRM OF TIMBER IMPORTERS desire shipments from Canada of large quantities of doors and mouldings. Manufacturers are asked to send particulars, stating the quantity they can supply, to Box 30, CANADA LUMBERMAN.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

Valuable Timber Berth

BY AUCTION

TOWNSHIP 139, NORTH SHORE OF LAKE HURON

The undersigned has received instructions to offer for sale by auction, at the Rotunda of the Board of Trade, Toronto, on THURSDAY, MAY 3RD, 1900, immediately after the sale of Cook and Brothers' limits,

Timber Berth 139, north shore of Lake Huron (being 36 square miles, more or less).

For terms and conditions of sale, and for all particulars, apply to Geo. H. Perley, Ottawa.

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

There have been evidences during the past week that the pine market is not as firm as it has been, although as yet it cannot be said that prices have receded. There does not seem to be much life to the market, from which it appears that consumers are not greatly in need of lumber. This may be accounted for by the backward spring and consequent delay in the commencement of building operations. Purchasers of lumber seem to be in no hurry to have the stock shipped. A favorable feature of the market is the fact that several manufacturers have already disposed of a large proportion of their season's cut. Thus when the mills commence operations there will not be the usual quantity of stock thrust upon the market. It is generally admitted that present prices of pine and hardwood lumber will not hold much longer, the question in doubt being as to how soon the break will occur. More enquiries are being received for box and mill cull lumber than for the other grades, and it is possible that prices of these grades will not recede for some time to come. The dry stock of mill culls at the mills has become completely exhausted, while the bulk of the production for 1900 has been sold ahead. There is also a good demand for Norway pine for export, and this stock is likely to hold its own for some time.

QUEBEC AND NEW BRUNSWICK.

The spruce market has felt the effects of the alarming report from New York of a serious break in prices. Investigation proves, however, that nothing to cause alarm has occurred, and that the lowering of prices was the result of exceptional conditions and likely to be only temporary. Local and export trade is fairly active, the most urgent demand pertaining to the lower grades of stock and dimension timber. Cedar shingles are holding firm in price, and some sales are reported on the basis fixed by the new association of manufacturers, namely, $3.25 for extras on Boston rate of freight. It is quite probable that this basis will be maintained, as the ultimate goal of the association is understood to be $3.50. We question, however, whether these prices will be reached in the near future. Another meeting of the association was held on the 18th inst., at which arrangements were inaugurated to take over the stock of smaller manufacturers who wish to realize on their holdings. Should this be successfully accomplished it will no doubt strengthen the market, but there is just the danger that prices may be advanced to such a degree as to allow other classes of shingles to find their way into the natural market for cedar shingles. Spruce deals for export are selling at about the same prices as heretofore. Many of the mills have already sold their season's production.

UNITED STATES.

Reports from the United States lumber markets are in some respects disappointing. The season has been backward and a slight reduction in price is being offered by holders of stock. Pine piece stuff shows more weakness than the other classes of lumber. There is a general shortage of inch lumber in nearly all the leading markets, as the box factories are still purchasing low grade pine in large quantities. The box trade is so brisk that it seems almost impossible to satisfy the demand for stock from that quarter. Buffalo and Tonawanda dealers tell of light trade, and it is evident that the East is not purchasing to any extent.

The spruce market has weakened slightly. This is largely due to the arrival in New York harbor of about thirty cargoes of lumber. Many of these vessels had been beating back and forth waiting until a change in the weather would make it safe to make port. The result was that prices were forced down from two dollars to four dollars per thousand, but it is said that the market is again recovering, and that spruce prices are likely to remain firm throughout the season. In the New York market eastern spruce of thirteen feet average is strong and active. Lath is quoted at $3.50 to $3.75.

The hardwood market retains its strength. Offerings of white ash are reported to be more numerous, but to offset this is the announcement that the cut of northern hardwood logs was not exceptionally heavy. At Buffalo and Boston an increased quantity of maple is making its appearance, but the demand is improving in a corresponding degree. Some of the manufacturing concerns are using thick maple in place of thick ash. Basswood is selling at $31 to $32 for inch No. one and two, $33 to $35 for one and one-quarter and one and one-half inch, and $35 for two inch.

FOREIGN.

It is a difficult problem to solve the British lumber market. The high price of lumber has no doubt materially decreased the volume of consumption, and

the basis of prices has only been maintained by the firm position taken by shippers. Whether they will be obliged to weaken in their asking price is a question in doubt, but unless there should develop an exceptionally good demand from South Africa, France, and Germany, we would not be surprised if lower prices would have to be met before long. Spruce and pine deals have, to our mind, reached their limit of value under present conditions. There seems to be a considerable enquiry for oak and elm planks, a desire being shown by importers to purchase more liberally from Canada than heretofore. But the fact has also been brought out that the importers have not regarded the prices quoted by Canadian shippers as offering much inducement. Reports from South American markets tell of favorable conditions and a moderate demand for lumber.

STOCKS AND PRICES.

Smith Bros., of Blissville, N. B., have taken out over 2,000,000 feet of logs during the past winter.

The McKinley-Wood Lumber Co., of Parry Sound, Ont., expect to cut 1,000,000 feet of lumber this season.

The Nelson Saw & Planing Mill Co., of Nelson, B. C., have purchased 4,000,000 feet of logs for the season's supply.

J. L. Reaume & Co., of Essex, Ont., have about two million feet of logs and 1200 cords of bolts in their yard for their season's supply. They have also about five thousand logs in the woods waiting to be hauled to the mill.

The W. H. Kelly Lumber Co., of Buckingham, Que., have sold their production of lumber this year to Alex McLaren, of Montreal, the consideration being given as $300,000. The lumber will be exported to the European and United States markets.

A correspondent at Wiarton writes that the production of hardwood logs in that district last winter was much below the estimate of 18,000,000 feet as given in a recent issue of this journal. He states that not more than 7,000,000 feet of hardwood logs were taken out by the mill owners of Wiarton, and that much of the coming season's production of lumber has already been contracted for.

An important deal has just been concluded, by which the Michigan Land & Lumber Co., of Bay City, obtain control of the mills and stock of the Blind River Lumber Co. at Blind River, Algoma district. For the plant the company paid $28,000, and for the production of logs $26,000. The transfer of the property is looked upon as a direct result of the prohibition of the export of saw logs.

Advices from the Aroostook river, flowing into the St. John, between Woodstock and Grand Falls, N. B., state that the winter's cut will be about 40,000,000 feet, divided as follows: Hale, 10,000,000 feet spruce, 4,000,000 cedar; Hilyards, 7,000,000 spruce; McCollum, 3,000,000 spruce; Fraser, 3,000,000 spruce; Estey, 2,500,000 spruce, 200,000 birch timber; Upham, 3,500,000 spruce; Beveridge, 2,000,000 spruce; scattering along the shore, 3,000,000 feet.

Alfred Dickie, of Lower Stewiacke, N. S., estimates that his cut of lumber for the present season will be about 40,000,000 feet, divided among the various mills as follows: Lower Stewiacke and St. Andrews', 7,000,000 feet; Tusket, 14,000,000 feet; Musquodoboit Harbor, 6,000,000 feet; Ship Harbor, 5,000,000 feet; Three Fathom Harbor, 2,000,000 feet; Landsdowne, 2,000,000 feet; Liscombe, 1,000,000 feet. Several portable mills and other operations not mentioned in the above list, 3,000,000 feet. Already this season Mr. Dickie has shipped five cargoes of lumber, two going to Glasgow, two to New York and one to New Haven. He has chartered about thirty-five vessels to carry cargoes of lumber this year.

Manufacturers in a position to supply oak and elm planks, 12 inch and up wide, for export to Great Britain, are asked to send their business cards to this office.

THE BOSTON MARKET.

(Correspondence of the CANADA LUMBERMAN.)

The improvement in the demand for spruce lumber last noted has been better than continued. Sellers report an excellent demand for large timber, 10x12 and up, with orders that cannot be filled as soon as they are wanted. On this class of timber prices are very firm, with full agreement prices, or even a little better. On small dimensions the market continues easy, however, with full agreement prices not easy to get. This state of the market is easily understood when it is stated that housebuilding is not active, while factories and large construction are the present feature. Agreement prices are steady:

Frames, 9 inch and under	$17.00
10 and 12 in. dimensions	19.00
10 and 2 in. random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	17 00
Out boards planed one side	14.00
Spruce flooring	20.00 to 23.00
Furring, 1 x 2, 1 x 2½ and 1 x 3 planed one side	13.50 to $15 00

Hemlock is yet scarce, with no dimensions offering. Boards are nominally very firm:

Eastern	$17.00 to $18 00
Pennsylvania	20.50

with 16 for 20s and $12 for 14s.

The market on western pine is well sustained, with a fair demand:

Uppers, 1 in	$58.00 to $60.00
1¼ to 2 in	60.00 " 62.00
3 and 4 in	70.00 " 75.00
Selects, 1 to 4 in	54.00 " 68.00
Fine common, 1 to 3 in	48.00 " 62.00
Sheathings	40.00 " 56.00
Barn boards	28.00 " 32.00
Coffin boards	26.00 " 28.00

Finishing hardwoods are in quiet request, with little change in the market:

Whitewood, 1 in	$37.00 to $39.00
Whitewood, thicker	38.00 " 44.00
Saps, inch	28.00 " 30.00
Common	25.00 " 28.00
Quartered oak	70.00 " 80.00
Fancy Oak	90.00 " 100.00
Plain Oak	35.00 " 48.00
Ash	38.00 " 50.00
Cherry	90.00 " 130.00
Maple	30.00 " 40.00
Sycamore, quartered inch	40.00 " 50.00
Walnut	100.00 " 130.00

Clapboards continue very quiet, and yet it is suggested that it would take no great demand to start the market up, since the supply is positively limited. Manufacturers say that they can hardly afford to use big spruce for clapboards under the present good demand and high prices for large timber:

Spruce, extra	$29.00 to $30.00
Spruce, clear	27.00 " 28 00
Spruce, 2nd clear	23.00 " 25.00
Pine, extra	40.00 " 45.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42 50 " 45.00
Second grade	40.00 " 42.00

Cedar shingles are firm at the recent advance made in prices by the manufacturer's association:

Extra	$3.25
Clear	2.85
2nd clear	2.35
Clear white	2.00
Extra No. 1	1.50

These prices are for Boston, freight paid.

Laths are very firm, with a good demand:

1⅝ inch	$3.10 to $3.15
1½ inch	2.85 " 2.95

BOSTON, April 24th, 1900.

CONDITIONS AT LIVERPOOL.

The arrivals from British North America during March, says Farnworth & Jardine's wood circular, have been 6,180 tons register, against 5,200 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1898, 1899, and 1900 has been 55,521, 50,896, and 55,847 tons respectively. Business during the past month has been quiet. The arrivals have been fairly moderate, but the deliveries have been rather disappointing. However, stocks generally are light, and prices continue steady.

CANADIAN WOODS.— Pine Timber — Of waney the deliveries have been fairly satisfactory, and the stock is now very light; prices are firm. Square is only in limited request, and the stock is sufficient. Red pine: There has been little enquiry, and the stock is almost exhausted. Oak: There has been a little more enquiry for next season's shipments, and prices are firm; the consumption, however, has been small, and although the stock of first-class wood is not large, it is sufficient for present requirements. Elm: There has been fair enquiry and prices rule high; the stock is almost bare. Ash: Large wood has been in fair request and prices are firm. Pine deals: The deliveries have been fairly satisfactory; the stock is now reduced to more moderate compass, and a considerable advance in value has been established. Red pine deals continue in good demand, and prices are firm.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS. — The arrivals slightly exceed those of the corresponding month last year, viz.:— 2,769 standards, against 2,650 standards; the deliveries have been satisfactory, and the stock is fairly moderate; there is little change in value to report, and steady progress is being made in contracting for next season's delivery. Pine deals: There has been more enquiry and stocks are reduced.

BIRCH.— Of logs, chiefly from St. John, there has been a moderate import; the deliveries have been fair, and the stock is not too large; values are unchanged. Planks have been imported freely, and are going largely into consumption direct from the quay; stocks are light and prices continue steady.

LUMBERING AT SACKVILLE.

A good deal of activity is displayed the present season in lumbering operations about Sackville, New Brunswick. Pelton & Beharrel have purchased the Midjie lumbering properties of Ogden & Hicks for $23,000. It embraces about 3,000 acres. They expect to take off 2,000.000 feet this season. Another new operator is C. J. Willis, who purchased the Cook property and has sawn 750,000 feet this season. Hon. D. L. Hanington is lumbering on the Dorchester Road, and will cut about 400,000 feet; Lew Johnson, at Westcock, about 800,000 feet; C. Pickard, at Fairfield and Midjie, 1,000,000 feet; Wallace Copp, 500,000 feet; B. D. Teed, McLeod and Spencer, each about 300,000 feet, and Cousins, S. McAllister and A. Seaman, each 200,000 feet. The Calhoun Lumber Co. purchased from A. & W. Ogden their Beech Hill lands, 1,000 acres, for $5,000. These lands are being lumbered closely by the Calhoun Co., and will yield some 3,000,000 feet. The same company will cut a million feet at Calhoun's Mills, Memramcook. It is also operating extensively at Gaspe. The largest operator in the district is J. L. Black. His recent purchase of the Kinnear mill properties, on the Aboushagan River, from Hiawatha Dixon, rounds out what was previously a splendid lumbering property. His area extends from Memramcook river into Westmorland parish, a belt thirteen miles long and five miles wide across the upper end of the parish of Sackville. These lands extend to within five miles of the Gulf shore, and are watered by the south-west and north-west branches of the Aboushagan river, which are most excellent streams for stream-driving.

TIMBER LIMIT SALE.

Timber limits on Lake Nipissing, French river and Vermillion river, the property of Mr. Alex. Fraser, of Ottawa, were offered for sale in Toronto by Mr. C. J. Townsend on April 19th. Three limits were put up. The bidding was very inactive. Berth No. 5, township of of Patterson, was withdrawn at $45,000, berth No. 16, township of Falconer, $40,000, and berth No. 22, township of Dowling, at $30,000, the latter figure being bid by Mr. J. K. McFadden, of Ottawa. The offers made did not nearly represent the value of the limits.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

27. A Copenhagen (Denmark) firm ask to to be placed in communication with a first rate exporter of wooden handles from Canada. They are willing to take up any other article suitable for the Scandanavian and Baltic market and offer a good reference.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., MAY 2, 1900 No. 15.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.—2,000 arpents Boardwood Limits near St. Hilaire Station, only 22 miles from Montreal—Red Oak, Maple, Beech. B. F. CAMPBELL, St. Hilaire Station, Que.

DECKING FOR SALE.

58 M FEET 3×3 25 TO 35 FEET B. C. PINE Decking. edge grain, clear stock. THE BRADLEY COMPANY, Hamilton, Ont.

TO CANADIAN MANUFACTURERS.

BRITISH FIRM OF TIMBER IMPORTERS desire shipments from Canada of large quantities of doors and mouldings. Manufacturers are asked to send particulars, stating the quantity they can supply, to Box 30, CANADA LUMBERMAN.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10 000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED—Hard Maple Logs in lots of 30 M ft. board measure, and upwards, to be sawn to order; whole product taken except culls, a large percentage green. Address, R. E. KINSMAN, Hamilton.

FOR SALE.

SOME MAPLE AND ELM LUMBER; ALSO 45 horse power Steam Mill, cheap; Foundry and Machine Shop to rent, very reasonable. J. C. SCRIPTURE, Colborne, Ont.

BOOKKEEPER WANTED.

COMPETENT BOOKKEEPER; ONE CONversant with the lumber business Apply giving age, qualifications and copy of references. Box 18, CANADA LUMBERMAN.

Limits For Sale

TOWNSHIP OF ARMAND, P.Q.

About 42 square miles in above Township, well timbered and well watered. Logs can be hauled partly to Temiscouata Railway, but the greater part can be driven to advantage into the St. John River. For particulars apply to

H. M. PRICE & CO,
Quebec.

CURRENT TRADE CONDITIONS.

ONTARIO.

The topic of conversation among lumbermen is the fire at the Chaudiere, which destroyed a vast quantity of lumber and several mills and yards. It is difficult to estimate the effect of taking out of the market upwards of 150,000,000 feet of lumber. Much of this stock was sold for shipment to England and the United States, and the remainder was intended to supply the local demand. Other sources of supply will have to be found, and the result will likely be a decided stiffening of prices. In addition to the lumber burned, mills were destroyed, and thus the market will be relieved of a portion of the intended cut of these mills. Some of the logs will probably be manufactured by other mills, but the total cut of the Ottawa Valley for the season is certain to be considerably reduced by the fire. The lumber was dry stock, which at the present time is very scarce. In our opinion, there will be a general advance in the price of white pine, this advance to hold until the dry stock of this season's manufacture is ready for shipment, which will not be until midsummer at least. At the present time contracts for new stock are being entered into very freely. There is an exceptionally good demand for export lumber, both of pine and hardwood.

QUEBEC AND NEW BRUNSWICK.

Some of the Montreal and Quebec shippers were affected by the recent fire at the Chaudiere, and as a result export trade is somewhat unsettled. The destruction of such a large quantity of lumber may possibly diminish the shipments from the St. Lawrence. The Quebec timber market is quite firm, square and waney pine showing a tendency to advance in price. Square pine, 40 to 45 feet average, is quoted at 30 to 36 cents, and Ottawa waney, 19 to 21 inch average, from 38 to 47 cents. In New Brunswick and Nova Scotia the outlook for the season's trade is good, although it is feared that a considerable quantity of logs will be hung up in the streams. In Nova Scotia, River Plate specifications are selling about $1.50 per thousand higher than last year, as the cut in some districts will be about 50 per cent. short of last season, on account of a scarcity of logs. Several vessels have been chartered to load at Yarmouth for Buenos Ayres.

UNITED STATES.

The peculiar position of the United States lumber market renders it difficult to give a review setting forth the actual conditions. It cannot be disputed that trade is by no means as active as it should be, although there has been some improvement during April. Manufacturers in the west are holding firmly to prices, but as it is admitted that the present high values cannot rule throughout the season, some dealers have concluded that the time has come to reduce their prices. The white pine dealers of Buffalo held a meeting last week to discuss the price question, at which it was decided to hold to the present list. In the Albany market 2½ and 3 inch uppers have been reduced to $65, 4 inch uppers to $70, 2½ inch selects to $55, 2½ inch fine common to $45 to $50, 1 by 10 and 12 shippers to $22, 1 by 12 No. 1 barn to $28, and 1 by 10 and 12 No. 2 barn to $24. From Bay City and Saginaw comes the report that prices are slightly weaker, 1 to 2 inch uppers selling at $54, and selects 8 inches and up at $49. A reduction of about $1 per thousand has also been made in No. 1 cuts, barn boards, inch box and shaky clear stock. The best grade of white pine shingles is quoted at Saginaw at $4.15, and C. B. shingles at $3.15. Cedar is worth $3.20 and $2.20 respectively, and lath is quoted at $4 and $4.50.

The spruce market has recovered as a result of a meeting of spruce manufacturers held at Bangor, Maine, on April 24th, at which it was agreed not to ship any lumber on the market, but to sell all cargoes before loading. A price list, published elsewhere, was also adopted.

Although no break in hardwood prices can be reported, the market is somewhat weaker, particularly for the class of hardwoods used in building operations. For elm, basswood, and maple for manufacturing purposes the demand is keeping up. At Boston maple sells at $30 for 1½ inch, $31 for 2 inch, and $34 for 2½ and 3 inch.

FOREIGN.

There is still a feeling of uneasiness in the British market, due to the high price of lumber and the consequent decrease in consumption at London and a few of the other leading ports. Inland buyers and builders are buying with the strictest economy, and unless the demand shall improve very considerably, some dealers anticipate lower prices. On the other hand, it is said that at the first sign of renewed trade importers will show a strong desire to contract for the balance of their season's requirements. It is reported that Sweden has 60,000 standards less for first-open-water shipment than last year, and that a limited quantity is expected from Finland. On the east coast of England spruce deals have been sold quite freely, and more enquiries have been made for this class of stock than has been experienced before. Referring to spruce deals, the Timber Trades Journal says that if Canadian producers would try to meet the requirements of the east coast trade by accurate cutting to specifications, there is little doubt but that a footing in those markets could be established, notwithstanding the fact that Atlantic freights and insurances are much greater than from the Baltic. Plasterers' laths are reported to be scarce in the British market, with correspondingly high prices. Birch planks also sell freely. Late advices fron Madrid and Santiago, Chili, state that the demand there for Canadian lumber this season will be quite extensive.

HICKORY SQUARES WANTED.

A British firm write us that they are desirous of purchasing large quantities of hickory squares, 44 in. x 7⅞ in., of perfect quality and cut to exact size. Persons in a position to supply such stock are asked to communicate with this office.

ENQUIRY FOR BLACK WALNUT.

A German firm of timber importers write the CANADA LUMBERMAN that they are in the market for black walnut, and that they can use any quantity in lumber as well as logs. We understand that there is a quantity of black walnut in Western Ontario, and would be pleased to open up correspondence with any person in a position to supply this class of timber.

STOCKS AND PRICES

Chappel Bros., of Tidnish, N.S., have taken out 8,000,000 feet of logs in Hants County the past season.

C. T. White has about 13,000,000 feet of logs ready to cut at his mills at Point Wolfe, Albert county, N. B.

The town of Toronto Junction, Ont., has let to A. H. Clemes the contract to supply 70,000 feet of lumber.

A. & P. White, of Pembroke, Ont., have sold all their season's production of red pine deals and sidings for export to Great Britain.

The Winnipeg city council has accepted the tender of D. E. Sprague for the supply of from 500,000 to 1,500,000 feet of lumber.

The first shore logs have arrived at the Springhill booms, above Fredericton, N. B. Spruce logs are said to be worth from $8 to $8.50 per thousand feet.

Fraser & Co. and Walter & Humberstone have purchased the timber limits of Moore & McDowall, fifty miles up the Saskatchewan river from Edmonton, N. W. T.

S. Gillies & Son, of Ailsa Craig, Ont., took out one and three-quarter million feet of logs last winter. Of this one million feet was soft elm, and the balance rock elm, maple and basswood. They have just finished shipping fifty cars of lumber.

This season the cut of Mohr & Ryan, of Killaloe Station, Ont., will be about 2,000,000 feet, a portion of which has been sold at a considerable advance on last season's prices. The above firm also took out last winter 6,000 telegraph and telephone poles.

It is learned from A. F. Bury Austin, of Montreal, that his stock of lumber which was consumed by the Hull fire last week was fully covered by insurance. He wishes to advise the trade that the fire will not interfere with this season's cut, as arrangements have been made with other mills to manufacture the logs, so that all contracts placed for the new cut will be filled promptly.

THE OTTAWA FIRE AND THE LUMBER MARKET.

(Correspondence of the CANADA LUMBERMAN)

Ottawa's lumber industry, in which was invested millions of dollars, and in which were employed thousands of men, suffered a severe blow by the fire which swept Hull and the western part of Ottawa on Thursday, April 26th. It is estimated that the loss will total $3,000,000 on the lumber destroyed. A leading lumberman states that in the twelve hours in which the flames played havoc in the immense reaches of lumber piles, at least 125,000,000 feet, representing all grades of lumber, were laid low in ashes. Over 2,000 men are temporarily thrown out of employment.

At present it is possible to give but an approximate idea of the individual losses. The heaviest loser is Mr. J. R. Booth, whose lumbering operations have made his name a familiar one on two continents. Mr. Booth's large mill was saved after a prolonged fight, but the greater part of his extensive yards are now nothing but an area of ashes. In his five yards Mr. Booth had at least 80,000,000 feet of lumber, he states, and of this fully 55,000,000 feet were destroyed. This was all valuable lumber, worth at least $18 per M, making the loss almost $1,000,000. All the outbuildings, stables, workshops, etc., at Booth's mill were destroyed, entailing a loss of at least $40,000. Over $60,000 was invested in the fitting up of the five yards. Mr. Booth's handsome private residence was also destroyed, entailing a loss of $60,000. A row of twenty houses belonging to him were also burned. Mr. Booth's total loss will probably be $1,200,000, on which no official insurance estimate can be secured. It is said, however, by responsible parties, to be $550,000.

The loss on the buildings, machinery, finished products and lumber of the E. B. Eddy Company will total nearly $1,500,000. This company lost over 4,000,000 feet of lumber. The loss on finished woodenware, paper, etc., amounted to over $300,000, the stock of matches alone, consisting of 20,000 cases, being valued at $60,000. The insurance on the Eddy property is placed at $400,000. Over 1,200 men are thrown out of employment. The Eddy Company will probably rebuild on a smaller scale, and it will be at least four years before the works assume the proportions attained before the fire.

In the extensive yards of the Export Lumber Company there were piled 45,000,000 feet of lumber, valued at $900,000, all of which was destroyed. This lumber was fully insured.

The Hull Lumber Company was also a heavy loser. Its well equipped mill and yards of lumber, containing at least 10,000,000 feet, rolled skyward in smoke, entailing a loss of $260,000. About 300 men are thrown out of employment as a result of the visit paid by the fire fiend to this industry. With characteristic energy the members of the company promptly decided to commence cutting operations at once, in Bronson & Weston's old mill and in Mason's mill at Hintonburg. As the Hull Lumber Company owns extensive limits, its mill will likely be rebuilt, probably on the old site. The insurance on this firm's property is estimated at about $100,000. As yet, however, the amount of the insurance has not been ascertained, as the insurance papers have not been arranged.

Gilmour & Hughson's well equipped mill and extensive yards at the east end of Hull had a close call, although situated over a mile from the scene of the first fire. As it was over 2,000,000 feet of lumber were consumed. A stern fight, successful in the end, was put up by the mill employees, assisted by 300 lumbermen employed at Bingham's boom farther up the river. Most of the lumber destroyed was the property of English and American firms, and is well insured. The insurance was carried by the Ottawa firms as mentioned above. The English, Canadian and American firms who had bought the lumber were Watson & Todd, Robert Cox & Co., Sharples & Company, Dobell, Beckett & Company and the Standard Oil Company.

It is estimated that nearly two-thirds of the extensive stock of lumber piled in and about Ottawa was swept away. J. Parr's planing mill was also destroyed, entailing a loss of $10,000. Fraser Hamilton's mill was reduced to ashes, loss $7,000; J. Oliver & Son's furniture factory was swept away, loss $10,000; and the Ottawa Specialty Company will have to build anew. The loss in this case was $45,000.

The fire may work a revolution in the lumber industry of Ottawa. It is doubtful whether it will again attain the proportions it had assumed before the fire. The sister cities of Ottawa and Hull depended largely on the lumber industry to support their poorer population which is now thrown on the charity of the public. Many of the knowing ones saw in the recent decline of the Ottawa lumber business the beginning of the end. Others, however, J. R. Booth amongst the mumber, were equally as positive that the lumber industry would for many years to come continue to support a large proportion of the population, and encouraged by their predictions, all are hoping that the lumber industry, re-organized with better protection, will employ even more men than before. It is understood that the Hull Lumber Company, which also suffered from fire a few years ago, intended to enlarge their mill, and it is possible the present mill will be restored on more extensive plans.

Already large gangs of men, under the personal supervision of Mr. J. R. Booth, are engaged repairing platforms, tramways, etc., and the large mill will be in operation in less than a week after the fire. This mill lay in the path of the fire fiend, but it was saved, the success being in a great measure due to the admirable private protective system of sprinklers and waterworks introduced about four years ago by Mr. Booth. During the progress of the fire, the mill was saturated with water inside and out, and the floors were covered with it three inches deep. As a result, though the wind carried the flames in and through the mill and piles in the vicinity, they could not secure a foothold, though stone buildings less than 100 feet away suffered the fate of the other establments on all sides. Mr. Booth has many sympathizers in his loss, and the entire population of Ottawa and Hull shares his feeling of pride in the escape of his splendidly equipped mills.

It is doubtful whether the shores of the Ottawa river within the limits of the suffering sister cities will ever again loom high and majestic in the long lines of lumber piles. The lumber, while always a source of pride, has by some been looked upon as a source of danger to the closely populated districts, and now that the long expected destruction has been done, the citizens express a firm determination that the lumberman must find his piling ground outside the city gates. The problems confronting the lumberman will be the difficulty of transporting the lumber from the mills, and the still greater difficulty of securing new quarters. The problem will probably be solved in part at least by direct shipment on car and boat from the mill, as is done in many large mills in the United States.

The fire loss cannot be represented by the figures denoting the value of the lumber destroyed. It must be remembered in this connection that a marked shortage in the lumber supply has been caused by the fire, and prices are bound to advance accordingly. For building purposes in Ottawa and Hull little lumber is available, and it is not likely there will be any large shipments to outside points. On the other hand, considerable lumber will have to be secured from other mills. The local market, for the present at least, is bound to be unsettled, and the disposal of the coming cut and the price thereof is a matter of conjecture.

OTTAWA, April 30th, 1900.

MEETING OF SPRUCE MANUFACTURERS.

At a meeting of eastern spruce manufacturers held at Bangor, Maine, last week, an association was formed called the Eastern Lumber Manufacturers' Association, and the following scale of prices adopted: 10 and 12 inch dimensions per M, $20; 3 by 9 inch dimensions, $19; 8 inch and under dimension, $18; 10 and 12 inch random lengths, 10 feet and up, $18; special bills, 24 and 25 feet, 10 and 12 inch, $21; random, 3 by 9, $18; special bills, 24 and 25 feet, 3 by 9, $20; 2 by 3, 2 by 4, 2 by 5, 2 by 6, 2 by 7, and 3 by 4 inches, 10 feet and up, random, $16; 2 by 9, 10 feet and up, random, $17.50. All other random lengths, 10 feet and up long, 8 inches and under wide, $16.50.

The existing scale of prices adopted March 14 by the manufacturers' association for rail shipments to Boston points, was adopted by this association for shipments to Boston points by water; terms on Boston shipments, the usual terms, viz., settlement in thirty days from date of delivery.

It was further agreed not to ship any lumber on the market. All lumber is to be shipped on orders only and sold before loaded.

It was reported that a committee for each river made a canvas of the situation in their respective districts to ascertain the amount of old logs and lumber now on hand and the amount of new logs that will be available for the supply of saw mills this season, with the following result:

Old logs and lumber—Kennebec river, 5,000,000 old logs; 1,000,000 old lumber. St. John river, 6,500,000 old logs; 4,000,000 old lumber. Penobscot river, 19,500,000 old logs; 4,000,000 old lumber. Total, 31,000,000 feet old logs; 9,000,000 feet old lumber.

New logs, available some time in June and later, providing the drives are clean, for manufacture into lumber for water shipment—Kennebec river, 40,000,000; Penobscot river, 55,000,000; St. John river (American logs), 86,000,000. Total, 181,000,000.

Add to this 15,000,000 of Ashland Mfg. Co.'s output of 28,000,000 feet of lumber, to be shipped by water from Bangor, balance going by rail, and the grand total available, under favorable driving conditions, for shipment by water, is 196,000,000 feet of spruce, the estimates not including pine or hemlock, or pulp logs.

This shows a shortage of spruce, as compared with the average of the past five years, approximating 25 per cent.

The steamer Ardova has been chartered to carry a cargo of deals in June from St. John, N.B., to a British port. The bark Dilbhur has been fixed to load deals at same port for Barcelona, Spain, at 63s 9d.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

28. The names of Canadian firms making "3-ply" hardwood (i. e., one thick and two thin veneers cemented together) are asked for.

29. The same enquirer wishes to correspond with Canadian lumber merchants who can sell large quantities of spruce-wood boxes, planed and unplaned, cut to size and packed in bales.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

The schooner Joseph Hay has been chartered to load lumber at Belleveau's Cove or Weymouth Bridge, N.S., for Cuba, at $7.

For 25 years Messrs. C. F. Denny, Frances D. Mott and James Dickson have constituted the firm of Denny, Mott & Dickson, timber importers, London, Eng. On March 31st last the business of the firm was transferred to a new company to be known as Denny, Mott & Dickson, Limited. Mr. C. F. Denny becomes chairman of the company, Mr. F. D. Mott vice-chairman, and Mr. James Dickson general managing director, while Messrs. M.S. Allan, Frank D. Mott, J. P. Dickson and Charles E. Denny, complete the board of directors.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., MAY 9, 1900 No. 16

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.—A medium sized Alligator. Reply, stating age, conditions and price, to "LOGS," c/o CANADA LUMBERMAN.

FOR SALE.—2,000 arpents Boardwood Limits near St. Hilaire Station, only 22 miles from Montreal—Red Oak, Maple, Beech. B. F. CAMPBELL, St. Hilaire Station, Que.

DECKING FOR SALE.

58 M FEET 3x3 25 TO 35 FEET B. C. PINE Decking edge grain, clear stock. THE BRADLEY COMPANY, Hamilton, Ont.

FOR SALE.—30,000 feet of 1 in. and 2 in. Dry Birch Lumber; could cut to order one million feet of Hemlock and Birch. Also for sale, Boiler and Engine; size of Boiler, 37 in diameter inside plate, 33 tubes ½ inches, length of tubes 12 feet, good front double doors; size of Engine, 10x12, Rocker valve, Waterous build. Address S. M. MOORE, Falkenburg, Ont.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10 000 acres, or more if desired

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED—Hard Maple Logs in lots of 30 M ft. board measure, and upwards, to be sawn to order; whole product taken except culls, a large percentage green. Address, R E. KINSMAN, Hamilton.

FOR SALE.

SOME MAPLE AND ELM LUMBER; ALSO 45 horse power Steam Mill, che p; Foundry and Machine Shop to rent, very reasonable. J. C. SCRIPTURE, Colborne, Ont.

SITUATION WANTED AS SUPERINTENDent or Foreman in Wood Pulp or Board Mill, by young Swede who has been engaged for 8 years in large mills in Sweden. Address, JOHANNES HETS, Sadthorquai, Hamburg, Germany.

WANTED.

30 TO 50 M CUBIC FEET OF RED SPRUCE, 10 in. and up; 750 to 1,000 pcs. Red Hemlock, 12 in. and up, for month June, 1900. Cash on delivery. Address, Box 630, Sorel, Que.

TELEPHONE POLES.

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths, from 25 to 55 feet. Also 5,000 Fence Posts. Quotations given by mail or wire. GEORGE & MCGREGOR, Killaloe Station, Ont.

Limits For Sale

TOWNSHIP OF ARMAND, P.Q.

About 42 square miles in above Township, well timbered and well watered. Logs can be hauled partly to Temiscouata Railway, but the greater part can be driven to advantage into the St. John River. For particulars apply to

H. M. PRICE & CO,
Quebec.

Waterous List—Rebuilt Machinery

We find it impossible to avoid taking machinery in trade. This we refit, guarantee in good working order and sell very low:

7½ x 36 ft. Direct Steam Feed.
8 x 12 Cunningham Rope Feed.
11 x 20 Cunningham Cable Feed, 48 x 12 drum, 10 grooves, ⅞ cable.
3 Block girder steel Carriage, 40 in. opening, steel faced, 14 in wheels. Boss Dogs run one year.
2 Block cast iron Hamilton 40 in. Carriage, Boss Dogs.
3 Block Sewry Carriage, 40 in. Boss Dogs, run one season.
7 Block Stearns Carriage, King Dog, would make two carriages. All have rolled V and flat track planed.
Waterous iron frame, Three Block Carriage, R. H. Single Edger.
Small wood frame and Two Block Carriage.
Kelley Kicker, Kline Loader, Steam Jump Saw, 60 in Saw.
1 Waterous Shingle Mill.
1 Boss Shingle Mill.
3 Saw Hamilton Edger, Single Edger, Slabsaw.
Endless Log Jack, spiked roll.
450 feet Conveyer Chain, ¾ in. round, 2 x ⅜ in. flat.
Steel Conveyor Chain, 18 in. iron flights.
11 x 15, 12 x 12, 12 x 14, 20 x 24, Engines.
60 x 16 Boiler, forty-four 4 x 16 tubes.
60 x 12 Boiler, Seventy-eight 3 x 12 tubes.
48 x 14 Boiler, forty-four 12 foot tubes.
Several smaller boilers.
10, 12, 16 horse upright Boilers.
25 h.p. submerged tube Marine upright Boiler, good for 100 lbs.
No. 5 Rotary Fire Pump, two 2½ in. take offs, double geared, good as new.
Several Hand Fire Engines; one 600 gallon Steam Fire Engine.
21 in. Little Giant Water Wheel with sun.
48 in. Leffel Water Wheel with sun.
10 in. Centrifugal Sand Pump, 300 feet of 2 guage delivery pipe.
7 in. four-sided Moulder.
32 in. Chopper, 20 in. Chopper, 12 in. Jolietter Crushers.
Circular Saws, 68, 64, 60, 52 and 45 in.
24 in. Champion Planer and Matcher.
Several Marine Engines and Boilers.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland, extensive Lumber Docks, Houses, Store Buildings, etc.; water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Throughout the timber trade there prevails a tendency towards lower prices. The spring demand for lumber has not developed altogether satisfactorily, the high price of all building materials having retarded building operations to some extent. It is understood that in Toronto the erection of some important buildings has been deferred after the tenders for same were taken. Nor have enquiries from the Eastern States been as numerous of late as might reasonably be expected. Much importance has been placed upon the fact that by the Ottawa fire upwards of 150,000,000 feet of lumber was taken out of the market, but it must be remembered that the bulk of this was export lumber, and consequently the effect upon the local market will not be as beneficial as some may suppose. Of course, the fact must be reckoned with that the rebuilding of the burned districts of Hull and Ottawa will consume a very large quantity of lumber.

A situation favorable to the maintenance of prices may be brought about by the hanging up in the streams of a large quantity of logs, as up to the present the progress made in rafting operations has been anything but satisfactory. It must also be remembered, however, that some logs were held over from last season, and that these will increase the lumber production. The hardwood manufacturers are holding very firmly to prices, but dealers are not buying with much liberality. They seem to prefer to wait in the hope of being able to purchase at lower values at a later date.

QUEBEC AND NEW BRUNSWICK.

News of a sharp break in prices in the New York market caused a feeling of uncertainty in the lumber trade of the Eastern Provinces, but as the situation seems to have been brought about by exceptional circumstances, there has since been a partial recovery of confidence. The news had the effect of checking, to some extent, the shipments to the Eastern States. Local trade is quite brisk, and as navigation on the St. Lawrence is now open, we look forward to the usual shipments to Great Britain and other foreign countries.

The log drives are reported to be making considerable progress, and the lumbermen expect that very few logs will be hung up. The cut on the Nashwaak is given as 25,000,000 feet.

MANITOBA AND BRITISH COLUMBIA.

The farmers of Manitoba and the Territories have been busily engaged in their seeding, and consequently of late there has not been a heavy movement of lumber on country account. Any falling off in this direction has been more than counterbalanced by increased building operations in Winnipeg and other places. The present outlook is for an active building season and a continuance of a strong demand for lumber. In British Columbia nearly every mill is working to its full capacity, and there seems little doubt but that the demand will take care of the entire production. Several vessels are loading for foreign destinations.

UNITED STATES.

Lumber dealers in the Eastern States have taken advantage of the Ottawa fire to maintain prices on a firm basis. Had it not been for this circumstance, it is quite possible that signs of weakness would have been visible before this time. The spring has been so backward that the usual quantity of lumber has not been consumed in building operations, while the lack of country trade has also had a deterrent influence. On the other hand, the manufacturing demand is holding up well, and mill owners are not offering any concessions to dealers. Manufacturers claim that prices are not too high considering the increased cost of production, and as they have already disposed of fully 25 per cent. of their season's production, they are in a position to feel independent for some time at least. Piece stuff only has shown weakness. At Saginaw log run pine is quoted at $16 to $22, box at $14 to $15, Norway at $14 and $14.50, and mill culls at $12. In the Boston market white pine is selling at $45 for inch fine common, $53 for inch selects, $67 for uppers and $36 for inch No. 1 cuts. From Boston again comes the report of scarcity of box and mill culls and cutting-up grades.

Spruce lumber shows a remarkable steadiness, although the demand is by no means large. For New York delivery

the price for 10 and 12 inch boards is $20. Hardwood prices are not as firm as they were, but the conditions surrounding the trade are such that no serious decline is expected. At a recent meeting of the Michigan Hardwood Lumber Association reports were submitted from sixty per cent. of the hardwood manufacturers of Michigan. These showed the output of hardwood logs this year to exceed that of last year by only 5 per cent. Birch and maple are, if anything, slightly weaker.

FOREIGN.

Some uncertainty seems to exist in Great Britain as to whether the present prices for wood goods will be maintained when the new cargoes commence to arrive. Importers find great difficulty in keeping up prices owing to the lessened consumption, and unless the demand shall improve we would not be surprised to learn of a break in prices. At the present time, however, the market for Canadian timber is holding up remarkably well. At many of the ports there is a scarcity of spruce. At London 3×9 third quality spruce in docks is held at £10 5s, and second quality at £10 10s. Pine deals also continue to sell at very satisfactory prices.

The French market is now quiet, although reports from Great Britain state that by no means have sufficient goods yet been purchased for consumers' needs. It is asserted that 150,000,000 feet of lumber has been consumed in construction work in connection with the Paris Exposition.

STOCKS AND PRICES

The quantity of lumber lost by J. R. Booth in the recent Ottawa fire is definitely given as 41,000,000 feet.

Jacob Lawrence & Son, of Sarnia, Ont., have recently purchased a quantity of lumber from the Ontario Lumber Company.

It is reported that the Haliburton Lumber Co. recently purchased some timber limits from Mr. G. W. Yarker, of Toronto.

Over 10,000,000 feet of dry stock has been shipped from Marinette, Wis., to Buffalo and Cleveland since the opening of navigation.

Three million feet of logs cut in the vicinity of Loch Lomond, N.B., during the past winter for the Mispec pulp mill, will shortly reach their destination.

It is estimated that W. & J. Sharples, of Quebec, will ship out of Ontario this season over 300,000 cubic feet of square timber, principally elm, ash and birch.

Rupp & Kerr and W. C. McClure, of Saginaw, Mich., who own a timber limit near Three Rivers, Que., are reported to have sold it, the consideration being $175,000.

The Snider Lumber Company, of Gravenhurst, Ont., have secured a stock of 11,000,000 feet of logs for this season's operations, and are running their mill day and night.

Messrs. George & McGregor, of Killaloe Station, Ont., offer for sale through the Wanted and For Sale Department of this issue 5,000 cedar telephone poles, from 25 to 55 feet in length, also 5,000 fence posts.

Honorable A. Dickey and R. Brownell, of Truro, N. S., are said to have sold to the American Furniture Company, of Oxford, N. S., a saw mill and 700 acres of timber land situated at River Philip, Cumberland county.

The shingle manufacturers of Washington have failed to agree upon a plan for reducing the output, and as a result prices of red cedar shingles are reported to be off in the Mississippi Valley territory from 12 to 20 cents per thousand.

J. W. Baird & Company, of West Hartlepool, England, advise us that they are in the market for a quantity of Canadian birch planks, 15 to 16 feet in length and 2 to 2½ inches thick, to be prime first quality wood, suitable for cabinet work.

J. W. Munro, of Pembroke, Ont., is reported to have sold his timber limits in the township of McKim to Toronto parties for the sum of $45,000. It is also stated that Mr. Munro has purchased the Bronson & Weston limits on the Upper Ottawa for a sum in the neighborhood of $200,000.

Duncan Brewer & Company, of Duluth, Minn., have sold of this year's manufacture all their No. 4 and 5 boards and lath and 1,500,000 feet of No. 3 and better. Merrill & Ring, of same place, have sold all their lath and shingles, 1,000,000 of No. 3 and 4 boards, and 10,000,000 feet of No. 2 and better.

The steamship Vancouver sailed from Montreal last week for Liverpool with 200 standards of deals, four cars of pulp, ten cars of blocks and ten cars of lumber. The steamer Ramore Head took on 150 standards of deals at Montreal, and 350 loads of timber and 600 standards of deals at Quebec. She sailed for Belfast on the 8th inst. The steamship Rydal Holme will load a full cargo of deals at Montreal for Newcastle.

The Montreal representative of a British manufacturing firm desires to secure tenders from Canadian lumber manufacturers or dealers for one million feet of mill run inch lumber, undressed, to be delivered f.o.b. Glasgow or f.o.b. Montreal for reshipment per Glasgow steamer. Delivery may be made according to convenience of shipper at any time during the season of open navigation. This lumber is required for making crates and packing cases. Persons wishing to figure on this order may obtain particulars by communicating with this office.

ENUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada, in London, Eng.

30. A timber house who are buyers of large quantities of mouldings and ready made sashes and frames, which might be worked from white pine, red pine, or bass wood, desire to correspond with large makers in Canada.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

CANADIAN RED PINE.

In the Ottawa district of Canada there is an abundance of red pine that was at one time profitable to ship to the British market, but which, says The Timber Trades Journal, of London, England, since has suffered from competition with cheaper goods, until it has become hardly recognized as an article of import in the wood markets of Europe. Now that the prices of Baltic yellow deals have reached a level that would cover the cost of importing red pine and leave a margin of profit besides, the opportunity should not be lost of reviving the dormant market for the Canadian wood; but to do this with any chance of success in the competition with the ordinary deals would necessitate a thorough change in the methods of sorting and manufacture. Consumers here must have something in the nature of marks or brands on the deals that will signify the class to which they belong, and the lengths cut to the usual variety for them to select from. Red pine is in every way suitable for carpentering and joinery work, and to establish a permanent trade in it on this side of the Atlantic, in our opinion, only wants a little management on the other. The likelihood of Swedish or White Sea deals of the better class ever going back to the low prices of ten years ago is highly improbable from the lessened supply, which has been decreasing for years. To find some class of timber that will do in the place of the North of Europe yellow deal, that is equal in quality, at a lower price, is what consumers are looking for, and importers might profitably meet the desire by enlarging the trade in red pine. But the shippers, or lumbermen, in Canada would have to cut the wood in a suitable way for the building trade, and mark or brand it as well. To both the importer and the consumer the distinguishing mark is of considerable utility as forming a guarantee of quality that obviates all disputes, besides facilitating sales amongst the building fraternity, who have not always the leisure or the ability to judge those essential points for themselves. At any rate, the suggestions we offer seem feasible, and we shall be glad to hear the opinions of those who have dealt in red pine as to any reasons that may stand in the way of its adoption as a cheap building wood of the future.

SALE OF TIMBER PROPERTY.

Nearly five hundred square miles of timber limits belonging to the Cook Bros. Lumber Company, Limited, were offered for sale in the rotunda of the Board of Trade building, Toronto, on Thursday, May 3rd. The limits are situated on the north shore of Lake Huron, and consist of thirteen parcels of 36 square miles each and one parcel of 25 1-2 square miles, making a total of 493 1-2 square miles.

There was a large attendance of lumbermen, but only one or two persons represented the Michigan interests. The sale was conducted by Mr. Peter Ryan. At the beginning the bidding was decidedly slow and the first five parcels were withdrawn. The sixth berth, No. 155, on the north shore of Lake Huron, and containing 25 1-2 square miles, was purchased by the Victoria Harbor Lumber Company, at $1,500 per mile. Berths No. 156 and 157 were withdrawn at $5,500 and $6,000 per mile respectively. Parcel No. 9, being berth No. 161, was purchased by W. J. Sheppard, of the Victoria Harbor Lumber Company, at $3,800 per mile. No. 10 and 11 were withdrawn, while No. 12, Berth No. 167, was secured by Brennan & Sons, of Hamilton, at $1,600 per mile. There was no bid for parcel 13, but parcel 14, Berth No. 194, township of Otter, went to W. J. Sheppard, of the Georgian Bay Lumber Company, at $1,600 per mile. The saw mill property at Spragge and the side-wheel steamer "Meteor" were then offered, but no bids being received both were withdrawn.

Mr. Ryan also placed under the hammer timber Berth No. 139 on the north shore of Lake Huron, the property of George H. Perley, Ottawa. This berth was also withdrawn.

THE COOPERAGE MARKET.

The American Lumberman thus refers to the cooperage market at Buffalo:

There is already a casting about for apple-barrel stock, as the prospect of a crop is so far good. There will be no buying of second-class supply by barrel men as yet though, for there are plenty of chances to take between now and fall. The jobbers think they will be able to stand the demand, especially as the eastern call for flour-barrel stock is light, though most other industries needing barrels are active. The big decline of late is in coiled hoops, 6-foot lengths, selling at $9.50 to $10 and 5½-foot at $8 75. Staves remain firm at $8.75 to $9 for first class dry elm flour-barrel stock, with basswood heading at 6½ to 6⅔ cents a set, all by carload lots. In tight barrel stock tierce staves bring $28 and hoops $13. Coopers are getting 38 to 40 cents for flour barrels and paying 6½ to 7 cents for making. Tierces bring from $1.25 to $1.35 and the maker gets 33 cents. There is the usual complaint of low prices and small profits in the barrel business, though jobbers appear to be doing pretty well. The growing scarcity of elm constantly increases the use of maple and other hardwoods for slack barrel staves.

The Laurentide Pulp Company suffered a loss of $80,000 by fire a few days ago, their pulp and wood-preparing mills at Grand Mere, Que., being destroyed.

BRITISH TIMBER SALE.

Following is the result of a sale of wood goods held by Churchill & Sim, London, England, on April 26th:

PINE.—Ex Ailsa Craig, from Quebec—13 ft. 3x8 in. third quality white pine, £9; 12 in. 3 x8, £9; 13 ft. 3x7, £9; 12 ft. 3x7, £9 and £9 5s. Ex Leander, from Quebec—13 ft. 3x9 in. third quality white pine, £9 15s and £10; 11 ft. 3x9, £11 10s; 10 ft. 3x9, £9 10s. Ex Yola, from Quebec—13 ft. 3x12-24 in. first quality, £18 15s; 12-16 ft. 3x12-19, £19; 14-16 ft. 3x11, £18 15s; 12-13 ft. 3x11, £18 15s. Ex Castlemoor, from Quebec—11 ft. 3-11 in. third quality, £10 5s; 11 ft. 3x11 in., £10 10s. Ex Forest Holme, from Botwoodville, Nfld.—6-16 ft. 2x8-16 in. second quality, £11 5s; 10-14 ft. 2x7, £10 5s; 8-16 ft. 1½x8-13, £11 10s; 6-18 ft. 1½x4-6, £10; 7-18 ft. 1¼ x 6, £9; 12-16 ft. 3x13-16, £8 10s; 6-11 ft. 3x12, £8 15s; 6-17 ft. 1x8, £8 15s; 9-13 ft. 1x7, £8 15s; 11-13 ft. 1x6, £8 5s; 11-14 ft. 1x5, £8.

SPRUCE.—Ex Ella Sayer, from Quebec—14 ft. 2x7, unassorted, £9. Ex Leander, from Quebec—10-11 ft. 3x9-14 in. second quality, £10; 10-11 ft. 3x9, £10 5s. Ex Canadia, from Quebec—13 ft. 3x9 second quality, £10 5s.

SHIPPING MATTERS.

Lumber freights are firm at $2 from Bay City and $2.12½ from Saginaw to Buffalo and common points, and $1.75 to $1.87½ respectively to Ohio ports.

The following charters are reported: Str. Lady Inveagh, St. John, N. B., to c.c. Ireland, deals, 52s 6d, July sailing; str. Pandosia, St. John, N. B., to w.c. England, deals, 50s; str. Kromberg, 2,217 tons, St. John, N. B., to w.c. England, deals, 50s, June loading.

The Timber Trades Journal reports the following charters: Steamer, 1,400 standards, St. Margaret's Bay, N.S., to Manchester, deals, 52s 6d; 1,200 standards, Hopewell Cape, N.B., to Manchester, 55s; boat, 750 standards, Montreal to east coast England, 50s; 750 tons, Miramichi to Cardiff, 52s 6d; 425 tons, Cape Tormentine, N.B., to Preston, 57s 6d.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., MAY 16, 1900 No. 17.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

DECKING FOR SALE.

58 M FEET 3x3 25 TO 35 FEET B. C. PINE Decking, edge grain, clear stock. THE BRADLEY COMPANY, Hamilton, Ont.

Waterous List—Rebuilt Machinery

We find it impossible to avoid taking machinery in trade. This we refit, guarantee in good working order and sell very low:

7½ x 36 ft. Direct Steam Feed.
8 x 12 Cunningham Rope Feed.
11 x 20 Cunningham Cable Feed, 48 x 12 drum, 10 grooves, ⅞ cable.
3 Block girder steel Carriage, 40 in. opening, steel faced, 14 in. wheels. Boss Dogs run one year.
2 Block cast iron Hamilton 40 in. Carriage, Boss Dogs.
3 Block Sewry Carriage, 40 in. Boss Dogs, run one season.
7 Block Stearns Carriage, King Dog, would make two carriages. All have rolled V and flat track planed.
Waterous iron frame, Three Block Carriage, R. H. Single Edger.
Small wood frame and Two Block Carriage.
Kelley Kicker, Kline Loader, Steam Jump Saw, 60 in Saw.
1 Waterous Shingle Mill.
1 Boss Shingle Mill.
3 Saw Hamilton Edger, Single Edger, Slabsaw.
Endless Log Jack, spiked roll.
450 feet Conveyer Chain, ¾ in. round, 2 x ⅜ in. flat.
Steel Conveyor Chain, 18 in. iron flights.
11 x 15, 12 x 12, 12 x 14, 20 x 24, Engines.
60 x 16 Boiler, forty-four 4 x 16 tubes.
60 x 12 Boiler, Seventy-eight 3 x 12 tubes.
48 x 14 Boiler, forty-four 12 foot tubes.
Several smaller boilers.
10, 12, 16 horse upright Boilers.
25 h.p. submerged tube Marine upright Boiler, good for 100 lbs.
No. 5 Rotary Fire Pump, two 2½ in. take offs, double geared, good as new.
Several Hand Fire Engines; one 600 gallon Steam Fire Engine.
21 in. Little Giant Water Wheel with sun.
48 in. Leffel Water Wheel with sun.
10 in. Centrifugal Sand Pump, 300 feet of 2 guage delivery pipe.
7 in. four-sided Moulder.
30 in. Chopper, 20 in. Chopper, 12 in. Jolietter Crushers.
Circular Saws, 68, 64, 60, 59 and 55 in.
24 in. Champion Planer and Matcher.
Several Marine Engines and Boilers.

WATEROUS, BRANTFORD CANADA

WANTED.—Hemlock, Spruce, or Red Pine, and 1 car 2 x 4 Cedar. Write, stating price F.O.B., R. J. DOUGALL, Hallville, Ont.

WANTED.—Stock to cut. Have fifty horse new portable mill, Waterous make, at liberty after June fifteenth, possibly sooner. THOMAS HOLLIS, Damascus, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED—Hard Maple Logs in lots of 30 M ft. board measure, and upwards, to be sawn to order; whole product taken except culls, a large percentage green. Address, R. E. KINSMAN, Hamilton.

WANTED.

LUMBER INSPECTOR DESIRES SITUATION; has had experience on the road. Apply Box 28, CANADA LUMBERMAN.

FOR SALE.

THREE CAR LOADS OF 35 IN. LONG, ¾ IN. thick, basswood syrup-barrel staves. Address, G. W. MITCHELL, Warwick P. O., Ont.

WANTED.

30 TO 50 M CUBIC FEET OF ROUND SPRUCE, 10 in. and up; 750 to 1,000 pcs. Round Hemlock, 12 in. and up, for month June, 1900. Cash on delivery. Address, Box 630, Sorel, Que.

TELEPHONE POLES.

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths, from 25 to 55 feet. Also 5,000 Fence Posts. Quotations given by mail or wire. GEORGE & MCGREGOR, Killaloe Station, Ont.

FOR SALE.

25 HORSE-POWER ENGINE, 4 HORSE-Power Boiler, one 4-Side Moulder, one -side Moulder, one 12-inch Janitor, one 24-inch Surface Planer, one 8 horse-power Engine and Boiler. TORONTO MACHINERY SUPPLY CO., TORONTO.

DIMENSION TIMBER WANTED.

A quantity of square White Pine, 12 x 12, twenty-two feet long and upwards; also twenty and twenty-two feet logs, White Pine, 1 inches diameter at small end. Must be sound. MOORE & MCGILLICUDDY, Goderich, Ont.

VALUABLE WATER POWER FOR SALE

Within ten miles of North Bay; estimated strength 2,000 horse-power; two hundred thousand cords pulpwood within radius of ten miles; railway facilities convenient. For further particulars apply to DR. J. B. CARRUTHERS, North Bay, Ont.

FOR SALE.

PINE AND HEMLOCK LATH, AND CEDAR Shingles. Write for prices. Also White Maple, Red Birch, Quartered Maple, Brown Ash, Basswood, Rock and Soft Elm, Maple. Have a few cars of 2 in. and 1 in. dry Soft Elm on hand at present time. Write us. KEENAN BROS., Owen Sound, Ont.

Limits For Sale

TOWNSHIP OF ARMAND, P.Q.

About 42 square miles in above Township, well timbered and well watered. Logs can be hauled partly to Temiscouata Railway, but the greater part can be driven to advantage into the St. John River. For particulars apply to

H. M. PRICE & CO,
Quebec.

The steamer Cunaxa has been fixed to load deals at St. John, N. B., for w.c. England, at 50 shillings.

CURRENT TRADE CONDITIONS.

ONTARIO.

There is unanimity in one respect in the reports received regarding the lumber market. All agree that there is not the snap about the demand that was anticipated. It is admitted that prices have about reached their limit under present conditions, and consequently consumers are only buying for their immediate requirements, feeling that in the near future they may be able to purchase stock at lower prices. Besides, the demand from the building trade has been somewhat backward owing to the high cost of materials of all kinds and to rumors of probable strikes. In the leading cities of Ontario agreements have recently been entered into with the trades unions which will ensure no interruption to building operations from strikes this season, and it is possible that from now on the development in building may be on a more satisfactory scale. Pine, hemlock and hardwood lumber have all felt the effects of the above conditions, and the market is, if anything, weaker. In Ottawa the trade is surrounded by so many uncertainties that it is almost impossible to gauge the future course of the market.

QUEBEC AND NEW BRUNSWICK.

The present outlook is that the shipment of lumber from the St. Lawrence this season will be lighter than usual, owing to the destruction by the Ottawa fire of a large quantity of export lumber. The tendency of the export trade is towards higher prices, as the owners of the burned stock will no doubt seek to replace it by purchases from other sources. It is reported that holders of certain stocks immediately marked up their prices as the result of the fire. Local trade in Quebec and New Brunswick is not all that could be desired. In Montreal the erection of several proposed buildings has been deferred until next year, when it is thought lumber prices will be lower. The demand from the Eastern States has also fallen off.

UNITED STATES.

The lumber trade of the United States is quiet. At wholesale points some weakness has been shown, but at manufacturing centers the situation is said to be stronger. The east is still waiting for lower prices, and until dealers at distributing points are given some hope of being able to replenish their stock at reasonable prices, they do not feel disposed to sacrifice their present holdings. This has brought about what might be termed a deadlock. Spruce and hemlock are selling at slightly lower figures, and it is probable that this will stimulate building operations in the eastern cities, as these comprise the chief building woods used in the east. Hardwood prices are being well maintained. Basswood seems to lead in demand, but new stock is expected to come on the market shortly. Shingle stocks in the eastern cities are low, and best 18 inch white pine sells at $4.

FOREIGN.

Reports from the British market do not speak very encouragingly of the outlook for the season's trade. The consumption has not improved as might be expected with the advent of spring, and it is feared that there will be considerable difficulty in keeping stocks from accumulating as the season advances. Some importers of wood goods are buying at the weekly auction sales owing to the high prices asked by shippers in exporting countries. There are, however, some favorable features to the market situation. The stocks of Canadian pine and spruce deals, etc., at the Surrey Commercial Docks at London are considerably less than one year ago. Of pine deals there were on April 30th of this year 323,999 pieces, and of spruce deals 162,706 pieces, against 369,357 and 355,305 pieces respectively one year ago. The stock of pine battens shows an increase of 40,000 pieces, but spruce battens are 120,000 pieces less than one year ago. It is also satisfactory to note that in no class of Canadian lumber has there been a decline in price during the past month; on the other hand, some varieties have advanced. At Glasgow second quality pine deals are about eight shillings per standard higher, selling at £19 18s 9d to £21 6s 3d for broad, and £16 10s for undersized. Fourth quality pine deals have advanced about four shillings, while red pine deals are firmer at £15 2s 6d to £16 10s per standard. In square and waney timber there has been some improvement, elm and ash selling about two shillings per cubic foot higher than one month ago. Quebec birch has also undergone an advance of about one shilling per cubic foot.

The following saw mills were recently destroyed by fire: The Peckham saw mill at Vandecar, Ont., loss $3,000; saw mill and sash and door factory of John McLaurin at Vankleek Hill, Ont., loss $6,000; Hunt's sawmill at Riverview, Ont.; saw mill at St. Joachim, Que., owned by the Quebec Seminary.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN).

The recent disastrous fire and its bearing on the lumbering industry in the Capital are still the most absorbing subjects of interest in commercial circles. In some quarters the spread of the fire is attributed to the presence of the large areas of lumber in the manufacturing district of the Chaudiere, and near the residential section further south. Hence there is an agitation on foot to so arrange the fire area and fire by-law that the mill owners will have to secure piling ground outside the city. Others suggest that the lumber be permitted to remain within the city limits, but at a safe stated distance from fireproof structures. Mr. J. R. Booth, the leading lumberman interested, has entered a vigorous protest to the proposal for removal. Answering the argument that the lumber was in the greatest degree responsible for the fire, he claims that its rapid spread was made possible by the streets of shingle-roofed frame houses, with which the burned area was in a great part built up. Other cities have came through worse fires than Ottawa, he claim, and though lumber was a great factor therein, few charged it with being responsible for the conflagration. In English and American cities the lumber is piled somewhat the same as in Ottawa, but, being surrounded by fireproof structures, the danger is reduced to a minimum. Mr. Booth has a large following of business men and others, who recognize what his and other lumbering concerns have done to build up and support Hull and Ottawa. They believe accordingly that he should be encouraged rather than discouraged, which will be the case if he is compelled to pile at a greater distance than heretofore.

Discussing the subject himself, Mr. Booth states that his present piling space is totally inadequate to contain the output of his mill, which is again running night and day. He will for various reasons be deprived of at least piling space for 30,000,000 feet, and to relieve the pressure he will have to have resource to increased shipments by rail and water. Unless he is permitted to use the remaining ground at his disposal, the lumber king states, he will be compelled to shut down his mills, throwing 1800 men out of employment. It will take at least a year and large capital to fit up yards at the distance proposed by some, and in the meantime the mills would be idle, depriving hundreds, now without a home, of their employment for that time. The council is thus called upon to face a serious problem. Many maintain that the driving out of the lumber interests will not affect the city, as other industries giving steadier employment and paying higher wages will succeed the lumber mills. As pointed out by Mr. Booth, the experience of past years has proven the fallacy of this prophecy. Several mills have shut down and nothing in the industrial line has taken their places, while those industries wiped out by the fire were many of them dependent on the lumber mills.

Mr. Booth states that the fire will only affect the export trade temporarily, and only to the extent of the export lumber wiped out by fire. Owing to shortage of piling space, his shipments must be largely increased, and hence any pressing shortage in the English and American markets will in a degree be satisfied.

Gilmour & Hughson's mill, which escaped the fire, is running full time, and the W. C. Edward's mill is being operated night and day to satisfy the increased demand resulting from the fire and loss of lumber. The Hull Lumber Co., whose mill and yards were wiped out, is operating Mason's mill, Hintonburg, and making preparations to operate the Ritchie mill at Aylmer and Bronson & Weston mills as well. The combined cut of these three mills will satisfy the shortage caused by the destruction of the old one. These mills will be operated night and day.

It is not likely that the Hull Lumber Company will rebuild its mill before next spring, as it is almost impossible to get timbers to build the mill, fit up the yards, etc. These will be got out probably during the coming winter.

The lumbermen state that the fire will not seriously affect the English market for some time, as sufficient lumber can be got now to supply present demands. Nearly all the lumber destroyed was seasoned stuff intended for later shipments, and there will be a shortage felt in this all next season, as the supply cannot be procured as readily as that of the green stuff.

Prices remain firm on the Ottawa market, but as extensive building operations have not yet been entered upon, the wholesale prices have not suffered an advance, they may any day, however, as soon as the question of fire areas and fire by-laws are settled, and the class of structures required decided upon.

Sir Thos. Hughes, head of the well-known Liverpool lumber firm of Hughes & Son, was in Ottawa last week and visited the Booth mill. He states that the outlook for Canadian lumber interests in England is good, and he does not anticipate any marked advance on account of the shortage of export lumber caused by the fire.

OTTAWA, May 14, 1900.

GLASGOW MARKET REPORT.

Messrs. Edmiston & Mitchells, in their monthly timber circular of 30th April, review that market as follows:

The timber trade has continued fairly active during the month just closed, and while buying generally has only been indulged in to a very moderate extent, it is satisfactory to find that the sawmills are fully employed. Prices for all wood goods have now reached a point at which retailers do not feel justified in holding heavy stocks, consequently buying is of a somewhat hand-to-mouth character. For the above reasons, c.i.f. purchasers of Quebec goods are under-bought, and must come into the market soon.

Scotch shipbuilders launched during April 27 vessels aggregating 26,545 tons, as against 25 vessels of 40,886 tons in 1899. The first part of the month brought no new orders for ships, but during the latter part new work amounting to 30,000 tons has been booked. Including these new orders it is estimated that the amount of work under construction in the Scotch shipyards aggregates 168,000 tons, of which the Clyde claims 160,000 tons. The high cost of material and labour prohibits shipowners from adding to their fleet to any large extent, although we hear of some good enquiries for further tonnage.

In house-building, while there is a marked falling-off, there continues to be quite a lot of good work being carried on, such as public buildings and better-class dwelling-houses. It is satisfactory to note that all the working-class houses so extensively built in and around Glasgow and other manufacturing centres recently are generally all occupied.

WANEY BOARDWOOD:—There have been a few orders placed during the month, one of 200 loads first-class Deckwood, 1400 cubic feet per page, at fully 2s. 9d. per cubic foot. In second-class Boardwood there has been little doing, one or two small sales at 1s. 7d. to 1s. 9d. per cubic foot.

RED PINE:—We hear of no business doing. There is, however, an inquiry in the market for 250 loads, but the stock is more than ample.

OAK:—We have no sales to report during the month. Long ogs, 50 feet and up, are being enquired for, but there are very few on hand. The stock of ordinary 65 to 70 cubic feet average is large.

ELM:—There is fairly active demand, and the stock on hand is light. Sales are reported at 3s. to 3s. 3d. per cubic foot, according to size.

QUEBEC BIRCH:—There have been two small arrivals of Canadian Logs via Portland, which were sold on contract. The demand is only moderate, and sales are mostly of a retail nature. 14½-inch average has been sold at 18d. "ex store," and 16-inch at 20d.

N. B. BIRCH.—There has been one small import from St. John, which went into store. Values range from 1s. 5d. to 1s. 7d. for 15 to 16-inch average, but the demand is not active.

N. B. PLANKS:—A Halifax shipment of 300 standards was placed this month at 12½d. per foot "ex quay." There is a fair enquiry, particularly for 2½-inch.

ASH:—The stock on hand is practically exhausted, and early arrivals should meet with a ready sale at good prices. Nominal value of 15-inch is 2s. 3d. in ponds.

DEALS:—There have been no transactions of importance during the month. Deliveries from public yards are, however, satisfactory, and well up to the average. Prices are without change, and well maintained. Current values are as follows:—Broad First Pine Deals have been sold at £25 to £28 10s.; 11-inch, £23 to £25; ends and non-dimensions, £17 to £22. Second Pine Deals—11-inch and up, £17 to £21; non-dimensions £13 to £15. Third Pine Deals—11-inch and up, £11 10s. to £13; narrows, £8 5s. to £9 15s.; ends, £7 10s. to £8 10s. Fourth Pine Deals—11-inch and up, £8 10s. to £9; narrows, £7 10s. to £8. Red Pine Deals—9 to 11-inch by 3 and 4 inch, £12 10s. to £14 10s.; narrows, £10 to £12 10s. First Quality Pine Sidings—8 to 9 inch average, £17 5s. to £18 10s.; 10 to 11 inch average, £18 10s. to £21 10s.; 12 to 13 inch average, £22 to £24. Spruce Deals—7 and 8 inch by 3 inch, £7 15s. to £8 5s.; 9 to 11 inch by 3 inch, £8 15s. to £9 10s.

MARKET CONDITIONS IN AUSTRALIA.

The following particulars of the timber market at Melbourne, Aus., are furnished by the last monthly timber report of Fraser & Co.:

There is practically no alteration to report in the state of the market during the past few weeks, the demand generally continuing active, while values have remained in the improved condition which has in late months been notified. In some descriptions a tendency to procure better rates has been manifested, but with the exception of a few quittances in small parcels, sellers have not shown any inclination to seek for increased prices upon those which we quoted in our circular of the 12th ult. Should, however, the consumption improve, or even no decrease be experienced within the next few months, there is every probability of higher figures being required, for the c.i.f. quotations from abroad are still on the upward grade, and eventually, we think, it will be found necessary for buyers in this colony to respond in proportion to such increase in shipping costs as may be shown in the near future. It is in all the more important classes of timber consumed in this market that higher rates are now asked for at the ports of exportation, and as the difficulty of securing tonnage for early shipment still exists, we anticipate that an advance in prices generally will be shown at this end for supplies now on the water and for operations arranged which will come to hand in the course of the next six months.

SPRUCE AND BALTIC WHITE DEALS:—Imports: 48,076 feet super. Arrival: Invincible, from San Francisco. Stocks are almost entirely in hands who require the same for their own manufacturing purposes. Values are consequently nominal, and of no guide to shippers.

OREGON PINE:—Imports: Nil. Importers and holders are firm, as stocks appear somewhat below the probable demand ere fresh arrivals can come upon the market. A fairly large line has changed hands at £7 10s. during the month, and although nothing of importance has been concluded at over this figure, no business will likely be done under £7 15s. per 1000 feet super. in the near future.

THE BARBADOS MARKET.

Of the lumber and shingle market at Barbados, West Indies, Messrs. Clairmonte, Mann & Company say:

With the exception of a small lot, which proceeded elsewhere, there have been no arrivals with white pine and spruce lumber during the fortnight, our yards are rather bare of both kinds. There is always a good demand for spruce during our reaping season, which extends up to June. Last sales were: White pine, $22.57 for first quality, and $16 for second quality; spruce, $21.00 for first quality.

Gaspe cedar shingles are in supply, and market very dull. There is a large lot in store unsold, principally small, for which $3.75 per M is asked, but much less would be accepted to make a sale. No late arrivals of laying shingles; last sales were made at $2.20 for cedar and $2.05 for spruce; cypress, we note the sale of 82 M ex Wm. F. Campbell from Wilmington, N.C., at $8.50 for 6-inch hearts, and $6.50 for 6-inch saps.

The city of Stratford, Ont., has let the contract for supply of lumber as follows: Pine plank, South River Lumber Co., $17.50 per M; tamarac, William Easson, Stratford, $14.50 per M; cedar, Simpson Bros., Wiarton, $14.40 per M.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, 9½ cents per 100 lbs Ottawa, Rockland and Hawkesbury to Montreal, for export only $1.10 per M ft., domestic 4½ cents per 100 lbs; Quebec, $2.10 per M ft., domestic 3½ cents per 100 lbs.; Arnprior to Montreal, for export only $1.60 per M ft., domestic 6½ cents per 100 lbs.; Quebec, export $2.60 per M ft, domestic 10½ cents per 100 lbs.; Pembroke to Montreal, for export only $1.85 per M ft., domestic 7½ cents per 100 lbs; Quebec for export only 2.85 per M ft., domestic 11½ cents per 100 lbs.; Ottawa to New York, all rail, 15 cents per 100 lbs; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to New York and points within regular lighterage limits of New York Harbor, seasoned pine lumber, lots of 50 M feet and up, via Williams Barge line from Albany, $3.25 per M feet, lath 65 cents per M pieces, lots 25c M pieces and over; from Arnprior, seasoned pine lumber $3.75 per M feet, lath 7 5cents per M pieces; from Douglas, Eganville and Pembroke, seasoned pine lumber $4.00 per M feet, lath 80 cents per M pieces, Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents. export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs. Rates quoted above are in cents per 100 lbs.; when quoted per M ft., minimum carload will be 10 M ft., lumber not exceeding 3,000 lbs. per M ft. Lath minimum carload 50 M pieces, not exceeding 600 lbs. per M pieces. Ottawa rates apply on shipments from Rockland and Hawkesbury.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., MAY 23, 1900 No. 18.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

DECKING FOR SALE.

58 M FEET 3x3 25 TO 35 FEET B. C. PINE Decking edge grain, clear stock. THE BRADLEY COMPANY, Hamilton, Ont.

Waterous List—Rebuilt Machinery

We find it impossible to avoid taking machinery in trade. This we refit, guarantee in good working order and sell very low:

7½ x 36 ft. Direct Steam Feed.
8 x 12 Cunningham Rope Feed.
11 x 20 Cunningham Cable Feed, 48 x 12 drum, 10 grooves, ⅞ cable.
3 Block girder steel Carriage, 40 in. opening, steel faced, 14 in. wheels. Boss Dogs run one year.
2 Block cast iron Hamilton 40 in. Carriage, Boss Dogs.
3 Block Sewry Carriage, 40 in. Boss Dogs, run one season.
7 Block Stearns Carriage, King Dog, would make two carriages. All have rolled V and flat track planed.
Waterous iron frame, Three Block Carriage, R. H. Single Edger.
Small wood frame and Two Block Carriage.
Kelley Kicker, Kline Loader, Steam Jump Saw, 60 in Saw.
1 Waterous Shingle Mill.
1 Boss Shingle Mill.
3 Saw Hamilton Edger, Single Edger, Slabsaw.
Endless Log Jack, spiked roll.
450 feet Conveyer Chain, ¾ in. round, 2 x ⅜ in. flat.
Steel Conveyor Chain, 18 in. iron flights.
11 x 15, 12 x 12, 12 x 14, 20 x 24, Engines.
60 x 16 Boiler, forty-four 4 x 16 tubes.
60 x 12 Boiler, Seventy-eight 3 x 12 tubes.
48 x 14 Boiler, forty-four 12 foot tubes.
Several smaller boilers.
10, 12, 16 horse upright Boilers.
25 h.p. submerged tube Marine upright Boiler, good for 100 lbs.
No. 5 Rotary Fire Pump, two 2½ in. take offs, double geared, good as new.
Several Hand Fire Engines; one 600 gallon Steam Fire Engine.
21 in. Little Giant Water Wheel with sun.
48 in. Leffel Water Wheel with sun.
10 in. Centrifugal Sand Pump, 300 feet of 2 guage delivery pipe.
7 in. four-sided Moulder.
30 in. Chopper, 20 in. Chopper, 12 in. Jolietter Crushers.
Circular Saws, 68, 64, 60, 59 and 56 in.
24 in. Champion Planer and Matcher.
Several Marine Engines and Boilers.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland, extensive Lumber Docks, Houses, Store Buildings, etc.; water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

GOVERNMENT TIMBER SALE.

The postponed sale of timber limits to be held by the Quebec government will take place in Quebec on the 30th inst. The limits to be offered cover an extensive area, and no doubt there will be a large attendance of lumbermen and other interested persons.

CURRENT TRADE CONDITIONS.

ONTARIO.

Dealers and manufacturers of lumber are putting forth every effort to prevent prices from depreciating, but with one or two exceptions the conditions seem to favor a weaker market. The movement of lumber is not nearly so active as might reasonably be expected, and if the demand does not improve in the near future, a readjustment of prices will be necessary. Building operations have been quite backward, and the manufacturing demand, while of considerable volume, has not expanded to the extent that was anticipated a few months ago. The enquiries from the United States, instead of increasing as the spring advanced, have fallen off slightly. It seems that consumers of lumber have resolved that prices will go no higher, and consequently they are purchasing only for immediate requirements, believing that when the new cut is in shape for marketing there will be a drop in prices. As an offset to these conditions, there is the prospect of a considerable quantity of logs being hung up in the rivers in the Georgian Bay and Ottawa Valley districts. Should this be the case, the cut of lumber for the season will be curtailed, although not to the extent of the logs hung up, as it is said that several Michigan lumbermen holding logs on this side of Lake Huron have been unable to make arrangements for the sawing of them. These would take the place to some extent, perhaps, of the logs hung up. In the Ottawa Valley the local demand for lumber has been stimulated by the recent fire. Hardwood prices do not show a general decline, but in one or two cases some weakness is reported.

QUEBEC AND NEW BRUNSWICK.

Lumber shipments from the eastern provinces to the United States are light for this season of the year. There is little demand for schooners, and freights show a declining tendency. It is said that recent shipments of lumber to New York have not been entirely satisfactory, and that there is an inclination to wait until the demand there shall improve. Trans-Atlantic trade is more active, and an average number of vessels has been chartered to carry lumber cargoes. From Nova Scotia comes the report of a considerable demand from South America and the West Indies. The log drives are coming along more hopefully, some of them having already reached the mills.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba and the Territories is steadly improving, with prices exceptionally firm. A strong market is also reported from British Columbia. Lumber freights have advanced, but as many of the mills effected charters some months ago, they are now reaping the benefit of their action. Export trade is very active, twenty-one vessels having sailed from British Columbia ports for foreign destinations up to May 1st of this year. Of this number nine were billed for the United Kingdom, six for Australia, and three for South America.

UNITED STATES.

The chief feature of the United States lumber market is the report which comes from Minneapolis, that owing to the absence of rain many of the mills will have to close down on account of a shortage of logs, while there is also a possibility that a considerable quantity of logs will be be hung up in the streams. This is an element likely to give strength to the market, but so far as the present situation is concerned, it seems that it has been more than offset by the non-development of the consumptive demand. There is a feeling of uncertainty in the trade, and consumers and wholesalers are limiting purchases to immediate requirements. In white pine there has been a depreciation of from 25 to 50 cents per thousand for piece stuff, and in hemlock the market is slightly weaker than it was one month ago. The east is still endeavoring to bring about lower prices, and in this they have been given some assistance by dealers at eastern wholesale centres, where it is thought that the prices asked at producing points are out of proportion to the retail price of lumber. At Saginaw and Bay City, Canada log run pine is held at from $16 to $18, and box lumber at $14 to $14.50. Hardwood prices are exhibiting a slight weakness, but no general decline can as yet be reported. In New York city ash is quoted at $43 for inch, and $49 for 1¼ to 2 inch.

The tendency is towards lower prices for lath. This is evidenced by the action of the Wisconsin Valley Lumbermen's Association on May 15th, when the entire price list of lumber was re-affirmed, but prices on lath were lowered to $3.50 for No. 1 white pine, $3 for No. mixed, and $2 for No. 2.

FOREIGN.

The opinion seems to be gaining ground in Great Britain that the importation of lumber this season will be moderate, not only from Canada, but from the

north of Europe countries as well. This feeling has already restored confidence in the market, as it has been admitted for some time that unless this circumstance was brought about, prices would be likely to weaken in view of the decreased consumption. The shipments of pine from Canada to Great Britain will doubtless be considerably less than last year. Within the past fortnight there has been a slight advance in the price of pine deals, and the demand for seasoned lumber is certain to improve in the near future. The position of the spruce market is set forth in the Timber Trades Journal as follows: "The spruce market is as firm as ever, and good prices are realized for all useful sizes. At the London auctions, 2½ x 7 New Brunswick stuff fetched £9 5s, and 2 x 4, £8 10s, prices that were never reached before, and not even dreamt of a couple of years ago. From what we can see there will be a big demand all through the season. The small stock wintering has been sold long ago, and considering the big demand at the present moment, the first few cargoes that arrive —which we understand will be rather late —will soon be swallowed up. We know, for a fact, that a great many of the outports have not purchased yet, and what with the high freights ruling there is very little possibility of prices falling. All 11-in. is very scarce, and this width at any thickness will, doubtless, fetch unusually high prices when they reach the market."

STOCKS AND PRICES

At Springhill, N. B., as high as $10 per thousand is being paid for spruce logs, while the average price is $9.50.

The schooner Fred J. Wood left Vancouver, B. C., last week for Kobe, Japan, with a cargo of 800,000 feet of lumber.

The lumber exported from St. John, N. B., during the month of April was valued at $385.720, compared with $285,101 in April, 1899.

On the Lake Huron shore, and at interior railroad shipping points in Michigan, ties are selling at 22 to 25 cents. The quotation on the Saginaw river is 38 and 40 cents.

The cargo shipments of lumber from British Columbia during the first three months of this year totalled 13,110,620 feet, as compared with 6,534.404 feet for same period in 1899.

Clarke Bros., of Bear River, N. S., expect to cut at their two mills this season about 8,000,000 feet of lumber. This firm own a considerable area of spruce and hardwood limits in Nova Scotia.

The steamer Labuan is loading 3,500,000 feet of deals at Parrsboro, N. S., for Manchester, Eng., the cargo being supplied by M. L. Tucker. The steamer Lady Iveah is loading at the same port for the east coast of Ireland.

At Buffalo cedar posts are quoted at 13 cents for 8-foot lengths, 3 to 4 inch tops; 15 cents for 4½ inch tops; 17 cents for 5 inch tops, 10 foot lengths, and 22 cents for 6 inch tops. Ties are on a basis of 52 cents for firsts, while poles are not really quotable, as many sizes are wanted.

Recent rains in Quebec have greatly assisted river driving, and the logs are making favorable progress. The Laurentide Pulp Co., of Grand Mere, took out about 900,000 logs last winter, about one-half of which is pine to be sawn into deals. The St. Maurice Co. have about 300,000 pieces to drive.

Three timber berths were sold at the crown lands office, Fredericton, N. B., last week. A six mile berth on Mersereau stream went to Hilyard Bros. & Co. at the upset price; a four and one-half mile block at the head of Salmon Brook, branch of Cain's River, to Sumner & Co., at the upset price, and a two mile block on the west side of the Magaduavic River to John E. Moore, at $8.25 per mile.

Penobscot lumber shippers are, it is said, standing by their recent agreement with relation to forwarding stock to the New York market, and in consequence a better condition of things is already in sight. Although not all of the eastern shippers were in the agreement, it was believed from the first day of the campaign, which culminated in the meeting in Bangor, that the dealers would see the wisdom of standing by the understanding that no random shipments were to be made.

THE SITUATION AT MINNEAPOLIS.

A leading manufacturer of white pine at Minneapolis, Minn., who is of the opinion that there will be no weakening in white pine prices this season, expresses himself regarding the situation as follows:

Considering present market conditions we do not see that there is any reason to believe that there will be any reduction in the present values for white pine lumber. The log situation in the whole territory manufacturing white pine at the present time is very serious. Practically all the drives are hung up and on some streams no attempt has been made to start driving. On a few streams where water was held under storage the drives have been started, but are now either abandoned or are moving so slowly that the results promise anything but an early or regular supply of logs for the mills.

This condition of affairs is not confined to any one locality, but is prevalent over almost the entire territory of Wisconsin and Minnesota. In many districts the mills are already shut down and in others they anticipate an early shut down. Locally at Minneapolis the boom company figures that it will have logs enough to last from the 20th to the 25th of this month, but in all probability all logs will be turned through by the latter date. This would mean that every mill in Minneapolis would be closed down not later than June 1. The next drive coming from Brainerd under present conditions would not reach here to be available before the middle or latter part of June. This would mean that if weather conditions do not change, and change radically, we would lose two to four weeks or longer right in the middle of the sawing season.

The terrible fire at Ottawa, Canada, means that certain districts of the eastern states will have to look west for their supply, as a large portion of this lumber was to go into the New England territory. It means that all told from 400,000,000 to 500,000,000 feet of lumber will be taken out of stock sheets when made up the end of the sawing season.

Present prices of stumpage and logs are on such a basis that a decline in present market prices for lumber would mean a serious loss to parties supplying their mills by logs bought in the open market, and the basis of values on logs means that lumber cannot be sold at less than present prices without an actual loss to the party manufacturing the logs.

General conditions of trade throughout the entire country are good, perhaps not as good as a year ago, owing to the extended labor troubles, but the volume of business taken as a whole is enormous. Although the year 1899 was a banner year in the shipment of lumber, we believe that the shipments for the year 1900 from January 1 to May 1 inclusive, will nearly, if not quite, equal those of the corresponding period last year. The general condition of the farmers throughout the entire west is prosperous, and they have to-day an enormous purchasing power. Prices on all classes of agricultural products, with the exception of wheat and oats, are high. Taking all these conditions as outlined above into consideration, we feel warranted in predicting that the year 1900 will as a whole maintain the present average price of white pine lumber.

FIRMNESS AT BOSTON.

Few changes of importance have developed in the Boston market during the past month, and the relation of supply to demand is practically the same, offerings of dry lumber being light, and the views of holders as to the value of spot lumber decidedly firm. The controlling factor in the situation, says the Lumbermen's Review, seems to be the demand for factory lumber to be used in the construction, enlargement or repair of factory and mill buildings. Where the retail yard, by reason of its surroundings, is obliged to rely upon the builders for its outlet, complaint of slow and unsatisfactory trade is quite general. Quite frequently one sees or hears the report that the season is very backward, but the mere fact that the average temperature in April was decidedly low does not constitute a valid reason why the builder with a contract in his hand should not proceed with the work, for the frost has been out of the ground from four to six weeks, and where orders have been placed for new construction as a rule the buildings are now well advanced. Investors and speculators are still laboring under severe apathetic pressure, and are planning very little in the way of new construction, though they have seen the first rift in the dense cloud of unduly inflated prices for building material in that cut of $20 per ton in nails and the general tendency to shave off something from all classes of iron products.

Factors to be reckoned with in summing up present and prospective conditions in the lumber market are strikes and politics. For some months past there have been rumors of impending strikes in the building trades, and May 1 was the date set for an uprising; but, happily, a settlement was effected in a majority of cases before that date. An eight-hour day, with a uniform wage scale, formed the basis of the demands of the unions.

The hardwoods are moving less freely, and a little more pressure is noted on the part of shippers to move their stock. This is particularly true of the varieties which originate in Canada, New York, Pennsylvania and Michigan, while oak, both plain and quartered, thin ash and poplar are in good demand and firm, where prompt delivery of dry stock is called for. Mahogany is still a free seller at top figures. Local manufacturers find the American market sufficiently broad and active to absorb all offerings of dry lumber, and as a result very little is being sent abroad.

The following prices govern both rail and water shipments:—10 and 12 inch dimensions, $19.00; 9 inches and under, dimension (frames, etc,) $17.00; yard orders cut on even feet to be same price as dimension. Above prices are based on lengths not over 28 feet, and for all lumber cut to specified lengths longer than 28 feet add $1 per M for every two (2) feet or fraction thereof. 10 and 12 inch random lengths, 10 feet and up, $18.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, random lengths, 10 feet and up, $15.00; all other random lengths, 9 inches and under 10 feet and up, $16.50; 1⅝ inch laths, $3.15; 1½ inch laths, $3.00; 5 inch and up merchantable boards, 8 feet and up, p. l. s., $17.00; out spruce boards p. l. s., $14.00; bundled furring random lengths p. l. s., $14.50; bundled furring clipped to same length in each bundle p. l. s., $15.00.

NEW YORK PRICES.

Following is the schedule of prices for New York delivery as adopted by the Eastern Lumber Manufacturers' Association at Bangor, Maine, on April 24th:

10 and 12 inch dimension, per M, $20; 3 x 9 inch dimension, $19; 8 inches and under, dimension, $18; 10 and 12 inch, random length, 10 feet and up, $19; special bills, 24 and 25 feet, 10 and 12 inch, $21; random, 3x 9, $18; special bills, 24 and 25 feet, 3 x 9, $20; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4 inches, 10 feet up, random, $16; 2 x 9, 10 feet and up, random, $17.50; all other random lengths, 10 feet and up long, 8 inches and under wide, $16.50; planing one side, per M, 50 cents; planing two sides, per M, $1; planing three or four sides, per M, $1.50; planing one side and grooved, per M, $1; planing one or two sides and matched, per M, $1; butting to exact lengths, per M, extra, 50 cents; splines, extra, per M, not less than $1. Shipments to all Sound ports, fifty cents per thousand less than New York prices; terms on Sound shipments as customary heretofore.

SHIPPING MATTERS.

The following charters are reported: Bark Levuka, West Bay, N. S., to w. c. England, deals, 53s 9d; str. Westwater, 3 cargoes from St. John, N. B., to w. c. England, private terms; str. Dalmally, Pugwash, N. S., to w. c. England, private terms; str. Vimera, West Bay to w.c. England, deals, 55s; Carrsbrook, Pugwash to w.c. England, deals, 53s 9d; Samara, 1,790 tons, St. John, N. B., to Manchester or Glasgow, deals at 55s, and timber at 23s 6d.

Following are the the current rates on lumber from British Columbia points: to Sydney, 53s 9d to 55s; Melbourne or Adelaide, 63s 9d to 65s; Port Pirie, 57s 6d to 60s; Fremantle, 68s 9d to 70s; Shanghai, 75s; Kiao-Chau, 70s; Tientsin, 67s 6d to 68s 9d; Vladivostock, 70s; west coast South America, 62s 6d to 65s; Pisagua Range and Callao Range, 61s 3d to 62s 6d; South Africa, 70s to 72s 6d; U.K. or Continent, 80s to 82s 6d.

FIRES.

Kippen & Scarff's saw mill at Sycamore Siding, Ont., was destroyed by fire last week, at a loss of $2,500.

The lumber yard of Geo. Wilson & Co., at St. Catharines, Ont., was partially destroyed by fire on Saturday last.

The peg and last factory of John Lewis & Sons, at Lewiston, N.S., was burned recently. There was an insurance of $5,500.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., MAY 30, 1900 No. 19.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

CIRCULAR FILER AND MILLWRIGHT FOR large mill in Newfoundland. State experience, wages, when could start. "WATEROUS, BRANTFORD."

Waterous List—Rebuilt Machinery

We find it impossible to avoid taking machinery in trade. This we refit, guarantee in good working order and sell very low:

7½ x 36 ft. Direct Steam Feed.
8 x 12 Cunningham Rope Feed.
11 x 20 Cunningham Cable Feed, 48 x 12 drum, 10 grooves, ⅞ cable.
3 Block girder steel Carriage, 40 in. opening, steel faced, 14 in. wheels. Boss Dogs run one year.
2 Block cast iron Hamilton 40 in. Carriage, Boss Dogs.
3 Block Sewry Carriage, 40 in. Boss Dogs, run one season.
7 Block Stearns Carriage, King Dog, would make two carriages. All have rolled V and flat track planed.
Waterous iron frame, Three Block Carriage, R. H. Single Edger.
Small wood frame and Two Block Carriage.
Kelley Kicker, Kline Loader, Steam Jump Saw, 60 in Saw.
1 Waterous Shingle Mill.
1 Boss Shingle Mill.
3 Saw Hamilton Edger, Single Edger, Slabsaw.
Endless Log Jack, spiked roll.
450 feet Conveyer Chain, ¾ in. round, 2 x ⅜ in. flat.
Steel Conveyor Chain, 18 in. iron flights.
11 x 15, 12 x 12, 12 x 14, 20 x 24, Engines.
60 x 16 Boiler, forty-four 4 x 16 tubes.
60 x 12 Boiler, Seventy-eight 3 x 12 tubes.
48 x 14 Boiler, forty-four 12 foot tubes.
Several smaller boilers.
10, 12, 16 horse upright Boilers.
25 h.p. submerged tube Marine upright Boiler, good for 100 lbs.
No. 5 Rotary Fire Pump, two 2½ in. take offs, double geared, good as new.
Several Hand Fire Engines; one 600 gallon Steam Fire Engine.
21 in. Little Giant Water Wheel with sun.
48 in. Leffel Water Wheel with sun.
10 in. Centrifugal Sand Pump, 300 feet of 2 guage delivery pipe.
7 in. four-sided Moulder.
30 in. Chopper, 20 in. Chopper, 12 in. Jolietter Crushers.
Circular Saws, 68, 64, 60, 59 and 56 in.
24 in. Champion Planer and Matcher.
Several Marine Engines and Boilers.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED.

LUMBER INSPECTOR DESIRES SITUATION; has had experience on the road. Apply Box 28, CANADA LUMBERMAN.

HARD-WOOD MILL—GRIST MILL

For a good hard-wood mill site and grist mill site, also large quantity of timber fit for wood flour, write L. O. ARMSTRONG, C. P. R. Colonization Agent, Montreal.

FOR SALE.

LUMBER SAW MILL PLANT SITUATED IN Algoma, in hard wood and pine locality; 70 h. p. boiler, 65 h.p. engine, one circular saw, gang edgers, etc. Good lumber docks and railway sidings complete. Also two residences, stables, office and store. Price $8,000. The business nets from $4,900 to $5,000 a year when properly run. The owner is retiring from business. Apply Box 888, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Low water in the streams in the Georgian Bay district is causing lumbermen much anxiety, and it is feared that a considerable proportion of the winter's cut of pine logs will be hung up. The failure to secure a supply of logs has already delayed the starting up of some of the mills. These mills, even if they should commence cutting almost immediately, will not be in a position to have dry lumber ready for shipment before August. The outlook, therefore, is that there will be no recession in prices before midsummer at the earliest. Although a fortnight ago it seemed that the market was on the verge of a considerable decline, the circumstances since that time have been such as to give little hope that prices will weaken in the near future. An increased number of enquiries have been received from the United States during the past week, and it is expected that there will be a considerable demand from this direction, which, with the local trade, will consume the entire production of lumber for these markets. In the Ottawa valley there is, as might be expected, a strong demand for the lower grades of lumber to be employed in rebuilding operations in Ottawa and Hull. Pine box culls are quoted at an average of $14.50 per thousand, and mill culls at $13, the range of prices being about one dollar below and above these figures. No. 1 pine lath is still selling at $3 to $3.25, but No. 2 has declined slightly in value, selling at $2 to $2.50.

QUEBEC AND NEW BRUNSWICK.

Recent rains in the eastern provinces have greatly improved the outlook for rafting operations. The indications are that the entire cut of logs on the principal rivers in Quebec, and on the St John and Miramichi rivers in New Brunswick, will be gotten safely to the mills. On some of the smaller streams driving work has already been completed. Most of the mills are in operation, and an average production of lumber is expected this season. In Quebec the home production of lumber promises to be above the average. There is a scarcity of dry lumber for building purposes, and contractors are paying about $5 per thousand feet more than they did this time last year. For cedar shingles there is a moderate demand, and large manufacturers are holding firmly to prices.

UNITED STATES.

The consumption of lumber in the United States is by no means as large as it should be. Strikes in the building trades are still handicapping the growth of demand, although it cannot be said that there has been no expansion during the past week. The east has improved, and there are indications of more active trade in the near future. The chief interest in the lumber market pertains to the log supply and the present prospect that a considerable quantity of logs will be hung up in the streams in Minnesota, Wisconsin and Michigan. At time of writing seventeen milis on the Mississippi river above Minneapolis are shut down for want of logs, and at other points similar conditions exist. As pointed out in an article elsewhere, it is not improbable that the cut of Norway and white pine may be reduced by from 15 to 25 per cent. This circumstance has already had the effect of strengthening the market, and holders of pine who showed a disposition to cut prices are now asking full list quotations. At eastern wholesale points pine and spruce are held at firm prices, although the movement of stock is slow. There seems reason to believe, however, that the eastern consumers will be compelled to yield, as buyers who have visited western producing points have not been able to purchase stock at prices lower than were paid for their present supply. In the New York market spruce is held at $18.50 to $21 for log run. The hardwood market has undergone no important change. Buffalo dealers are said to be selling at the following quotations, in car lots f. o. b. Buffalo: Common and cull black ash, $31; inch black ash strips, $27; inch firsts and seconds, black ash, $39; 1¼ inch cull basswood, $20; 1¼ inch common maple, $19 to $21; inch firsts and seconds, soft elm, $27; 1½ inch red birch, $45. At Boston 1 to 2 inch ash sells at $48 to $52, and three inch at from $55 to $60. Maple brings $29 to $31 for one

inch, and $31 to $33 for 1¼ to 2 inch. Elm is quoted at $30 to $32, and basswood at $31 for 1 inch and $33 for thicker. Hemlock prices have declined about one dollar per thousand.

FOREIGN.

More favorable reports are to hand from Great Britain, and it now seems that prices, for Canadian deals at least, are not likely to weaken in the near future. The demand is improving and stocks are gradually becoming reduced. At Liverpool pine deals have advanced in price within the past fortnight, and there is a likelihood of a further advance in Quebec spruce. Consumers of white pine, fearing a limited supply this season, are showing a strong disposition to purchase for their requirements. Third quality pine is being held as high as £15 per standard, and cargoes of New Brunswick spruce have been sold at £7 15s for delivery at Liverpool. Considerable stock has been sold for shipment to South Africa, and upon the termination of the war an important demand from this source is expected. In square timber elm and birch seem to be most enquired for, and high prices are being realized for stock on hand.

THE LUMBER SITUATION.

It is believed that there will be a considerable shortage of lumber this year in the United States and Canada, brought about by the Ottawa fire, forest fires, and the prevailing drought. Mr. Chas. A. Stone, of the Nicola & Stone Lumber Co., Duluth, Minn., has set forth the situation in the following words :

"The continued drought and forest fires in the lumber-producing territory of the North-west are becoming a serious matter to the lumber-producing interests, as they are bound to add greatly to the shortage which existed at the beginning of the season.

"A summary of all pine stocks on hand December 1, 1899, showed a shortage as compared with the same date of 1898 of 766,000,000 feet ; as compared with 1897, 1,187,000,000 feet, and with 1895, 1,452-000,000 feet, showing a large ratio of decrease of product. It was expected, on account of the advanced values, that the production for 1900 would overcome a large part of this shortage for the present season by the stimulation of log output, but because of unfavorable logging conditions there has resulted an additional shortage of log production. The principal cause therefor was the lack of snow. Of this reduced log output a large proportion is still on the rollways of the rivers, because the usual winter and spring floods did not occur to bring it out. The logs now hung up must in all probability remain where they are for many months, and can probably only come out for the next season's sawing, unless most usual flood conditions occur. But the season of floods is largely past, and it is a matter of interest that a prediction that this will be a year of unusual drought is at least being verified in the lumber-producing country of the North-west. Such rivers as the Brule, Nemadji, Amicon and the Iron, principally tributaries to Ashland and Duluth waters, have their rollways of logs still unbroken. This will reduce the possible production of lumber by all mills except such as have rail facilities to supply logs, and must reduce the possible output of the Ashland and Duluth districts alone by over 200,000,000 feet.

"The territory west and north of Lake Superior will suffer more than Duluth and Ashland, as it is almost entirely dependent on the rivers for raw material. Added to this are the enormous losses of logs by forest fires, of the amount of which no accurate estimate is possible.

"The Ottawa fire destroyed not alone 125,000,000 feet of sawn lumber, but in the burning thereof reduced their possible output for this year at least 200,000,000 feet more, which does not include 100,000,000 feet which will be required to replace the burned district. The markets depending on the Ottawa production will naturally look to their nearest source of supply, which is the Georgian Bay district, and this demand will largely remove that output from the available supply for the United States.

"This summary of the situation shows a shortage in the Norway and white pine production this year as compared with last, in the North-western States and Canada alone, of about 1,900,000,000 feet, made up as follows : Shortage in stocks on hand at the beginning of the season, 766,000,000 feet ; hung up by drought at the head of Lake St. Superior, 200,000,000 feet ; hung up in the Mississippi valley and north of Lake Superior, 500,000,000 feet ; loss through the Ottawa fire, 425,-000,000 feet. This shortage is about one-third of the entire cut of the year 1899. It follows that such a shortage must produce a heavy loss to the lumber producing interests, but more than this, all that can be produced this season can only be at a very largely increased cost, because of the increase in the cost of stumpage and a large advance in wages and the cost of supplies.

"This condition of shortage in the pine available finds a parallel in other producing fields, as in yellow pine, which shows a shortage of several hundred million feet, because of lack of water to float logs.

"These facts show that instead of an increased production of lumber this year, as many predicted early in the season, there is bound to be a great shortage in the stocks available for the consuming market."

STOCKS AND PRICES.

During last winter there were shipped from St. John, N.B., to trans-Atlantic ports 14,526 standards of deals, or about 29,000,000 feet.

John Kilburn, of Fredricton, N. B., has 11,000,000 feet of logs from the Upper St. John in safe waters, but 3,000,000 feet have been hung up.

Considerable lumber has been purchased by the Botsford-Jenks Co., of Port Huron, Mich., for the construction of their new elevator at Midland, Ont.

About one week ago seven large barques were loading deals at Halifax, N. S., for the United Kingdom. These vessels alone will carry over 5,000,000 feet.

The Rat Portage Lumber Co., of Rat Portage, Ont., have just been given a contract to supply 1,500,000 feet of lumber for new elavators to be built in Manitoba by the Ogilvie Milling Co.

Lowther & Wood, of Oxford, N. S., have just purchased the Nix property at River Philip. They have about 400,000 feet of spruce sawn, and expect to have 2,000,000 feet ready for shipment by August 1st.

The Tracadie Lumber Co., of Tracadie, N.B., have completed driving operations, and have a stock of 10,000,000 feet of pine and spruce logs at their mill. The company have sold the greater part of their output for this year.

The St. John Sulphite Pulp Co. have 3,000,000 feet of logs in the Mispec river en route to their mill at St. John. About the same quantity has been secured on the St. John river and a million more will go down the Mispec river in July.

Messrs. Heidritter Bros., of Elizabeth, N. J., have secured control of the old Beland mill on the Jacques Cartier river near St. Gabriel, Que., and intend operating it. The firm own extensive limits on the Jacques Cartier river and formerly operated a mill in Quebec, under the name of the Batiscan Lumber Co.

The deal trade is likely to be an important factor in the Penobscot lumber business this year, as several steamers have been chartered to load at Bangor, Maine, for the United Kingdom. Shipments to Europe from Bangor have generally been from 5,000,000 to 7,000,000 feet, but this year's exports are likely to reach 8,000,000 feet.

The Port Hood Coal Co., of Halifax, N. S., want tenders for 70,000 lineal feet of spruce or hemlock wharf logs, not less than 10 inches at small end under bark, not more than 20 per cent. to be 12 feet long, and 25 per cent. to be 25 feet long, also 43,000 lineal feet of spruce or hemlock ballast floor logs, in 12 feet lengths, not less than 5 inches at small end.

General Alger has sold the last of his Ontario timber limits, 108 square miles on the north shore of Lake Huron, to Ferguson & McFadden, of Renfrew, Ont., for $150,000. The deal was negotiated by Mr. Peter Ryan, of Toronto. General Alger is largely interested in the Laurentide Pulp Company at Grand Mere, Que., who own large timber limits on the St. Maurice river.

Mr. Pendennis White, of the firm of White, Rider & Frost, North Tonawanda, N.Y., thus refers to the lumber market : I can see no reason why there should be much reduction, or a permanent reduction, in the selling price of lumber. The cost of production is not likely to decrease, but it is more likely to increase. The value of stumpage is at least 50 per cent. higher than it was eighteen months ago, and will undoubtedly continue to increase, as the quantity is being rapidly diminished by the amount of lumber being produced and also by the destruction of the small timber by turpentine manufacturers. The seriousness of this last feature has been largely increased by the greatly increased price of turpentine and resin during the last few months. Another reason for stumpage increasing in value is that timber lands are gradually going into the hands of a few holders who will be able to control the production of lumber. The rates of wages for labor have been advanced in all lines, and are likely to be advanced still more, owing to the scarcity of labor, which is being felt everywhere. The cost of mill supplies is not likely to decrease much, if any. So upon the whole there seems to be no reasonable ground for supposing that the cost of lumber will be less than at present, nor, so far as I can see, is there any reasonable ground for thinking that the demand for lumber will be materially lessened. We may soon expect South Africa to be a large buyer, and this, with only a normal demand by the regular markets, will do much toward stiffening prices.

BRITISH AUCTION SALES.

At an auction sale held by Foy, Morgan & Co., London, Eng., on May 16th, Canadian timber sold at the following prices :

PINE—Ex. Shakespeare, from Miramichi, N. B.—9-18 feet 3 x 14-19 in. fourth quality, £7, 10s ; 10-19 feet 3 x 12, £7 10s ; 10-16 feet 3 x 11, £8 10s ; 10-17 feet 3 x 10, £8 10s ; 10-17 feet 3 x 9, £8 5s ; 10-17 feet 3 x 9, £8 10s. Ex. Milwaukee, from Quebec—12-18 feet 6 x 11 in. first quality, £17 10s ; 12-18 feet 6 x 9, £17.

SPRUCE—Ex. Sylvanian, from St. John, N. B.—11-23 feet 3 x 11 inches, unassorted, £11 10s ; 10-18 feet 3 x 11, £11 10s ; 3-18 feet 3 x 11, £11 5s. Ex. Ailsa Craig, from Quebec—13 feet 3 x 9, second quality, £19.

PINE DOORS—60 doors 6 feet 6 inches x 2 feet 6 inches x 1¼ inches, £2 10s per door.

At a sale held by Hodson, Mabbs & Co., London, on May 17th, spruce deals sold as follows :—Ex. Zanzibar, from St. Thomas, Que. —10 feet 3 x 9, first quality, £11 and £11 5s. Ex. Erling, from Saguenay—10-13 feet 3 x 8, second quality, £9 10s ; 10-14 feet 3 x 7, £9 10s. Ex. Kinsale, from Batiscan, Que.—12 feet 3 x 9, second quality, £10 5s and £10 10s. Ex. Devona, from Quebec—12-14 feet 3 x 9, third and fourth quality, £9 10s.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JUNE 6, 1900 No. 20.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

PORTABLE SAW MILL—The undersigned is prepared to cut all kinds of Lumber. First-class work guaranteed. Prices reasonable. Address W. E. RUTLEDGE, Hoult P. O., Ont.

HARD-WOOD MILL—GRIST MILL

For a good hard-wood mill site and grist mill site, also large quantity of timber fit for wood flour, write L. O. ARMSTRONG, C. P. R. Colonization Agent, Montreal.

FOR SALE.

LUMBER SAW MILL PLANT SITUATED IN Algoma, in hard wood and pine locality; 70 h. p boiler, 65 h.p. engine, one circular saw, gang edgers, etc. Good lumber docks and railway sidings complete. Also two residences, stables, office and store. Price $8,000. The business nets from $4,000 to $5,000 a year when properly run. The owner is retiring from business. Apply Box 838, CANADA LUMBERMAN.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED—Foreman for small Pulp Mill. Acknowledge of the French language preferred. Address "DOMINION," CANADA LUMBERMAN.

WANTED.—Stock to cut. Have fifty horse new portable mill, Waterous make, at liberty after June fifteenth, possibly sooner. THOMAS HOLLIS, Damascus, Ont.

WANTED.

FROM 50 TO 100 M. FEET OF MAPLE LOGS. Address KER & HARCOURT, Parry Sound, Ont.

SOFT and ROCK ELM and ORHAM

Quotations for same in considerable quantities, shipped to England; continuous demand. EVERETT, 407 Yonge Street, Toronto, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE—Old established Saw, Lath and Planing Mills at Sault Ste Marie, Ont., with all equipments and stock; machinery nearly new throughout; concern doing a large annual business. Possession given at once. Apply to W. G. SIMS, Box 35, Sault Ste Marie, Ont.

WANTED.

FLOOR BOSS FOR BOX FACTORY, MIDDLE aged man, thoroughly capable of handling men and machinery and cutting lumber to advantage. State age, references and wages required. GILMOUR & Co., Trenton, Canada.

WANTED.

BY A BRITISH IMPORTING FIRM, WANEY log pine boards. Canadian manufacturers having this class of stock to offer are invited to send particulars and prices to Box 85, care of CANADA LUMBERMAN, TORONTO.

FOR SALE.

25 HORSE-POWER ENGINE, 40 HORSE-Power Boiler, one 4-Side Moulder, one 3-side Moulder, one 12-inch Janitor, one 24-inch Surface Planer, one 8 horse-power Engine and Boiler. TORONTO MACHINERY SUPPLY CO., TORONTO.

FOR SALE.

PINE AND HEMLOCK LATH, AND CEDAR Shingles. Write for prices. Also White Maple, Red Birch, Quartered Maple, Brown Ash, Basswood, Rock and Soft Elm, Maple. Have a few cars of 2 in. and in. dry Soft Elm on hand at present time. Write us. KEENAN BROS., Owen Sound, Ont.

For Sale—Valuable Timber Lands

ELEVEN HUNDRED ACRES SITUATED IN Bruce County, Ontario. Hemlock, Maple, Red Birch, Beech, Basswood, Elm and Cedar. Near good harbor with excellent shipping facilities. Price Ten Dollars per acre. Address H. JUDSON SMITH, Brantford, Ont.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland, extensive Lumber Docks, Houses, Store Buildings, etc.; water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

Lumber carriers from British Columbia ports are still scarce, and tonnage brings high figures. The rates now quoted are as follows for British Columbia and Puget Sound loading: Sydney, 53s 9d to 52s; Melbourne or Adelaide, 62s 6d; Port Pirie, 57s 6d to 60s; Fremantle, 68s 9d to 70s; Geraldton, 70s to 71s 3d; West Coast, 62s 6d to 65s, Pisagua range; Callao direct, 62s 6d to 63s 6d; Buenos Ayres, 70s to 71s 3d; Shanghai, 70s; Kaichow, 70s; Nagasaki, 67s 6d; Port Arthur, 70s; Tientsin, 75s; Taku, 70s; Newchang, 70s; Vladivostock, 65s; South Africa, 72s 6d to 75s; United Kingdom, 82s 6d to 85s.

CURRENT TRADE CONDITIONS.

ONTARIO.

Some rain has fallen during the past week, but not sufficient to materially assist driving operations on the rivers. The present outlook is that a quantity of logs will be hung up in the Georgian Bay, Algoma and Rainy River districts. The lumber demand is not developing satisfactorily, and there are indications of a weakening in prices. There is no life to the United States trade. In Ottawa, where active building operations were promised as a result of the fire, the builders' laborers have gone on strike. In Toronto the building permits issued up to the first of June of this year show a falling off in value as compared with the same period last year. In the face of these conditions, wholesalers and retailers are buying only moderately, while some manufacturers are showing eagerness to have the stock at their mills moved to provide piling ground for their new cut. It is difficult to size up the situation, but it would seem that if the demand does not improve in the near future, lower prices will be the result. There is no change in the price of pine lath, which, in view of its enhanced value, was expected to weaken before this time.

QUEBEC AND NEW BRUNSWICK.

Writing to the CANADA LUMBERMAN, a manufacturer on the south shore of the St. Lawrence, in Quebec, states that he has at present more orders for lumber on his books than he can execute for a considerable time to come. While this may not be absolutely true of all manufacturers, it reflects the condition of the lumber market in that province. The local spring demand has been quite up to the average of last year, while export trade is exceptionally good. The recent rains in the eastern provinces have raised the water in the streams. All the drives on the South-West Miramichi, in New Brunswick, have reached the corporation limits, and on the St. John river satisfactory progress is being made.

UNITED STATES.

Viewing the situation from the standpoint of demand, it cannot be said that the lumber market of the United States is particularly strong; but taking into consideration all the circumstances affecting the production, the outlook is more hopeful. Wholesale and retail dealers are buying with the utmost economy, while the consumptive demand is by no means as heavy as it was at same time last year. Manufacturers, however, are holding their stock at high prices, and it would seem that the market is not likely to weaken for some time to come. The logging situation has not improved, and many of the mills on lake Superior are shut down owing to a shortage of logs. Spruce has weakened to the extent of one dollar per thousand feet on dimension. The spruce manufacturers evidently believed that such action might stimulate buying on the part of retailers. Hardwood prices are a trifle weaker, due no doubt to the report of a considerable increase in the supply of green lumber at the mills. At Buffalo there is a scarcity of inch maple, basswood and black ash.

FOREIGN.

Prices of Canadian deals in the British market appear to be holding exceptionally strong. The demand at London has improved, and it seems probable that prices will remain firm for some weeks to come, as the opinion is gaining ground that the imports this season will be light. It is admitted that a relaxation in freights might bring about a break in prices of spruce and pine deals, but at present there is little indication that freights will become weaker. At a recent sale held in London, first quality Quebec spruce, 3x9, realized £13 for 12 feet, second quality selling at £10 5s. A cargo of spruce oddments from St. John, N. B., brought exceptionally high prices, the range being from £8 5s to £11. Some red pine, 3 x 11, sold at £19. At Liverpool several good orders have been booked for Quebec waney board pine at a substantial advance over the prices ruling last year. It is also reported that an advance has taken place in the price of Quebec ash, which is reported to be unusually scarce.

A large speculative demand has sprung up from South Africa, which has had the effect of strengthening the British market.

STOCKS AND PRICES.

A. C. & C. W. Elderkin, of Advocate Harbor, N. S., expect to ship this season 5,000,000 feet of deals and several cargoes of piling.

Stephens & Argue, of Norland, Ont., have secured a large stock of logs and expect to have 3,000,000 feet of lumber sawn by August.

It is reported that J. & T. Charlton have purchased Ramesbottom Spencer's logs at Little Current, Ont., and that they will be taken to Michigan.

Drives on the way down the Gull river from Haliburton county are: Shields, Cobokonk, 40,000 pieces; DeCew, Fenelon Falls, 25,000 pieces; Rathbun Company, Lindsay, 60,000 pieces; Ellis, Fenelon Falls, about 40,000 pieces.

Following is a comparative statement of timber measured and culled by the

Supervisor of Cullers, Quebec, up to June 5th of this year :

	1898 Feet.	1899 Feet	1900 Feet.
Waney White Pine.....	189 832	460,138	46,857
White Pine.....	107,073	21,119	54,970
Red Pine.....	8,045	69,453	6,926
Oak.....	289,161	99,831	144,784
Elm.....	115,367	116,412	173,939
Ash.....	18,267	14,204	15,645
Butternut.....	799	60	92
Birch and Maple.....	95,849	200,928	227,761

A meeting of the Eastern Manufacturers' Association was held at Bangor, Maine, on May 29th, at which, it is estimated, over 80 per cent. of the spruce manufacturers of the east were in attendance. According to an estimate made there will be a shortage of at least 25 per cent. in the log supply as compared with one year ago, but owing to the light demand for lumber it was decided that a general curtailment of production of 50 per cent. should be made during July and August. A new price list was adopted to remain in effect until September 1st. The new list is as follows : 10 and 12 inch dimension, $19 ; 9 inch and under dimension, $17 ; 10 and 12 inch random lengths, 10 feet up, $18 ; 2×9 inch, random lengths, 10 feet and up, $16.50 ; 10×12 inches, 24 and 25 feet lengths, $2 per M extra over 10×12 inch dimension; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $15.50 ; all other random lengths, 9 inches and under, 10 feet up, $16.50 ; planing one side 50 cents ; planing two sides $1 ; planing three or four sides, $1.50 ; planing one side and grooved, $1 ; planing one or two sides and matched, $1 ; butting to exact lengths 50 cents per M extra ; splines not less than $1 per M extra. Above prices are for New York delivery, eastern survey. For Boston shipment by water, one dollar per thousand less than the price list of the railroad system was adopted, with the exception that price of 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, was made $14.50 per thousand.

QUEBEC GOVERNMENT TIMBER SALE.

The most important sale of timber limits yet held by the Quebec Government took place in the Parliament buildings at Quebec on June 30th. There were present over 300 persons, including some of the most prominent lumbermen in the Dominion, as well as a fair representation from the United States. The highest price realized was $143 per mile for a block of 500 miles on the Gatineau river, the purchasers being the W. C. Edwards Co., of Ottawa. The total sum realized by the sale was $260,000.00. A number of the limits were not disposed of, and it is understood that these will be offered for sale on June 26th. Following is the result of the sale in detail.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JUNE 13, 1900 No. 21.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

PORTABLE SAW MILL—The undersigned is prepared to cut all kinds of Lumber. First-class work guaranteed. Prices reasonable. Address W. E. RUTLEDGE, Hoult P. O., Ont.

HARD-WOOD MILL—GRIST MILL

For a good hard-wood mill site and grist mill site, also large quantity of timber fit for wood flour, write L. O. ARMSTRONG, C. P. R. Colonization Agent, Montreal.

For Sale—Valuable Timber Lands

ELEVEN HUNDRED ACRES SITUATED IN Bruce County, Ontario. Hemlock, Maple, Red Birch, Beech, Basswood, Elm and Cedar. Near good harbor with excellent shipping facilities. Price Ten Dollars per acre. Address H. JUDSON SMITH, Brantford, Ont.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED—Foreman for small Pulp Mill. Also A knowledge of the French language preferred. Address "DOMINION," CANADA LUMBERMAN.

WANTED.

FROM 50 TO 100 M. FEET OF MAPLE LOGS. Address KER & HARCOURT, Parry Sound, Ont.

SOFT and ROCK ELM and ORHAM

Quotations for same in considerable quantities, shipped to England; continuous demand. EVERETT, 407 Yonge Street, Toronto, Ont.

FOR SALE—Old established Saw, Lath and Planing Mills at Sault Ste Marie, Ont., with all equipments and stock; machinery nearly new throughout; concern doing a large annual business. Possession given at once. Apply to W. G. SIMS, Box 35, Sault Ste Marie, Ont.

FLOOR BOSS FOR BOX FACTORY, MIDDLE aged man, thoroughly capable of handling men and machinery and cutting lumber to advantage. State age, references and wages required. GILMOUR & Co., Trenton, Canada.

WANTED.

FOR THE FOREIGN TRADE, A LARGE LOT of first grade Rock Elm Hub Logs (trees), for which cash will be paid by purchasers New York banks. Address replies to this advertisement to Box 25, CANADA LUMBERMAN, Toronto.

FOR SALE.

25 HORSE-POWER ENGINE, 40 HORSE-Power Boiler, one 4-Side Moulder, one 3-side Moulder, one 12-inch Janitor, one 24-inch Surface Planer, one 8 horse-power Engine and Boiler. TORONTO MACHINERY SUPPLY CO., TORONTO.

THE AUSTRALIAN MARKET.

The last monthly timber report of Fraser & Co., Melbourne, says of the Australian market:

The extraordinary demand for timber being shown in so many parts of the world at the present time has led to further increased values being secured at the markets of export, while freight rates have also improved at most places, and apparently will be maintained for some time to come. Although our market has responded to some extent to the increase shown in f.o.b. and freight quotations, there is yet, however, room for improvement in this direction, for there are several important lines which are shipped to here, more especially in Baltic imports, which should be advanced in price. Business within the past four weeks has been fairly brisk, but as arrivals have been of no magnitude, there has been little to offer "ex wharf." A better enquiry, it is anticipated, will be experienced during the next few months, and as shipments of varied descriptions will shortly be to hand, there should be no trouble to obtain necessary requirements, though it is possible that importers will endeavor to procure slightly higher figures for some kinds than have lately been paid, which for a time may have the effect of keeping buyers from purchasing any quantity more than would be necessary for early actual wants.

OREGON PINE.—Imports: Nil. Stocks in first hands are limited, though holdings in the trade are sufficient to cover requirements until the first few shipments come upon the market, £8 per 1,000 feet super. is now quoted for small lots, though no business of importance has been done at this figure.

CURRENT TRADE CONDITIONS.

ONTARIO.

A few dealers and manufacturers tell of a slight improvement in the lumber trade during the past week, but the more general report is that the demand is developing very slowly. The month of June is generally characterized by considerable orders for stock, but in this respect the present month does not compare favorably with June of last year. Considering the demand, prices are reasonably firm. In some instances a slight weakness has developed. In the Ottawa valley shipping cull stock is a trifle lower, while lath is quiet and weaker. It is expected that lath will decline in price in the near future, as present prices are considered to be out of proportion to the actual value of the material. The trade has made a strong effort to prevent the prices of pine lumber from going lower, but it seems unreasonable to expect that present prices will hold throughout the season. On the other hand, we do not anticipate more than a moderate reduction, as the cost of producing lumber has been greatly increased within the last year.

Recent rains have increased the outlook for driving operations, but it is probable that from 10 to 15 per cent. of the cut of pine logs will be hung up. In the Ottawa valley a drive of 5,000,000 feet, taken out by a prominent manufacturing firm, is hopelessly stranded.

In some sections hardwood stocks are quite large, and manufacturers are showing some anxiety to dispose of their holdings. In the Wiarton district summer cut basswood, mill run, has been sold at $15, and winter cut at $17. Elm has been held fairfy steady, but a decline in the price of this lumber is anticipated, as prices last winter were above normal.

MANITOBA AND BRITISH COLUMBIA.

This spring has witnessed a marked revival in building operations in Winnipeg and in many of the smaller towns of Manitoba and the Territories. A number of important buildings are under way, and the season promises to be one of unusual activity. The movement of lumber is consequently large, and dealers and manufacturers report good business. In British Columbia the mills are busy. One mill has contracted to supply 22,000,000 feet of lumber for the foreign trade, and is said to have refused a contract for 10,000,000 feet more. Another mill expects to ship 50,000,000 feet before November, a large portion of which will go to China. On the whole the lumber trade of the coast is in a very satisfactory condition.

UNITED STATES.

Labor trouble is, dull building operations, and a feeling of uncertainty as to the market situation generally, are responsible for the inactivity which characterizes the lumber trade of the United States. The movement of lumber has for some time been below normal, and were it not that stocks are held in strong hands, a break in the market would have occurred before this time. The mill men are practically carrying the stocks, as dealers and consumers are purchasing only for immediate requirements. The demand for box lumber has fallen off perceptibly, manufacturers having purchased heavily early in the year. It is not likely, however, that there will be any serious decline in the price of box material. Reports from the Eastern States are to the effect that there is no sign of a general break in values, although in one or two instances lower prices are said to have been quoted. Lath, as was expected, has sold off, being about one dollar below the highest price of last winter. The price of spruce lumber has not receded, but quotations for delivery next month are being made at a decline of about fifty cents per thousand from present quotations.

Hardwood prices have shown weakness. Everything except poplar is slightly lower, and as a result enquiries for stock are increasing. At Buffalo the demand for birch, maple and basswood continues strong.

GREAT BRITAIN.

Although the tone of the British timber market is quiet, there has been no decline in prices, and those quoted are almost the same as the ruling prices one month ago. The market is, if anything, a trifle firmer, due to the impression that there will be a light import this season. The easiness in the money market is another favorable factor. Spruce and pine deals are moving with some freedom, and stocks at the leading importing centres have become considerably reduced. At recent auction sales prices have been well maintained, notwithstanding that building has been retarded by the high price of materials. Importers are holding spruce at £8 c. i. f. Liverpool, and believe that this is none too high in view of the scarcity of tonnage and excessive freight charges. It is said that the liners from Montreal have taken but a very small quantity of pine deals and boards, as there has been no dearth of freight for which better prices could be obtained. Concerning an auction sale held in London an exchange states that the St. John spruce sold very high, and that a capital price was realized for a very ordinary lot of Miramichi fourths. The unsorted parcel of floated spruce from Bay Verte realized £9 for 3 x 13 inch, £8 5s for 3 x 7 inch and 3 x 6 inch, and £8 for 3 x 5 inch.

STOCKS AND PRICES.

The city council of St. John, N. B., will invite tenders for the supply of a cargo of deals for sidewalk purposes.

The German ship Arnold cleared last week from the Hastings mill, Vancouver, for Newcastle-on-Tyne, with a cargo of timber.

The barque Amore is loading lumber at Granville, N. S., for Buenos Ayres. The schr. Edna and ship Maren are loading lumber at Annapolis for Havanna.

It is reported that J. W. Munro, of Pembroke, has purchased from the Merchants Bank a timber limit on the Mississauga river, Georgian Bay district, and that he intends operating on it the coming winter.

The steamship Gladstrey took on 1,600 loads of timber at Quebec last week and

left for Three Rivers to complete cargo. The Isel Holme is loading a cargo of lumber at Indian Cove, Quebec, for London.

Three of the fleet loading lumber up the Annapolis river were towed to Digby last week. They were the barque Lovosa, bound to Buenos Ayres, and the American schrs. Navarino and A. R. Keene, for Havanna. The Lovosa took 835,594 feet shipped by H. J. Crow, and the Navarino took 400,000 feet shipped by T. S. Whitman. The Keen's cargo of 398,000 feet was shipped by Pickles & Mills.

The steamship Daventry is loading deals and timber at Montreal for the United Kingdom. The Riplingham is also loading a cargo of deals for the same destination. The Kinsale sailed last week from Montreal for Sharpness with a full cargo of timber and deals. The Rathlin Head sailed for Belfast, her cargo including 120 standards of boards, 265 standards of deals, 65 loads of timber, and 650 bundles of staves.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN).

The export lumber business in and about Ottawa is quiet at present. A member of a leading firm of mill owners stated to-day that one reason for this falling off was the difficulty in arranging for ocean carrying facilities. The increase in other lines of shipping, and the demands made on the ocean bottoms by the War Department, are responsible for the dearth of vessels for the lumber trade. The shortage in the local supply of lumber caused by the recent fire has also been in part responsible, but it is expected that this stringency will soon be tided over. Mr. J. R. Booth's mill is working night and day, and the Hull Lumber Company have two small mills running full time. As a result the burned district is looming high with lumber once more, and shipments are being made by rail and water to American points.

It is expected that a considerable quantity of lumber being cut now will be in shape for the English market before many months, although it will not class as well-seasoned stock. If the ocean carrying facilities show an improvement, the lumber business with Great Britain will increase in proportion, as there should be a sufficient supply to satisfy the demand. At present but little lumber is being shipped from Ottawa by water, owing to the fact that the yards nearest the river side, swept by fire, have not been restocked. The greater part of the shipments are being made by rail.

As might be expected, building operations are unusually brisk in Ottawa since the fire. As a result the prices of culls, shingles, laths, and other lines of lumber required in the local market remain firm, and the jobbers report an improvement in business. The various sash and door factories are also working full time and consuming large quantities of lumber.

Shipments of culls and the lower grades of lumber to the American market have fallen off considerably in the past month, and prices have declined slightly in odd lines. This is due to the fact that the American market is over-stocked at present in these particular lines. Shipments of the better grades to American points are large, however; both J. R. Booth and the Hull Lumber Company are shipping several carloads daily by rail. Much of this is being forwarded direct from the mill.

The local mill owners report that the drives in several of the smaller streams running into the Ottawa, Gatineau, and other large rivers, have been interfered with by low water, as the spring freshets have all passed, and the streams are all reduced to normal level, in some cases even lower. No less than 37,000 logs belonging to Gilmour & Hughson have been stuck on the Tomacline river, a tributary of the Gatineau. The blockade was caused by the breaking of a large dam which lowered the water. The logs that were got into the larger streams early in the spring, however, are being rushed down to the Ottawa mills, and the river is at times covered with them. It has been remarked that, despite the destruction of the mills, the drives on the Ottawa and Gatineau appear as large as ever.

At present there is a well-organized strike amongst the laboring classes in Ottawa, which has interfered considerably with the building operations, but as the carpenters have not joined in, the effect on the lumber market is not as great as it otherwise would be.

A stringent fire by-law calls for the erection of fire-proof buildings only in Hull. This covers the entire city, and hence the demand for lumber is not as great as it would be were frame buildings allowed to be erected. Notwithstanding, several of the neighboring mills are working full time to supply lumber for local consumption in Hull and Ottawa.

It is expected that Shurley & Dietrich, saw manufacturers, of Galt, will establish branch works in Ottawa to supply the market of the Ottawa Valley. About fifty hands will be employed at the outstart. The site chosen is that on which the Ottawa Paper Co.'s mill stood at the Chaudiere.

Work is progressing steadily about the premises of the E. B. Eddy Company, and preparations for rebuilding are well under way. The match factory and paper mills will be running before the end of the year, but the woodenware and sulphite works may not be completed till later. One of the first buildings to be completed and fitted up will be the saw mill.

Charlebois & D'Amour, whose planing mill and box factory on Brewery street was destroyed in the recent Hull fire, have decided to rebuild. The new factory will cost about $8,000 when fitted up. Neither Parr's planing mill nor the Ottawa Specialty Works are likely to be rebuilt. These were amongst the leading woodenware industries.

Geo. Daglish's new match factory at Hull is now being operated. The first matches turned out were given over to the Relief Committee and distributed amongst the fire sufferers. These matches were the first turned out in Hull since the fire. Up to this time Hull, the situation of the Eddy Works, was the match centre of the world.

The English war office has placed an order with the Walters' Axe Company, of Hull, for 100 axes of the type used by the Canadian lumbermen. The present is a trial order, the axes to be used in the army and navy.

Many rivermen and lumbermen have returned to Ottawa from the drives and camps. They report the past season a busy and profitable one on account of the high wages and plentitude of work.

It has not yet been decided whether the Hull Lumber Company will rebuild its mill or not.

During the past week over 75 men have left Hull and Ottawa to work in lumber mills at Sault Ste. Marie, Ont. A similar number have left for Sturgeon Falls to work in the mills, and others have left for Michigan points, to resume work in the lumber industry. Many of the men were previously in the employ of the E. B. Eddy Company and Hull Lumber Company.

Ottawa, June 12th, 1900.

MARKET CONDITIONS AT LIVERPOOL

According to Farnworth & Jardine's wood circular of June 1st, the arrivals from British North America during the past month have been 9,872 tons register, against 29,300 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1898, 1899, and 1900 has been 105,694, 121,525 and 119,404 tons respectively. The business has been fairly satisfactory, but quiet. The imports, with few exceptions, have not been too large, the deliveries show some improvement, and there is little change in values to report; stocks generally are light.

PINE TIMBER.—Of waney and square there is little change in the market to report; the first of the season's shipments of waney pine has just arrived and will probably go largely direct into consumption; the deliveries have been fair; the stock is light and values are very firm. Square is only in limited demand. Red pine has arrived more freely, but the demand is quiet. Oak: There has been a moderate import and the deliveries have been fairly satisfactory; the demand has slightly improved and prices are firm; stocks, however, are fairly large. Elm: One small parcel has arrived which should meet with ready sale, as the stock was almost exhausted; prices are steady. Ash has been more enquired for and the stock is light.

PINE DEALS.—There has been a moderate import, and as the deliveries have more than kept pace, stocks are now reduced to a moderate compass, viz., 6,600 standards, against 12,700 standards for corresponding month last yrar; values have improved but owing to the uncertainty as to what extent the recent fire at Ottawa will affect this branch of the trade, there has been little business negotiated recently. Red pine deals continue in fair demand, and prices are firm.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals during the past month have been small, viz., about 1,500 standards, against 11,500 standards for corresponding month last year. The deliveries have been fairly satisfactory and the stock is now reduced to 7,200 standards; there has been more enquiry and prices continue fairly steady. Pine deals have improved in value; and stocks are light.

BIRCH.—Of logs, Quebec has been imported moderately. The arrivals, however, have been chiefly from the lower ports. The deliveries have been unsatisfactory and values are weaker; stocks are not too heavy. Of planks there has been a very large import, but the deliveries have been satisfactory and there is little change in value to report; the stock is not too heavy, but caution should be exercised in consigning to a more moderate extent.

Following are current prices for Canadian stock:

		Per Foot.
White pine, Quebec square wood	1s	3d to 2s 4d
" " Waney board	2s	2d to 2s 10d
" " St. John, 18-in. average	1s	6d to 2s 2d
" " Dalhousie, etc	1s	0d to 1s 4d

COOPERAGE STOCK.

Concerning the cooperage stock market Messrs. Sutherland, Innes & Co., of Chatham, Ont., say:

The stave jointing season is now in full swing, and mill men are beginning to catch up with their orders, coopers being in better shape for dry stock than they have been for months. The demand continues equal to the supply; in fact, of No. 2 staves, the supply is still very short. Prices continue to be fully maintained; for choice No. 1 staves most of the manufacturers are looking for high prices. The visible supply of logs is very much less than was estimated on April 1st.

Some of the hoop manufacturers got severely rattled during April and early May, thinking there were more than enough hoops to go around, taking it upon themselves to cut prices $2, and even $3, per 1,000 below March prices. These men are now rushing to the other extreme, quoting figures higher than the market warrants. From $10 for 6 foot hoops, they dropped to $7, now are back to $9, while $8 is about the market price. The splendid show for fruit has been the cause for these mercurial changes.

The hoop market is really in better condition than for the past six months, as, while prices are lower than for some time, the market is steady, and there is not that uncertain feeling predominating which is so disastrous to producers and consumers alike.

The situation on heading is a little easier, and, as the mills are mostly running, the coopers will be able to get a regular supply. Prices remain practically unchanged over 1900 contract purchases. The extremely high prices paid in some cases during the early part of the year are, of course, out of vogue, but no cutting is being done on the part of the mill men, for the simple reason that they can still get their own prices, provided they are not exorbitant. Stocks of heading bolts, more especially basswood, are very light, and unless there is unusually good trucking weather this summer and fall, there is going to be a shortage this season.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JUNE 20, 1900 No. 22.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED TO BUY:—Match Blocks and Case Shooks. EVERGREEN PARK MATCH WORKS, Evergreen Park, Ill., U.S.A.

10 " 1 in. M. R. Soft Elm.

Prices on application.

J. S. FINDLAY,
Owen Sound, Ont.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada, in London, Eng.:

31. A Glasgow firm ask for names of Canadian firms manufacturing wood dowels.

32. Enquiry is made for a list of the principal pulp making firms by a gentleman who contemplates starting an agency for the sale of Canadian wood pulp.

33. The addresses of Canadian manufacturers of round wood dowels are asked for by a London importer.

34. A London paper agent who has had experience in handling the product of Canadian mills desires to get into communication with manufacturers in the Dominion who desire to open up an export trade.

35. A firm buying box boards from time to time will be glad to send specifications of their requirements to Canadian houses able to meet them.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been a very moderate movement of lumber during the past week. Consumers are purchasing for immediate requirements only, while dealers appear to believe that the market is on the verge of breaking, and consequently they have not been liberal buyers. The manufacturers, on the other hand, are putting forth a strong effort to maintain prices at their present basis, and it must be said that generally they have met with success. The action of the lumbermen of Western Ontario, at their meeting on the 15th inst., has given increased strength to the market. At this meeting, a report of which will be found elsewhere, figures were presented showing the total prospective cut of the Georgian Bay mills this season to be 470,000,000 feet, of which 70,000,000 feet has already been sold. The quantity of pine lumber which will be placed on the market this season will, it seems, be limited, instead of excessive as some suppose. The opinion was unanimous that prices should be maintained, and that the present somewhat backward demand was but temporary.

Hemlock lumber has weakened, and where a few weeks ago $10 per thousand was the quotation at the mill, purchases are now being made at $9, and some manufacturers are said to be quoting as low as $8. Whether other classes of lumber will follow in the line of hemlock is a question in dispute. Some of the hardwoods, particularly elm and maple, are showing signs of weakness, due to a heavy production in Western Ontario. No changes have been made in the Toronto quotations excepting on lath, which has been marked down about 25 cents per thousand, No. 1 selling at $3.50. In the Ottawa valley the only changes are on shipping cull stock, which is slightly weaker.

QUEBEC AND NEW BRUNSWICK.

An advance has taken place at Quebec in the price of white and red pine timber. Square white pine, in the raft, 40 to 50 feet average, is now quoted at 34 to 40 cents, 19 to 21 inch Ottawa waney at 40 to 50 cents, and 19 to 21 inch Michigan waney at 45 to 50 cents, while red pine sells at from 23 to 30 cents, the latter figure being obtainable for first-class timber in shipping order. Other varieties of timber are selling at previous quotations.

The spruce market generally is firm, and although the demand from the United States is quiet, manufacturers are holding firmly to prices. The export trade is improving, and during the past week several vessel charters have been made.

MANITOBA AND BRITISH COLUMBIA.

The value of building permits granted this year in the city of Winnipeg exceeds the sum of $600,000. This will give some idea of the extent of building operations, not only in Winnipeg, but generally throughout Manitoba and the Territories. There has been a steady demand for lumber, and prices have been very satisfactory. Until recently the crop outlook, owing to drought, has not been very promising, but it is reported that much-needed rains have fallen. The conditions in British Columbia are somewhat similar, excepting that the improvement in the demand over last year is more particularly in export trade. The large manufacturers report orders now on their books which will tax the capacity of their mills for months to come, and the present indications are that the volume of trade this season will exceed that of any other year.

UNITED STATES.

The lumber market of the United States has, within the past few days, shown elements both of strength and weakness. Perhaps the most important factor of strength is the almost certainty that the white pine production at many points will be about 25 per cent. less than was counted upon early in the season, this being due to the continued drought, which has prevented the manufacturers from getting a full supply of logs. Features of weakness are the slow demand, the heavy stocks held at some of the eastern wholesale points, and the reported fluctuations in prices. One dealer may report that there has been no decline in the price of lumber, while another may mark down the list perhaps $2 per thousand. Reliable information from Albany states that uppers and fine common have declined about $2 per thousand, and that barn boards, box and common stock are from $1 to $2 lower than they were a couple of weeks ago. In Buffalo and Tonawanda most of the dealers are holding to the old list, but some are reported to be quoting stock at a considerable reduction. On lath, however, prices at all points have declined. No. 1 white pine is selling at Buffalo at $4, No. 2 at $3.50, and mixed at $3.75. In Chicago prices of lath have likewise dropped $1 per thousand. The demand for shingles and lath is quiet, due to decreased building operations. Spruce lumber is holding firm-

Merchantable log run is selling in New York at $20 to $21 by car and $19 to $20 by vessel. The supply of hardwood has become more plentiful. The output in Eastern Michigan this season will be larger than usual, and it is probable that slightly lower prices will rule.

GREAT BRITAIN.

The position of the British market is reflected by the stocks on hand at the Surrey Commercial Docks, London. In comparison with the same time one year ago, the stocks show a decrease of 60,478 pieces of pine deals, 80,986 pieces of pine ends, 42,000 pieces of spruce deals, and 1,713 pieces of battens, and an increase of 32,503 pieces of pine battens, and 6,018 pieces of spruce ends. When it is remembered that the stocks of one year ago were by no means heavy, the present satisfactory condition of the supply will be understood. As the quantity of stock to be received in Great Britain this season from Canada and the Baltic is certain to be less than usual, it seems likely that still higher prices may rule. The high freight rates will also assist in maintaining the market. It is said that 60 shillings has been paid on a cargo from Miramichi, N.B., to London, which is the highest rate known for many years. The sale is reported of two cargoes of St. John spruce at £7 15s on vessel at Bristol. This is an advance upon late quotations.

For square and waney timber there is only a limited demand, although prices generally remain firm. The exception to this is birch, of which the import has been heavy, and which is selling at two shillings per cubic foot lower than one month ago.

STOCKS AND PRICES.

In New York City No. 1 barn stock is selling at $26 to $27.50, No. 2 at $24 to $27, and No. 3 at $22 to $23.

H. J. Crowe has loaded the ship Maren with 1,450,000 feet of lumber at Annapolis, N. S., for Buenos Ayres. Other vessels are also loading for British ports.

J. H. McMillan, of Gore Bay, Ont., has started his saw mill at Helen's Bay, and will manufacture one million feet of pine and oak lumber for the Orillia Export Lumber Co., of Orillia.

The following rafts of timber were entered at the office of the Supervisor of Cullers, Quebec, up to June 5th of this year: Charles Veilleux, St. Lawrence docks, birch, etc.; James Butler, Louise Embankment, birch, etc.; Boisvert & Gauthier, Louise Embankment, birch, etc.; Thomas Griffim, Louise Embankment, birch, etc.; Wilson & Holmes, sundry places, elm, ash, etc; Nicholas Flood, Louise Embankment, birch, etc.; W. E. Simpson, Simpson's wharf, birch, etc.; The McArthur Bros. Co., New Liverpool Cove, pine; Alfred Auger, Louise Embankment, birch; Klock & Perley, New Liverpool Cove, pine; The Calvin Co., Ltd., Sharples Cove, elm, ash, maple, etc.; The Calvin Co., Ltd., sundry coves, oak and pine; Mickle, Dyment & Sons, Thessalon, Ont., waney pine; Archie Sharples, Quebec Warehouse, elm, hickory, etc.; Alleyn & Egan, sundry places, square birch; the McArthur Bros. Co., New Liverpool Cove, oak, pine, elm, ash; A. Sharples and N. McIntyre, Sharples Cove, elm, etc.; A. Sharples, Bridgewater Cove, elm; Buck & Raney, Bridgewater Cove, pine, elm, ash, etc.

Reports from Saginaw, Mich., state that there is no accumulation of unsold stock in Eastern Michigan, as manufacturers and dealers sold ahead during the winter. Log run is quoted at $16 and upwards, boy lumber $16, norway dimension $14 to $18, and mill culls $13 to $14. On the Saginaw river log run ash is quoted at $18, basswood $18, elm $16, hard maple $14, and red oak $20 to $24.

MEETING OF ONTARIO LUMBERMEN.

A representative meeting of the Ontario Lumbermen's Association was held at the Board of Trade Council Chamber, Toronto, on Friday, 15th inst., Mr. John Waldie, the president, in the chair.

The following members were present:—Messrs. H. Cargill M.P., R. Laidlaw, N. Dyment, M. Boyd, Geo. Thompson, R. Watt, C. Beck, John Charlton, M.P., W. J. Sheppard, John Bertram, H. L. Lovering, A. E. Dyment M. P., R. Jackson, W. B. Tindall, Secretary.

One of the principal matters up for discussion was the business outlook for the balance of the year, particularly as to the advisability of the present prices being maintained.

The following facts were presented:—

Total amount of lumber of the cut of 1899 on hand at manufacturing points on Georgian Bay	11,000,000 ft.
Total cut of 1900 as now known	470,000,000 ft.
Total	481,000,000 ft.

Of this new cut 70,000,000 feet is sold to American yards for distribution and placed for industrial uses, leaving only 411,000,000 feet available for the season's competitive trade, including last year's stock. Taking into consideration the stocks that under ordinary conditions must be carried over from one year to another at these mills to be 220,000,000 feet, (which was the quantity on hand January 1st, 1899) would determine the amount short on this season's market from Georgian Bay points to be at least 240,000,000 feet.

The meeting was unanimously of the opinion that with the limited cut and the active English demand, and with a very large shortage of logs at all manufacturing points in Wisconsin and Minnesota, as confirmed by the Trade Press of the United States, and also a great shortage occasioned by the Ottawa fire, there was no fear that a good demand at present ruling prices for all grades will soon set in. Notwithstanding this owing to the high wages of last winter, only a fair profit would remain to the mill.

THE GLASGOW MARKET

Of the Glasgow timber market Messrs. Edmiston & Mitchells, in their monthly timber circular, say:

Business during the past month has been—as is not unusually the case at this period of the year—somewhat quiet, the buying generally being of a retail nature. Several steamers are to hand from Montreal, which, compared with last year, bring a comparatively small amount of timber and deals, and the bulk of it is on contract. Old stocks are now reduced to a very small compass, and the statistical position of the market is favourable; but, notwithstanding this favourable feature, buyers are by no means inclined to stock themselves heavily at the high prices asked for fresh importations, nor are they likely to alter their attitude until they feel satisfied that any likelihood of prices weakening is remote. The output of Scottish shipbuilders for the month is 56,970 tons, against 52,130 tons for May, 1899. New orders unfortunately only amount to approximately 15,000 tons, but negotiations for some important contracts are still in progress, and it is hoped that some of these may come to the Clyde.

WANEY BOARDWOOD.—First-class: A few small sales are reported at from 2s 9d to 2s 10d per cubic foot on a basis of 70 feet average. There are not many enquires in the market. For second class prices have ranged from 1s 7d to 1s 9d, but the amount of business done has been trifling in extent.

RED PINE.—No sales are reported. The enquiry in the market for 250 loads has not so far been placed.

OAK.—The stock on hand is considerable and quite ample for the probable prospective requirements of the market for some time. There are no sales of importance to report.

ELM.—A few small sales are reported at from 3s to 3s 2d for prime 45-foot timber. The stock on hand is light.

QUEBEC BIRCH.—The arrivals this month are 1,256 logs, a portion of which is on contract. Of consigned parcels a few sales have been made at from 1s 9d to 2s per cubic foot on a basis of 17 to 17½-inch average. Buyers are rather inclined to hold off under the impression that prices will be easier.

LOWER PORT BIRCH.—The arrivals comprise 341 logs St. John's, and 369 logs Pictou, both of which shipments are sold "ex quay" at about 18d. on a basis of 16-inch average.

BIRCH PLANKS.—About 150 standards have been sold during the past month at 12½d per foot "ex quay."

ASH.—The stock is exhausted, and early arrivals of first-class white ash logs will find buyers without difficulty. Nominal value of 15-inch about 2s 3d per cubic foot.

DEALS, ETC.—Deliveries from public yards keep satisfactory, showing a good all-round consumption. New business, however, is hard to negotiate on account of the higher prices demanded by shippers, and while sales during the month have not been numerous, higher values have certainly been established.

Current values are as follows:—Broad First Pine Deals—have been sold at £27 to £28 15s; 11-inch, £23 to £25; ends and non-dimensions, £17 to £22. Second Pine Deals—11-inch and up, £20 to £21 10s; non-dimensions, £14 to £16. Third Pine Deals—11-inch and up, £12 7s 6d to £14; narrows, £9 15s to £10 10s; ends, £8 10s to £9. Fourth Pine Deals—11-inch and up, £9 to £9 10s; narrows, £8 to £8 10s. Red Pine Deals—9 to 11-inch by 3 and 4-inch, £12 10s to £14 10s; narrows, £10 to £12 10s. First Quality Pine Sidnigs—8 to 9-inch average, £18 to £19; 10 to 11-inch average, £20 10s to £21 10s; 12 to 13-inch average, £22 to £24. Spruce Deals—7 and 8-inch by 3-inch, £8 to £8 10s; 9 to 11-inch by 3-inch, £8 15s to £9 10s.

TIMBER MARKET REPORT.

The following reference to Canadian timber is found in the monthly report of Messrs. Alfred Dobell & Company, of Liverpool:

WANEY BOARD AND SQUARE PINE.—Prices of waney are very strong. A large shipment has arrived, and is going direct into consumption. Several parcels now due have been sold on contract. Of square the stock is sufficient for the languid demand.

OAK.—There has been fair enquiry and prices are steady.

ELM.—One parcel has arrived, which is going into consumption at high prices.

BIRCH.—Logs have arrived freely; prices are slightiy easier. Planks—The import has been very heavy, and prices have a downward tendency.

PINE DEALS AND BOARDS.—Owing to the fire at Ottawa prices have advanced materially. The stock, especially of the higher grades, is very light.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE DEALS.—The import has been small, with a good demand, and prices are very firm. A number of special sizes are out of stock. Following are current quotations:

		Per Foot.
White pine, Quebec square wood	1s	4d to 2s 4d
" " Waney board	2s	3d to 2s 1cd
" " St. John, 18-in. average	1s	6d to 2s 3d

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JUNE 27, 1900 No. 23.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—Foreman for small Pulp Mill. One A knowledge of the French language preferred. Address "DOMINION," CANADA LUMBERMAN.

HARD-WOOD MILL—GRIST MILL

For a good hard-wood mill site and grist mill site, also large quantity of timber fit for wood flour, write L. O. ARMSTRONG, C. P. R. Colonization Agent, Montreal.

FOR SALE

ONE MILLION FEET OF BIRCH, SOME Basswood, Ash, Oak, Elm, Maple, Hickory and Chestnut, also a complete stock of dry pine in all grades. Prices on application. THE ORILLIA EXPORT LUMBER CO., Orillia.

WANTED.

BY A BRITISH IMPORTING FIRM, WANEY log pine boards. Canadian manufacturers having this class of stock to offer are invited to send particulars and prices to Box 85, care of CANADA LUMBERMAN, TORONTO.

WANTED

A THOROUGHLY COMPETENT SHINGLE saw filer and hammerer, and general all-round up-to-date all-round shingle mill man, who can do millwright work and understands handling men. Steady employment. Apply, with references, age, etc., and stating wages expected, to SPICER SHINGLE MILL CO., LTD., Vancouver, B. C.

WANTED

A LEADING ENGLISH MANUFACTURING firm are open to treat with a respectable Canadian lumber manufacturer for a sample carload of Ash, etc., with a view to further business. Ash to be sawn into scantlings, 3 x 3½ by 5 to 8 feet long, 4 x 4 by 5 to 8 feet long, shafts (slightly bent) 3½ x 3½ by 8½ feet long,

Oak spokes 1½ x 2¼ by 28 inches long, sawn out of small trees of good quality, free from sap.

The smaller scantling of ash and the shafts to be sawn from best quality logs, not exceeding 20 inches diameter. The 4 x 4 may be from larger trees, if of good quality. Payment in cash at Toronto bank. Delivery at Montreal. Address SMYTH, Peasenhall, Suffolk, England.

WANTED,—150 M feet 1-¼" and 1-½" Basswood, 20 M feet 2" Basswood. THOS. MYLES' SONS, Hamilton, Ont.

PORTABLE SAW MILL—The undersigned is prepared to cut all kinds of Lumber. First-class work guaranteed. Prices reasonable. Address W. E. RUTLEDGE, Holt P. O., Ont.

WANTED.

PLANER, MOULDER AND TENONING MAchine and other machines. Addres Box 89, Kagawong, Ont.

WANTED.

3 COMPETENT SAW FILERS. NONE OTHER need apply. Apply to Box 20, CANADA LUMBERMAN office.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MILLWRIGHT WANTED

D. FRASER & SONS, CABANO, P.Q.

1 " 2 in. Hard Maple.
10 " 1 in. M. R. Soft Elm.

Prices on application.

J. S. FINDLAY,
Owen Sound, Ont.

THE WEST INDIES.

Messrs Edgar Tripp & Co. Port of Spain in their Semi-Monthly Market Report of June 6th, say:—"We have had no arrival of Lumber Stuffs during the fortnight. Nova Scotian White and Spruce Pine Boards continue wanted." Messrs. Gordon Grant & Co. in their Comemrcial Review of same date state:—"We have no arrivals of Pitch Pine to report but several cargoes are shortly expected which are likely to fill requirements for a time. Handy sized lots of Nova Scotian as well as Spruce command full prices."

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber situation at the present time is the most peculiar that has been known for many years past. There are a number of causes operating for and against a change in prices. Building operations, except at Ottawa, are proceeding at a much slower rate than was anticipated earlier in the year. The outlook early in the season was very promising, but investors appear to be holding off in consequence of the high price of materials and in the hope that prices may decline. Building operations in the principal cities of the United States, notably Chicago, have largely declined in volume as compared with last year, owing largely to labor disputes and strikes. This condition of affairs is having its effect upon the lumber market tending to weaken prices. The unfavorable outlook for this season's crops, due to the want of rain, is another influence adverse to the maintenance of prices. The demand from the farming community, under favorable conditions, is a large one. If the crops turn out badly projected improvements and repairs will not be undertaken, and there will be in consequence, a considerable falling off from this source. As against these adverse influences there is the fact, already mentioned, that many of the rivers and streams used to float the timber to the mills have, owing to the drought, lessened in volume to such an extent that it is not possible to get the timber out. The Spanish river, for example, is said to be 9 feet lower than in any previous year. The reduction in the cut of the mills this season due to the above circumstance must act as an important factor in maintaining prices, more particularly in view of the fact that stocks in hand at the opening of the season were unusually light. It may possibly be that prices may slightly decline for a time, but manufacturers are reported to be holding out for present figures. The manufacturers of packing boxes are said to be receiving very few orders, the reason for which is not yet apparent. A large amount of red pine boards and deals ranging from one inch and upwards in thickness, and from seven inches and upwards in width are said to have been sold at good prices to British buyers, and this is helping to steady the market.

QUEBEC AND NEW BRUNSWICK.

The export trade continues to be hampered by high freight charges, and shippers are somewhat at a loss to understand from what direction relief may be expected. The South African war, no doubt created a demand for vessels, but these should now be available for other purposes. Shipments to the United States have fallen off greatly during the present season as compared with last year, and the customs returns for May show that lumber exports from the port of St. John amounted to only $198,828 as compared with $424,267 in May 1899. There has, however, been a good demand throughout the season from the United States for spruce boards, for box stuff, prices ranged from $9 to $9.50 per thousand feet on the wharf at St. John.

MANITOBA AND BRITISH COLUMBIA.

The outlook for the sale of lumber to the farming community is discouraging, in view of the unfavorable crop conditions at present prevailing throughout Manitoba, and to some extent in the North West Territories also. While reports vary considerably, there is little question that the yield of grain in the North West this season will fall very far below that of recent years. The blow will not fall so heavily upon the farmers as it would have done a few years ago, seeing that they are not entirely dependent, as formerly, upon wheat growing, nevertheless, the shortage will be such as to be severely felt, and will be the means of restricting the use of lumber for improvements. Fortunately, as stated last week, building operations at Winnipeg have been unusually brisk, affording an outlet for a large quantity of lumber. There is no material change in the situation in the province of British Columbia.

The statistics of the Pacific coast shingle industry show that during the first five months of 1900, 900 more cars of shingles were shipped than during the same period of 1899. During the month of May the Canadian Pacific railway is reported to have transported 75 cars of shingles from British Columbia.

UNITED STATES.

There appears to have come a sudden dullness of demand for lumber, the cause, apart from the great falling off in building operations due to labor troubles, is not readily apparent, as business generally seems to be in a satisfactory condition. It is not improbable that already the presidential election may be affecting the situation. It is a well known fact that business conditions are usually seriously disturbed for months previous to the time of the election. Many business men engage in politics at such times, often to the

neglect of their business. The decline in the price of steel is taken as an indication, by some, that lumber prices will decline also. In support of this expectation, wholesalers point to the fact that last year when prices of iron and steel were advancing lumber prices steadily advanced also in sympathy therewith. Against this theory it is contended that lumber is likely to benefit by the increased activity in building operations consequent upon a reduction in prices of iron and steel, which now enter so largely into building construction. The total stocks of lumber in hand throughout the country are said to be below the average. A circular, issued by the Mississippi Valley Lumbermen's Association, calls attention to the fact that about twenty-five of the large mills on the Mississippi river and its tributaries have already closed down on account of the shortage of logs, due to the lowering of the water in the rivers. The circular says: "The lumber cut of the season is already greatly reduced and cannot be made up, even though heavy rains may fall soon. The rivers are falling an inch and more every day. These conditions must be reckoned with sooner or later, and are sure to exert a decided influence on the market. The shortage of logs and lumber precludes the possibility of lower values in 1900."

Prices of hardwood have declined somewhat compared with last winter. The cut is said to be heavier than last year and the supply fully equals the demand. Red cedar shingles have also declined somewhat in the Boston market, while prices of New Brunswick shingles have gone up a little.

GREAT BRITAIN.

Trade has been temporarily at a standstill owing to the holidays and rejoicings consequent upon the success of the British arms in South Africa. The market shows no sign of weakening however, and no change in values is looked for before the termination of the war, when it is not improbable that prices of deals and battens may advance in response to the expected demand from the Cape for material for the building of barracks and many other purposes. There is no present disposition manifested by importers to anticipate such an advance.

Considerable shipments of red pine boards and deals have been made this year by some Canadian manufacturers, and it is becoming more clearly evident that a large and profitable demand is springing up in this market for this class of timber. The demand was heretofore supplied with Swedish goods, but the supply from this quarter, particularly of the larger sizes, is constantly diminishing, while prices have advanced more than 25 per cent. in consequence, and even higher figures are likely to rule before the close of the season. There is therefore an opportunity for Canada to do a profitable trade in this class of timber. The difficulty of securing tonnage and the excessive freight charges is restricting importations to very moderate dimensions. A couple of cargoes of St. John spruce is reported to have been sold at Bristol the other day at £7 15s. c. i. f., which standard it is believed will be maintained under present conditions. According to the brokers' returns the import of spruce at Liverpool for the month of May, was only 1,520 standards, as against 11,588 standards for the same month last year.

STOCKS AND PRICES.

Mr. John Kilburn has brought down a drive of 10,000,000 feet of logs from Quebec to St. John.

The rafting of the logs to the St. John, N.B., mills is said to be progressing more satisfactory of late.

Messrs. Toner & Gregory, of Collingwood, are manufacturing 8,000,000 feet of red pine deals for export.

Common pine plank 4, 6 and 8 inches wide, recently sold at Huntsville at $13, 10 inch at $14, and 12 inch at $15.

Some of the best selling hardwood are reported to have dropped $2 per M. in in price during the last three weeks.

Mr. T. G. McMullen, of Ryans Creek, Hants county, Nova Scotia, will finish in about a month a cut of 800,000 feet.

Owners of the mills on the line of the Kingston and Pembroke railroad are said to be obliged, such is the demand, to ship lumber green.

A correspondent writes that he has American orders for large quantities of birch, but the prices asked by the manufacturers on the Georgian Bay are too high to warrant purchasing. He would be willing to pay $16 for selects and $11 for lower grades, but $20 and $14 are demanded. He estimates that the stock of birch in the Georgian Bay district will reach 16,000,000 feet, and that it will not pass out of the owners' hands unless more moderate prices are accepted.

THE BOSTON MARKET.

We quote the following from the Boston Herald: The spruce lumber market has received a setback in that the combination has put down prices about $2 per 1,000. This has really alarmed the trade, and resulted in no business. The verdict is that prices ought to have been put down early in April, and then building would have been encouraged. Users of spruce lumber say that to put down prices not that building has has been almost entirely stopped by high prices, simply amounts to killing what litte trade there is.

The new agreement prices are:

10 and 12 in. dimensions	$17.00
9 in. and under	15.00
10 and 12 in. and under	16.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4	13.50
All other random, 9 in. and under	14.50
1⅝ laths	3. 0
½ laths	2.85
5 inches and up boards	14.00
Bundle furring	13.00

Hemlock lumber is nominally easier, although there is still very little offering:

Canadian and Eastern boards	$15.00 to $16 00
Pennsylvania	19.00

with $14 for 20s and $11 for 14s.

Western pine continues very easy:

Uppers, 1 in	$56.00 to $58.00
1¼ to 2 in	58.00 " 60.00
3 and 4 in	68.00 " 72.00
Selects, 1 to 4 in	52.00 " 64.00
Fine common, 1 to 3 in	45.00 " 60.00
Sheathings	38.00 " 54.00
Barn boards	28.00 " 30.00
Coffin boards	24.00 " 26.00

California redwood is in quiet demand at steady prices:

Strictly heart, 1 in	$48.00 to $55.00
1¼, 1½ and 2 in	50.00 to 57.00
3 in	55.00 to 60.00
4 in	60.00 to 65.00

Clear $3 less.

Hardwood lumber is in quiet request, with the market easy, although little change in quoted prices:

Whitewood, 1 in	$37.00 to $39.00
Whitewood, thicker	38.00 " 44.00
⅝ inch	30.00 " 34.00
Saps, inch	28.00 " 30.00
Common	25.00 " 28.00
Quartered oak	70.00 " 80.00
Fancy Oak	90.00 " 100.00
Plain Oak	35.00 " 48.00
Ash	38.00 " 50.00
Cherry	90.00 " 130.00
Maple	30.00 " 40.00
Sycamore, quartered inch	40.00 " 50.00
Walnut	100.00 " 130.00

Shingles are easy, with a very full supply:

Extra	$3.00 to $3.10
Clear	2.60 2.70
2nd clear	2.00 2.00
Clear white	1.75 2.00
Extra No. 1	1.50

Oregon, $2.50 to $3.50, as to grade and quality.

These prices are for Boston, freight paid. California redwood is quoted at $3.40 to $3.50.

Clapboards continue very dull:

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27.00
Spruce, 2nd clear	23.00 " 24.00
Pine, extra	38.00 " 42.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42 50 " 45.00
Second grade	40.00 " 42.00

Laths are easy: 1⅝ inch, $3; 1½ inch, $2.85.

BARBADOES MARKET.

Messrs. Musson, Son & Co. report: There has been one arrival of spruce, the cargo reported by us as sold at $22 to arrive. In white pine there has been no arrivals, and nothing further reported since the cargo contracted for at $24.50 shipping, $2c seconds. In pitch pine no further transactions; there is a cargo on the way to our consignment. There is nothing new to report in shingles, shooks or woodhoops.

Messrs. Clairemont, Mann & Co. report: Both white pine and spruce are in great demand, as our yards are very bare of both kinds, particularly spruce, for which there is always a good demand during our reaping season. There has been one arrival with spruce, sold to arrive at $22 round. We also note the sale to arrive, of a cargo of white pine, at $24.50 round for first quality, and $20 for second quality. No arrival with pitch pine for some time, and it is now very much wanted.

Shingles—Gaspe cedar, in supply, and market dull—there is a large lot in store unsold, principally small, for which $3.75 per M is asked, but less would be accepted to make a sale. No late arrivals of laying shingles. June 5th: Schr. "F. A. Rice," from Church Point, N.S., with 145 M feet spruce—Sold to arrive at $22 round.

SHIPPING MATTERS.

Shipments of lumber, lath, shingles and telegraph poles are heavy at present from Deseronto, Ont.

Barkentine Antilla, which sailed from Bantry the other day, goes to Yarmouth to take in lumber for Buenos Ayres at $11, or if Rosario $12.

The steamer Bridgewater is discharging a large quantity of pulp at Central wharf, Halifax, for shipment by the steamer Sheldrake, which will be due from Brennan next week.

The British barque Lakemba of Glasgow and the American barque Sonoma are loading a cargo of lumber at the Hastings mill, Vancouver. The former is receiving a general overhauling and is being repainted.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, 9½ cents per 100 lbs Ottawa, Rockland and Hawkesbury to Montreal, for export only $1.10 per M ft., domestic 4½ cents per 100 lbs; Quebec, $2.10 per M ft., domestic 8½ cents per 100 lbs.; Arnprior to Montreal, for export only $1.60 per M ft., domestic 6½ cents per 100 lbs.; Quebec, export $2.60 per M ft, domestic 10½ cents per 100 lbs.; Pembroke to Montreal, for export only $1.85 per M ft., domestic 7½ cents per 100 lbs; Quebec for export only 2.85 per M ft., domestic 11½ cents per 100 lbs.; Ottawa to New York, all rail, 15 cents per 100 lbs; Arnprior to New York, 17 cents per 100 lbs.; Pembroke to New York, 18 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to New York and points within regular lighterage limits of New York Harbor, seasoned pine lumber, lots of 50 M feet and up, via Williams Barge line from Albany, $3.25 per M feet, lath 65 cents per M pieces, lots 25c M pieces and over; from Arnprior, seasoned pine lumber $3.75 per M feet, lath 7 5cents per M pieces; from Douglas, Eganville and Pembroke, seasoned pine lumber $4.00 per M feet, lath 80 cents per M pieces, Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14c. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c., exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents. export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B., and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs. Rates quoted above are in cents per 100 lbs.; when quoted per M ft., minimum carload will be 10 M ft., lumber not exceeding 3,000 lbs. per M ft. Lath minimum carload 50 M pieces, not exceeding 600 lbs. per M pieces. Ottawa rates apply on shipments from Rockland and Hawkesbury.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JULY 4, 1900 No. 24.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at he rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion n the current week's issue.

WANTED,—150 M feet 1-¼" and 1-½" Basswood, 20 M feet 2" Basswood. THOS. MYLES' SONS, Hamilton, Ont.

WANTED—Foreman for small Pulp Mill. c- A knowledge of the French language preferred. Address "DOMINION," CANADA LUMBERMAN.

HARD-WOOD MILL—GRIST MILL

For a good hard-wood mill site and grist mill site, also large quantity of timber fit for wood flour, write L. O. ARMSTRONG, C. P. R. Colonization Agent, Montreal.

1 " 2 in. Hard Maple.
10 " 1 in. M. R. Soft Elm.

Prices on application.

J. S. FINDLAY,
Owen Sound, Ont.

SHIPPING MATTERS.

Mr. H. S. Toffey, of Portland, has purchased Mr. Wm. Playfair's stock at Playfair's Mills, and is now shipping it to his yard at Portland, along with a quantity bought from Mr. Wm. Lees, Fallbrook.

The Manchester Gaurdian says: An interesting development of the Canadian timber trade with Lancashire is the berthing of a steamer at Halifax to load for Preston. Hitherto, Canadian timber has been brought to Preston dock by sailing ships, and the announcement that the steamer "Sheldrake," of over 4,000 tons' burden, is to receive cargo at Halifax for the Ribble port, within a few days, is a sign of progress.

Mr. H. Fawcett Hartland, of Montreal, agent for the purchase and sale of timber properties, has recently removed his offices to 309 and 310 Merchants' Bank Building.

The secretary of the Department of the Interior, Ottawa, invites tenders until the 9th nst. for licenses to cut timber on Dominion iLands in the Province of British Columbia.

CURRENT TRADE CONDITIONS.

ONTARIO.

The situation has changed but little during the past week. Some rain has fallen sufficient to somewhat improve the crop prospects, but not enough to cause any appreciable rise in the logging streams. From some parts of Ontario the reports indicate an abundant harvest, while in others, where the drought has been more severe, there will be a light yield. The large number of public works included in the supplementary estimates of the Dominion Government, calling for a total expenditure of $7,000,000, will absorb a considerable amount of timber. Numerous railway enterprises are projected, which will also call for a large amount of material. In this connection, it is proposed to add largely to the rolling stock of the Intercolonial Railway, and a considerable amount of car material will be required for this purpose. Reports from Ottawa state that the local supply of lumber has proved inadequate to meet the demand arising from the large building operations now in progress in that city and material is being imported from Montreal and other points. Taking into account all phases of the situation, including the confidence expressed by United States manufacturers that conditions there are such that no reduction in prices of white pine will be made during the present year, there seems ground to hope that present prices are not likely to vary materially, provided that manufacturers and other holders of stock refuse to be frightened into sacrificing their reasonable profits by the reports of an impending drop in prices.

QUEBEC AND NEW BRUNSWICK.

Evidently a difference of opinion exists between timber and pulp manufacturers and the Quebec government with regard to the value of timber lands in the province of Quebec. At the adjourned sale of government limits, held last week, only a comparatively small number of purchases were made, notwithstanding that there was a good attendance of prospective buyers. The latter complained that the withdrawal values placed upon the lands by the government were excessive. On the other hand, the Commissioner of Crown Lands contended that the government valuation was a fair one, and that at future sales values would be found to rule still higher. The rate at which the pulp manufacturing industry is developing in this province seems to warrant this opinion.

The important announcement is made that the legislature of Trinidad has declined to grant to the United States Government an extension of time for the ratification of the commercial treaty between the Republic and the island. This has given rise to an agitation in the maritime provinces for a commercial treaty between Canada and the West Indies. The island of Trinidad has a population of a quarter of a million, and is a large consumer of food products as well as of lumber and manufactures of wood. The bulk of this trade is now being done by the United States and Germany, which countries have studied carefully the requirements of the market. Inasmuch as Canada is in a position to purchase the sugar and other products of the islands, it would seem that a mutually profitable agreement might be made.

The British market is the salvation of the lumber industry at present, and all eyes are directed over the water. The demoralization of trade has carried millmen and shippers who formerly directed their attention southward to seize every opportunity of realizing cash from the English market with little or no profit in preference to lying idle with stock on hand.

At a meeting held in St. John recently the necessity of better shipping facilities from New Brunswick to Great Britain was fully discussed, and in connection therewith what inducements might be offered to the Elder Dempster Steamship Co. to provide a summer service. Representatives of the pulp industry and manufactures of wood stated that last year high freights were the means of cutting their mills out of the British market. They now had orders offered, but hesitated to accept them because of inadequate shipping facilities. The hardship of the situation is emphasized by the fact that higher prices for pulp are offered in the the British market at present than can be obtained in the United States. Manufacturers of box shooks, cloth boards, laths, staves and such like products, complaint that unless they could make up a full cargo they would be obliged to ship via Halifax, Portland and Boston. A resolution was passed requesting the government to offer inducements for an efficient steamship service direct from St. John to Liverpool from April 20th to November 20th in each year.

MANITOBA AND BRITISH COLUMBIA.

The crop prospects have materially improved in consequence of plentiful showers of rain which have fallen throughout

Manitoba. It is estimated, on good authority, that there will be a yield of about 15 bushels to the acre. That there are no large stocks of lumber on hand may be gathered from the expressed opinion of Winnipeg lumber dealers that had it not been for the building strike in Chicago they would have been unable to secure supplies of lumber from the south, and there would accordingly have been a shortage in certain lines in Winnipeg. A large number of new grain elevators are to be erected this fall, for which purpose large quantities will be required. The Rat Portage Lumber Company are reported to have received an order from the Ogilvie Milling Company for 2,000,000 feet of lumber for this purpose.

The manufacturers of British Columbia who are in a position to do an export trade are looking forward to a large demand from China as soon as the present difficulties in that country shall have become settled. They believe that the market will then be more accessible than in the past to western commerce. The present disturbance has so far had no perceptible effect on lumber exports from British Columbia. Large shipments have recently gone forward to Tien Tsin. Quite recently the steamer Estivold carried 2,500,000 feet of lumber from the Sound to China, while the Pacfic Coast Lumber Company is said to be also shipping largely to that country. The important announcement is made that Capt. L. F. McKenzie, of Vancouver, has selected a water power site not far from that city on which to erect a pulp mill. This will provide an outlet for a large quantity of spruce timber.

UNITED STATES.

At a meeting of the Lake Superior Lumbermen's Association, held at Ashland, Wis., on June 22nd, at which representatives were present from nearly 50 manufacturing concerns with a total capacity under ordinary conditions of 900,000,000 feet annually, the lumber and log situation in the white pine field was thoroughly discussed. This discussion showed that nearly 240,000,000 feet of logs were reported to be hung up in streams in the Lake Superior district, and that nearly every drive has been abandoned, that about 30 mills have closed down for want of logs and that the mills in the Mississippi valley are also running short; that the increased cost of manufacture is about $3 per thousand feet above that of last year; that there is a shortage in stock in shipping condition, an active demand for lumber, and good crop conditions. In view of these circumstances, it was resolved that the Association should maintain the prices made during the past two or three months for the balance of the season. The opinion prevails that stocks in the hands of dealers will shortly be reduced to a point which will compel sorting up on a considerable scale. Dealers are said to be withholding orders as long as possible fearing that there may be a decline in values. The low condition of stocks throughout the country combined with a resumption in building operations in Chicago and other large cities and the probability of a considerable curtailment in the output of the mills seems to afford no foundation for such expectations. It seems probable that immediately following the midsummer vacation will come a revival of demand which will maintain, if it should not cause an advance, in present prices for white pine. Prices for hemlock have declined from $1 to $2 per thousand as the result of lessened building operations. Spruce has also declined to about the same extent. The disbanding of the Eastern Lumbermen's Association, following the withdrawal of Messrs. Stetson, Cutler & Company, of St. John and one or two other prominent members, has had a tendency to further weaken values. Basswood is reported to be in good demand, and prices satisfactory. A combination of shingle manufacturers of New Brunswick and Northern Maine is talked of, with the object of maintaining prices and regulating output.

GREAT BRITAIN.

The chief factor in the regulation of prices in the British market at the present time is the vessel supply. While the market demand appears to be weaker than usual, prices are firmly maintained by reason of the high carrying charges. The deliveries thus far have fallen far short of the average, and there are no indications at present that the vessel supply will be more abundant later on in the season. On the contrary, the advance in insurance charges on cargoes from the St. Lawrence will later on form an additional factor in maintaining values. Importers, who were fortunate enough to secure cargoes earlier in the season at reduced charges, are being urged to hold their supplies for a higher profit instead of disposing of them at auction, as some have done recently.

The market for spruce continues very strong, values having advanced 10 shillings since the first of the year. Quebec thirds 3×9, 12 feet are now bringing £8 15s.; 3×7 and 8 inch are quoted at £8 5s. A number of transactions have recently taken place at good prices in Manchester. The general opinion seems to be that prices will remain unchanged throughout the season. It is almost certain that there will be no decline, while there may possibly be an advance. The high price of Baltic deals is creating an extra demand for spruce. Some uneasiness has been occasioned to the trade in London by the dockers' strike, which it is feared may spread to the timber docks.

STOCKS AND PRICES.

A boat is due at St. John, N. B., now which is to take 3,000,000 from Stetson's mill to England.

A large sale is reported at St. John as being made at $11, the logs of which were bought at same figure.

A recent contract was one of Millar & Woodman, amounting to 3,000,000, sold to Wm. MacKay, of St. John, at $11.

Eighty-seven raftsmen, employed by the Fredericton Boom Company, have struck for increased wages. Their request is being considered.

The tail of the saw log drive is now in the dead water and about 10,000 pieces are being passed through the harbor boom at Trenton, Ont., daily.

There is quite a stock of American logs on hand at St. John, N.B., but they cannot be sawn for the American market. A number of mills are therefore cutting for the English market.

It is expected that when the statements are in in full Messrs. Hale & Murchie's cut on Tobique will amount to about 10,000,000, by including that of McCollum's end, which is in neighborhood of 2,060,000.

St. John market prices for shingles are about as follows: Extras $2.90, clears $2.40, 2nd clears $2, extra No. 1 $1.40, No. 1 $1. Planed, butted and jointed clapboards: Extras $30, clears $25, 2nd clears $25, extra No. 1 $17, No. 1 $10.

A New Brunswick correspondent writes: Provincial logs were selling in April and May at $10 and $10.50. Now there are very few provincial logs for sale. All are being held by millmen who require them. There seems on the whole to be very little manufactured lumber in stock.

Messrs. Parker, Eakins & Co., Yarmouth, Nova Scotia, write: "The spruce lumber situation here is that stocks are very light and prices much higher than in ordinary years, say $2 to $3 higher. Our mills (mills shipping their cut from this port) saw South American scheduler almost exclusively. Demand is good."

A correspondent writes from Western Ontario, disputes the statement made in our review of trade conditions on June 20th, "That some of the hardwoods, particularly elm and maple, are showing signs of weakness due to a heavy production in Western Ontario." He states from personal knowledge that the production is not an average of the last five years.

Messrs. Hilyard Bros., who ran their mill on the Tobique last year, say they cannot possibly do so this season. Last season's cut was at a loss owing to the exhorbitant C.P.R. freight charges which are far above those charged on the I. C. R. or other roads. They predict the impossibility of success in lumber manufacture on the Tobique under prevailing freight conditions.

St. John, N. B., advices state there seems to have been very few sales recently, and very little shipped. There are but two vessels in the harbor, only one of which, the Oscar II, is loading at present for Manchester. Two vessels went out last week, the Consols, bound for Manchester, and the B. Jorvin, for Liverpool. Seven or eight vessels are nearly due and it is expected that from now to the end of July there will be much shipping done. The English market is considered by all to be good, though freights are high, being about 15 shillings per standard more than last year. The prices in deal market are anywhere from £15 to £15 5s, according to specification of cargoes.

QUEBEC GOVERNMENT TIMBER SALE.

The adjourned timber sale of government timber lands held at Quebec last week, was attended by between 60 and 70 prominent lumber and pulp manufacturers. The upset prices were regarded as being too high, and tended to restrict investments, so that only $135,000 was realized from the sale. The Commissioners of Crown Lands expressed the opinion, however, that next year the limits would prove the more valuable.

The detailed statement of the sales is as follows:

ST. MAURICE DISTRICT.

Mr. Wm. Power: River Windigo, No. 1 East, 50 square miles at $117 per mile, $5,850; No. 3 east—50 square miles at $117, $5,850. Mr. Jas. Robinson: N. E. half of Bostonnais, 2 N—25 miles at $75.25, $1,881.25; river Trench, No. 3 west, 50 miles at $130, $6,500; No. 3 east, 50 miles at $136, $6,800; river Croche, No. 5 west—46 miles at $112, $5,152.

BONAVENTURE WEST.

Geo. McKean: River Nouvelle, No. 5—11 miles at $50.25, $552.75. Carrier, Laine & Co.: Grand Cascapedia, Nos. 5 and 6—64 miles at $40.25. $2,576. J. D. Sowerby: Tp. Man, Nos. 1 and 2—7 2-3 miles at $50.25, $385.65; Nos. 3, 4, and 5—3⅞, 4⅓, and 6 miles respectively at $51.25, $734.58; Little River, Middle west—11⅓ miles at $50.25, $569.50.

LAKE ST. JOHN CENTRE.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JULY 11, 1900 No. 25.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

Prices on application.

J. S. FINDLAY,
Owen Sound, Ont.

THE WEST INDIES.

Messrs. S. P. Musson, Son & Co., Barbadoes, in their market report dated June 23rd, have this to say regarding lumber conditions: The "Alice" has arrived from Liverpool with 200m. ft. White Pine; sold to arrive. The "Herbert Rice," from Weymouth, 55m. ft. Shipping, 31m. ft. 2nd quality Spruce Boards, sold at $22.27 and $19.26 respectively; also a small lot 7m. ft. Shipping, 28m. 2nd quality White Pine, at $24.57 and $24.57. Pitch Pine—No arrival. No further receipts of Shingles, some Long Gaspe Cedar are reported on the way, and prospects for their disposal are unfavorable. Nothing new in Shooks or Woodhoops.

CURRENT TRADE CONDITIONS.

ONTARIO.

The dullness which usually characterizes business in midsummer is beginning to be felt. It has become the rule for business men to briefly relax their chase of the golden dollar during the heated term. Heads of departments also look for a vacation, so that for a few weeks to come business will be conducted with less than usual vigor. Apart from this the condition of business appears on the whole to be very satisfactory. Bradstreets reports that while trade conditions are less buoyant than a year ago, the general situation is regarded as fair, mills and factories being well supplied with orders and collections good. Business failures number about the same as last year. The crop prospects have considerably improved, which has a tendency to further strengthen the situation. Lumber manufacturers are manifesting their confidence in the stability of present conditions by holding firmly to existing prices, and we believe they are wise in so doing. Our Ottawa correspondent states that some contractors are delaying building operations in the hope that prices will decline. He expresses the belief, however, that instead of a decline an advance may be looked for. Shantymen who have lately returned from the woods confirm the reports that a large number of logs are stranded in the smaller streams of the Kippewa and Ostoboning districts. We do not know how well-founded is the report which comes from Sault Ste. Marie that owing to a scarcity of lumber in Ontario a supply has had to be imported from British Columbia.

QUEBEC AND NEW BRUNSWICK.

The government of Quebec has been appealed to on behalf of the lumber interests of the Province to aid the establishment of transport facilities to Cape Colony, where it is believed that a large and profitable trade in lumber and timber products might be secured. This belief seems to be borne out by the following figures showing the imports of lumber and wood products into Cape Colony during the year 1898:—Wood, unmanufactured, $1,050,235; wood, plain or grooved, $657,780; wood, manufactured, other than furniture, $663,305; furniture and cabinetware, $1,767,400. The end of the war is apparently yet too far distant to admit of the hope that any business can be done in the South African market this year, but provision should be made to secure a share of the trade that will be forthcoming next spring.

The situation in New Bruswick remains much the same as reported last week. The favorable business conditions prevailing may be guaged by the fact that the list of failures during the last six months has been unusually light. Apropos of the mention made last week of the movement to secure a fortnightly summer service from St. John to Great Britain. Messrs. Wm. Thomson & Son, managers of the Battle line of freight steamers, state that next year they expect to operate a fortnightly service between St. John and Liverpool and Manchester. An event of considerable importance to lumber shippers, was the strike of ship laborers at St. John last week, and the consequent advance of 10 cents per hour in wages, which the Messrs. Thomson state means an increase of from 70 to 90 cents per standard for handling cargoes of deals.

MANITOBA AND BRITISH COLUMBIA.

The situation in British Columbia is clearly and comprehensively set forth by one of the largest manufacturing companies, in a letter to the CANADA LUMBERMAN, as follows: "If it were not for one thing the lumber export trade on the Pacific coast would be in a highly satisfactory condition, and that one difficulty is the lack of tonnage. Dating back as far as the American-Spanish war, there has been a shortage of lumber carriers on this coast, and freight rates have therefore correspondingly advanced. It was anticipated, when this war was closed, that the vessels would come back to their old business again, but then came in the war in the Transvaal, taking up so many steamers, in whose places sailers were utilized in the trade in which they were running previous to becoming transports and, what is more of a local matter, the trade with Cape Nome and the Alaska gold fields has absorbed a large number of the steady lumber carriers, so freight rates have kept up, and are not only keeping up, but appear to be steadily advancing. The high rates of freight now ruling have a tendency to deter foreign purchasers from placing orders, and although all the mills are now running to their full capacity, there is but little new business offering, and they are working on orders taken previous to the advance in freights.

The owners of timber limits on this coast, seeing how rapidly the limits in the East are being used up, are beginning to realize the value of their holdings, and have raised the price of stumpage. This has made a corresponding advance in the price of logs, which affects the price of lumber in turn. The log market on Puget Sound and British Columbia is firm, the supply being kept about equal to the demand.

The export price of lumber is the best that has been for years, and every indication is that there will be a further advance in the near future. The trouble in China has closed that market for a while. Australia has contracted well ahead, and from there cannot be expected much new business until there is some drop in freights, and the old contracts have been filled. South Africa, after it comes under British rule, will undoubtedly prove a great market, but here again the high rate of freights are working against the Pacific coast timber.

Taking everything into consideration, the outlook for the lumber exporters on this coast is very fair.

UNITED STATES.

During the past week stock taking has been in progress and there has consequently been a lull in transactions. The holiday season is also at hand and is inducing quietness in the lumber trade as

n all other departments of business. There is reported to be a slight improvement in demand, however, from the Eastern States market, which is regarded as an indication that wholesalers have reached the point where stocking up must be done, and also that they have ceased to expect a drop in values. Bradstreet's reports go to show that the business of the country is in a prosperous condition, there being fewer failures than for many years past. This fact coupled with the prospect of good crops in most parts of the country and the resumption of building consequent upon a settlement of the labor disputes which paralyzed operations earlier in the season, should certainly largely increase the demand and maintain the strength of the market. The consumption for the first six months of the year is far behind that of 1899, notwithstanding prices have not declined to any considerable extent. It is therefore reasonable to expect that with the strengthening of the demand there will be no further decline. As a result of recent rains many of the logging streams in the North West have risen to an extent sufficient to allow of the drives being brought down to the mills, and manufacturing operations have recommenced. For more than a month, however, many of the mills have been idle, so that there is certain to be a decrease in their output. The demand for hardwood for the export trade is improving, but for home consumption there is but little request, although it is not expected that prices will fall much below present figures.

GREAT BRITAIN.

The consumption of timber in the British market for the first half of the present year shows a deficiency, as compared with the first six months of 1899, of 26,408 standards of sawn and planed goods, and 4,713 loads of floated timber. Notwithstanding the arrival of numerous vessels since the date of last report the market shows no sign of weakness. Deal sizes, especially 11 inch, are ususually scarce, and some merchants are obliged to buy at second hand and high prices from other dealers who were fortunate enough to lay in a stock early in the season before tonnage became so difficult to secure.

The market for spruce continues remarkably strong, many specifications call for 6 to 8 inch, of which the market is at present quite bare. Unless heavy shipments arrive late in the season there is little reason to anticipate a drop in values. Up to the present time the indications point to a decrease in supply as compared with last year. At a recent auction sale in London of North Europe and Colonial deals there was keen competition among the purchasers. Many consumers are now taking stock for the first six months of the year. When this is completed the condition of demand will become mere clear.

An auction sale of spruce and pine deals, comprising 150 standards of the former and 120 of the latter, forming a shipment from St. John, N. B., was held at Liverpool recently. The stock is said to have been of poor quality, being hard and knotty and irregular in thickness. 3 x 11 sold at £9; 3 x 10 at £8; and 3 x 9 at £8 1s 3d. 3 x 8 and 3 x 7 sold at £7 15s; 2½ x 7 at £7 per standard. £7 6s 3d was offered and refused for 3 x 7 and 3 x 8 red pine deals, as was also a bid of £7 for 2 x 5 and 3 x 6 scantling. Cargoes of 1,500 to 1,750 standards New Brunswick spruce deals, full specifications, are selling at £7 15s c.i.f. Liverpool. Floorings are reported to be selling well on the London market, the favorite dimensions being 1 inch and ⅞ inch. There is also a good demand for ¾ inch matching. Tonnage is difficult to procure from Canadian ports, unless vessel owners' demands are promptly agreed to. From the bay of Fundy 58s 9d to 60s is quoted, and from the St. Lawrence 60s to 62s 6d.

The Fred Robinson Lumber Co., of Revelstoke, B. C., is experiencing considerable loss through high water. Their Revelstoke mill will probably close down for a short time, being unable to get logs from the Wingham camp.

THE GLASGOW MARKET.

Messrs. Allison, Causland & Co., in their trade circular dated June 30th, say:

"The market during the past quarter has been in a sound condition, the amount of business transacted being considerable. Importers are well through their stocks. Arrivals have been light and chiefly on contract, and with the present high rate of freight, it is improbable that there will be heavy consignments. On the other hand consumers still hold heavy stocks. The present outlook is not at all clear, as, with the high prices prevailing for coal and all raw material, general trade is no doubt falling away rapidly; in fact, it is said that not one new shipbuilding contract has been booked in the Clyde during the past month. As will be observed from the tables, the stock compares very favorably with past years."

The condition of stocks and demand for Canadian timber is given as follows:

YELLOW PINE.—WANEY.—Prime wood, the demand is limited, but is firmly held. 2nd class timber has been more in request; the reductions in the stock is largely in this grade. Quotations.—Prime wood, 19 to 20 inches average, 2s 8d to 2s 10d. 2nd class, 18d to 2s 2d per c. ft. SQUARE.—The stock is almost entirely in importers' hands. The demand is limited, and little business has been done.

RED PINE.—Stocks are heavy, with little enquiry. 1st class is quoted at 22d to 2s 2d. F.A.Q. 17d to 19d per cubic foot.

ELM.—The stock is exceedingly small, Prices are very firm. Quotations—45 to 50 feet average, 3s 3d to 3s 6d per c. ft.

OAK.—The stock is considerably reduced, but is still quite sufficient for the demand.

ASH.—The stock of Quebec wood is practically nil.

BIRCH—The demand has been moderate. Several lines have changed hands at fair figures. Quotations—18d to 21d for 14 to 16 inch average.

PINE.—Firsts—Stocks are small and prices very firm, but sales have been rather limited. Quotations.—Broad, £26 16s 3d to £29 11s 3d. Undersized, £20 12s 6d to £22 13s 9d per Std. Pet. St. Seconds—There is little or no stock in importers' hands. Quotations—Broad, £19 18s 9d to £22 13s 9d. Undersized—£15 16s 3d to £17 3s 9d per St. Pet. Std. Thirds—Are in moderate demand at good prices. Regulars are quoted at £12 7s 6d to £13 1s 3d. Undersized, £9 12s 6d to £9 19s 4d per St. Pet. Std. Fourths—Eleven inch and Undersized are in more request than Broad, but all are firmly held. Quotations.—Regulars, £9 12s 6d. Undersized, £8 5s to £8 18s 9d per St. Pet. Std.

REDS.—There is a good demand, but sales are limited owing to the high prices asked by sellers. Quotations—£15 2s 6d to £16 10s per St. Pet. Std.

SPRUCE.—There is still a fair stock, but much reduced since last quarter. Prices are good. Quotations—£7 11s 3d to £9 5s 7d per St. Pet. Std.

DEALS, BATTENS AND BOARDS.—There has been a good consumption, and values remain very steady at £7 11s 3d to £10 6s 3d per St. Pet. Std.

BIRCH.—There has been practically no import of logs, but planks have come on freely, most parcels being sold ex quay. Prices however are now somewhat weaker.

SPRUCE.—Any consignments meet with a ready sale at good prices. Quotations—£7 11s 3d to £9 19s 4d per St. Pet. Std. for 2nd quality average.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Local lumber operations have assumed the energy characteristic of them before the disastrous fire, and shipping is becoming brisker. J. R. Booth's mill is working night and day, and all available piling ground is being utilized. Considerable lumber is being shipped to American points by rail, but owing to a slow movement in building operations across the border this feature of the business is not as brisk as it otherwise would be.

The Hull Lumber Company is cutting steadily in three mills, and shipping to American points by rail direct from the saw. Gilmour & Hughson's steam mill is turning out a large cut, the W. C. Edwards Company is cutting night and day, and Bailey's mill in Aylmer is also being operated with two shifts.

As yet no delay has been caused at the local mills by the non arrival of logs.

Despite the fact that building operations in the burnt districts of both Hull and Ottawa are brisk, the local lumber market shows no bullish tendencies. In Ottawa several contractors look for an easier movement in prices, and hence the building operations in some quarters have been delayed. Prices will advance, as the local and outside demand is bound to increase. Last week the first shipment by water was made from the Booth mill at the Chaudiere, the river yard having been filled with the cut. Men are engaged putting the large piling ground along the Quebec side of the river in shape to receive the new cut.

Considerable lumber is being shipped to Hull from the small mills of the Gatineau, and building operations are much brisker in the Quebec city than in Ottawa. The fire by-law gives the ratepayers a year in which to make their buildings fireproof, and the city, with the exception of Main street, is being built up solid, with wooden shells, to be enclosed later in brick, etc.

Ottawa is to have another new and large wood working establishment. The W. C. Edwards Company has secured control of the Capital Planing Mills and Ottawa Specialty Company. The premises in the latter concern were swept clean in the fateful fire, but the business, manufacturing office and bank fittings, etc., will be conducted in the large stone grist mill on the Edwards premises at New Edinburgh, which has been unoccupied for some time. The rougher class of work will be turned out in the Capital planing mill as before, but on a larger scale. The Ottawa Specialty Company did a large local and export business and employed 50 hands. About 150 will be employed in the new establishment. Machinery to the value of $10,000 will be installed, and about $50,000 will be invested in the business altogether. The concern is to be one of the largest of its kind in eastern Canada.

Large numbers of river and shanty men are returning to Ottawa from the drives. The clerks who have been working on the Hull Lumber Company's limits have also returned. They report that many logs are stranded on the smaller streams of the Kippewa and Ostoboning districts.

Recently Mr. J. R. Booth, the millionaire millowner of Ottawa, advanced the wages of his men, having in mind the losses they sustained in the recent fire.

Building operations on the E. B. Eddy Company's establishments are well advanced. The machine shop is completed, and work on the woodworking establishment and match factory is being pushed ahead. The paper mills are being rebuilt on a larger scale than before, ahd the foundations for the immense paper mills are being laid. The saw mill will also be built on a larger scale than before, and on the same site. Extensive limits have been secured by the E. B. Eddy Company, and the wood-working and paper-making branches promise a larger output than before the fire. Considerable delay was experienced in removing the large amount of machinery and debris. Fully 500 men are now engaged about the works.

The Ottawa city council at its last meeting adopted the fire by-law thrown out at a previous meeting. The clauses of the by-law limit the piling of lumber in residential areas to 500-000 ft. and a distance of at least 10 ft. must be allowed for in the proximity of streets and buildings. In the more thickly populated parts this distance is increased to 60 feet. The by-law also provides that buildings must be made fireproof, and roofs covered with fire-proof shingles or other materials.

From advices received by Ottawa firms from their American agents, it would seem that there is a deadlock between the manufacturers and wholesale dealers and the retail dealers in building materials at American points. As a result business is slack, thus affecting the shipments and the local business in export lines.

OTTAWA, July 9, 1900.

SHIPPING MATTERS.

The bark Launberga, 1,218 tons, arrived at Yarmouth to load lumber for South America, on April 17th, and did not get away until the 30th of June. The custom of the port only being 20 M. per working day, actually gave this vessel 55 lay days. The facilities for loading at Yarmouth are far behind the age, which makes it a very undesirable place for large vessels.

MORTGAGE SALE OF

VALUABLE TIMBER LIMITS AND MILL PROPERTY

Under the provisions of certain mortgages which will be produced on the day of sale, there will be offered for sale by public auction at Townsend's auction rooms, 28 King street west, in the City of Toronto, on the 6th day of August, 1900, at the hour of 12 o'clock in the forenoon, all the equity of redemption, estate, right, title and interest of the Holland & Emery Lumber Company, in and to their lands, timber berths, mill sites, mills, docks, warehouses, boilers, engines, plant, machinery, stock-in-trade, logs, timber, lumber, booms, boats, horses, carts, logging railroad and equipment tools, appliances, and generally all the property and effects of the said company, in luding accounts receivable, situate within the Province of Ontario, as a going concern, including the steam tug Julien V. O'Brien.

A detailed statement of the property above referred to can be obtained upon application to the undersigned.

The Holland & Emery Lumber C mpany's mills on Bying Inlet are large mills of the most modern and improved type, and include gangs, circular and band mills with dry kilns, electric light plant, boarding house, cottages, store, buildings, etc. The mill has a capacity for cutting about 40,000 o.o feet per season. The company is entitled to an equity of redemption in real estate in the Townships of Wallbridge, Wilson, Croft, Mackenzie, Dryden, Garson and Falconbridge, exceeding ,500 acres.

The following is a list of the timber licenses, the company's interest in which w ll be offered for sale:—

License Number 143, for 1899-1900, for the Township of Street, berth number 40.

License number 144, for 1899-1900, for the Township of Dryden, berth number 47.

License number 146, for 1889-1900, for the Township of Garson, berth number 56

License number 147, for 1899-1900, for the Township of Falconbridge, berth number 48.

License number 148, for 1899-1900, for the Township of Cleland, berth number 46.

License number 149, for 1899-1900, for the Townships of Scadding and Maclennan, part of berths 41 and 49.

License number 15 , for 1899-1900, for the Township of Kelly, part of berth number 2.

License number 135, for 1899-1900, for the Township of Harrison.

License nunber 136, for 1899-1900, for the Township of Burton.

License number 137, for 1899-1900, for the Township of Wallbridge.

License number 138, for 1899-1900, for the Township of Hagerman, berths 2, 4.

License number 139, for 1899-1900, for the Township of Hagerman, berth 3.

License number 141 for 1899-1900, for the Township of Croft.

License number 142, for 1899-1900, for the south half of the Township of Brown.

The interest of the company in all logs, boom timber and dimension timber cut upon the above-mentioned limits, and the lumber manufactured therefrom, aggregating upwards of forty million feet, will also be included in the property sold.

The property will be offered for sale subject to a reserve bid.

Terms:—Ten per cent. of the purchase money will require to be paid at the time of sale, and the balance within thirty days thereafter. For further particulars apply to NELSON HOLLAND, of the City of Buffalo, office foot of Hertel avenue, in the State of New York, U.S.A., or BEATTY, BLACKSTOCK, NESBITT, CHADWICK & RIDDELL, 58 Wellington street east, Toronto, solicitors for the vendors.

Dated at Toronto this 13th day of July, 1900.

WANTED—Competent man to take charge of large logging operations in B. C. Must have experience in rough country. Address, stating experience, Box 60, CANADA LUMBERMAN.

MILLWRIGHT WANTED

D. FRASER & SONS, CABANO, P.Q.

FOR SALE—At Wiarton, about 30,000 feet 12 x 12 in. and 30,000 feet 10 x 10 in. Cedar Timber, 10 feet and up long. Also a smaller quantity of 4 x 4 in., 5 x 5 in., 6 x 6 in., and 2 in. and 3 in. Cedar, and 20,000 feet 12 x 12 in, 20 to 30 feet Hemlock. PICKARD & ROWAN, Owen Sound.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland, extensive Lumber Docks, Houses, Store Buildings, etc.; water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

WANTED

FIRST-CLASS SALESMAN ON DOORS, boxes, veneer work, lumber, etc., thoroughly capable of figuring on all interior finish, middle-aged man preferred, active, sober, with references, familiar with eastern New York and western trade. Also, practical man having same qualifications to superintend door and veneer departments, capable of estimating and of handling men and machinery. GILMOUR & CO., Trenton, Canada.

CURRENT TRADE CONDITIONS.

ONTARIO.

The number of transactions in white pine lumber during the past week has shown a slight increase, which is regarded by some as an indication that retailers and consumers are becoming convinced that lumber prices will not weaken in any marked degree in the near future. The conditions seem to favor the Canadian manufacturer of white pine, who, while experiencing a considerable local demand, is also receiving numerous inquiries for stock from the Eastern States. Some of these inquiries are due to the position taken by the manufacturers in the pine-producing districts of the United States, who have held their stock at what the eastern dealers consider an exorbitant price, and one not warranted by the demand. Generally, our manufacturers have few complaints of dull trade to make, as a brisk movement of stock is not expected at this season of the year. Recent heavy rains have swollen the streams in the Georgian Bay district, and most of the logs are getting along satisfactorily. One Georgian Bay concern, however, reports that a large proportion of their logs will not reach the mill till September, so that the lumber cut from these can scarcely be marketed this year. It is estimated that 160,000,000 feet of logs will come out of the Spanish river.

The tendency is towards lower prices for lath. The scarcity of this material has been relieved, and the demand at the present time is not large.

Hardwood lumber is moving only moderately. Consumers are pursuing a hand to mouth policy in respect to purchases, apparently believing that the dearth of hardwood lumber which characterized the trade of last year will not be experienced again this season. Notwithstanding the somewhat backward demand, manufacturers have been offering little inducement to buyers in the way of a reduction in price, and their action in this respect has greatly assisted in maintaining the strength of the market.

QUEBEC AND NEW BRUNSWICK.

The slight advance in the price of Quebec square timber seems to be justified by the receipts of timber at Quebec. The statement of the Supervisor of Cullers shows that up to July 14th the quantity of waney pine, white pine, red pine, and oak timber received at the port was less than in the corresponding period last year, while of elm, ash and birch there was a slight increase. The difficulty of securing tonnage, however, may have some effect upon the market. Only a moderate trade in lumber is doing in the eastern provinces. Export trade is satisfactory, but the demand from the United States has fallen off since the 1st of July. Notwithstanding, manufacturers and dealers look forward to a busy fall, although there is some uncertainty as to prices. Shingles are in steady demand. New Brunswick cedars have shown but a slight decline in price, and seem to have secured a strong hold in the New England market. On Boston rate of freight quotations are as follows: Extra, $3.10 to $3.25; clear, $2.65 to $2.85; second clear, $2.10 to $2.35; extra No. 1, $1.85.

UNITED STATES.

An increase in the number of enquiries for stock is about the only change in the lumber situation of the United States. Recent rains in Dakota and Minnesota have improved the crop outlook, and this has given retailers courage to buy lumber. Those who have been running along with light stocks are now more disposed to replenish their supply, but the uncertainty as to prices has had a deterrent effect. Several of the lumber associations, however, are holding meetings this week to establish a basis of prices for fall trade, and when this has been done a considerable movement of stock is confidently looked for. The indications are that building operations during the balance of

the season will be on a more extensive scale, as the prices of building materials generally are now somewhat lower than in the spring. A report from Minneapolis states that the demand for white pine lumber is more active than it has been for a month past, and that the farmers in the vicinity are undertaking improvements which were temporarily abandoned. In Chicago the most active demand pertains to common inch lumber. Twelve inch No. 1 boards, in lengths from 12 to 16 feet, are selling at $20 wholesale, and shorter lengths at $19. The reports from Boston tell of a slow movement of spruce, but notwithstanding this fact prices are being maintained. In the New York market narrow strips are selling at $16 to $18 and wider widths at $17 to $19. The feature of the hardwood trade is the continued buying in a small way by consumers, who seem to prefer to take the chances of getting stock as required. Oak, elm and basswood are selling moderately at Buffalo, but in Wisconsin it is reported that there is very little demand for hardwoods with the exception of basswood. Maple flooring is showing great strength, although the effect of the large production of maple logs last winter has had some effect on the price of maple lumber and planks.

There is very little demand for lath, and the price is gradually declining from the high figures at which it was sold last winter. At Bay City and Michigan current quotations are $3 and $3.50, against $4 and $4.50 a few months ago. The yard price at Chicago for No. 1 white pine lath is $3.75, while No. 1 mixed sells at $3.25 and No. 2 mixed at $3.

GREAT BRITAIN.

The tendency of the British lumber market is towards further strength. The high freight rates are a strong factor in the market, as they are likely to result in reducing the quantity of stock imported. The complications in China will doubtless be responsible for the building of several new vessels, in the construction of which a considerable amount of lumber will be used. It seems reasonable, therefore, to expect a liberal demand for lumber during the next few months. Pine and spruce deals are now arriving in considerable quantities, but the bulk of the stock has been contracted for previous to its arrival. At Glasgow there are numerous enquiries for spruce, particularly in sizes of 10 inches and up. First quality pine deals have been sold in that market at £28 17s 6d, and boards at £32, while third quality deals have brought £12 15s. At Liverpool waney board pine is going freely into consumption. Quebec elm has also been in good demand, and practically every log that has arrived has gone into consumption direct from the quays. The import of birch has moderated, and although the consumption has been good, prices are slightly weaker.

SHIPPING MATTERS.

The str. Manchester Shipper has been chartered by Geo. McKean to take a cargo of deals from West Bay, N.S., to Manchester, at 52s 6d.

The str. Pocohontas is loading deals at St. John, N.B., for the U.K. The barque Inverlochy has been fixed to load deals at same port for Melbourne, Australia, at 75s.

The news has been received of the destruction by fire of the Canadian Yukon Lumber Company's mill at Selkirk, in the Yukon district.

STOCKS AND PRICES.

The str. Janeta sailed last week from St. John, N. B., for Glasgow, with a cargo of deals.

The str. Hueloa is loading a cargo of deals at Quebec for London, consigned by McLean, Kennedy & Co.

The str. Labuan is loading a cargo of three and one-half million feet of lumber at West Bay, N. S., for the U. K.

Haley & Son, of St. Stephen, N. B., have recently shipped several car loads of box shooks to the British market.

The Millen-Arnold Lumber Company, of Duluth, recently sold 8,000,000 feet of lumber to Albany parties, at $18 for No. 2 and better.

The steamship Nitocris took on a full cargo of timber and deals at Indian Cove, Quebec, and sailed for Dublin, Ireland, on the 15th inst.

The Michigan Hemlock Association is reported to have reduced the price of hemlock one dollar a thousand, making the quotation $9.

The Saginaw Lumber and Salt Company, Saginaw, Mich., are reported to have sold their entire production of pine lath at $3 and $3.50.

At Buffalo quotations are $8 to $8.50 for first class dry elm flour-barrel staves, 6 to 6¼ cents for first class dry basswood heading, and $9 to $9.50 for 6-foot coiled hoops.

B. J. Gilligan has 9,000,000 feet of pine logs almost out of the Plantoin Creek, which empties into the Mattawa river. The logs were taken out for the Hull Lumber Company, of Hull.

A report from Marinette, Wis., states that one firm there sold 500,000 feet of elm lumber early in the spring to New York parties at $20 per thousand, while they are now selling similar stock at $15.

It is reported that the Skillings, Whitney & Barnes Lumber Co. have purchased the entire cut of the Longford Lumber Co., and that the output of Messrs. McPherson & Co., of Longford Mills, has been bought by the Laidlaw Lumber Co.

Following is a comparative statement of timber measured and culled at Quebec up to 14th July, as reported by the Supervisor of Cullers :

	1898.	1899.	1900.
Waney White Pine....	902,354	951,674	617,842
White Pine	652,802	267,000.	193,794
Red Pine.....	114,960	87,429	7,233
Oak.....	568,404	377,586	311,425
Elm.....	345,487	396,879	438,916
Ash.....	25,826	52,740	69,435
Buttternut.....	795	60	92
Tamarac			71
Birch and Maple.....	106,480	231,575	292,551

At Bay City and Saginaw, Mich., log run lumber is held at $17 and upwards, box at $16, and Norway dimension at $14 and $16. Mill culls are worth $12 and $14, and choice lots would probably command a higher figure. White pine shingles are held at $3.15 and clear buts at $3.15. Cedar shingles are worth about one dollar less than white pine. For hardwood lumber, log run, the quotations are : Ash, $18 ; red oak, $20 to $24 ; basswood, $18 ; elm, $16 ; maple, $14.

CONDITIONS AT LIVERPOOL.

Alfred Dobell & Co.'s timber market report says of the Liverpool market for Canadian stock :

WANEY BOARD PINE is going freely into consumption at full prices. Shippers are now demanding higher figures.

SQUARE PINE is not in great demand but values remain steady.

OAK :—The arrivals have been small, prices are firm.

ELM :—A couple of parcels have arrived which were readily absorbed at full prices. A steamer with a large parcel is reported lost which will tend still further to stiffen the market.

BIRCH : Logs have arrived in modern quantities; quotations are unchanged. Planks have arrived freely. Although there has been a very large consumption, prices are weaker.

PINE DEALS AND BOARDS :—The arrivals have been much smaller than usual and prices are very firm.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE DEALS :—There have been free arrivals. The consumption has been good and prices are fairly steady. By auction a parcel from St. John has been sold at an average of £7 18s per std.

The following figures give the stock on hand June 30th and the consumption and import from 1st January to June 30th :

	Stock. 1899.	Stock. 1900.
Quebec Square Pine.....Ft.	55,000	10,000
" Waney "	179,000	43,000
St. John's Pine.....	Nil.	1,000
Other Port's Pine.....	5,000	Nil.
Red Pine.....	5,000	12,000
Oak, Canadian and U. S.....	176,000	181,000
" Planks.....	105,000	87,000
Elm.....	19,000	2,000
Birch.....	165,000	160,000

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JULY 25, 1900 No. 27.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at he rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED,—150 M feet 1-¼" and 1-½" Basswood, 20 M feet 2" Basswood. THOS. MYLES' SONS, Hamilton, Ont.

WANTED—Foreman for small Pulp Mill. A knowledge of the French language preferred. Address "DOMINION," CANADA LUMBERMAN.

GOOD DIRECT ACTING STEAM SAW MILL and 200 acres for sale, with several years' supply of timber at hand. For particulars address T. A. PICKARD, Owen Sound.

WANTED—Competent man to take charge of large logging operations in B. C. Must have experience in rough country. Address, stating experience, Box 60, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MORTGAGE SALE OF VALUABLE TIMBER LIMITS AND MILL PROPERTY

Under the provisions of certain mortgages which will be produced on the day of sale, there will be offered for sale by public auction at Townsend's auction rooms, 28 King street west, in the City of Toronto, on the 6th day of August, 1900, at the hour of 12 o'clock in the forenoon, all the equity of redemption, estate, right, title and interest of the Holland & Emery Lumber Company, in and to their lands, timber berths, mill sites, mills, docks, warehouses, boilers, engines, plant, machinery, stock-in-trade, logs, timber, lumber, booms, boats, horses, carts, logging railroad and equipment tools, appliances, and generally all the property and effects of the said company, including accounts receivable, situate within the Province of Ontario, as a going concern, including the steam tug Julien V. O'Brien.

A detailed statement of the property above referred to can be obtained upon application to the undersigned.

The Holland & Emery Lumber Company's mills on Bying Inlet are large mills of the most modern and improved type, and include gangs, circular and band mills with dry kilns, electric light plant, boarding house, cottages, store, buildings, etc. The mill has a capacity for cutting about 40,000 000 feet per season. The company is entitled to an equity of redemption in real estate in the Townships of Wallbridge, Wilson, Croft, Mackenzie, Dryden, Garson and Falconbridge, exceeding 7,500 acres.

The following is a list of the timber licenses, the company's interest in which will be offered for sale:—

License Number 143, for 1899-1900, for the Township of Street, berth number 40.

License number 144, for 1899-1900, for the Township of Dryden, berth number 47.

License number 146, for 1889-1900, for the Township of Garson, berth number 56.

License number 147, for 1899-1900, for the Township of Falconbridge, berth number 48.

License number 148, for 1899-1900, for the Township of Cleland, berth number 46.

License number 149, for 1899-1900, for the Townships of Scadding and Maclennan, part of berths 41 and 49.

License number 15·, for 1899-1900, for the Township of Kelly, part of berth number 2.

License number 135, for 1899-1900, for the Township of Harrison.

License nunber 136, for 1899-1900, for the Township of Burton.

License number 137, for 1899-1900, for the Township of Wallbridge.

License number 138, for 1899-1900, for the Township of Hagerman, berths 2, 4.

License number 139, for 1899-1900, for the Township of Hagerman, berth 3.

License number 141, for 1899-1900, for the Township of Croft.

License number 142, for 1899-1900, for the south half of the Township of Brown.

The interest of the company in all logs, boom timber and dimension timber cut upon the above-mentioned limits, and the lumber manufactured therefrom, aggregating upwards of forty million feet, will also be included in the property sold.

The property will be offered for sale subject to a reserve bid.

Terms:—Ten per cent. of the purchase money will require to be paid at the time of sale, and the balance within thirty days thereafter. For further particulars apply to NELSON HOLLAND, of the City of Buffalo, office foot of Hertel avenue, in the State of New York, U.S.A., or BEATTY, BLACKSTOCK, NESBITT, CHADWICK & RIDDELL, 58 Wellington street east, Toronto, solicitors for the vendors.

Dated at Toronto this 13th day of July, 1900.

FOR SALE—At Wiarton, about 30,000 feet 12 x 12 in. and 30,000 feet 10 x 10 in. Cedar Timber, 10 feet and up long. Also a smaller quantity of 4 x 4 in., 5 x 5 in., 6 x 6 in., and 2 in. and 3 in. Cedar, and 20,000 feet 12 x 12 in., 20 to 30 feet Hemlock. PICKARD & ROWAN, Owen Sound.

TENDERS

Tenders for the purchase of the Company's Saw Mill and contents, situated at Coal Creek, B.C., will be received by the undersigned up to AUGUST 15, 1900. This mill has a capacity of one hundred thousand feet per day, and is equipped with all the latest facilities for the handling of a large output, including:—

Six 60 x 16 Steel Boilers, complete.
One No. 3 Band Mill (Wm. Hamilton Mfg. Co.)
One pr. No. 9 Circular Husk Frame with top saw rig.
One pr. of 20 in. x 24 in. Engines, complete.
One 14 x 20 Cunningham Ford Engine, steam feed complete.
One Steel Refuse Burner, 70 feet high, 30 in. diameter.
Three Wilken's Steam Canters, complete Shafting, Pulleys, Belting, Saws, Frictions, etc.

In addition to the above there is also a Planing Mill, fitted with Planers, Boring and Mortising Machines, etc.

Detailed lists of the machinery can be seen at the mill, Coal Creek, B.C.; in the office of R. Marpole, General Superintendent, Vancouver; or the undersigned, Winnipeg, or will be mailed on application.

The lowest or any tender not necessarily accepted.

Terms of settlement—Twenty-five per cent. cash, balance in equal payments in 30, 60 and 90 days on approved security.

JAMES OSBORNE,
General Superintendent C.P.R.
Winnipeg, Man.

CURRENT TRADE CONDITIONS.

ONTARIO.

In the lumber trade the month of July has been the quietest month in the year so far as new business is concerned. Most of the white pine mills are busy on orders placed in the winter and early spring, and consequently there is very little complaint of dull trade from this quarter. Dealers, however, report a falling off in orders, while enquiries are less numerous than for some time past. Consumers have refrained from making purchases, excepting for immediate requirements, and as most of the large furniture and implement manufacturers had considerable stocks on hand in the spring, their purchases have not been of large volume. Nor have retailers commenced to replenish their stocks for the fall trade. The enquiries for hardwood lumber, while not numerous, give some encouragement to holders of stock, and the most common opinion is that there will be a revival in demand during the month of August.

From the Ottawa valley comes the report that a syndicate is being formed to regulate the market, and to prevent an oversupply of lumber. If harmoniously effected, this step should result in improving the position of the lumber trade.

QUEBEC AND NEW BRUNSWICK.

The Quebec timber trade remains unchanged, with the exception of waney pine of 18 inch average, which is quoted one cent lower. The trade situation is not altogether satisfactory, as shippers are experiencing much difficulty in securing tonnage for shipments, and local trade is not all that might be desired. In July of last year the freight rate on deals from Montreal to west coast of England was 45 shillings, while this year 60 shilllngs are being paid. From St. John there has been a corresponding advance. Shipments to trans-Atlantic ports from the eastern provinces will, it is believed, show a considerable falling off this year. The price of spruce deals has naturally declined. A correspondent writes from St. John that first class deals are selling at $15 which in February last would have brought $22. The demand from the United States is also rather dull, with very little going forward. In the Boston market laths are firmer at $3 for 1⅝ inch and $2.85 for 1½ inch. Cedar shingles are selling at $3 for extra, $2.75 for clear, and $2.10 for second clear.

MANITOBA AND BRITISH COLUMBIA.

The lumber merchants in Manitoba and the Territories speak less hopefully of the outlook for trade than they did earlier in season. The crops promise less than the usual yield, and this has resulted in the postponement of projected building operations. Consequently, the demand for lumber is quiet. It is believed, however, that the crops may turn out better than is expected at the present time, and that next month will witness a more active movement of lumber. In British Columbia the trade is in a different position. The export mills have sufficient orders ahead to keep them busy for the remainder of the season, while the local requirement has shown no falling off. Every logging camp is being worked to its full capacity, although some difficulty has been experienced in securing men to work in the woods.

UNITED STATES.

In the face of a quiet trade the lumber merchants of the United States are putting forth a strong effort to maintain prices. A conference of the price list committee of the Wisconsin Valley and the Mississippi Valley Lumbermen's Associations was held at Minneapolis on July 18th, at which it was decided to make no changes at present in the price list. It was shown that the stocks of white pine were materially reduced as compared

with a year ago, and that the high prices which prevailed last spring were warranted by existing conditions, one of which is that there is no certainty of a steady log supply for the balance of the season. Notwithstanding the action at this meeting, the market, in the Eastern States at least, seems slightly weaker. At Buffalo prices are not as uniform as they were some time ago, although we have not considered it advisable to make any changes in our quotations this week. Our Albany list, however, shows a decline of about one dollar per thousand feet in moulding and shelving boards, shippers, box and barn boards, and twelve inch dressing and better. Pine and spruce lath have also been marked down to $2. Whether there will be any further decline is a matter of conjecture, but there seems to be reason to believe that the fall trade will shortly present itself. At present a better enquiry is reported, and statements are frequent that retail stocks are very low. There is also a prospect of increased building in the east.

New York reports a better demand for spruce, but prices are still weak and buyers are not disposed to question values as they did previous to the decline.

A moderate volume of business is doing in hardwoods. Prices are steady, although in some cases mill men are said to be making concessions in order to move stocks which have been slow sale. Maple is strong in comparison with other woods. Elm, ash and basswood are not selling in large quantities, consumers apparently pursuing a hand to mouth policy.

A slight improvement is reported in the hemlock trade, as prices are fully $2 per thousand lower than they were a few months ago. In New York city the base price is about $16 and at Buffalo $14. Hemlock shingles are offering in Buffalo at $2.25.

GREAT BRITAIN.

There has been little change in the position of the British wood market, and nothing calling for special mention. Perhaps the most interest pertains to freights, which are exceptionally high, and promises to limit the import of wood goods and keep the market firm. The scarcity of steamers is almost alarming,and some are even predicting that it will bring about much higher prices. But there is still dullness in certain channels of consumption, so that the inability to charter vessels is not felt as keenly as it otherwise would be. The receipts of spruce from the St. Lawrence have nearly all passed into the hands of consumers, and it is almost impossible to buy spruce in the docks. At Liverpool some birch timber was recently sold at prices ranging from 17½d to 30d,the average price being 20½d for 15 inch. Waney pine is reported to bo dull.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

36. Enquiry has again been made for exporters of wood-flour by parties able to take large quantities of the commodity.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

STOCKS AND PRICES.

Geo. Gordon & Co., of Pembroke, have started up the Davidson & Hay saw mill at Cache Bay, Ont.

Red cedar shingles of extra quality are quoted in the Minneapolis market at from $2 to $2.05, with clears holding at $2.35.

The schooner New Dominion left Midland July 5th for Saginaw, Mich., with a cargo of lumber, but up to a few days ago had not been heard of.

The Department of Marine and Fisheries of Nova Scotia is asking for tenders for the supply of hemlock timber required for construction of breakwater at Parrsboro, N. S.

Samuel Bingham, of Ottawa, returned last week from a trip up the Gatineau river. He reports that this year's drive of logs will be greater by one-third than that of last year, when it was 750,000 pieces.

Men are being sent from the Ottawa valley to work in the lumber woods next winter. A gang left last week for Gillies' limits on the upper Ottawa, and another gang is being gotten togethsr for Fraser's limits on the Coulonge.

A report from Kingston, dated July 21, states that two large rafts of timber belonging to the Calvin Company, of Kingston, were stranded on the rocks at the Cedars. It had been decided to cut loose the tow and let the timber float down the rapids.

The steamship Sheppey Allison is loading timber at Sillery Cove, Quebec, for England, on account of W. & J. Sharples. The str. Florida is loading timber and deals at Louise Basin for Dobell, Beckett & Company. Str. Nera is loading at Sillery Cove.

The following steamers left the port of Quebec last week: Psyche, for London, with lumber; Oarham, for w. c. England, with cargo of timber, shipped by Dobell, Beckett & Co.; Huelva, with lumber; barque Orion, with lumber; Rydal Holme, for London, with deals; Nitocris, from Indian Cove, for Liverpool, with deals and timber.

The ship Treasurer cleared from Parrsboro, N. S., on July 11th for Sharpness, with 1,118,962 feet deals and 185,428 feet ends, shipped by M. L. Tucker for W. M. Mackay. Str. Eastry Carr cleared on 12th inst. for Manchester with 2,097,667 feet deals and 203,690 feet ends, shipped by M. L. Tucker for W. M. Mackay. Sch. Laconia cleared for Connah's Quay on the 13th with 515,224 feet deals and 49,748 feet ends and scantling, shipped by Capt. Norby for Geo. McKean.

The Hanbury Manufacturing Company, of Brandon, Man., succeeded in getting down their logs early in the season, the cut amounting to 8,000,000 feet. The company have been running their mill day and night this season, turning out large quantities of spruce of fine quality, tamarac, etc. They are now starting a gang of men to improve the Shell river and prepare generally for next season's work, when they expect to take out between nine and ten million feet of logs.

Following is a comparative statement of timber measured and culled at Quebec up to 24th July, as reported by the Supervisor of Cullers:

	1898.	1899.	1900.
Waney White Pine....	1,100,134	1,168,534	747,764
White Pine	750,720	276,935	317,073
Red Pine.....	132,319	88,351	20,937
Oak.....	589,401	429,559	317,217
Elm.....	345,487	405,824	439,017
Ash	25,826	54,146	70,741
Basswood.....			241
Butternut.....	795	60	92
Tamarac.....		415	71
Birch and Maple.....	106,480	231,575	333,231

SHIPPING MATTERS.

The following charters are reported: Battle liner Paltea, Miramichi, N. B., to w. c. England, deals, 60s; bark Birnawood, St. John, N. B., to w. c. England, deals; str. Madura, Saguenay, Que., to Bowling, deals, 65s; bark Inderlyon, St. John, N. B., to Melbourne, Australia, lumber, 75s; bark Montreal,Tusket, N. S., to Buenos Ayres, lumber, $10.50; str. Natarina, from Bangor to Greenock, with a cargo of spool wood, will take a deck load of deals at 45s; bark Alec Black, Jordan River, N.S., to Buenos Ayres, lumber, $11, or Rosaria, $12.

TIMBER SALE IN LONDON.

At an auction sale held by Churchill & Sim, London, Eng., on July 11th, Canadian wood goods realized the following prices:

SPRUCE. — Ex. Cheronea, from Cape Hopewell, N. B.—10-18 ft. 3 x 15 in. unassorted, £8 15s; 9-19 ft. 3 x 14 in., £9; 9-18 ft. 3 x 13, £9 5s; 9-19 ft. 3 x 12, £9 10s; 9-16 ft. 3 x 12, £9 10s; 15-22 ft. 3 x 8, £8 15s; 12-14 ft. 3 x 8, £8 15s and £9; 9-11 ft. 3 x 8, £8 15s; 15-20 ft. 3 x 6, £7 15s; 15-17 ft. 3 x 6, £8; 12-14 ft. 3 x 6, £7 15s and £8; 9-11 ft. 3 x 6, £7 10s and £7 15s; 15-21 ft. 3 x 5, £7 5s; 12-14 ft. 3 x 5, £7 5s and £7 10s; 9-11 ft. 3 x 5, £7; 3-11 ft. 3 x 7, £7; 9-20 ft. 3 x 4, £7 10s; 3-19 ft. 2½ x 6, £8; 10-20 ft. 2 x 7, £8 15s; 10-20 ft. 2 x 6, £8 5s; 9-19 ft. 2 x 5, £7 10s. Ex. Akada, from Montreal—9-14 ft. 3 x 7-11 in. third quality, £8 10s; 9-14 ft. 3 x 6 9 in., £7 15s. Ex. Yola, from Quebec—9 ft. 3 x 9 in. third quality, £9 10s. Ex. Cairo, from Metis, Quebec—9-16 ft. 3 x 9-11 in., £7 10s; 6-23 ft. 3 x 5-8 in., £7.

PINE—Ex Tantallon, from Quebec—10-11 ft. 3 x 5 in., second quality, £11. Ex Glenmoor, from Quebec—9-11 ft. 3 x 12-20 in., third quality, £10 10s; 12-16 ft. 3 x 11 in., fourth quality, £9 10s; 6-16 ft. 3 x 6-17 in., unassorted, £9 10s.

ASH BOARDS—Ex Lindisfarne, from Quebec—4-10 ft. 1 x 7 in., £4 5s.

THE LUMBER TRADE AT CHICAGO.

The position of the lumber market at Chicago is thus set forth by the American Lumberman:

"The demand from manufacturing sources such as the box factories, car factories and like institutions, is keeping along about on an even keel, though smaller in volume than it was at this time a year ago. The box factory demand, however, is expected to pick up in the near future, as the busy season for the box factories is just approaching. There is a somewhat better supply of No. 4 boards, but No. 2 and No. 3 grades in inch are still scarce, and therefore it is hardly probable that there will be a decline in prices for white pine inch unless the box factories shall substitute other lumber to a large extent for white pine. In a general way it may be said that prices on white pine in this market have declined from 50 cents to $1 a thousand since the first of the year. The greatest decline is on piece stuff, which was selling six months ago at $15.50 and $16 out of the yards. The basis price for short piece stuff is now $15.

"Receipts by lake and rail during the first three months this year ran ahead of the corresponding period in 1899, but for two months past receipts have been falling off particularly by water. Most of the stock that is now arriving by lake is lumber that was purchased last fall or winter. Dealers here are buying very little at present, claiming that prices at the mills are higher than they can afford to pay. Some stock is arriving by cargo from Lake Michigan points and is placed on the market here, but most of this is hemlock piece stuff and shingles. Hemlock piece stuff is selling at prices ranging from $9.50 to $10 for short. A few cargoes of pine piece stuff have arrived from Manistee, Muskegon and Menominee, selling at prices ranging from $12.50 to $13 for short. These sales are not numerous enough, however, to establish a market, and it is said most of the tallies have been poor ones. Practically no Lake Superior stock has been offered on the market here, except possibly a few holdsful of stock which has been shipped with deckloads of white pine timber. The latter is in fair demand and at prices approximating the figures at which such stock was sold last fall. Prices on shingles are from 15 to 20 cents a thousand lower than they were at the close of navigation last year. Offerings on lath are freely made by the cargo, but most of this stock is mixed or No. 2. No. 1 dry white pine lath are not in liberal supply, though prices for this grade are considerably lower than they were last fall."

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., AUGUST 1, 1900 No. 28.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at he rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

GOOD DIRECT ACTING STEAM SAW MILL and 200 acres for sale, with several years' supply of timber at hand. For particulars address T. A. PICKARD, Owen Sound.

WANTED—Competent man to take charge of large logging operations in B. C. Must have experience in rough country. Address, stating experience, Box 60, CANADA LUMBERMAN.

WANTED—Three Ply stock, 3-16 in. thick, about 24 x 20 in., 40 to 50 M feet per month. Any cheap hardwood will do. Clear of defects. Send sample and price to JOHN W. HUSSEY, No. 1 Broadway, New York.

FOR SALE.

DRY HARDWOOD LUMBER—150,000 FEET 1 in. soft Elm, 80,000 feet 1 in. brown Ash, 150,000 feet plain and quartered red and white Oak, 100,000 feet 1 in. and 2 in. hard and soft Maple, 40,000 feet 1, 1¼, 1½, and 2 inch clear Chestnut. For particulars apply LONDON LUMBER CO., London, Ont.

WANTED

WANTED, IN SEPTEMBER AND OCTOBER, Green Hard Maple Squares, 6½" x 6½", 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address,

Box 36, CANADA LUMBERMAN

FOR SALE

ONE 8 INCH 4 SIDED MOULDER, ONE tenon machine No. 161, one mortise machine. These machines were made by the best firms in Canada and are new and up-to-date, only used a short time; also one 38 h. p. return tubular boiler, with foot front and fittings, only used a short time; can furnsh maker's guarantee. Will sell cheap for cash or exchange for a 35 h.p. portable boiler and 30 h.p. engine if as good as new. For further particulars apply to JOHN R. MCKAY, Lansdowne, Pictou Co., N. S.

LONGFORD BRIDGE STONE, Ashlar, large and small Rubble and all kinds of Building and Foundation Stone, Window Sills, Steps, Etc.

A. McPHERSON & CO.
Longford Mills P.O., Ont.

COMPETENT LUMBER PILERS WANTED for mill in B.C. Address, stating wages, Box 789, CANADA LUMBERMAN.

WANTED.

FOR IMMEDIATE SHIPMENT, SEVERAL cars of 1½ in. to 3 in. Prime Rock Elm. OTTAWA LUMBER CO., Ottawa.

FOR SALE.

2 TO 2½ MILES SECOND HAND 30-FT. Steel Rails and Fish Plates, in good condition; also Yard Locomotive. JOHN J. GARTSHORE, 83 Front St. West, Toronto.

FOR SALE—At Wiarton, about 30,000 feet 12 x 12 in. and 30,000 feet 10 x 10 in. Cedar Timber, 10 feet and up long. Also a smaller quantity of 4 x 4 in., 5 x 5 in., 6 x 6 in., and 2 in. and 3 in. Cedar, and 20,000 feet 12 x 12 in, 20 to 30 feet Hemlock. PICKARD & ROWAN, Owen Sound.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland; extensive Lumber Docks, Houses, Store Buildings, etc.; water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

FOR SALE

A very valuable timber limit, seventeen square miles, consisting of the following timber:—12,000,000 Birch, very fine; 5,000,000 Hemlock; 2,000,000 pine: a variety of Black Ash, Spruce, Basswood, Little Elm and Oak. Also lots of Maple and Beech.

The advantages of this limit is in the fact that the furniture factory at the nearest mill takes every board of birch and ash.

The limit is well watered and easily lumbered. All necessary creeks are improved and need little repairs. Price $35,000.

Address GEO. F. RICH,
401 Can. Atlantic Hotel, Parry Harbor.

TENDERS

Tenders for the purchase of the Company's Saw Mill and contents, situated at Coal Creek, B.C., will be received by the undersigned up to AUGUST 15, 1900. This mill has a capacity of one hundred thousand feet per day, and is equipped with all the latest facilities for the handling of a large output, including:—

Six 60 x 16 Steel Boilers, complete.
One No. 3 Band Mill (Wm. Hamilton Mfg. Co.)
One pr. No. 9 Circular Husk Frame with top saw rig.
One pr. of 20 in. x 24 in. Engines, complete.
One 14 x 20 Cunningham Ford Engine, steam feed complete.
One Steel Refuse Burner, 70 feet high, 30 in. diameter.
Three Wilken's Steam Canters, complete Shafting, Pulleys, Belting, Saws, Frictions, etc.

In addition to the above there is also a Planing Mill, fitted with Planers, Boring and Mortising Machines, etc.

Detailed lists of the machinery can be seen at the mill, Coal Creek, B.C.; in the office of R. Marpole, General Superintendent, Vancouver; or the undersigned, Winnipeg, or will be mailed on application.

The lowest or any tender not necessarily accepted.

Terms of settlement—Twenty-five per cent. cash, balance in equal payments in 30, 60 and 90 days on approved security.

JAMES OSBORNE,
General Superintendent C.P.R.
Winnipeg, Man.

WANTED.—Party having good Portable Saw Mill, to cut about 3 million feet of Pine and Spruce Timber on Soo Branch C.P.R., close to R.R. Send particulars to Box 15 CANADA LUMBERMAN.

IMMEDIATE.

WANTED—Quotations, c.i.f., for export purposes, on Spruce, Pitch Pine, White Pine, Oak, Walnut and Poplar. Correspondece requested by first mails. Address—K CTIBOR, 142 East 37th St., New York.

FOR SALE.

DOWELS AND DOWEL SQUARES OF ALL dimensions, manufactured from the finest White Birch. For particulars apply to CLARK, SKILLINGS & CO., Newcastle, Miram chi, N. B.

FOR SALE

SAW MILLS—One semi-portable, first class order, capacity, 8,000 per day; one heavy mill, 40 h. p. boiler and engine, capacity 20,000 ft. Cheap for cash, or might exchange for timbered land at the north. Box 156, Thamesville, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Taking the province as a whole, trade in lumber is very quiet, but in some sections, notably Ottawa, a brisk local business is doing. The movement of stock from the mills is quite active, but most of this was sold early in the spring to be shipped out during the summer months. The situation in the Georgian Bay and Ottawa valley districts seems to be improving, and manufacturers are showing a strong disposition to maintain prices. It cannot justly be said that there has been any appreciable decline, as is evidenced by the sale of a large quantity of pine mill culls at $10 at the mill. Our Ottawa valley correspondent reports that the tendency is towards higher prices for lumber, and that the price of lath has advanced fifty cents per thousand.

Visitors to the Georgian Bay district confirm the reports that a large percentage of the logs taken out last winter are hung up, with little prospect of getting them out for this season's sawing, but it is expected that in the Ottawa valley nearly all the logs will reach the mills.

Hardwood dealers tell of a satisfactory volume of trade during the month of July, but with a small margin of profit. Manufacturers have been holding stock at firm prices, and the dealer in order to effect a sale has sometimes divided his profit with the buyer. Consumers are purchasing very meagrely, but they may be expected to buy more liberally in the near future, as there seems little hope of being able to purchase hardwood lumber this season at prices much lower than those ruling at the present time.

QUEBEC AND NEW BRUNSWICK.

The midsummer dullness in the lumber market has presented itself in a somewhat pronounced form. There are no shipments of any consequence being made to the United States market, and local trade is by no means active. Prices for spruce deals are weaker, although it cannot be said that there is any great quantity of dry stock unsold. The proposed harbor improvements at Montreal, which are to be commenced this month, will require considerable timber.

Export trade has been seriously handicapped by high freight rates. The withdrawal of steamers for transport service to China has caused a further advance in rates, and although tempting offers are made, few charters are being effected. The labor difficulty at St. John has been settled, the men returning to work last week.

MANITOBA AND BRITISH COLUMBIA.

The movement of grain by the farmers in Manitoba and the Territories is as yet light. Until after the grain is marketed trade in lumber on country account will be unimportant, but this is being offset in a measure by a good demand in Winnipeg and the larger towns. Prices are steady and no reports of cutting are heard of. In British Columbia the mills are working to their full capacity. The loggers are taking steps to keep up the price of logs, and to protect themselves the manufarturers will be compelled to sell their lumber at present prices, if not slightly higher. The export mills have sufficient orders to tax their capacity for the season to its utmost.

UNITED STATES.

The actual trade in white pine lumber is very light, and the situation in respect to prices is difficult of solution. From some quarters it is reported that sales are being made at figures ranging from 50 cents to $1.50 below the list, while on the other hand, the largest manufacturers are understood to be holding firmly to list prices. The log supply seems to have had quite an effect in maintaining the strength of the market. It is feared that some of the mills will not be able to get a full supply of logs for their season's operations, and this, of course, will reduce the output of lumber for the season. The movement of lumber has been so backward that some of the manufacturers find their piling capacity taxed to its utmost, and unless the stock can be moved in the near future, they may be obliged to close down. Eastern buyers have shown a little more disposition to contract for stock at upper lake points, as the freight rate from Duluth to Buffalo has been reduced to $2.25, as compared with $4.50 in the fall of last year. But in the absence of a brisk demand from retailers and consumers in the east, the buying by wholesalers has not been heavy. High grade stock is little asked for, box lumber seeming to be in most urgent demand. At Saginaw white pine is held at $16 and up for log run, $15 and $16 for box lumber, $14 to $17 for Norway, and $14 and $14.50 for mill culls.

In hardwood circles a slightly improved trade is reported, but the volume of business for the month of July was small. Prices are about nominal. A firm of hardwood dealers in Buffalo, writing to the CANADA LUMBERMAN, states that there does not seem to be any price list at the present time. Each firm appears to be governed by conditions which exist in its particular case, and that if prices were reduced even $5 per thousand, the volume of trade could not be materially increased. White ash seems to be in short supply, and as it is expected that

furniture factories will shortly go into the market to buy, prices of this stock are likely to keep up. Owing to high water the usual supply of ash and oak from the southwest is not forthcoming.

The demand for spruce is better than it has been, and dealers are looking forward to a good fall trade in anticipation of increased building operations. Quotations at New York range from $18.50 to $20. Hemlock is lower in price, the minimum figures being $13 at Buffalo and $15 at Philadelphia and New York city.

FOREIGN.

Prices for lumber are firmer in the British market than they were at last report, due to the difficulty in making vessel charters. It is believed that if the freight situation is not relieved before the autumn, prices heretofore unheard of will rule. The prospect at the present time is that the import of wood goods into the United Kingdom this season will be exceptionally light. There was an average quantity of spruce received at London in the month of July, but it had no unfavorable influence on prices. Third quality regulars are still quoted at £9 c. i. f., but the bulk of shipments which arrived were sold in advance. Concerning the arrival of a cargo of Canadian deals, etc., the Timber Trades Journal says: "The pine deals are principally of broad dimensions and of first quality, and as the stock of this discription is probably the lowest on record, there is every likelihood of these parcels being disposed of ex ship. From the dressed pine boards landed a fair amount of deliveries from ship's side are being made. Broad whitewood boards have been imported only to a limited extent of late, and, being in demand, the one or two parcels ex this liner should find purchasers ex quay."

Unfortunately the disturbances in China have closed, temporarily at least, a promising market for the lumber of British Columbia. During the early part of this year large shipments were made to China, and Canadian lumbermen were looking forward to a growing demand from that quarter. But when that country is again opened to development an export trade of great magnitude may be expected.

STOCKS AND PRICES.

Last week the amount of lumber received at Buffalo by lake was 4,245,000 feet.

The str. Ramleh is loading deals at Sillery Cove, Quebec, for Dobell, Beckett & Company.

White pine shingles are quoted at Saginaw at $4.15 and $315, and cedar shingles at $3 and $2 respectively.

The Nelson Saw & Planing Mills, of Nelson, B. C., have just received a boom of logs containing 600,000 feet.

The Rathbun Company's saw mill at Tweed, Ont., closed last week, after cutting 240,000 feet of lumber, 47,000 railway ties, and 700 cords of slab wood.

The str. Ailsa Craig sailed from Halifax on July 24th for Liverpool, with 1,554 standards of deals, valued at $32,700. Chas. J. Willis & Company, of Sackville, N. B., were the shippers.

Last week at Duluth, Minn., Saundry & Company sold a cargo of mixed lumber at the following prices: No. 2 and 3 shop, 2 inch, $25; 1¼ and 1½ inch, $22; No. 3, 6 inches and wider, $14.50; 1½ in. box, $15; No. 5, $10.

The Saginaw Lumber & Salt Company last week received at Saginaw, Mich., a raft of 3,000,000 feet of logs from the Georgian Bay. This company is taking over 30,000,000 feet. The Charltons have also sent over a couple of rafts.

The steamship Feronca is loading deals at West Bay, N. S., for the United Kingdom. The str. Labuan cleared from Parrsboro, N. S., on July 25th, for Manchester, with 3,452,507 feet of deals, scantling and boards, shipped by M. L. Tucker for W. M. Mackay.

A correspondent writes from Alpena to the American Lumberman as follows: The condition of the Alpena market and the movement of lumber bears no comparison to the conditions of one year ago. It is estimated that there is now on the mill docks from 25,000,000 to 30,000,000 feet of lumber, and one mill has shut down because the firm has no more piling room available. Another concern has 7,000,000 feet on the mill dock and will have to shut down the mill unless shipments increase.

Following is a comparative statement of timber measured and culled at Quebec up to 31st July, as reported by the Supervisor of Cullers:

	1898.	1899.	1900.
Waney White Pine....	1,112,043	1,237,183	748,951
White Pine	751,023	438,437	317,415
Red Pine.....	132,3.9	,110c49	20,973
Oak.....	599,881	442,240	331,113
Elm.....	395,314	405,851	445,252
Ash	27,923	54,146	73,550
Basswood.....			241
Buttternut.....	887	60	92
Tamarac		415	71
Birch and Maple.....	106,538	231,946	386,374

An estimate has been made of the probable output of the large Ottawa valley saw mills for the season of 1900, the total production being placed at 500,000,000 feet. J. R. Booth will likely reach the eighty million mark. The Hull Lumber Company, who are running the old Bronson mill, will cut about 25,000,000 feet; W. C. Edwards, Ottawa, 30,000,000 feet; Rockland Mills, sixty to seventy millions; McLaurin & McLaren, 25,000,000; McLaren, of Buckingham, 30,000,000; Gilmour's Hull mills, 40,000,000, and mills at Braeside, Arnprior and Pembroke, 100,000,000.

Mr. R. H. Roys recently returned to Saginaw, Mich., from the Georgian Bay district, and states that fully 35 per cent. of the logs put into the streams last winter are hung up. Owing to this cause many mills started sawing late and a number of new mills which were built during the winter did not start early. He says the feeling is very strong as regards prices, and reports the sale of 2,500,000 feet of mill culls to go to Ohio at $10. When the freight and $2 duty is added it brings the price up to about $14, which is a high figure for mill culls. According to Mr. Roys, there is no accumulation of lumber, and it is not expected there will be much congestion in this regard.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The local market furnishes the chief feature of interest at present. While export trade with the United States is only moderate, and that with Great Britain little better, the extensive building operations in Hull and Ottawa consequent on the fire has created a brisk demand for all lines of building lumber. Prices, with the exception of lath, have not advanced, however, in the past fortnight. The figures show an advance of 20 per cent. over those ruling the same time last year. Lath have advanced 50 cents all round, the better class selling from $3.50 to $3.75, and second grade $2.50 to $3.00.

The local mills are all running full time, and planing factories, sash factories, etc., are rushed with orders. Prices which were high before the fire, took a jump shortly afterwards, and have retained their position with prospects of another slight move upwards.

Although the yards are again piling high with lumber for export trade, the shortage caused by the fire will be felt for many months to come. Lumber is being shipped in quantities by rail direct from the saw, and considerable shipping is also being done by water in the green. The increased total demand has had its effect, depleting the supply otherwise destined to reach the foreign market.

It has been rumored on the street that Ottawa lumber magnates were to come to an understanding and by concerted action protect themselves against the vagaries of the market. The proposed deal in short meant the formation of a company to regulate the output of the local mills, and thus guard against an overstocking of the market and a possible decline in prices. No definite action has been taken in the matter, and though prominent lumber men state such steps may not be taken for some time, the impression prevails that for mutual protection they will ultimately have to arrive at an understanding as to the placing of stock on the market.

The first and probably the only raft of square timber to come down the Ottawa this season was piloted through the Chaudiere slides last week. The raft was formed on the Coulonge, having been cut off Gillies Bros.' limits. It consisted of thirty-two cribs of timber, containing in all 40,000 cubic feet. To cover the distance to the destination, Quebec, the raft was floated a fortnight. Only ten years ago between fifteen and twenty such rafts were floated down to tide water, containing at least 1,500,000 cubic feet of timber.

This year considerable square timber was shipped from the Upper Ottawa country by rail. Amongst others interested in the shipments were William Mackie, George Gordon, Allan Francis, Booth & Shannon, and Gillies Bros.

Gillies Bros'. mill at Braeside, near Ottawa, is working full time at present, with prospects of a seasons's output of 35,000,000 feet. The operations on the limits this coming season will be conducted on a large scale, though not as extensive as last season.

Reports from the various log drives show that but few of the firms centering on the Ottawa and Gatineau have logs "tied up." The last logs have just been moved out of the Dumoine for J. R. Booth and E. B. Eddy & Co. None of the mills have as yet experienced slack time on account of a scarcity of logs.

The Ottawa Lumber Co.'s limits on the Rouge promise to be the scene of extensive operations again next season. Large quantities of spruce taken out last season are being cut at the mill.

Indications point to another season of all round activity on the limits, and the men will at no distant date be returning to their work. The wages are likely to remain as high as last season owing to the demand for labor.

The W. C. Edwards & Co. have taken charge of the Capital Milling Co.'s plant and premises, both of which are undergoing a thorough overhauling. New machinery will be installed and increased facilities provided for the turning out of the heavier planing work. The finer branches office furnishings, etc., will be similarly treated in their Edinburgh headquarters.

Recently an employee in Davidson & Thackray's planing mill met with an accident, death ensuing in a couple of days. Although there was a rush of work on at the mill every department was shut down and the employees attended the funeral in Hull in a body with the members of the firm.

Sutherland & Holbrook have just been awarded the contract for the erection of a new paper finishing establishment for the E. B. Eddy Co. The new building will be a three story one, 500 feet long and 100 feet deep. The building will be a solid brick one and will be ready for occupation on Sept. 15th.

SALE OF CANADIAN LUMBER.

Foy, Morgan & Company, London, Eng., held an auction sale of wood goods on July 18th, at which the following prices were realized for Canadian lumber:—

SPRUCE—Ex. Greta Holme, from Quebec—10-15 ft. 3 x 11 in. unassorted, £9 10s; 12 ft. 3 x 9 in., £8 10s; 10-14 ft. 3 x 9 in., £8 10s; 10-14 ft. 3 x 7-8 in., £8 5s. Ex. Starlight, from Quebec—10-13 ft. 3 x 9 in., £8 15s. Ex. Annie M. Smull, from Miramichi, N.B.—9-22 ft. 3 x 11 in., £6; 6-23 ft. 3 x 9 in., £5 5s.; 6-19 ft. 3 x 7-8 in., £4 17s 6d. Ex. Greta Holme, from Quebec—11-13 ft. 3 x 9-10 in., third quality, £6 5s.

PINE—Ex. Menmon, from Quebec—12-27 ft. 1½ x 7 in. unassorted red pine, £8 15s. Ex. Abbey Holme, from Quebec—12-16 ft. 2 x 7 in. first, second and third quality red pine, £10. Ex. Werneth Hall, from Quebec—9-14 ft. 2 x 7 in. third quality, £9. Ex. Bede, from Quebec—4 ft. x 3-4 in. third quality, £4.

Messrs. Cowan & Co., of Galt, have, owing to the increase of business in the province of Quebec, opened a wareroom at 302 and 304 St. James street, Montreal, which is under the management of W. H. Fisher.

K. Ctibor, who has been in Weymouth, N. S., for two years past acting as Nova Scotian buyer for F. Ctibor, Buenes Ayres, S. A., manufacturer of native woods and importers, left for New York a few days ago on his way to Europe for a few months on a business trip. Mr. Ctibor, whose advertisement appears in this issue, is asking for quotations on native woods of various kinds. He has been a heavy buyer of spruce hitherto in Nova Scotia.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., AUGUST 8, 1900 No. 29.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE—At Wiarton, about 30,000 feet 12 x 12 in. and 30,000 feet 10 x 10 in. Cedar Timber, 10 feet and up long. Also a smaller quantity of 4 x 4 in., 5 x 5 in., 6 x 6 in., and 2 in. and 3 in. Cedar, and 20,000 feet 12 x 12 in, 20 to 30 feet Hemlock. PICKARD & ROWAN, Owen Sound.

FOR SALE

SAW MILLS—One semi-portable, first class order, capacity, 8,000 per day; one heavy mill, 40 h. p. boiler and engine capacity 20,000 ft. Cheap for cash, or might exchange for timbered land at the north. Box 156, Thamesville, Ont.

FOR SALE

THE SAW AND PLANING MILLS KNOWN as "Mallock's Mills," conveniently situated on the Ottawa between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C.P.R. For particulars, address GEO. MALLOCK, Arnprior.

TENDERS

Tenders for the purchase of the Company's Saw Mill and contents, situated at Coal Creek, B.C., will be received by the undersigned up to AUGUST 15, 1900. This mill has a capacity of one hundred thousand feet per day, and is equipped with all the latest facilities for the handling of a large output, including:—

Six 60 x 16 Steel Boilers, complete.
One No. 3 Band Mill (Wm. Hamilton Mfg. Co.)
One pr. No. 9 Circular Husk Frame with top saw rig.
One pr. of 20 in. x 24 in. Engines, complete.
One 14 x 20 Cunningham Ford Engine, steam feed complete.
One Steel Refuse Burner, 70 feet high, 30 in. diameter.
Three Wilken's Steam Canters, complete Shafting, Pulleys, Belting, Saws, Frictions, etc.

In addition to the above there is also a Planing Mill, fitted with Planers, Boring and Mortising Machines, etc.

Detailed lists of the machinery can be seen at the mill, Coal Creek, B.C.; in the office of R. Marpole, General Superintendent, Vancouver; or the undersigned, Winnipeg, or will be mailed on application

The highest or any tender not necessarily accepted.

Terms of settlement—Twenty-five per cent. cash, balance in equal payments in 30, 60 and 90 days on approved security.

JAMES OSBORNE,
General Superintendent C.P.R.
Winnipeg, Man.

The pulp mills of the National Paper Co., at Indian Lorette, Que., were burned recently, at a loss of $14,000.

The sash and door factory of John McDonald, at Chatham, N.B., was totally destroyed by fire on August 1st. The loss is $15,000 and the insurance only $3,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

What improvement has taken place in the lumber trade of the past week has been along the line of more enquiries. Generally speaking, the movement of lumber is slow and below what was anticipated earlier in the season. From the Ottawa valley there has been, during the past two weeks, a slightly larger movement of deals to Europe, but shippers are still meeting with difficulty in securing vessel space for their stock. A large volume of building is in progress in the Ottawa vicinity, which is calling for all the low grade lumber which can be produced locally. Buying for the United States market has been backward, but there are indications of improvement in the near future. Stocks in hands of retailers are exceedingly low, and some good buying must necessarily take place for the fall trade.

The situation in hardwoods is not as strong as it has been. Stocks in several localities are considerably larger than a year ago. While prices are slightly easier, a sharp decline has been prevented by the action of the manufacturers, who are still maintaining prices in the hope that the demand will improve when the holiday season is over. Buyers have confined their purchases chiefly to the production of small mill owners who have been anxious to realize and were willing to concede something in order to effect a sale. The prices of hemlock lumber have been well maintained.

The statement was made last week, based on information from our Ottawa valley correspondent, that lath prices had advanced 50 cents per thousand. This was an error, and was intended to have read that lath prices had declined 50 cents. No. 1 white pine are now quoted in the Ottawa valley district at $2.50 to $2.75, and No. 2 at $1.50 to $2.

QUEBEC AND NEW BRUNSWICK.

Our Quebec price list this week shows an advance in the price of square and waney white pine timber. Square pine, 40 to 45 in. average, is now quoted at from 40 to 47 cents per cubic foot, and first class Ottawa waney, 19 to 21 in. average, from 45 to 51 cents. The advance in the price of square pine is no doubt due in part to the gradually decreasing quantity of timber which is being taken out each year. The lumber situation in the eastern provinces shows no material change. Although there has been some improvement in the demand, it cannot be said that trade is what it ought to be. Shipments to the United States are a little more active, and some believe that the stagnation of the past month has been broken. None, however, expect more than a moderate demand from the United States this year, owing to the business disturbances consequent upon the Presidential election. Lath prices have declined. A large supply has resulted, it is said, in bringing down the price of lath at St. John to 75 cents per thousand. Cedar shingles, although dull, are selling at $2.85 to $2.90 for extra clear, and $2.50 to $2.55 for clear on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Wholesale lumber dealers in Manitoba and British Columbia report a fair trade. In Winnipeg some cutting in prices is reported, but the trade hope to be able to maintain the list figures. A report from Victoria, B.C., states that on account of the increase in the price of logs the dealers there have advanced the price of lumber to $9 a thousand.

UNITED STATES.

The downward tendency in the lumber trade seems to have been checked, and indications point to a revival of demand in the immediate future and a moderate fall trade. At the upper lakes a more general enquiry is reported, although few actual transactions have taken place. Eastern buyers have visited producing points, but the purchases made amount only to a moderate figure. At Buffalo there is said to be a scarcity in certain low grade stock.

Hardwoods are selling lower, our Buffalo lists this week showing a reduction of one dollar all round as compared with the last one. At Boston stocks are reported low, with dealers buying from hand to mouth. For shingles the nominal price at Buffalo is $4 for best 18 inch white pine.

GREAT BRITAIN.

The scarcity of tonnage is now the feature around which the interest of the timber trade is centred. Importers who have purchased wood goods fear that they may not be able to secure sufficient space for their stock, and are making an almost desperate effort to effect charters. They believe that freights will go higher during the autumn. These conditions have naturally caused the timber markets to strengthen. The tendency is decidedly upwards, and nearly all the receipts of pine and spruce deals are going direct into consumption. At Manchester there recently arrived seven cargoes of spruce deals, but no effect upon prices was visible. At a recent auction sale at London, 3 x 7 first, second and third quality spruce sold at £8 10s, and 3 x 9 at £9 15s per standard.

The Timber Trades Journal calls attention to a change which has taken place in the past year or two. While a short time ago small sizes were most wanted, there has lately arisen an active demand for deals.

KS AND PRICES.

All the log drives on the St. Croix river, in New Brunswick, have reached their destination.

The quantity of logs rafted this season on the St. John river by the Fredericton Boom Company, of Fredericton, N. B., was 74,576,221 feet.

The British ship Errol sailed from Vancouver for Falmouth, England, 138 days ago, with a cargo of British Columbia lumber. As yet no news has been received of her arrival at destination.

A report from Bangor, Maine, states that the log famine there has been relieved by the arrival of the east branch and Mattawankeag drives, and that the mills are now fully stocked, and most of them running.

Recent sailings from Quebec included the following: Str. "Ramleh," for United Kingdom, with timber and deals; the "Manchester," with timber and deals; the "Monmouth" took on 500 standards of deals and proceeded to Montreal to complete cargo; the "Forest Holme" is loading timber and deals at Louise Basin.

The following figures show the value of lumber exported from Ottawa during the month of July: Basswood, $1,109; deals, $19,049; laths, $1,187; planks and boards, $100,906; shingles, $714; poles, $168; railway ties, $2,815; total $125,969. The above figures show a falling off in comparison with July of 1899, when the lumber exports totalled $336,410.

The lumber business at Collingwood, Ont., is quite active this season. Up to the present 4,000,000 feet of lumber has been cut, and there still remains in the booms about 11,000,000 feet of logs. About half of these are owned by J. & T. Charlton and the balance by Toner & Gregory and D G. Cooper. The latter is cutting under contract for Playfair & White, of Midland.

The extensive timber lands, comprising some 25,000 acres, belonging to the Estate Kidston, of Glasgow, and situated in Stoneham and Tewkesbury, on the Jacques Cartier river, province of Quebec, have been purchased by Wm. Power, of Quebec city These limits are heavily timbered with spruce, and it is said that Mr. Power will build a large pulp mill on the property.

The Fredericton Gleaner says: "Laths are so low in price at present that some of the mills are not sawing them, but are turning their slabwood into firewood instead. Those who are sawing laths are piling them up in expectation of a rise in price. The price per thousand usually ranges from $1.25 to $1.35. The latest offer received by a city dealer, who usually does a large business in laths, is 65 cents per thousand landed at St. John."

The property of the estate of Hugh McLean, of Salmon River, N. B., was offered for sale at auction in St. John on August 3rd. The property consists of 230 square miles of timber lands on the Salmon river, Queens county, a new gang saw mill, shingle and lath machines, general store, dwelling house, etc. The bidding started at $10,000, and the property was finally purchased by Geo. McKean, who was understood to be representing Mrs. McLean, at the price of $31,750.

Following is a comparative statement of timber measured and culled at Quebec up to 31st July, as reported by the Supervisor of Cullers:

	1898.	1899.	1900.
Waney White Pine....	1,291,193	1,381,753	921,782
White Pine	951,064	520,232	348,302
Red Pine.....	155,571	141,810	21,011
Oak.....	638,810	465,770	351,883
Elm.....	410,785	415,497	445,252
Ash	28,838	55,304	74,941
Basswood.....			241
Buttternut.....	857	60	92
Tamarac		415	71
Birch and Maple.....	106,592	231,946	386,374

A report from Bangor, Maine, reflecting the condition of the lumber market, says: "The deal trade continues to look promising, and steamers are being chartered to carry several million feet to various points in the United Kingdom. A cargo of 1,500,000 feet left Bangor July 30 in the steamship Gladys for West Hartlepool, and the steamship Aberfeldy has just arrived to load for Newcastle-on-Tyne. Several cargoes of white birch spool bars have been shipped, and others are soon to go to English and Scotch ports. It is expected that 15,000,000 feet of deals and 8,000,000 feet of spool bars will be sent from Bangor to Great Britain this season. Deal freights are higher than for years, the steamship Aberfeldy getting 55 shillings per standard from Bangor to Newcastle-on-Tyne. Steam tonnage is very scarce, owing to the great demand for vessels to transport war material to Africa and Asia. Coasting freights are very low this year, $2.25 per thousand being the rate to New York, $2 to ports in Long Island Sound and $1.62 to $1.75 to Boston. Some special orders for dimensions are being filled in New York, and there is considerable demand for short lumber, but the market for random spruce is almost lifeless."

TIMBER LIMIT SALE.

The extensive lumbering property of the Holland & Emery Company, consisting of large mills at Byng Inlet, Ont., and valuable timber limits adjacent thereto, was offered for sale at public auction in Toronto on Monday, August 6th. There was a small attendance of lumbermen, and the auctioneer, Mr. S. H. Townsend, failed to secure a bid for the property, which was consequently withdrawn.

THE BOSTON MARKET.

Lumbermen report that the first signs of improvement in the spruce lumber market have been visible during the past week. Yard owners show more tendency to buy. While prices are not much improved, it is certain that there is less cutting going on, some of the lots that must be sold having been disposed of. Agreement rates are unchanged:

10 and 12 in. dimensions	$17.00
9 in. and under	15.00
10 and 12 in. and under	16.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4	13.50
All other random, 9 in. and under	14.50
5 inches and up boards	14.00
Out spruce boards	11.00
Bundle furring	12.50

On hemlock lumber the market shows little change:

Canadian and eastern	$13.00 to $15.00
Pennsylvania	16.00 17.00

Western pine is steadily held by shippers, with the demand here limited:

Uppers, 1 in	$56.00 to $58.00
1¼ to 2 in	58.00 " 60.00
3 and 4 in	68.00 " 72.00
Selects, 1 to 4 in	52.00 " 64.00
Fine common, 1 to 3 in	45.00 " 60.00
Sheathings	38.00 " 54.00
Barn boards	28.00 " 30.00
Coffin boards	24.00 " 26.00

Whitewood is in quiet demand at steady prices:

Whitewood, 1 in	$37.00 to $39.00
Whitewood, thicker	38.00 " 43.00
⅝ inch	30.00 " 34.00
Saps, inch	28.00 " 30.00
Common	25.00 " 28.00
Quartered oak	65.00 " 75.00
Fancy Oak	85.00 " 95.00
Plain Oak	35.00 " 48.00
Ash	38.00 " 50.00
Cherry	90.00 " 130.00
Maple	30.00 " 40.00
Sycamore, quartered inch	40.00 " 50.00
Walnut	100.00 " 130.00

Shingles continue dull and are very easy:

Extra	$2.85 to $2.90
Clear	2.50 2.65
2nd clear	2.00 2.10
Clear white	1.75 2.00
Extra No. 1	1.00 1.50

Oregon, $2.50 to $3.10, as to grade and quality. These prices are for Boston, freight paid. California redwood are quoted at $3 to 3.50.

Clapboards are also dull:

Spruce, extra	$28.00 to $29.00
Spruce, clear	26.00 " 27.00
Spruce, 2nd clear	23.00 " 24.00
Pine, extra	38.00 " 42.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42.50 " 45.00
Second grade	40.00 " 42.00

Laths are plenty and have to be sold at low prices:

1⅝ laths	$2.85 to $3.00
1½ laths	2.60 2.85

Boston, Aug. 6th, 1900.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Co., in their market report of July 21st, say:

The arrivals of lumber since our last have been the Mercedese, from Belliveau Cove, to our address, with 45 m ft. spruce boards, which we sold at $20.10 for shipping; 15 m. ft. 2nd quality, $16; 45 m. ft. plank, $18. A small steamer lot of hemlock, $14. Schr. Etta E. Tanner has also brought 30 m. ft. spruce—not yet disposed of. The New Dominion, from Dalhousie, N.B., has also arrived with 50 m. ft. spruce boards, to our address, which we have placed at $20.29 shipping, $16.29 2nd quality. The demand for spruce is virtually over for the season, crop being closed. In white pine the Moss Rose has arrived from Liverpool, N.S., with 170 m. ft., sold to arrive. Another cargo is also expected. We sold a little lot ex. Mercedese at $24 shipping, $19 2nd quality; but late prices will hardly be maintained. Shingles—The Success, from Paspebiac, Que., brought 1,125,000, of which sales were made of ordinary long Gaspe at $3.03, while extra quality were placed at $4.56 to $5.07. A small lot of dimension, ex Canadian stmr., were sold at $7.13 7 inch, $6.35 to $6.60 6 inch, $5.30 to $5.50 5 inch, $3.60 to $4.24 4 inch. The New Dominion also brought 485 m. cedar laying—now on offer. We placed 44 m. spruce laying ex Mercedes at $2.

LATH PRICES AT OTTAWA.

(Correspondence of the CANADA LUMBERMAN.)

In my last letter I gave some figures regarding the price of lath which were based on a misapprehension, and which I desire to correct. Instead of advancing in price, as was stated, lath have declined in the Ottawa valley 50 cents, No. 1 pine selling at $2.50 to $2.75, and No. 2 at $1.50 to $2. It was predicted this product could not be retained at the prevailing high figure, and the prediction proved true. Although, on account of the extensive building operations, the local market for lath is good, this does not tend to keep up prices, as the lower grades alone are used. The dullness in the American market has brought about a falling off in lath shipments, and the very fact that prices were high proved a tendency in the same direction. Now that a normal level has been reached, the shipments may increase.

Mr. J. R. Booth has put a large gang of men at work fitting up his yards on the Quebec side of the Ottawa river, known as the Hull yards. The fire made such a clean sweep that bridges, platforms, and tramways, as well as piling floors, will all have to be rebuilt, at a large cost.

The E. B. Eddy Co. has nearly completed a large saw mill and two smaller pulp mills, being built to replace those destroyed in the fire.

Already many men are being hired in Hull and Ottawa for work on the limits. The number hired for the Ottawa firms promises to exceed that engaged last year.

The high wages offered to men engaging for the shanties next winter are: Log cutters, $26 to $28; teamsters, $24; general hands and road makers, $18 to $22; cooks, $40 to $45; loaders, $1 a day; foremen, $50 to $55 per month.

Mr. Alex. Lumsden unsuccessfully offered $28 a month and board last week to a crew of men to work in his saw mill at Gordon Creek. The mill had to close down for a time owing to want of hands.

Roy & Sevigny, lumber agents, will this week send a gang of men to Dyment & Co's limits at Thessalon, Ont.

Messrs. Chevrier & Limoges despatched 35 men last week fo J. R. Booth's limits at Nipissing, and will detail another gang to-day for the Georgian Bay, to work for the Ontario Lumber Co.

Ottawa, Aug. 6th, 1900.

FOR SALE

THE SAW AND PLANING MILLS KNOWN as "Malloch's Mills," conveniently situated on the Ottawa between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C.P.R. For particulars, address GEO. MALLOCH, Arnprior.

TENDERS

Tenders for the purchase of the Company's Saw Mill and contents, situated at Coal Creek, B.C., will be received by the undersigned up to AUGUST 15, 1900. This mill has a capacity of one hundred thousand feet per day, and is equipped with all the latest facilities for the handling of a large output, including :—

Six 60 x 16 Steel Boilers, complete.
One No. 3 Band Mill (Wm. Hamilton Mfg. Co.)
One pr. No. 9 Circular Husk Frame with top saw rig.
One pr. of 20 in. x 24 in. Engines, complete.
One 14 x 20 Cunningham Ford Engine, steam feed complete.
One Steel Refuse Burner, 70 feet high, 30 in. diameter.
Three Wilken's Steam Canters, complete Shafting, Pulleys, Belting, Saws, Frictions, etc.

In addition to the above there is also a Planing Mill, fitted with Planers, Boring and Mortising Machines, etc.

Detailed lists of the machinery can be seen at the mill, Coal Creek, B.C.; in the office of R. Marpole, General Superintendent, Vancouver; or the undersigned, Winnipeg, or will be mailed on application

The highest or any tender not necessarily accepted.

Terms of settlement—Twenty-five per cent. cash, balance in equal payments in 30, 60 and 90 days on approved security.

JAMES OSBORNE,
General Superintendent C.P.R.
Winnipeg, Man.

DEALS FOR SOUTH AFRICA.

A gentleman now in Canada desires to obtain quotations from Canadian manufacturers on a cargo of red and white pine deals, principally 3 x 9 and 3 x 11, for shipment to South Africa. The name of the party may be obtained by communicating with this office.

CURRENT TRADE CONDITIONS.

ONTARIO.

Buying lumber, except for immediate requirements, has been out of the question during the past week. The excessive heat caused dealers to relax entirely their efforts for business; buyers and salesmen were taken off the road. The mid-summer quietude has almost reached the point of stagnation. Shipments are being made from the pine mills, but generally very little new business is being placed. Stocks at some of the mills are reported to be getting quite heavy, and if the fall demand does not prove of considerable volume, there may be carried over the winter more than an average quantity of stock. Manufacturers, however, are not worrying as to the future. They seem to regard the outlook as hopeful, and are not disposed to sacrifice prices. Some slight cutting has been reported, but it has usually been in the case of a small manufacturer wishing to realize, and consequently has had but little effect upon the market. The largest producers believe in the maintenance of present prices.

A denial has been given to the rumor regarding the formation of a lumber trust in the Ottawa valley.

QUEBEC AND NEW BRUNSWICK.

Manufacturers in Quebec and New Brunswick report a slow trade and unsatisfactory market. The excessive freight rates have restricted the demand for British deals, and those who have not already sold their output may be compelled to accept lower prices. Two charters have just been effected from St. John to the western coast of England at 63s 9d and 65s. Several cargoes of spruce were last week shipped from St. John to Boston. Hemlock is selling there at $13 to $15. New Brunswick shingles are dull, the range of prices for No. 1 being $2.80 to $3.

Nova Scotia lumbermen report trade about up to the average. A manufacturer writes that spruce lumber is in light supply and that he has been unable to secure snfficient stock to fill orders. Steady prices during the balance of the season are looked for.

UNITED STATES.

The lumber market of the United States is practically featureless. There has been a sharp falling off in trade since June 30th, and the fall movement of stock has not yet commenced. The condition of the demand would warrant considerably lower prices, but there have been exceptional influences tending to maintain the strength of the market. As a result of a short log supply and other causes, the production of white pine this season is almost certain to be less than last year.

Compared with one month ago, pine prices are off about one dollar per thousand. One dealer may be holding to list prices on a grade of which he has a short stock, while on another grade more heavily in supply he may be offering a reduction of $1.50 from the list. The result is that prices are considerably demoralized and practically nominal. At Bay City and Saginaw No. 3 barn boards and narrow inch box boards have declined one dollar, and shaky clear in narrow widths about $1.50 per thousand. Eastern wholesalers have made but small purchases, and will probably go into the winter with lighter stocks than for a number of years past. The eastern retailer, it is said, is filling his requirements, as far as possible, with southern pine, prices of which have declined sharply.

Hardwoods are showing a little more life. Enquiries for stocks have increased. A scarcity of basswood at Buffalo is reported. White ash is selling there at $45, and log run maple at $19. In the Saginaw valley log run is quoted at $18, basswood at $17 to $18, elm at $16, and maple at $14.

The lath trade is demoralized. No. 1 white pine is now selling at Saginaw at $2.50, No. 2 at $2, and hemlock at $1.50. These prices represent a marked decline in comparison with those ruling three months ago.

GREAT BRITAIN.

Timber circulars to hand contain much information bearing on the condition of the British timber market. It is shown that during the month there were no changes of importance in the prices of square and waney timber and spruce deals. Quebec pine deals, however, are considerably higher than one month ago, the advance at Liverpool being of an average of £1 per standard. First quality pine deals are now quoted at £23 to £26, second quality at £18 to £20, and third quality at £12 to £12 10s per standard. The demand for lumber is not very active, but the peculiar conditions surrounding the trade are keeping prices firm, and lower values are not expected this year. Concerning a sale of wood goods held by Hodson, Mabbs & Company, an exchange says: "The Quebec fourth spruce, 3 x 9, at £8 15s, seemed cheap, and the planks at 10s more would not have been dear a

another 5s. Still fourth quality is not so generally appreciated as it has been lately and we do not think sellers have any reason to be dissatisfied with the values realized, which are twenty shillings higher than last year. With fourth spruce under the hammer commanding £8 15s and £9, we may infer that the supply is still inadequate to meet the demand."

STOCKS AND PRICES.

The Munro Lumber Company, of Pembroke, Ont., are preparing to operate on their new limits just above the Mattawa.

Tenders are invited up to August 29th for the supply of lumber required for naval purposes at Esquimalt, B.C., for one year.

The steamship Riplingham will sail this week from Montreal for Hull, with a cargo of deals, shipped by Watson & Todd.

There has been a decline in the price of red cedar shingles. This has had a corresponding effect on prices asked for cedar stumpage.

The steamer Feronia cleared from Parrsboro, N.S., for Sharpness, on August 8th, with 2,398,248 feet of deals, ends and scantling, shipped by Geo. McKean.

D. C. Mulhall, lumber merchant, Liverpool, N. S., has sold out his interest in the timber interests of Mulhall & Hunt to the Acadia Pulp & Paper Mills Co.

The Department of Trade and Commerce at Ottawa have received an inquiry from a Glasgow firm for clothboards, and inviting quotations from Canadian manufacturers.

The North-Western Hemlock Manufacturers' Association, at a meeting held in Milwaukee on August 7th, adopted a new price list, fixing the base price of hemlock at $9.75 for short lengths on a Wausau rate of freight.

In the Chicago market short piece stuff in pine is selling on the basis of $15 to $15.50, and No. 1 boards from $19 to $20. Common inch averages about $15. The shingle market has shown a little more activity. Prices on eight-inch white cedar shingles are in the neighborhood of $2.

Seaman & Company, of Port Arthur, Ont., have the contract for supplying the necessary timber for the construction of bridges, culverts etc., for the Ontario and Rainy River railway. Mr. Seaman states that low water has delayed operations, fully six million feet of logs being tied up.

All fear of a shortage of logs for the Ottawa mills this season is said to be passed. The last of the logs from the Dumoine river, cut by J. R. Booth and E. B. Eddy, have been floated into the Ottawa. McLaren & Company and Ross Bros. & Company have 30,000,000 feet from the Du Lievre river.

The steamships Akaka and Marylands are loading timber at Quebec for Great Britain. The "Dunmore Head" is loading deals and lumber at Indian Cove, Que., for Dublin. The "Forest Holme" is loading lumber and deals in Louise Basin. The "Raymore Head" sailed from Quebec for Dublin on the 11th inst., with a cargo of deals and timber.

Following is a comparative statement of timber measured and culled at Quebec up to 14th August, as reported by the Supervisor of Cullers :

	1898.	1899.	1900.
Waney White Pine....	1,478,264	1,537,284	1,278,222
White Pine	1,018,957	523,323	502,248
Red Pine.....	174,501	141,851	62,736
Oak.....	753,964	465,770	352,010
Elm.....	449,303	436,542	485,736
Ash	31,801	56,429	76,274
Basswood.....			241
Buttternut.....	955	60	92
Tamarac.....		415	71
Birch and Maple.....	106,592	231,946	387,379

The annual sale of unmarked logs, rafted by the Fredericton Boom Company, took place at Fredericton, N. B., on August 8th. The bidding was quite brisk, particularly on spruce logs, which brought the highest price on record, namely, $10.80 per thousand. Hemlock, 46,810 feet, were bought by W. J. Davidson at $4.05 per thousand ; cedar, 145,340 feet, by J. A. Morrison at $5.80 per thousand ; pine, 21,360 feet, by T. E. Babbit & Sons at $8.05 per thousand; spruce 603,699 feet, by Geo. E. Barnhill at $10.80 per thousand.

IMPROVEMENT AT BOSTON.

FOR spruce lumber there is a better call, although the market is yet far from being an active one. There is a fair enquiry from the yard people, they evidently having made up their minds that prices are down to the bottom. For lumber shipped by water there is a better demand, with a small supply. With all the mills sawing has been curtailed a good deal, till, now that the market is a little better, they have but little lumber at hand. Spruce boards are spoken of as particularly scarce, with better prices being obtained. Letters from several of the larger spruce manufacturers in Maine decline orders, and explain that they have orders on their books sufficient to last them till well into the fall, and that they do not care to accept further business till prices are better. Although business has been dull, they have cut down on their sawing till they have little lumber on hand, and do not care to use their logs on orders at present prices. Agreement quotations are being better adhered to :

10 and 12 in. dimensions	$17.00
9 in. and under	15.00
10 and 12 in. and under	16.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4	13.50
All other random, 9 in. and under	14.50
5 inches and up boards	14.00
Out spruce boards	11.00
Bundle furring	12.50

Hemlock lumber is yet in small supply, but the demand shows more improvement :

Canadian and eastern	$13.00 to $15.00
Pennsylvania	16.00 17.00
Rough boards	12.00 12.50
Planed boards	13.00 14 00

Western pine is in fair call, with the shippers pretty firm. Prices are a little changed :

Uppers, 1 in	$56.00 to $58.00
1¼ to 2 in	58.00 " 60.00
3 and 4 in	68.00 " 72.00
Selects, 1 to 4 in	52.00 " 64.00
Fine common, 1 to 3 in	45.00 " 60.00
Sheathings	38.00 " 54.00
Barn boards	28.00 " 30.00
Coffin boards	24.00 " 26.00

Shingles are dull and very easy :

Extra	$2.85 to $2.90
Clear	2.50 2.65
2nd clear	2.00 2.10
Clear white	1.75 2.00
Extra No. 1	1.00 1.50

Oregon, $2.50 to $3.00, as to grade and quality. These prices are for Boston, freight paid. California redwood are quoted at $3 to 3.50.

Clapboards are in extremely dull request, and the market is asy :

Spruce, extra	$27.00 to $28.00
Spruce, clear	25.00 " 26 00
Spruce, 2nd clear	23.00 " 24.00
Pine, extra	36.00 " 38.00
Pine, clear	33.00 " 37.00
Pine, 2nd clear	23.00 " 30.00
California redwood, clear	42 50 " 45.00
Second grade	40.00 " 42.00

Laths continue dull and easy :

1⅝ laths	$2.85 to $3.00
1½ laths	2.60 2.85

Boston, Aug. 6th, 1900.

THE GLASGOW MARKET.

Messrs. Edmiston and Mitchells, in their monthly timber circular of 31st July, review the Glasgow market as follows :

Trade during the present month has been interfered with considerably by the annual midsummer holidays, but, even apart from this, there has been rather a lull in business generally. The import so far this year from Montreal has been unusually small, and this has had the effect of maintaining values all round. In view of the high freights now ruling, the tendency would appear to be towards a still higher level of values, but it is difficult to get buyers to entertain this view. Buying is mostly on a restricted scale, the general feeling being apparently against committing oneself too far ahead.

WANEY BOARDWOOD (first class)—Occasional retail sales are reported at about 2s 9d to 2s 10d per cubic foot for 70 feet average, but there is not much demand. (Second class)—Prices range from 1s 6d to 1s 10d, but only a small amount of business has been done.

RED PINE.—No sales are reported during the month, and the stock on hand is quite ample for likely requirements.

OAK.—A few small retail sales are reported from time to time at from 2s 7d to 2s 9d per cubic foot, but there have been no transactions of importance.

ELM.—There are numerous enquirers, and the stock is practically exhausted. Buyers are eagerly awaiting the new season's arrivals, which will meet with a good demand at satisfactory prices.

BIRCH.—Quebec—The import from Montreal during the month amounts to about 600 loads of logs and 60 loads of planks. A considerable proportion of the logs have had to be stored, the market being decidedly weaker, and it would be as well to stop consignments to this market temporarily. Lower Port—There has been no import this month, and the few sales from stock are on a basis of 1s 5d to 1s 6d for 16 inch average. Planks—There is a fair demand at about 1s to 1s 1d, and shipments of these can be recommended.

ASH.—There have been several imports this month, all of which found buyers ex quay at satisfactory prices.

DEALS, &C.—Business has been much restricted during the month, owing to the fair holidays. The market, however, is firm, there being no alteration in prices. Current values are as under : Broad First Pine Deals—£27 to £30 ; 11-inch, £24 to £ 26 ; ends and non-dimensions, £18 to £22. Second Pine deals 11 inch and up, £21 to £21 10s ; non-dimensions, £14 to £16. Third Pine Deals—11 inch and up, £12 15s to £14 ; narrows, £9 15s to £10 10s ; ends, £8 10s to £9. Fourth Pine deals—11 inch and up, £9 10s to £9 15s; narrows, £8 to £8 10s. Red Pine Deals—9 to 11 inch by 3 to 4 inch, £13 to £15 ; narrows, £10 to £12 10s. First Pine Sidings—8 to 9 inch average, £18 to £19 ; 10 to 11 inch average, £20 10s to £21 10s ; 12 to 13 inch average, £22 to £24. Spruce Deals—7 to 8 inch by 3 inch, £7 15s to £8 5s ; 9 to 11 inch by 3 inch, £8 15s to £10.

SHIPPING MATTERS.

The schooner Wanola has been fixed to load lumber at Weymouth Bridge, N. S., for Havana.

The steamer Normanton, 1,600 tons, has been chartered to load deals at St. John for w. c. England at 65s. The steamer Blenheim gets 63s for same ports.

Recent charters include the following : Str. Winnifred, St. John, N. B., to w. c. England, deals, 63s 9d ; str. Normanton, 1600 tons, St. John, N. B., to w. c. England, deals, 65s ; barque Friheden, Miramichi to Ayr, deals, 56s 3d ; Glenrosa, Montreal to Rosaria, lumber, $12.50.

The latest charters reported by the Timber Trades Journal are : 1,100 standards, Miramichi to Glasgow, 65s ; Shediac to w. c. Ireland, deals, 58s 9d ; 1,300 standards, Montreal to Hull, deals, 65s, 25 per cent. boards, 5s extra for boards in excess ; 700 standards, Montreal to Hull, 70s, 30 per cent boards.

FIRES.

The sash and door factory of J. Briggs & Sons, at Brockville, Ont., was destroyed by fire on August 10th. The loss, $2,000, was fully covered by insurance.

The lumber yards of Barker, Street & Stewart, at Ashland, Wis., together with 50,000,000 feet of lumber, were burned on August 4th. The loss is estimated at $1,000,000.

The saw mill of W. & D. Baillie, at Aylmer, Que., was totally destroyed by fire last week, at a loss of $20,000. The mill had been sawing for Gillies & Company, of Arnprior, for some time past.

Of the market for birch timber, Alfred Dobell & Co., Liverpool, say : Logs have arrived in moderate quantities. By auction a parcel of St. John, N.B., consisting of 644 logs, of 15⅝ inches foreign average depth, was sold at an average price of 20½d per foot. Planks have arrived more freely, but values keep steady.

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., AUGUST 22, 1900 No. 31.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

URQUHART BROS.,
Courtenay, B. C.

FOR SALE

VALUABLE STEAM SAW MILL, CAPACITY thirty thousand feet per day, well equipped with Boilers, Engines and first-class machinery for manufacturing Lumber and Shingles situate at Pine Tree Harbor, Bruce County. With the mill property there are twenty Houses, Blacksmith Shop, Store with good stock of General Merchandise, doing a profitable business. This is one of the best mill sites in Western Ontario, having a first-class dock, with trams, where lumber can be loaded very cheap, and the harbor is one of the best on Lake Huron. In connection with the mill offered for sale, large blocks of timbered lands, covered with choice Hardwood, Hemlock and Cedar, sufficient to stock the mill for 15 years. One of the best opportunities for profitable investme t offering to-day. Reason for selling owners largely engaged in other lines. For particulars apply to SOUTHAMPTON LUMBER CO., LTD., Southampton, Ont.

The steamers "Crewe" and "Tanagra" have been chartered to carry deals from St. John, N. B., to w. c. of England.

The Timber Trades Journal reports the following charters: Str., 800 standards, Miramichi to Glasgow, deals, 67s 6d, August; str, 1,040 standards, Miramichi to Glasgow, 67s 6d, 20 per cent. boards, August; "Normanton," St. John, N.B., to Newcastle-on-Tyne, deals, 55 s August.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is difficult to clearly define the lumber situation in Ontario. The fall demand is developing very slowly, and enquiries for stock are not numerous. That lumber prices have not weakened in any marked degree during the dull period of the past two months would seem to be ground for taking a hopeful view of the future in regard to prices. But unless there should be a more active movement of lumber in the near future the market may possibly weaken. The large manufacturers are showing no disposition in that direction, but there are evidences that smaller manufacturers are in need of money with which to prepare for logging operations, and that they are anxious to realize on their present holdings of lumber; and the small manufacturer has become a factor in the market that cannot be entirely disregarded. In Toronto pine prices are a little easier; 2x4 and 2x6 common are selling at $14, 2x8 at $15, and 2x10 and 12 at $16. Mill culls are worth about $12, and cull scantling $11.50. In the Ottawa valley there are a few slight changes, shorts and strips selling a little higher.

Considering the demand for hardwoods, manufacturers are holding their stock particularly firm. Whether they will succeed in preventing a decline is a question in doubt. The fact must not be lost sight of that there are comparatively large offerings of hardwood lumber, and that there is no such scarcity of stock as existed one year ago. Maple and birch are held in considerable quantities by dealers and manufacturers, while there is also a fair stock of elm. Two inch maple, firsts and seconds, can be purchased from the dealers in Toronto at $20, and the average price at the mill is about $14. There is no over-supply of basswood, which is held at firm prices. There has been a slight advance in Western Ontario in hemlock lumber, and it is understood that the demand is exceeding the supply. Cedar shingles are reported to be moving quite actively.

QUEBEC AND NEW BRUNSWICK.

The freight market is a little easier, but any advantage from this will be wiped out by increased insurance rates for fall shipments, so that the position of lumber exporters has not been materially improved. Several exporters will probably carry over until the spring a quantity of stock originally intended for shipment this season. There is a little more life in the United States trade. Clapboards and shingles, however, remain dull. New Brunswick cedar shingles are quoted at a wide range, from $2.80 to $3 for No 1 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade of Manitoba and the Territories promises to suffer as the result of a partial failure of the crops. Whereas 40,000,000 bushels of wheat would be an average production for the acreage under cultivation in these provinces, it is estimated that the yield this year may not exceed 20,000,000 bushels. There is hope, however, that the final figures will show better results. Lumber is moving rather slowly, and very little has been doing outside of the city of Winnipeg and larger towns. On the coast the prospects are much brighter, as local trade is fairly active and large shipments are being made to foreign countries.

UNITED STATES.

No substantial improvement in the lumber demand of the United States can be reported. Enquiries are more numerous, but actual transactions are few. Eastern retailers are buying in the most conservative manner, and wholesalers are disposed to follow this course; at least, they do not feel like putting in a heavy stock until they have some assurance of an improved demand. The call for building lumber is slow, but the varieties used in general mill work are more active. Some sales of No. 3 and No. 4 boards have been made at Duluth at $14.50 and $11 respectively.

Hardwoods have gained something in volume during the past week, and there is a more confident feeling in respect to prices. Birch and maple are dragging, but basswood is moving more freely.

Pacific coast shingles are weak and the demand light. A few sales of pine shingles are reported from Buffalo, but on the whole the demand is quiet.

GREAT BRITAIN.

Freight rates continue to exert a strong influence on the British timber market. This is not surprising when it is remembered that rates are 50 per cent. higher than they were last spring. The result is likely to be that large quantities of stock purchased by the merchants will be wintered over at various shipping points. Owing to the certainty of a light import this season, prices are showing a further tendency to harden. The stock of white pine deals in London docks is very low. First quality regulars are selling as high as $30 per standard, seconds at £23 to

£24, thirds at £14 to £15, and fourths at £11 to £12. These, of course, are about the maximum figures. Spruce deals are as strong as ever. There is a marked scarcity of first quality Quebec deals, but a larger supply of the New Brunswick and Nova Scotia production. Battens are gaining in favor, and it should be possible to export a greater quantity of these from Canada. The sizes most in demand are 2½x7, 2x7 and 2x8. In square timber Quebec elm seems to be most asked for, and the stock is scarce. For 45 to 50 feet average 3s 3d to 3s 6d per cubic foot can be obtained. A moderate business is doing in birch at 18d to 21d for 14 to 16 inches, and 22d to 2s for 17 to 18 inches average.

STOCKS AND PRICES.

At Marinette, Wis, No. 3 pine boards are held at from $14 to $15.

The steamer "Dallmally" left Pugwash N. S., last week for Engfand with a cargo of deals.

Up to August 1st of this year, 151,268,050 feet of lumber was sawn at the Minneapolis mills,as against 193,632,250 feet for same period last year.

Three vessels loaded lumber at Beck's wharf, Penetanguishene, last week, two for Bay City and one for Detroit, their cargoes being 1,000,000 feet.

At the annual meeting of the Rouge Boom Company, held at Calumet a few days ago, it was stated that over 500,000 saw logs had passed through the Rouge booms this summer, and that there remained over 400,000 logs still to go through.

The Saginaw Lumber and Salt Company, of Saginaw, Mich., are having 12,000,000 feet of lumber sawed at Parry Sound. This lumber was sold early in the spring for delivery to eastern dealers. Another Parry Sound firm is reported to have sold 4,000,000 feet recently to go east.

The steamship "John Christie" is loading a cargo of deals at Hochelaga, Montreal, for Preston, England, shipped by W. & J. Sharples. The "Riplingham" sailed last week for Hull, with a full cargo of deals, for account of Watson & Todd. The "Aladdin" is loading a cargo of deals for Great Britain, for McLean, Kennedy & Company.

The steamship "Tugela" sailed from Quebec last week for Greenock, with a cargo of timber and deals. The "Torr Head" sailed on 15th inst. for Belfast, and the "Dunmore Head" for Dublin, both with deal cargoes. The "Glenarm Head" is loading a cargo at Indian Cove, Quebec.

Following is a comparative statement of timber measured and culled at Quebec up to 14th August, as reported by the Supervisor of Cullers :

	1898.	1899.	1900.
Waney White Pine....	1,478,264	1,561,489	1,362,382
White Pine	1,018,957	523,382	504,366
Red Pine	174,501	159,541	6 ,796
Oak.....	753,964	466,452	380,966
Elm.....	449,303	446,408	542,077
Ash	31,801	56,514	80,907
Basswood.....			241
Buttternut.....	955	60	142
Tamarac.....		415	71
Birch and Maple.....	106,592	231,946	392,149

The Boston lumber market is not yet particularly active, but the demand continues to improve steadily. For cargo spruce there is renewed enquiry, with the supply small. Spruce boards are scarce, and as a result better prices are being obtained. It is said that on other lumber the agreement prices are having more effect than has been the case since the mills formed a combine. Shingles are dull and easy and clapboards are in much the same condition. Laths are also dull, with little business noted. Hemlock lumber is yet in small supply, but the demand shows some improvement. Quotations here are as follows: Spruce—10 and 12 inch dimensions, $17 ; 9 inch and random lengths, 10 feet and up, $16.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $13.50 ; all other randoms, 9 in. and under, 10 feet and up, $14.50 ; 5 inch and up, merchantable boards, $14 ; out boards, $11 ; bundled furring, $12.50 ; extra clapboards, $27 to $28 ; clear, $25 to $26 ; second clear, $23 and $24 ; laths, 1⅜ inch, $2.85 to $3 ; laths, 1½ inch, $2.60 to $2.85. Hemlock, etc.—Canadian and eastern, $13 and $15 ; extra pine clapboards, $36 to $38 ; clear, $33 to $37 ; second clear, $28 to $30 ; extra cedar shingles, $2.85 to $2.90 ; clear, $2.50 to $2.65 ; second clear, $2 to $2.10 ; clear white, $1.75 to $2 ; extra No. 1, $1.50.

THE OTTAW VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Ottawa, Aug. 17th, 1900.

Although there is a brisk export trade from the mills at present, dealers report local business quiet. Prices which were unsettled six weeks ago, have again steadied down. The American market is not as brisk as it was last year, the demand having fallen off. Lumber shipments by boat and rail destined for the British market are increasing in number now that the mills are in a position to cut and satisfy the shortage caused by the fire. The feature of the price list ruling on the Ottawa market is the advance in several different lines of pine. Sidings and shorts are both firmer.

The demand for men for the limits is large and cannot be satisfied. Wages are even higher than last year and the prospects for activity on the limits are good. Last week the Hull Lumber Company sent 85 men up to their limits on the Ostobonina river and 60 to those on the Kippewa. J. R. Booth, Gilmour & Hughson and outside firms are also engaging large gangs.

The sawmill of Messrs. W. & J. Baillie, situated at Aylmer, near Ottawa, was totally destroyed by fire a few night since, and it has not been decided yet whether the mill will be rebuilt or not. The mill has been sawing for Mr. Gillies, of Arnprior, for some time. The loss is $22,000, with an insurance of $10,000. By the fire 120 men are thrown out of employment. Richie's mill near by will probably be operated day and night to finish the cut the ruined mill was working on. At present Ritchie's mill is working overtime for the Hull Lumber Company, whose mill was destroyed by fire.

The Ottawa Lumber Company intend building a large warehouse on its storage and shipping premises at Ottawa. The new building will have a capacity of 1,000,000 feet of hardwood lumber. This will be purchased throughout the country, and shipped to Ottawa, where it will be sorted and stored in the new warehouse. The lumber is intended for the foreign market. New houses and stables will also be built on the premises. The Ottawa Lumber Company has now well equipped premises, and a large trade is being done with the local and outside market. The spruce and pine lumber are shipped to Ottawa from the mill on the Rouge river, 160 miles distant, and sorted for sale. The company is doing a large business with the British market, and has a branch at Glasgow in this connection. The German market has also been tapped, and the Canadian product is said to meet with much favor. Goodly shipments of pine and birch lumber and timber have been made, and recently a trial shipment of spruce boards was forwarded. The foreign dealers and manufacturers expressed satisfaction with the Canadian spruce, thus establishing a new market for it. Manager Grant, of the company, leaves today for Glasgow, where he will look after the lumber interests in the British market. He will be absent about a fortnight in Scotland. The mill on the Rouge river is cutting on spruce and pine.

Mr. J. R. Booth, the lumber king, has purchased the water lots near his large mill upon which the McKay Milling Co's large mill stood before the fire. Mr. Booth has not yet announced what use he will make of the valuable water power. He may, however, erect a large pulp mill or planing mill.

The logs intended for the Ottawa mills which will be floated down the Gatineau have been gathered at Maniwaki ready for movement down the river. There is no shortage of logs at the Ottawa mills and no further trouble from "tie ups" is expected.

Owing to a slight accident to a water wheel, the Bronson & Weston mill at the Chaudiere, operated by the Hull Lumber Company, was shut down for a few days this week.

The machinery has all arrived for the E. B. Eddy Company's new saw mills, and cutting operatons will be commenced within a month. The wood-working establishment is also nearly completed and the machinery will be installed without delay. It is expected that the Eddy concern will again be supplying matches to the trade before the end of next month. The first car load of machinery for the pulp mills has arrived, and the massive paper machinery is expected shortly. Building operations, despite the continued wet weather,are far advanced on all the Eddy buildings.

The death occured a few days ago of Henry Walters, an old resident of Hull, well and favorably known to the lumber trade. Deceased ran an axe factory for many years in Hull, and supplied the lumbermen of the Ottawa valley. Two sons, Harry and Morley, are now in active service in South Africa.

The chances for the formation of a lumber trust or syndicate including all the lumber interests of Ottawa and the Ottawa valley, are now said to be very slight. It is said a local broker was responsible for the effort to form such a trust. A similar trust has just been formed among the milk men.

All the saw mills along the O. A. & P. S. Ry. between Ottawa and Depot Harbor, including those of the St. Anthony Lumber Co. at Whitney, are working full time, and the shipments of lumber are heavy.

LONDON TIMBER IMPORTS.

Messrs. Churchill & Sim, wood brokers, give the following particulars of the London timber market :

From the St. Lawrence the supply has been:

	1900. Pieces.	1899. Pieces.
Pine deals.....	408,000	551,000
Spruce deals.... 1,159,000		1,153,000

From New Brunswick the supply has been :

	1900. Pieces.	1899. Pieces.
Pine deals.....		55,000
Spruce deals.....404,000		36,000
Birch planks..... 51,000		166,000

Pine deals have arrived more freely, but the dock stock remains the smallest on record for some years. Prices are very firm, and should go higher in sympathy with the cost of shipping further supplies, and the scarcity of good stock available for shipment. The spruce market continues steady with a good demand, and prices have quite recovered from the temporary easing off caused by shipments from the lower ports. The cost of fresh arrivals will be much enhanced by the high rates of freight.

Oak, elm, ash and white pine have arrived more freely during the month, and will be wanted, as the stock was very short.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., AUGUST 29, 1900 No. 32.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

also 1, 1¼, 1½, 2, 3, and 4 inch Hard Maple; 1 and 1½ inch Black Ash, and 1¼ and 2½ inch Red Birch.

THOS. MYLES' SONS,
Hamilton, Ontario.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber buyer is still waiting for the manufacturer to lower his figures before he enters into contract for any considerable quantity of stock. Influenced in his actions by the law of supply and demand, he does not feel that the situation at present warrants the purchase of but sufficient stock to supply his customers, while the manufacturer appears to have faith in the future of lumber prices and is offering little inducement to buyers in the way of lower prices. A quiet trade is the natural result of these conditions, and until the demand from consumers shall infuse more life into the trade, no improvement can be expected. The large pine manufacturers report a satisfactory movement of stock at good figures, but few new sales, and the same may be said of hardwoods. The supply is much more plentiful than it was at the corresponding period last year, and yards that were then entirely cleaned out are now well filled with stock. The increased cost of production, however, would seem to justify manufacturers in holding their stock at a reasonable figure, as at present there is but a fair margin of profit. High wages are being offered for men to work in the woods, and labor seems very scarce.

QUEBEC AND NEW BRUNSWICK.

Throughout the lumber trade a slightly better feeling seems to prevail. Shipping to Great Britain is now quite active, and freight rates are a little easier. It is reported that a raft of square and waney pine timber was sold last week at Quebec at 50 cents per cubic foot, an advance of about ten cents on the price obtained for similar timber last year. If the figures are correctly reported, they reflect a strong market for pine timber. Prices of elm, birch, and ash are unchanged. Apart from European shipments the spruce market is quiet. In the absence of a good demand prices are unsettled. No material improvement is looked for until about the middle of September, by which time it is expected the fall movement of stock shall have commenced. Clapboards and shingles have not recovered from their recent lethargy.

UNITED STATES.

The lumber situation in the United States has been strengthened by the statistics collected and just made public by the Mississippi Valley Lumbermen's Association. These show the condition of white pine stocks in Wisconsin, Minnesota and at points below on the Mississippi river. According to figures submitted by manufacturers, and which are beleived to be correct, the stock of lumber on hand on August 1st of this year was 1,625,808,373 feet, a shortage of 224,680,048 feet as compared with August 1st, 1899. It was also shown that the cut of this year will be 485,850,000 feet less than last year. These figures have inspired confidence in the future of the lumber business, and have had a tendency to strengthen prices. At the meeting above referred to, the question of advancing the price of white pine was considered, but it was decided to reaffirm the old list. Lumber buying is still backward, but the number of enquiries have created a strong hope of an active fall trade. The reduced prices of iron and steel have stimulated building operations in the Eastern States. The manufacturing demand, however, is not so strong as last year. Such orders as have been placed indicate a broken condition of retail stock, and as soon as trade shall pick up liberal buying will no doubt result. Hemlock lumber has weakened and is now said to be selling in Buffalo at $13. Spruce is quiet, but manufacturers are holding prices steady. At Boston, 9 inch and under is selling at $15, 10 and 12 inch at $16, and spruce boards, planed one side, at $14. Hardwoods have not improved within the past few days. Maple and ash are rather dull of sale, elm is in moderate request, and oak is called for to a considerable extent.

GREAT BRITAIN.

The receipts of Canadian lumber at British ports have been quite heavy of

late. But notwithstanding prices show a further upward tendency. F.o.b. transactions are reported at the following prices: 1st quality pine, 11 in. x 12 ft., £26; 2nd quality, same dimensions, £18 to £19; 3rd quality, £12; 4th quality, £8. Several sales of 3rd and 4th quality have been made at the above figures. At a recent sale held by Churchill & Sim, a parcel of 1st pine, 13 ft. x 11 in., from Montreal, sold at £30, and two lots of 12 ft. to 13 ft., 3x⅞, dry, of the Hawkesbury cut, brought £21 5s per standard. There is likewise a splendid demand for spruce. The latest prices have been £9 12s 6d for 2nd quality 3x9, and £9 for 3rd quality, 11 in. of 2nd quality bringing £10 15s c.i.f. London. The docks contain a large quantity of slating battens, and it is said that the market in this line is likely to be overdone unless the consumption increases.

Square and waney timber is steady but not particularly active. Waney pine has been sold at an advance of 6d per cubic foot on the price obtained for similar stock last year, but recent sales have shown a slight decline in the price of birch. This is said to be due to the action of certain merchants in placing too much stock on the market. Maple timber has been sold at auction at 16½d per cubic foot, elm timber at 19½d, and ash timber at 19d.

STOCKS AND PRICES.

The "Scottish King" is about to load a cargo of lumber at Montreal for the U.K.

R. & T. Ritchie, of Aylmer, Que., have contracted to saw 10,000 of Gillies Bros'. logs now lying in the Baillie boom.

F. E. Sayre is reported to have purchased the lumbering property of the late Hugh McLean at Salmon River, N. B.

The British bark "Brushels" has just sailed from Vancouver, B. C., for Cape Town, South Africa, with a cargo of lumber.

The "Manchester Shipper" sailed from Parrsborro, N. S., on August 21st for Manchester, with a cargo of 3,494,632 feet of lumber, shipped by George McKean.

A large quantity of lumber will be required for the proposed harbor improvements at Port Colborne, Ont. The contractors estimate that they will use 4,000,000 feet this year.

Thos. E. Stewart, of Upper Musquodoboit, N. S., owns 900 acres of timber limits on the headwaters on the Musquodoboit and Moose river, and wishes to let the contract for logging same.

During the month of July of this year there was received at Buffalo 15,552,000 ft. of lumber, against 34,574,000 feet in the corresponding month last year. In shingles there was a decrease of 6,981,000.

Peter Wallace, of Midland, Ont., has secured the contract from the Georgian Bay Lumber Co. to take out 10,000,000 feet of logs during the coming winter. It is estimated that the company will make a large cut on the Blind River.

The German ship "Marie" sailed last week from the Moodyville, B. C., mills, for London. She carried 512,000 feet of lumber below decks. The "Wilhelmina" is to load lumber at the Hastings mill, Vancouver for Delagoa Bay. The "Louiana" and the "Lindfield" are both loading at the same mill for foreign destinations.

The following is a comparison of the cargo shipments of lumber and lath from British Columbia during the first seven months of the years 1899 and 1900:

	Lumber		Laths	
	1900	1899	1900	1899
January	2,792,002	1,097,776	117,270	183,000
February	5,090,554	2,374,055	131,670	.....
March	5,048,064	3,112,573	543,430	.....
April	4,022,033	1,811,014	298,500	.....

A.F. & D. Mackay, of Liverpool, Eng., recently held an auction sale of birch timber from St. John. The sale was moderately well attended by local buyers, but bidding was dull, and prices ranged from 15½d to 26d, the whole averaging 17½d for 15½ in. deep foreign. Early last month a parcel of the same average depth was disposed of at an average price of 20½d per foot. This shows a decline of about 3d per foot, which is ascribed to the forced sales of timber.

Following is a comparative statement of timber measured and culled at Quebec up to 27th August, as reported by the Supervisor of Cullers:

	1898.	1899.	1900.
Waney White Pine	1,606,278	1,598,665	1,366,183
White Pine	1,028,761	543,889	505,666
Red Pine	216,538	159,541	62,796
Oak	844,206	487,604	429,302
Elm	471,077	446,468	586,031
Ash	34,532	56,514	81,227
Basswood			241
Buttternut	955	60	142
Tamarac		415	71
Birch and Maple	106,592	231,946	392,149

On Friday, August 10th, Alfred Dobell & Co., Liverpool, held an auction sale of Halifax spruce deals ex Ailsa Craig. The specification was only fair, the bulk being of short lengths. The 16 ft. and up were well competed for, the 3 by 11 realizing £9 17s 6d, the 3 by 10 £8 7s 6d, the 3 by 9 £8 6s 6d, and the 3 by 8 £7 15s. The shorter lengths, 9 ft. to 15 ft., sold at from £7 to £8 15s per std, the whole cargo realizing an average price of £7 10s per std. The scantlings brought £6 12s 6d and £6 15s, the deal ends £6 12s 6d, and about 25 stds. of boards £6 7s 6d per std.

BRITISH AUCTION SALE.

The following prices were obtained for Canadian lumber at a sale held by Churchill & Sim, London, England, on August 16th:

PINE—Ex. Devona, from Montreal—12-16 ft. 1x10 in. dry, £11; 12-16 ft. 1x10 in., £10 15s. Ex. Oceano—12-13 ft. 2x8-17 in., £17; 12-13 ft. 2x7 in-, £16; 12-13 ft. 2x4 in.., £16 10s; 5-11 ft. 2x4-14 in., £14. Ex. Arnage, from Montreal—16 ft. 2x11 in. second quality, £13; 13 ft. 2x11 in., £12 10s; 12-15 ft. 2x11, £13; 12-16 ft. 2x12-20 in., £12; 12-15 ft. 2x10 in:, £11; 15-16 ft. 2x9 in., £11; 12-24 ft. 2x9 in., £11 10s; 15-16 ft. 2x8 in., £9 15s; 12x14 ft. 2x8 in., £10; 12-16 ft. 2x7 in., £9 10s; 12-16 ft. 1½x16 in., £11; 12-13 ft. 1½x9 in., £10; 12-16 ft. 1½x8 in., £9 15s.

SPRUCE—Ex. Cheronea, from Hopewell Cape, N. B.—15-18 ft. 3x6 in., first, second and third quality, £7 15s; 12-15 ft. 3x6 in., £7 10s; 9-11 ft. 3x6 in., £7 15s. Ex. Greta Holme, from Quebec—9-16 ft. 3x6 in., first quality, £10 5s; 6-8 ft. 3x6 in., £9 15s. Ex. Hildawell, from Quebec—13 ft. 3x9 in., second quality. £10 10s; 6-8 ft. 3x9 in., £8 10s; 6-8 ft. 3x7 in., £8; 6-8 ft. 3x6 in., £7 15s; 6-8 ft. 3x9 in., third quality, £8 5s; 6-8 ft. 3x7 in., £8; 6-8 ft. 3x10 in., £9; 8 ft. 3x9 in., fifth quality, £7; 6-8 ft. 3x7 in.-5, £6.

Eight pieces of elm timber, 11 to 14 inches average and 36 feet in length, sold at £5 per load.

THE BARBADOS MARKET.

The following review of the lumber marke of Barbados is given by Messrs. S.P. Musson, Son & Co., in their circular of August 4th:

There is still a fair demand for both white pine and spruce lumber. We note one arrival with white pine during the fortnight, which has been placed as follows—$23.08 for first quality, and 18.08 for second quality. Last sale of spruce $20.29 for first and $16.29 for second quality boards, and $18.00 for planks.

Gaspe cedar shingles have arrived freely. We placed 187 M. large, ex Success, at $5.07 per M; other sales ex same vessel have been made at $4.56 for large, and $3.03 for small; cedar laying at $2.03 for a cargo of 485 M. ex New Dominion; spruce layings at $2.00.

FIRES.

Fire recently destroyed Livingston's saw mill and hoop and handle factory at Blythe, Ont.

Doolittle's saw mill on the fourth concession of Malshide, near Centreville, Ont., was burned last week.

The sash and door factory of Geo. Bradshaw on St. James street, Montreal, has been damaged by fire to the extent of $5,000.

The saw mill of Logan & Sutherland, at Musquodoboit Harbor, N. S., was destroyed by fire last week. The loss is about $20,000 and insurance small.

The saw mill of R. B. Miller on the Red Mountain railroad, six miles below Rossland, B. C., was burned recently, together with 500,000 feet of lumber. The loss is estimated at $22,000, and there is no insurance.

SHIPPING MATTERS.

The current rates of freight to Buffalo are $2.25 from Duluth, $1.62½ from Menominee, and $1.40 from Georgian Bay.

The German ship Wilhelmina, which is loading lumber at Vancouver, B.C., for South Africa, gets 92s 6d, which is said to be the highest freight rate yet paid on lumber from the coast to South Africa.

BUSINESS NOTES.

P. J. McGuire & Company, timber jobbers, of Whitney, Ont., are said to be asking for an extension of time for three years.

Messrs. Calder, Henderson & Livingston, wood brokers, Glasgow, Scotland, have moved from 109 St. Vincent street to 102 Hope street.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., SEPTEMBER 5, 1900 No 33

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions for one year, $1.00.

BOX 36, CANADA LUMBERMAN

FOR SALE

ONE 8 INCH 4 SIDED MOULDER, ONE tenon machine No. 161, one mortise machine. These machines were made by the best firms in Canada and are new and up-to-date, only used a short time; also one 38 h. p. return tubular boiler, with foot front and fittings, only used a short time; can furnish maker's guarantee. Will sell cheap for cash or exchange for a 35 h.p. portable boiler and 30 h.p. engine if as good as new. For further particulars apply to JOHN R. MCKAY, Lansdowne, Pictou Co., N. S.

LONGFORD BRIDGE STONE, Ashlar, large and small Rubble and all kinds of Building and Foundation Stone, Window Sills, Steps, Etc.

A. McPHERSON & CO.
Longford Mills P.O., Ont.

GOOD DIRECT ACTING STEAM SAW MILL and 200 acres for sale, with several years' supply of timber at hand. For particulars address T. A. PICKARD, Owen Sound.

FOR SALE

THE SAW AND PLANING MILLS KNOWN as "Malloch's Mills," conveniently situated on the Ottawa between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C.P.R. For particulars, address GEO. MALLOCH, Arnprior.

FOR SALE

VALUABLE TIMBER LIMITS COVERED with Spruce, Pine, Cedar and Hardwoods, situated at New Mills, Restigouche County, N. B., known as Benjamin River. 129 square miles, together with Driving Dams, Store and Stock, four Houses, Tug, and a lot of other property For particulars address C. & I. PRESCOTT, Albert, Albert County, N.B.

FOR SALE

STEAM SAW MILL 200 FEET LONG, ENGINE 12 x 16 feet, boiler 4 feet by 12 feet long. Good heavy Planing Machine (Cowan & Co., Galt, make), nearly new; two new 50 inch Saws, one Hoe make, one Simonds make. Mill will cut from 10,000 to 12,000 feet per day. Also two good Dwelling Houses with outhouses and gardens; 13 acres of choice land and an excellent Water Power, 32 feet head, giving plenty of water in dry season; 360 feet frontage on the river; coal right to the land; good chance to run a grist mill. Good reasons for selling. For further particulars and price address the undersigned or the publishers of the CANADA LUMBERMAN.

URQUHART BROS.,
Courtenay, B. C.

FOR SALE

VALUABLE STEAM SAW MILL, CAPACITY thirty thousand feet per day, well equipped with Boilers, Engines and first-class machinery for manufacturing Lumber and Shingles, situate at Pine Tree Harbor, Bruce County. With the mill property there are twenty Houses, Blacksmith Shop, Store, with good stock of General Merchandise, doing a profitable business. This is one of the best mill sites in Western Ontario, having a first-class dock, with trams, where lumber can be loaded very cheap, and the harbor is one of the best on Lake Huron. In connection with the mill offered for sale, large blocks of timbered lands, covered with choice Hardwood, Hemlock and Cedar, sufficient to stock the mill for 15 years. One of the best opportunities for profitable investment offering to-day. Reason for selling, owners largely engaged in other lines. For particulars apply to SOUTHAMPTON LUMBER CO., LTD., Southampton, Ont.

BRITISH TIMBER SALE.

Following are the prices obtained for Canadian deals, etc., at a sale held by Foy, Morgan & Company, London, England, on August 27th:

SPRUCE — Ex. Hildawell, from Quebec — 12 ft. 3x11 in., unassorted, £7 15s and £7 10s; 12 ft. 3x9, £9 and £9 15s; 11 ft. 3x7, £8; 9-10 ft. 3x9, £7 10s; 5-8 ft. 3x9 £7 6s; 9-12 ft. 3x8, £7 5s; 5-8 ft. 3x8, £7; 7-12 ft. 3x12-18 £7 10s. Ex. Isel Holme, from Quebec—12ft. 3x9, second quality, £10 10s. Ex. Mab, from Matane, 4-8 ft. 3x11, unassorted, £10; 4-8 ft. 3x9, £9 10s; 4-8 ft. 3x8, £8 5s; 9 ft. 3x7, £9 5s; 6-8 ft. 3x7, £9.

Spruce slating battens, 6-17 ft. ¾x2 in. unassorted, sold at 1s 5d to 1s 6d per 144 ft. run.

The Ontario government have invited tenders up to October 15th for a license to cut the pine timber situated on lots 1, 2, 3, 4 and 5, in the first concession of the township of Dana, district of Nipissing. Much of this timber has been damaged by fire.

CURRENT TRADE CONDITIONS.

ONTARIO.

Trade in pine lumber, although not altogether satisfactory, is devoid of that life which usually characterizes business during the month of September. August was extremely dull in respect to local trade. Whether the current month will bring about much improvement is a matter of conjecture. Mills in the Georgian Bay district are shipping quite largely to the Eastern States, and in the Ottawa valley export business is more active. While prices generally are firm, there has been, we believe, some slight cutting on certain grades of which a manufacturer has had a large supply. The feeling, however, is almost universal towards maintaining prices at their present basis.

The outlook for hardwood manufacturers does not seem to be altogether reassuring. The demand is backward and manufacturers are carrying a considerable quantity of stock. The bulk of this stock is the present season's production, and consequently unfit for shipping until well into the fall. But unless the demand shall improve materially manufacturers will be obliged to go into the winter with heavy stocks. The logs from which this stock was cut were purchased at what may be called an excessive price, and consequently there is a strong disposition on the part of some manufacturers to realize quickly. If they cannot do so at current quotations they are likely to reduce their asking prices. Thus it will be seen that unless there should arise an enlarged consumption and improved demand for lumber, the market may be expected to weaken.

MANITOBA AND BRITISH COLUMBIA.

The lumber business in Manitoba and the Territories has been adversely affected by the weather of the past week. The outlook for fall business is only fair. In British Columbia trade is active and fair prices are being secured. Building in Vancouver is quiet, and it appears that the demand for residences has been satisfied. A large export trade in lumber is doing, the manufacturers reporting orders from all parts of the world. It is estimated that the Moodyville mills will export 12,000,000 feet between now and the end of the year.

UNITED STATES.

The lumber trade of the United States are still waiting patiently for the fall demand to present itself. Apart from a slight increase in the number of enquiries, rarely followed by orders, the situation has not changed. That there are reasons to expect a considerable improvement in business cannot be disputed, although a trade equal in proportion to that of last fall is considered out of the question. With prices getting to a bottom, retail stocks low, railroads planning improvements, and a prospect of a car shortage, consumers will surely show a disposition to stock up to meet their fall and winter requirements. There is, of course, on the other hand, the usual business uncertainty which always characterizes the year of a presidential election, but up to the present the commercial interests of the country do not seem to have suffered to any extent from this cause. There has recently been a better movement of lumber from the Lake Superior district, the orders being chiefly for bill stuff and dimension timber. In Chicago there is a scarcity of inch lumber, and several dealers have been resawing two inch to supply their customers.

Spruce lumber is showing a little more strength, and an advance in prices is looked for in the near future. Hardwoods have held firmly at the lower prices recently established. At Boston ash sells at $40 to $42 for one inch, $43 to $45 for one to two inch, and $50 to $60 for three and four inch. A considerable quantity of elm has been purchased in Michigan by eastern dealers.

GREAT BRITAIN.

No advance has taken place in the United Kingdom in the price of Canadian lumber, but with equal accuracy it may be said that there has been no decline. The market is particularly firm, the higher qualities of stock showing more strength than the lower grades. White pine deals of first quality are selling at from £28 to £30 per standard. Contractors and general consumers have now given up hope of a weaker market, and as a result an increased volume of building is under way. Trade at Liverpool is rather quiet, but at London more activity is reported. Some dimensions of spruce, such as 3x11 in. in long lengths, are wanted and meet with ready sale. In the timber trade waney board pine is most enquired for. Prices are well maintained, buyers seemingly having made up their minds to give the prices asked by holders of stock. No business of any account for next season has been done. There is much uncertainty as to future prices, owing chiefly to the unsettled condition of the freight market.

STOCKS AND PRICES.

Sales of lumber at Duluth for the last week in August total 15,000,000 feet.

A large fleet of vessels, carrying about 6,000,000 feet of lumber, arrived at Tonawanda last week.

New Brunswick cedar shingles are selling in Boston at $2.85 to $2.95. Washington cedars are held at $3.

The steamer Winnifred sailed from St. John, N.B., last week for Newport, with a cargo of 1,051 standards of deals.

The schooner Defiance is loading lumber at Barnet, B.C., for Sydney, Australia. This is the first vessel to load at Barnet since the new mills there have been completed.

The ship Ruby cleared from West Bay, N.S., for Liverpool on August 29th with 1,028,488 feet of deals and 124,985 feet of deal ends, shipped by M. L. Tucker for W. M. McKay.

A report from Ottawa states that there is a great scarcity of men for the lumber business. Ritchie & Co., of Aylmer, are unable to get sufficient men to run their mills day and night as intended.

A combination of lumber interests has been formed by the representatives of the various saw mills in the Yukon district. The prices of lumber as agreed upon are as follows : Rough lumber, $85 ; dressed, two sides, $120 ; four sides, beaded, etc., for ceiling and such purposes, $125. It is said that recently rough lumber was selling as low as $65, hence the combine.

A despatch from Kippewa regarding lumbering operations says : The coming winter's operations are already commenced in this district by the different lumber firms. A. A. Buell & Co. have about 125 men in on their Ostobomas limit ; the Hawkesbury Lumber Co., about 50 on White Pine river ; the Hull Lumber Company, about 100 on Sunny Side limit ; McLaughlin Bros., about 60 on Wolfe lake, with two more gangs to go in yet.

A Buffalo report says : There are a good many red cedar shingles reported coming east by the package-freight lake lines, but it has come to be so general to buy direct that most of the supplies that land here go directly through to eastern points. The use of 18-inch cuts has been fairly given up, the consumer preferring a fairly good 16-inch for most purposes. White pine still leads slightly in price and for the best 16-inch the price is now about $3.33.

Following is a comparative statement of timber measured and culled at Quebec up to 4th September, as reported by the Supervisor of Cullers :

	1898.	1899.	1900.
Waney White Pine....	1,651,913	1,611,562	1,366,183

Birch and Maple.....	106,592	231,946	392,149

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Your correspondent has obtained some information regarding the cost of producing lumber which may be of interest to readers of THE LUMBERMAN.

A prominent wholesale grocer of Ottawa states that the all-round advance in provisions over last year's prices is 12½%. Japan teas have advanced 4 cents a pound or about 25%. Sugar has advanced ½ cent a pound or 12½%. Molasses have advanced like sugar about 12½%. Flour, pork and peas, however, are at the same figure as last year, and may be secured even a little lower. Codfish also remains at last year's figure, but herring may be considerably higher. Baking powder and all canned goods, including vegetables, remain at the old figure according to Ottawa quotations. Raisins, currants and figs show a sharp advance of 12½% and are likely to go higher, but prunes remain at the same prices quoted for last year's supplies. Coal oil has advanced about 5%, and soap has gone up fully 20%. Woodenware, pails, tubs, etc., also show a slight advance. Owing to tha advanee in the price of cotton, overalls, smocks, topshots, and all lines of duck and cotton clothing will be about 20% higher than last year. Coarse woolen goods, socks, shirts, etc., have declined in price, and may go about 5% below last year's prices. This includes heavy woolen clothing. Though thread has advanced 30%, the supply of coarse wool looks to be a large one, hence the decline. There is no change from last year's prices in different lines of leather. Moccasins, shoe packs, and heavy boots have not advanced in price, while harness, covers, etc., are also quoted on the same terms as last year. The principal advance in hardware and iron goods has been in axes, which are quoted at from 20% to 25% above the prices ruling last season. Cant hooks have advanced 10% and files the same. Saws, however, have shown no such movement, and are selling at the old figures. During the recent easy movement in iron, horse shoes have declined 10% in price, and nails are also quoted at a lower figure than last season. Stoves and stove fixtures and other iron goods do not seem to show any advance.

The local labor market is furnishing difficulties for the lumber kings. Work is plentiful on account of the recent fire and general activity, and even last year's high figures are being eclipsed. An all-round advance of from 20% to 30% is in sight.

The demand is greater than it was last year, and good men are commanding high figures. Foremen are being offered as high as $50 to $55 a month, log cutters $26 to $28, teamsters $24 to $26, road makers and shahty hands $20 to $23, loaders $1 to $1.25 a day, and cooks $40 to $45 a month.

It is stated that some men were sent up last season who were unfit for the work, and hence a more careful selection is being made this year, which in itself has a tendency to advance wages.

POSSIBILITY OF AN OVERSTOCK.

The Timber Trades Journal, of London, Eng., publishes in its last issue the following as a warning to American shippers of lumber :

The demand for American hardwood lumber has recently shown signs of slackening, and stocks are accumulating at the receiving ports. Prices, too, have given way on one or two descriptions. Prime qualities in logs and lumber maintain their position and always will do so, and the accumulation of stock consists mainly of lower qualities and neglected dimensions. Black walnut logs and lumber of good quality and useful sizes are low in stock ; in fact, there is not a prime log of walnut in first hands in London at the present moment. It has been stated that there are signs of a revival of the vogue of black walnut in the furniture trade of the States, which, if true, would practically stop the export trade. Those best acquainted with the remaining forest supply think the revival of home consumption impossible at the present day. The trees now growing are too scattered and too few to keep up the supply for a large regular consumption such as would be required for the American furniture trade. There has been a decline in the prices of hardwoods in the States during the past few months, as a result of the falling off in the demand. The inflated prices of the last year or two have had the same effect there as the present high prices are exercising here, that is, they cause a curtailment of the consumption. The drop in demand and prices may be only temporary, and a reaction from the feverish demand of last year ; it is, however, having its effect on the export trade, and it would seem that a period of indiscriminate consignments to this market has again set in, which in part accounts for the the accumulation of stocks alluded to. We hear that considerable stocks are awaiting shipment at all the export points on the Atlantic seaboard, as well as at the Southern ports. At Newport News quite recently there were over a hundred carloads of lumber which had been waiting over thirty days for shiproom. Even now shipments are being sent over more rapidly than the market can absorb them. In the Millwall Dock Co.'s last half-yearly report it was stated that the arrivals of American lumber had increased lately to such an extent that it had been necessary to hire barges in which to store it, for lack of available shore accommodation. We would warn American shippers against the consequence of heavy consignments, and recommend them to ship on contract only, or the bottom will again be knocked out of the market, and disastrous consequences will ensue.

A fire in the lumber district of Montreal on August 31st damaged the sash and door factory of Broulette and Aumond to the extent of $18,000, and the lumber yard of Alex. McLaren to the extent of $5,000. H. Lapointe & Son, lumber merchants, suffered a loss of $500, and I. Brousseau $100.

THE AUSTRALIAN MARKET.

The monthly timber report of Fraser & Co., Melbourne, reviews the Australian market as follows :

There is practically no change to report in the condition of the market since the issue of our last report on the second inst. Supplies to hand have been of no important character, though within the next four weeks there will likely be some fairly considerable addition to stocks of those classes of timber which are in most consumption in this market, and then we shall be in a better position to more accurately gauge the near future course at this end, both in respect to the demand and values generally. An unusual continuation of rainy weather in this our winter season has affected trade in the country districts, the bulk of business having been obtained from the town and suburban quarters, where contracts for building requirements have not been materially interfered with. Although the holdings in this city are by no means large, and while some importers have lately been endeavoring to sell various timber from cargoes shortly due, there has been but little disposition manifested, however, to buy just at present, although it is recognized that c.i.f. values are not likely to be lower in the near distant date. We do not look for improvement at this side upon existing values in scarcely any description of timber, but with judicious care being shown in the handling of shipments now on the way, there should be no reason why prices as given below should be altered to any important extent, with, however, the exception of Oregon lumber, as we fear from recent local movements that the present price of £8 per 1,000 feet super. for spot stocks will not be sustained when shipments shortly "to arrive" are being offered upon the market.

OREGON PINE.—Imports : 897,064 feet super. Arrival : Fresno, from Port Blakeley. About 300,000 feet of the above shipment was placed at £8 per 1,000 feet super. previous to and upon arrival at wharf. Lower quotations are being named for supplies to arrive by steamers and sailers, but so far no business has resulted. Stocks on hand are not of importance, but owing to unexpected early shipments by steamers having been arranged, buyers are not at present anxious to operate. A small cargo for here per the Wrestler, put into Sydney dismantled, and was sold at that port.

The schooner Transit has been chartered to load lumber at Chemainus, B. C., for Sydney, Australia, at 52s 6d.

Spiece's saw mill in Bayham, Ont., was destroyed by fire last week, together with 50,000 shingles aad 20,000 feet of lumber.

SHIPPING MATTERS.

Trans-atlantic timber charters are still limited by the stiff rates, still quotable at 115s to 117s 6d gulf to Liverpool, and to London 120s. Deal tonnage from the provinces is in request at 63s St. John to the west coast of England. Time boats are still in good demand with light offerings at 10s to 10s 6d.

The Timber Trades Journal reports the following charters: 1,200 stds., St. John to West Coast Britain, end Aug., early Sept., 60s ; 1,200 stds., Dalhousie to Clyde, 62s 6d to 63s 9d ; 1,200 stds., St. John to London, 62s 6d ; 800 stds., Quebec and a loading place to Cork, 67s 6d, deals 27s 6d per load timber ; 1,200 stds., Miramichi to Glasgow, 67s 6d prompt ; 800 stds., Miramichi to Glasgow, 67s 6d prompt ; 605 reg., Miramichi to London, 62s 6d.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., SEPTEMBER 12, 1900 No 34.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

URQUHART BROS.,
Courtenay, B. C.

FOR SALE

VALUABLE STEAM SAW MILL, CAPACITY thirty thousand feet per day, well equipped with Boilers, Engines and first-class machinery for manufacturing Lumber and Shingles, situate at Pine Tree Harbor, Bruce County. With the mill property there are twenty Houses, Blacksmith Shop, Store, with good stock of General Merchandise, doing a profitable business. This is one of the best mill sites in Western Ontario, having a first-class dock, with trams, where lumber can be loaded very cheap, and the harbor is one of the best on Lake Huron. In connection with the mill offered for sale, large blocks of timbered lands, covered with choice Hardwood, Hemlock and Cedar, sufficient to stock the mill for 15 years. One of the best opportunities for profitable investment offering to-day. Reason for selling, owners largely engaged in other lines. For particulars apply to SOUTHAMPTON LUMBER CO., LTD., Southampton, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

A problem which is now confronting lumbermen, and particularly white pine manufacturers, is the question of obtaining men for logging operations. It is said to be very difficult to secure good men for work in the woods, and as a result the standard of wages has advanced. Higher wages are being offered this fall than for many years past. Partly for this reason the production of logs during the coming winter will likely be smaller than last year, but as a considerable quantity of logs was this season hung up in the streams in the Georgian bay district, there will likely be a full stock for next year's operations.

Pine lumber is moving in moderate volume, although trade is much less active than in the fall of last year. Considerable shipments are being made from the Georgian bay district to wholesale distributing yards in the Eastern States. The freight rate to Buffalo, which has been $1.40 for some time, is now ten cents higher. In the Ottawa valley the trade shows signs of more activity. There has been a further decline in the price of pine lath, No. 1 now being quoted at $2 to $2.50, and No. 2 at $1 to $1.25.

There is much irregularity in hardwood prices, the larger mills holding firmly to recent lists, and the smaller mills being willing to accept considerably lower prices in order to effect sales. The demand has not shown any visible improvement.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber is feeling the effects of the excessive freight rates which have prevailed during the season. Manufacturers have been unable to effect sales, not on account of any lack of demand for export stock, but for the reason that shippers have not been able to make sales excepting for delivered stock. This condition has caused a slight weakening of the market, and will likely result in considerable stock intended for export being carried over until next spring. The Eastern States trade has been a little more active since the 1st of September, but is not taking any great quantity of stock. Cedar shingles are dull at about $2.95 for No. 1 on Boston rate of freight. Local trade is being benefitted by the harbor improvement work at Montreal.

UNITED STATES.

The lumber trade of the United States is improving, but slowly. The volume of business is much less than at the corresponding period one year ago. In the east a stronger disposition is shown to buy for stocking up purposes, but the opinion seems to be gaining ground that there will be no important advance in prices, and consequently dealers are in no hurry to place orders. Prices on some grades seem to have weakened. At Saginaw, for instance, uppers and selects are reported to be selling about one dollar lower, A and B strips $2 lower, and shaky clear stock from $2 to $3 lower than two weeks ago. It is probable, however, that in this particular market the stock of these grades is comparatively large. The situation at Buffalo has not changed. Lumber is believed to be selling at slightly lower figures than those quoted in our last list, but a determined effort is being made to prevent a general break. The high prices asked at producing points offer little inducement for eastern wholesalers to sacrifice their stock. In Chicago pine piece stuff is firmer, selling at $13 in cargo lots. Pine shingles are in short supply, selling at $2.30 to $2.40. No. 1 white pine lath brings from $2.50 to $3, and No. 2 mixed $1.75, the demand being chiefly for lower grades.

A larger demand for hardwood is reported. Prices are firmer, and a good fall demand would likely bring about a slight advance. Hemlock prices are weak. The base price at Buffalo is about $13.

GREAT BRITAIN.

Somewhat unsettled conditions characterize the British lumber market. Importers are not disposed to entertain free-on-board quotations owing to the difficulty of chartering vessels, but are quite willing to pay current prices for stock delivered at a British port. It is yet too early to speak definitely of next season's trade, but an early termination of the South African war would be certain to greatly improve the outlook. In the face of rather unfavorable conditions, the market is holding steady. For spruce deals it is predicted that an advance of at least ten shillings per standard will be made before the end of the year, owing to the high rates of freight. A few sales of 1st quality pine have been made at £30 per standard in docks. At recent auction sales pine and spruce have sold well considering the quality of the stock offered. Some first pine, 13 feet x 3 x 9 inches, sold at London, brought £25 15s per standard, and 3 x 9 in. third quality spruce, from Quebec, £10. Spruce battens have sold at £8 15s for 3 x ⅞ in. second quality, and £8 for third quality, c. i. f. London. There is a good demand for waney pine timber and the stock is light. Birch timber is dull and about two cents per cubic foot lower than one month ago.

STOCKS AND PRICES.

The bark "Culdoon," from St. John, N.B., with 330,000 feet of pine lumber, is reported ashore about 35 miles south of Miami.

The barks "Angelica" and "Florida" sailed from St. John, N. B., last week, with cargoes of deals, for Cardiff and Newport respectively.

The steamship "Vera" is loading a cargo of lumber at Hochelaga, Montreal, for the United Kingdom, on account of Dobell, Beckett & Company.

Poupore & Malone, contractors for harbor improvements at Montreal, have given a contract to the Empire Lumber Company, of Buffalo, for 1,250,000 feet of

oak timber. The stock, it is said, will be secured in Arkansas.

M. Boyd & Company, of Bobcaygeon, Ont., are about to commence logging operations in Glamorgan township. They expect to get out 6,000,000 feet of logs during the coming winter.

Donald Fraser & Sons are reported to have 8,000,000 feet of lumber on wharves at Riviere de Loup and 2,000,000 feet in mill yards at Cabano, Que., being unable to ship the stock owing to scarcity of vessels.

Following is the result of a sale of wood goods held by W. & A. L. Crowe, at Dublin, Ireland, on August 23rd: 2nd Quebec spruce, 11 ft. 9x3, £15 15s; 13 ft. 9x3, £16 10s; 12 ft. 11x3, £16 15s. 3rd Quebec spruce, 12 ft. 9x3, £14 15s. Bay Verte spruce, 5x3, 6x3, 7x3 and 8x3, £12 to £13 5s; 9x3, £14 15s to £14. St. John spruce, 16 ft. 7x3, £15; 10 ft. 9x3 to 12 ft. 9x3, £14 15s; 14 ft. to 17 ft. 9x3, £15 2s 6d; 18 ft. 9x3, £15 5s; 20 ft. 9x3, £16 6s 6d; 21 ft. 9x3, £16 7s 6d; 24 ft. and 25 ft. 9x3, £19 17s 6d; 11x3 up to 17 ft., £15 to £15 10s.

THE OTTAWA VALLEY.

(Correspondence of the Canada Lumberman.)

The export lumber business, which has been rather slack for the past six weeks, promises to improve shortly, now that the fall shipments are near at hand. Prices will probably advance, as the demand for various lines will increase. At this season American dealers commence to stock up their yards for the winter's trade, and hence a greater call is made on the Ottawa mills and shippers. Trade with Great Britain continues good, though shippers still complain of a dearth of ocean vessels, which has the effect of lessening and retarding shipments. Retailers report a steady, active local trade, the extensive building operations in Hull and Ottawa being accountable for this. All the planing mills and sash and door factories are rushed with orders. At W. C. Edwards & Co's. mills a night gang is kept busy.

The principal subject of discussion in the local lumber circles centres on the advance in wages paid for the various classes of labor on the limits. N. Page, of Hull, who has sent several large gangs from that city, is offering $30 a month and board for teamsters, $27 and upwards for choppers, and from $40 to 50 for cooks. General hands are being offered $27 a month and upwards. So far 300 men have been sent to Warren, Mattawa, and Temiscamingue for Mr. J. R. Booth.

Chitty & Co. are engaging men for the South River Lumber Co. at South river, the Eddy & Jordan Co. at Blind river, the Pembroke Lumber Co. at Petewawa, and the firm of A. & P. White at Dieux river. So far about 500 men have been engaged. The scarcity of suitable labor is greater this season than ever before, owing to the fact that high wages rule in the local labor market, where good workers are none too plentiful. As the different mills will run late this fall, it is not expected that relief can be afforded the lumber labour market for some months to come. A gentleman just returned from the Temiscamingue district states that first class choppers, able to manufacture square timber, are receiving $40 to $45 a month, and several of the mines in the neighborhood have had to shut down, as the men are leaving to work for Mr. J. R. Booth, getting out square timber. According to the Ottawa gentleman, lumbering operations promise to be very brisk in the Temiscamingue country during the coming season.

The present has been a particularly good season at all the mills on the Ottawa river. Mr. Georgo H. Perley, who operates a large mill at Calumet, on the north shore line of the C. P. Ry., states that he expects a cut of 20,000,000 feet this season. The mill is running night and day, with large gangs. A great part of the output is being shipped to the British market.

Mr. W. C. Edward's mills at Rockland are a scene of increased activity, and the cut there also promises to exceed last year's. McLaren & McLaurin's mill at East Templeton, the McLaren and the Kelly mills at Buckingham, and the Owen mill at Montebello, will rank well up in the cut along the Ottawa river.

It is now known definitely that Bailey's saw mill at Aylmer, which was recently destroyed by fire, will not be rebuilt. Mr. Bailey has purchased several mica mines, which will divide attention with his lumber and other interests. Mr. Bailey still believes that the fire which destroyed his mill was of incendiary origin. Last fall friction arose with certain labor leaders of Ottawa over the employment of a machinist by Mr. Bailey. A strike resulted, which, however, was arranged satisfactory. Some hint that the old labor trouble had more than a little to do with the destruction of the mill.

It was stated to-day that the sum of $50,000 had been offered by American parties for Ayer's Pulp and Woolen Mills at Lachute, on the north shore line of the C.P.R. Railway. These mills have lately been refitted with new machinery, and are now considered amongst the best in that section.

The extensive buildings of the E. B. Eddy Co., at Hull, have been almost completed, and several are ready for occupation. The machinery for the large match factory has arrived, and is being installed this week. The machinery, which is of the most approved type, was manufactured in Barberton, Ohio. Part of the paper machinery has also arrived, together with the plant for the saw mill. It is expected that the buildings will all be completed in two months. In a month's time the match factory, saw mill and wood-working establishment will be fitted up and ready for active operations. The buildings differ considerably in style from those destroyed in the fire, and all are being made as fire-proof as possible. The large addition to the sulphite mills has also been completed, and is now being fitted with the latest machinery.

Rev. Father Laniel, a missionary priest who works about Barrier's Post, 200 miles north of the Gatineau district, states that the lumbermen have penetrated the northern wilds, and will carry on extensive operations for the first time during the coming season. The growth of pine, the missionary states, is very good, though rather stunted on account of the severity of the climate. Much of the timber, when cut down, although promising a good cut, is found to be defective, being decayed.

Mr. W. C. Edwards, M.P., the well known lumber king, will again contest Russell County in the Liberal interests, with a good prospect of re-election. Mr. George H. Perley, another well known lumberman, may run in the Conservative interests in Argenteuil County.

Mr. Wm. Bowden, bookeeper of the Hull Lumber Company, at Ottawa a gentleman well and favorably known in lumber circles, was elected Provincial Prior of the Knights Templars, for the districts of Ottawa and Kingston at the convention just held in the latter city. Before election Mr. Bowden held the office of Grand Constable.

Mr. W. H. McAuliffe, lumber merchant, of Ottawa, has established yards and office at the corner of Duke and Britannia sts., near the Chaudiere. Mr. McAuliffe's former place of business was on Catherine street, near Bank street.

Ottawa, Sepsember 10th, 1900.

THE GLASGOW MARKET.

Allison, Cousland & Co.'s monthly timber market report of September 1st reviews the Glasgow market as follows:

Business during the past month has been in a satisfactory condition. Stocks in first hands are light. Imports have been moderate, and consisted largely of spruce. Most parcels were disposed of ex quay at good figures. Prices, all round, are very firm, and likely to continue, the only complaint being that some merchants do not take full advantage of their present position, and, having purchased cheaper earlier in the season, are content to sell to consumers at prices they may yet find it difficult to replenish themselves at. From all accounts the shipbuilding trade is now awakening from the last few months depression, and many new orders are reported. During the month 33,620 tons of shipping were launched, as compared with 37,816 tons last year, and the new work is estimated at 70,000 tons, as against 43,000 tons at this time last year.

WANEY WHITE PINE.—Owing, no doubt, to the absence of import, there has been, during the past month, much increased demand, and some fair lines have been placed. Stocks must now be considerably reduced. Pine wood is quoted at 2s 9d to 3s; 2nd class, 18d to 2s 2d per c. ft.

RED PINE.—Small sales of F.A.Q. wood have been made at 17d to 18d per c. ft., and the stock on hand is ample for present requirements.

OAK.—There has been no business of any importance.

ELM.—The stock must now be nearly exhausted. New arrivals should meet with a ready and satisfactory sale.

BIRCH.—Stocks are heavy, and the market is decidedly weaker. 15 to 16 inch wood is quoted at 17d to 20d per c. ft.

ASH.—Several parcels have arrived per liners, and have been disposed of ex quay at good prices.

PINE.—Firsts—There has been little import, most parcels have sold ex quay. Broad are quoted at £28 17s 6d to £30 18s 9d. Undersized, £20 12s 6d to £22 13s 9d per St. Pet. Std. Seconds—There is practically no stock. Thirds—There is a moderate demand, and what has been sold has realized good figures. Quotations—Regulars, 11 inch and up, £13 15s to £16 10s. Undersized—10 13s 1d to £11 St. Pet. Std. Fourths—The demand is good, parcels arriving for the most part being sold ex quay. Regulars are quoted at £10 6s 3d to £11. Undersized, £8 11s 10d to £8 19s 9d per St. Pet. Std.

SPRUCE.—The stock is very small, and anything arriving realizes good prices. Quotations—£7 11s 2d to £9 5s 7d per St. Pet. Std.

RED PINE continues to sell slowly. Holders are firm in their ideas, however, and prices are unchanged.

NEW BRUNSWICK BIRCH.—There has been fewer sales and prices are rather easier. 15 to 16 inch wood is quoted at 17d to 18d per c. ft. Planks are in good request at 1s to 13d per cubic foot.

N. B. DEALS, BATTENS AND BOARDS.—There is a good demand, and prices are firm at £8 11s 3d to £10 6s 3d per St. Pet. Std.

N. B. SPRUCE.—The import has been considerable, but with an active demand good business has been done and prices well maintained at £7 11s 3d to £10 6s 3d per St. Pet. Std.

Hepw rth Station, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

In another column will be found a report of a meeting of the Lumbermen's Association of Ontario held in Toronto last week. This meeting was called for the purpose of considering the market situation. The figures presented by the secretary showed that, from a statistical standpoint, the pine market may be said to be strong. On the other hand, it must be admitted that the demand is far from satisfactory, and that the quantity of stock purchased for fall and winter delivery is small. After a careful study of the situation, the conclusion was reached at this meeting to adhere to present prices. It seems to be the opinion of manufacturers that the demand will improve at an early date, as the stocks held by retailers and consumers are light. At the present time there is a sort of deadlock between manufacturer and consumer. The former seems confident that present prices will be maintained, while the consumer apparently believes that lower prices will rule, or at least is willing to await developments. In the face of these conditions, the dealer is practically doing nothing. The probability of any material break in prices is, in our opinion, very remote, when the cost of producing lumber is considered. The position of hardwoods is not quite as favorable as that of pine, but as the furniture and other factories using hardwood lumber as raw material are in a prosperous condition, an improved demand in the near future is anticipated. In Toronto, 1x10 and 12 inch mill cull stocks are selling, wholesale, at $14-50, mill cull sidings at $14.00, and 1, 1¼ and 1½ inch box at $15.50. Shingles are slightly weaker, No. 1 white pine selling at $2.50 to $2.60, and No. 2 at $1.60 to $1.70. No. 1 lath, 1½ inch, is worth from $2.60 to $2.75, No. 2 $2.25, and inch Norway $2.50.

QUEBEC AND NEW BRUNSWICK.

The situation in respect to spruce lumber presents few new features from last week. On the whole, the outlook is a little more favorable, there being an increase in the number of enquiries from the Eastern States. Freight rates, however, continue to cause the shipper much uneasiness, and the supply of tonnage has become no greater. New Brunswick cedar shingles are selling moderately at $2.75 for extras, and $2.35 to $2.50 for clears on Boston rate of freight. Lath are steady.

MANITOBA AND BRITISH COLUMBIA.

A more hopeful view of the outlook for fall trade is now taken by lumber dealers, based on the fact that in Manitoba and the Territories the crop prospects are better than had been anticipated, and that the damage by rain has not been serious. Building operations are proceeding favorably. In British Columbia the trade is in a prosperous condition, and the quantity of lumber exported this season promises to exceed that of any previous year. Fourteen vessels sailed for foreign destinations from British Columbia mills during the month of August, six being from Chemainus, five from Moodyville, and three from Hastings, carrying over 12,000,000 feet of lumber. Several vessels are chartered to load during September and October, notwithstanding that freight rates are high.

UNITED STATES.

The strike of miners in the Pennsylvania coal regions has not tended to improve the position of the lumber market, as it is feared that it may interfere with industrial development. For the present consumers of lumber are going slow and purchasing only for the requirements of the near future. The downward trend of prices, however, seems to have been checked, and manufacturers and wholesale dealers have decided to patiently wait for the fall demand, which they believe will soon present itself. The stocks at manufacturing points are not large, and a fair demand would soon make inroads upon the available supply. Information from Albany is to the effect that box and the cheaper grades of pine weakened slightly early in September, but that the better grades are firm. A slight weakness in lath is also reported. Spruce lumber, particularly of the coarser grades for building purposes, is strengthening. In New York city, 2-inch stock is held at a range of $14 to $16, and the 6 to 8-inch cargoes at $13 to $14.50, as compared with $12 to $14 one month ago. Spruce frames, 10 and 12 inch, are held at $16 to $17.

Hardwoods generally are reported to be dull. The supply has been steadily increasing for some time, and in the absence of an active demand, the tendency of the market has been to weaken. Prices are governed entirely by the quantity of the different kinds and grades of stock which the dealer has in his yard.

GREAT BRITAIN.

The import of wood goods into the United Kingdom last year was unusually heavy, being for the first seven months 4,176,846 loads. For the same period this year the import has been 4,256,125 loads, or 79,279 loads more than last year. In the face of this large import and a rather quiet demand, it is a question whether the market will maintain its current strength. The fact that freight rates are still climbing up is likely to be of advantage in keeping the market firm. A comparison of the figures showing the stocks at the leading ports indicates that the stock of Baltic deals, battens and boards is considerably larger than at the corresponding period last year, while Canadian pine deals and battens show a decrease of over 300,000 pieces at London and 8,000 standards at Liverpool. The outlook for pine deals has improved, and so far the supply has scarcely been adequate to meet the wants of the trade. In spruce deals the situation is different, the stock at London being 200,000 pieces, and at Liverpool 6,000 standards greater than on August 31st, 1899. Prices of spruce deals are slightly weaker, although it is believed that the market will recover as the winter approaches. Transactions are reported at about £7 7s 6d to £7 11s 6d c.i.f. Liverpool for St. John specification.

Square and waney timber is not active. A Liverpool report refers to one or two good sales in waney and square pine timber. At London oak and birch are becoming scarce, and an improvement in the price of the latter may be expected.

The bark "Alf" has been chartered to load lumber at Bridgewater, N.S., for Barrow, at 57s 6d.

The bark "W. W. McLaughlin" has been chartered by Clarke Bros. to load lumber at Annapolis, N.S., for Buenos Ayres. The "Sunny South" will load lumber for same firm for Cuba.

ONTARIO LUMBERMEN'S ASSOCIATION.

At a meeting of the Lumbermen's Association of Ontario, held a few days ago in Toronto, when the statistics prepared by the secretary were read, it was unanimously resolved that there was no present necessity to reduce prices; that the retail stocks on both sides of the line were lower than ever reached for a number of years, and that while the demand may be delayed through political agitation, it will come later. The conclusion arrived at at a previous meeting, that there was a shortage of 240 million feet, was confirmed, and it was shown that there is fully 300 million feet of a shortage in the Georgian Bay and including Eastern Michigan points, and taking the output of the mills of Eastern Michigan.

Further, it was pointed out that the demand from the English market was active and likely to increase; that the conditions were never more favorable for an advance in price than at present. This applies to the Minnesota and Wisconsin district, as well as to Michigan and Ontario.

Mr. Robert Watt, of Wiarton, brought up the question of hardwood prices. From statistics presented, the opinion was arrived at that manufacturers' present prices should be maintained.

STOCKS AND PRICES.

Robt. Ervin is sawing logs for Logan & Sutherland at Musquodoboit Harbor, N.S.

The steamship Boliviana has taken on 300 standards of deals at Quebec and is about to proceed to Montreal to complete cargo.

The Bell Telephone Company, Quebec, are in the market for a quantity of telephone poles, 30 feet in length and not less than six inches at the top.

The Fredericton Boom Company, which controls rafting operations on the St. John river, in New Brunswick, has rafted this season 43,714 joints, containing 26 tons and 13 feet of timber, 54,460 feet of hemlock, 2,943,780 feet of pine, 10,902,460 feet of cedar, and 9,112,259 feet of spruce, making a total of 105,013,559 superficial feet of lumber.

A correspondent sends the following as the current wholesale quotations for lumber at Wiarton, Ont: Maple (common and better), 1 inch, $13; 1½ in., $13; 2 in., $15; 3 in., $16; 4 in., $17; 1sts and 2nds, 2, 3 and 4 in., $17; basswood, mill run, $14.50; soft elm, mill run, $15.50; birch, mill run, $14; common and better, 1 and 2 in., $18; beech, common and better, $11.

Following are the current wholesale prices at mills at Huntsville, Ont., for pine lumber: 1 x 10 in. common, $15 per M.; 1 x 12 in. common, $16; 1 x 10 and 12 in. box, $13; 1 x 10 and 12 in. mill culls, $12; mill cull sidings, $11; 2 x 10 and 12 in. plank, $14; 2 x 4, 6 and 8 in. plank, $13; No. 1 shingles, $2.15 per M; No. 2 shingles, $1.25; No. 1 lath, ⅜ x 1½ x 4 ft., $2.50.

A quantity of spruce lumber from Wolfe river, Quebec, was sold at auction in London on September 5th at the following prices: 12-20 ft. 3x15 in., first, second and third quality, £8 15s per standard of 1,980 ft.; 12-21 ft. 2x13 in., £8 10s; 15-24 ft. 3x7 in., £8; 15 20 ft., 3x7 in., £8; 9-11 ft. 3x7 in., £8; 9-20 ft. 2x9 in., £9 5s; 10-22 ft. 2x8 in., £9; 9-22 ft. 2x7 in., £8 15s; 9-21 ft. 2x7 in., £8 15s; 9-24 ft. 2x6 in., £8; 9-21 ft. 1x8-11 in., £7 5s; 10x21 ft. 1x7 in., £7 5s; 10 22 ft. 1x5 in., £7.

At a recent sale held by Foy, Morgan & Company, London, England, birch timber from Montreal sold at the following prices: Seven logs, 8½x18 ft. x 21-26¾ in., 77s per load of 50 cubic feet; 7 logs 9-15 ft. x 20-27 in., 80s; 8 logs 7-13 ft. x 20-25 in., 80s; 8 logs 9-12 ft. x 20-33 in., 85s; 8 logs 9-13 ft. x 24-27 in., 87s 6d; 7 logs 10-13 ft. x 19-27 in., 90s; 7 logs 9-14 ft. x 21-25 in., 92s 6d; 10 logs 10-19 ft. x 15-18 in., 77s 6d; 10 logs 11-17 ft. x 15-19 in., 77s 6d; 10 logs 10-17 ft. x 15-21 in., 80s; 10 logs 10-15 ft. x 15-18 in., 77s 6d; 10 logs 10-16 ft. x 15-19 in., 77s 6d; 18 logs 8-14 ft. x 14-18½ in., 77s 6d.

THE LIVERPOOL MARKET.

The arrivals from British North America during the past month, says Farnworth & Jardine's wood circular, have been 62,505 tons register, against 67,025 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1898, 1899 and 1900 has been 325,432, 350,741 and 363,675 tons respectively. The business of the past month has been on an extensive scale, but owing to the restricted quay accommodation it has been conducted with great difficulty. The arrivals have been heavy and the deliveries large, but stocks of some of the leading articles are accumulating, and recent sales show weakness. Freights rule high, and may tend to check imports, which is very desirable.

CANADIAN WOODS. — PINE TIMBER.—Waney has been imported moderately, and for the most part has gone direct into consumption. Prime wood is in good demand, prices are very firm, and stocks are light; 2nd class has received more attention, but the demand is limited. Square has also been imported moderately, but there is little improvement in the demand to report, and stocks are sufficient. Red pine has arrived more freely, the demand is quiet, but stocks are not too large. OAK.—The arrivals consist chiefly of first class wood on contract; there has been rather more enquiry, prices are firm, and the stock is fairly moderate. ELM continues in request, and the import of about 350 loads goes largely direct into consumption; values are very high, and the stocks are moderate. ASH.—There has been more enquiry, stocks are light, values steady. PINE DEALS.—The arrivals have again been on a moderate scale, and the deliveries have fairly kept pace; stocks are reduced to about 7,800 standards, as compared with 15,600 standards for the corresponding month last year; prices are firm. RED PINE DEALS continue in fair demand at firm rates.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.--The arrivals during the past month have again been very large, viz., 27,700 standards, against 24,265 standards for the corresponding month last year; there has been a good consumption, but the stock is now too heavy, and, notwithstanding high rates of freight, and difficulty in securing tonnage, sales are more difficult to effect, and the latest transactions have been at lower values. PINE DEALS—The demand has improved, prices are firmer and stocks are light.

BIRCH.—Of logs, chiefly from the lower ports, the arrivals have been too heavy, deliveries have been fair, but stocks are sufficient and values lower. Planks have been imported much too freely, and, although there has been a fair demand, prices have declined and stocks are now ample.

OREGON AND BRITISH COLUMBIAN PINE.—The market is still bare, though a cargo is shortly due which should meet ready sale.

The sales during the past month have been as follows: QUEBEC PINE—Waney, 2nd class, 18 in. x 23 feet lin. at 2s 3d per cubic foot.

BIRCH TIMBER.—Quebec—17 in., at 19d per cubic foot. St. Jonn—By auction, 15½ in. average, at 17½d per cubic foot. Planks, from £7 15s to £8 per standard.

QUEBEC PINE DEALS–Chiefly on merchants' account.

SPRUCE DEALS—St. John, at about £7 7s 6d to £7 11s 3d per standard c.i.f., according to specification. Lower Port, by auction, at an average of about £7 10s per standard, ex quay.

The current quotations are about as follows:

		Per Foot.
White pine, Quebec square wood	1s	3d to 2s 9d
" " Waney board	2s	2d to 2s 10d
" " St. John, 18-in. average	1s	6d to 2s 2d

THE BARBADOS MARKET.

S. P. Musson, Son & Co. say of the Barbadoes market: There have been several arrivals since our last, the "Frances A. Rice," from Jordan River, N.S., with 83 M ft. shipping and 53 M ft. 2nd quality white pine, sold at $23 shipping, $16 2nd quality. The "Bartholdi," from Annapolis, N.S., with 53 M ft. white pine 2nd quality, sold at $17, and 75 M ft. spruce, sold at $20.26 shipping, $16.26 2nd quality. The "James W.," from Perce, brought 75 M ft. spruce, sold at $20.10 shipping, $16.10 2nd quality; she had also a small lot of white pine, which brought $23.17 and $17.17 for shipping and 2nd quality, respectively. The "Congo," from Liverpool, N.S., brought a cargo of 200 M ft. white pine, of which 160 M ft. imported for dealers; the balance, about 40 M ft. 2nd quality, we placed at $17.37.

F. Lloyd, Westholme, B.C., has sold his saw mill to the Mount Sicker Mining Co.

BUSINESS NOTES.

Frank Anderson has sold his planing mill at Leamington, Ont., to A. Ludman.

The assignment is announced of Hodgkins & Hall, lumber manufacturers, Bangor, Maine, with liabilities of $64,000 and assets of $40,000. The failure is said to have been caused by paying excessive prices for logs.
